STATEMENT OF THE BOARDS OF MANAGEMENT AND DIRECTORS

The Boards of Management and Directors of Vinh Son - Song Hinh Hydro-power Joint Stock Company (the "Company") presents this report together with the Company's consolidated financial statements for the period from 01 January 2013 to 30 June 2013.

THE BOARDS OF MANAGEMENT AND DIRECTORS

The members of the Boards of Management and Directors of the Company who held office during the period and at the date of this report are as follows:

Board of Management

Mr. Nguyen Van Thanh	Chairman
Mr. Vo Thanh Trung	Member
Mr. Nguyen Viet Thang	Member
Mr. Phan Hong Quan	Member
Mr. Nguyen Hong Son	Member

Board of Directors

Mr. Vo Thanh Trung	General Director
Mr. Hoang Anh Tuan	Deputy General Director
Mr. Duong Tan Tuong	Deputy General Director

THE BOARDS OF MANAGEMENT AND DIRECTORS' STATEMENT OF RESPONSIBILITY

The Board of Management is entitled to the ultimate power to exercise all rights and obligations on behalf of the Company, except for the rights relating to the Board of Shareholders.

The Board of Directors of the Company is responsible for preparing the consolidated financial statements for the period from 01 January 2013 to 30 June 2013, which give a true and fair view of the financial position of the Company and of its results and cash flows for the period in accordance with Vietnamese accounting standards, accounting regime for enterprises and legal regulations relating to financial reporting. In preparing these consolidated financial statements, the Board of Directors is required to:

- Select suitable accounting policies and then apply them consistently;
- Make judgments and estimates that are reasonable and prudent;
- State whether applicable accounting principles have been followed, subject to any material departures disclosed and explained in the consolidated financial statements;
- Prepare the consolidated financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business; and
- Design and implement an effective internal control system for the purpose of properly preparing and presenting the consolidated financial statements so as to minimise errors and frauds.

The Board of Directors is responsible for ensuring that proper accounting records are kept, which disclose, with reasonable accuracy at any time, the financial position of the Company and that the consolidated financial statements comply with Vietnamese accounting standards, accounting regime for enterprises and legal regulations relating to financial reporting. The Board of Directors is also responsible for safeguarding the assets of the Company and for taking reasonable steps for the prevention and detection of frauds and other irregularities.

STATEMENT OF THE BOARDS OF MANAGEMENT AND DIRECTORS (Continued)

The Board of Directors confirms that the Company has complied with the above requirements in preparing these consolidated financial statements.

The Board of Management confirms that these consolidated financial statements for the period from 01 January 2013 to 30 June 2013 were read and approved by the Board of Management.

For and on behalf of the Boards of Management and Directors,

Nguyen Van Thanh
Chairman of the Board of Management

20 August 2013

Vo Thanh Trung
General Director

No.: 277/VNIA-HN-BC

REVIEW REPORT ON CONSOLIDATED FINANCIAL STATEMENTS

**To: The Shareholders, the Boards of Management and Directors
Vinh Son - Song Hinh Hydro-power Joint Stock Company**

We have reviewed the accompanying consolidated balance sheet of Vinh Son - Song Hinh Hydro-power Joint Stock Company (the "Company") as at 30 June 2013, the related consolidated statements of income and cash flows for the period from 01 January 2013 to 30 June 2013 and the notes thereto (collectively referred to as the "consolidated financial statements"), prepared on 20 August 2013, as set out from page 4 to page 27. The preparation of these consolidated financial statements is the responsibility of the Company's management. Our responsibility is to issue a review report on these consolidated financial statements based on our review.

Except as discussed below, we conducted our review in accordance with Vietnamese Standard on Auditing No. 910 - Engagements to review financial statements. This Standard requires that we plan and perform the review to obtain moderate assurance as to whether the consolidated financial statements are free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provide less assurance than an audit. We have not performed an audit and, accordingly, we do not express an audit opinion.

As stated in Note 18 of the Notes to the consolidated financial statements, at the date of this report, the Company and Vietnam Electricity have not reached a final agreement on the electricity prices for the period from January 2010 to June 2013. Revenue of the Company in this period was recorded based on temporary price and will be subject to adjustments upon agreement on unit price between the Company and Vietnam Electricity.

Based on our review, except for any effect of the aforementioned matter, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not give a true and fair view of, in all material respects, the financial position of the Company as at 30 June 2013 and the results of its operations and cash flows for the period from 01 January 2013 to 30 June 2013 in accordance with Vietnamese accounting standards, accounting regime for enterprises and legal regulation relating to financial reporting.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**FORM B 09-DN/HN***These notes are an integral part of and should be read in conjunction with the accompanying consolidated financial statements***1. GENERAL INFORMATION****Structure of ownership**

Vinh Son - Song Hinh Hydro-power Joint Stock Company was incorporated in Vietnam as a joint stock company which was converted from Vinh Son - Song Hinh Hydro-power Plant, a State-owned enterprise ("the Plant"). Previously, the Plant was a dependent accounting unit of Vietnam Electricity ("EVN").

According to Decision No. 219/QD-TTg dated 28 October 2003 issued by the Prime Minister approving the general plan for renovation of State-owned Enterprises under management of EVN in the period from 2003 to 2005 and Decision No. 2992/QD-TCCB of the Ministry of Industry on equitization of Vinh Son - Song Hinh Hydro-power Plant, the Plant is responsible for proceeding equitization in 2004. On 02 December 2004, the Ministry of Industry issued Decision No. 151/2004/QD-BCN on converting Vinh Son - Song Hinh Hydro-power Plant into Vinh Son - Song Hinh Hydro-power Joint Stock Company.

On 04 May 2005, the Plant officially started operating as a joint stock company and under the name of Vinh Son - Song Hinh Hydro-power Joint Stock Company according to the Company's Business Registration Certificate No. 3503000058 issued by the Department of Planning and Investment of Binh Dinh Province on 04 May 2005, as amended.

The Company was approved to trade securities in Hanoi Stock Trading Center in accordance with Decision No. 01/QD-TTGDHN. On 28 June 2006, the Company's stocks were officially permitted to be listed in Ho Chi Minh City Stock Exchange in accordance with Decision No. 54/UBCK-GDNY issued by the State Securities Commission.

The Company has a wholly-owned subsidiary namely VSH Consulting and Technical Service One Member Company Limited and an associate namely Binh Dinh Tourist Joint Stock Company.

The number of employees as at 30 June 2013 was 158 (31 December 2012: 158).

Operating industry and principal activities

The principal activities of the Company are to produce electricity; provide operation management and maintenance services for hydro-power plants; provide consulting services for hydro-power plant projects management and construction supervision; provide design consulting services for irrigation, transportation and hydro-power projects; provide supervision consulting services for the construction of irrigation and transportation projects; test power; trade materials and equipment in hydro-power industry; invest in construction of power projects; and trade real estates.

2. ACCOUNTING CONVENTION AND FINANCIAL YEAR**Accounting convention**

The accompanying consolidated financial statements, expressed in Vietnam Dong (VND), are prepared under the historical cost convention and in accordance with Vietnamese accounting standards, accounting regime for enterprises and legal regulations relating to financial reporting.

Financial year

The Company's financial year begins on 01 January and ends on 31 December. These consolidated financial statements have been prepared for the period from 01 January 2013 to 30 June 2013.

3. ADOPTION OF NEW ACCOUNTING GUIDANCE**New guidance on management, usage and depreciation of fixed assets**

On 25 April 2013, the Ministry of Finance issued Circular No. 45/2013/TT-BTC ("Circular 45") guiding the regime of management, usage and depreciation of fixed assets. This Circular supersedes Circular No. 203/2009/TT-BTC ("Circular 203") dated 20 October 2009 of the Ministry of Finance guiding the regime of management, usage and depreciation of fixed assets. Circular 45 is effective from 10 June 2013 and is applied from financial year 2013 onwards. According to the Board of Directors' assessment, Circular 45 does not have material effect on the Company's consolidated financial statements for the 6-month period ended 30 June 2013.

New guidance on provision for impairment of long-term investments into other entities

On 28 June 2013, the Ministry of Finance issued Circular No. 89/2013/TT-BTC ("Circular 89") amending and supplementing Circular No. 228/2009/TT-BTC ("Circular 228") dated 07 December 2009 of the Ministry of Finance guiding the appropriation and use of provisions for devaluation of inventories, losses of financial investments, bad debts and warranty for products, goods and construction and installation works at enterprises. Circular 89 shall be effective starting from 26 July 2013. The Board of Directors of the Company is considering the extent of impact of adopting Circular 89 on the Company's consolidated financial statements for future accounting periods.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies, which have been adopted by the Company in the preparation of these consolidated financial statements, are as follows:

Estimates

The preparation of consolidated financial statements in conformity with Vietnamese accounting standards, accounting regime for enterprises and legal regulations relating to financial reporting requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the financial year. Although these accounting estimates are based on the management's best knowledge, actual results may differ from those estimates.

Financial instruments***Initial recognition******Financial assets***

At the date of initial recognition, financial assets are recognized at cost plus transaction costs that are directly attributable to the acquisition of the financial assets. Financial assets of the Company comprise cash and cash equivalents, trade receivables and other receivables and financial investments.

Financial liabilities

At the date of initial recognition, financial liabilities are recognized at cost plus transaction costs that are directly attributable to the issue of the financial liabilities. Financial liabilities of the Company comprise trade payables and other payables, accruals and borrowings.

Subsequent measurement after initial recognition

Currently, there are no requirements for the subsequent measurement of the financial instruments after initial recognition.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**Basis of consolidation**

The consolidated financial statements incorporate the financial statements of the Company and enterprises controlled by the Company (its subsidiaries) up to the balance sheet date. Control is achieved where the Company has the power to govern the financial and operating policies of an investee enterprise so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated income statement from the effective date of acquisition or up to the effective date of disposal, as appropriate.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used in line with those used by the Company.

All inter-company transactions and balances between group enterprises are eliminated on consolidation.

Minority interests in the net assets of consolidated subsidiaries are identified separately from the Company's equity therein. Minority interests consist of the amount of those interests at the date of the original business combination and the minority's share of changes in equity since the date of the combination. Losses applicable to the minority in excess of the minority's interest in the subsidiary's equity are allocated against the interests of the Company except to the extent that the minority has a binding obligation and is able to make an additional investment to cover the losses.

Investments in associates

An associate is an entity over which the Company has significant influence and that is neither a subsidiary nor an interest in joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but not control or joint control over those policies.

The results of operation and assets and liabilities of associates are incorporated in these financial statements using the equity method of accounting. Interests in associates are carried in the balance sheet at cost as adjusted by post-acquisition changes in the Company's share of the net assets of the associate. Losses of an associate in excess of the Company's interest in that associate (which includes any long-term interests that, in substance, form part of the Company's net investment in the associate) are not recognised.

Where a group entity transacts with an associate of the Company, unrealised profits and losses are eliminated to the extent of the Company's interest in the relevant associate.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued) **FORM B 09-DN/HN**
*These notes are an integral part of and should be read in conjunction with the accompanying consolidated financial statements***4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)****Inventories**

Inventories are stated at the lower of cost and net realisable value. Cost comprises direct materials and where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Cost is calculated using the weighted average method. Net realisable value represents the estimated selling price less all estimated costs to completion and costs to be incurred in marketing, selling and distribution.

The evaluation of necessary provision for inventory obsolescence follows current prevailing accounting regulations of which allow provisions to be made for obsolete, damaged, or sub-standard inventories and for those which have costs higher than net realisable values as at the balance sheet date.

The Company's inventories mainly include materials and spare parts for electricity generators in Vinh Son hydro-power plant and Song Hinh hydro-power plant. These specialised materials and spare parts are used to replace synchronous generators and have been stored since the installation of these generators (in Vinh Son hydro-power plant since 1995 and in Song Hinh hydro-power plant since 2000). Provision for devaluation of these inventories has been made since 2007 based on accounting estimates for devalued materials.

Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less accumulated depreciation.

The cost of purchased tangible fixed assets comprises their purchase prices and any directly attributable costs of bringing the assets to their working condition and location for their intended use.

The costs of self-constructed or manufactured assets are the actual construction or manufacturing cost plus installation and test running costs.

Tangible fixed assets are depreciated using the straight-line method over the following estimated useful lives as follows:

	From 01/01/2013 to 30/6/2013
Assets	(Years)
Buildings and structures	20 - 50
Machinery and equipment	8 - 10
Office equipment	5 - 10
Motor vehicles	5 - 10

Construction in progress

Properties in the course of construction for production, rental or administrative purposes, or for the purposes not yet determined, are carried at cost. Cost includes professional fees, and for qualifying assets, borrowing costs dealt with in accordance with the Company's accounting policy. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments in securities

Investments in securities are recognised on transaction dates and are initially measured at cost including directly attributable transaction costs.

At the subsequent reporting dates, investments in securities are measured at cost, less diminution in value of investments in securities.

Provision for impairment of investments in securities is made in accordance with current prevailing accounting regulations which allow provision to be made for freely traded securities whose book value is higher than market price as at the balance sheet date.

Long-term prepayments

Other types of long-term prepayments comprise small tools, supplies and spare parts issued for consumption which are expected to provide future economic benefits to the Company for more than one year. These expenditures have been capitalised as long-term prepayments, and are allocated to the consolidated income statement using the straight-line method over the period of two years in accordance with the current prevailing accounting regulations.

Provisions

Provisions are recognised when the Company has a present obligation as a result of a past event, and it is probable that the Company will be required to settle that obligation. Provisions are measured at the management's best estimate of the expenditure required to settle the obligation at the balance sheet date.

Revenue recognition

Revenue from the sale of goods is recognised when all five (5) following conditions are satisfied:

- (a) the Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- (b) the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- (c) the amount of revenue can be measured reliably;
- (d) it is probable that the economic benefits associated with the transaction will flow to the Company;
and
- (e) the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenue from the sales of electricity is recognised on a monthly basis upon certification by EVN on the volume of electricity transmitted via the national electricity grid regardless of cash being received or not.

Interest income is accrued on a time basis, by reference to the principal outstanding and at the applicable interest rate. Income from investments is recognised when the Company's right to receive payments has been established.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued) **FORM B 09-DN/HN**
*These notes are an integral part of and should be read in conjunction with the accompanying consolidated financial statements***4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)****Foreign currencies**

Transactions arising in foreign currencies are translated at exchange rates ruling at the transaction date. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rates of exchange prevailing on the consolidated balance sheet date. Exchange differences arising from payment or revaluation of these accounts dominated in foreign currencies, relating to construction activities are recorded under the owner's equity section in the consolidated balance sheet. The Company's construction activities in the year mainly include those of a new Hydro-power Plant namely Thuong Kon Tum. According to the Company's commitment with local authority, after Thuong Kon Tum Hydro-power plant is completed and starts generating electricity, a subsidiary of the Company will be established (namely Thuong Kon Tum Hydro-power One Member Co., Ltd.) to receive and operate the plant. The balance of foreign exchange reserve item in the consolidated balance sheet will be transferred to this subsidiary when the plant is completed and commences operation. Foreign exchange differences other than those relating to the Company's construction activities are recognised in the consolidated income statement.

Borrowings costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the cost of those assets.

All other borrowing costs are recognised in the consolidated income statement when incurred.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the period. Taxable profit differs from net profit as reported in the consolidated income statement because it excludes items of income or expense that are taxable or deductible in other periods (including loss carried forward, if any) and it further excludes items that are never taxable or deductible.

Deferred tax is recognised on significant differences between carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax base used in the computation of taxable profit and is accounted for using balance sheet liability method. Deferred tax liabilities are generally recognised for all temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which deductible temporary differences can be utilised.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realised. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same tax authority and the Company intends to settle its current tax assets and liabilities on a net basis.

The determination of the tax currently payable is based on the current interpretation of tax regulations. However, these regulations are subject to periodic variation and their ultimate determination depends on the results of the tax authorities' examinations.

Other taxes are paid in accordance with the prevailing tax laws in Vietnam.

- (i) The loan in foreign currency (USD) was transferred from Vinh Son - Song Hinh hydro-power plant, a state-owned enterprise (the "Plant"), upon equitisation.

On 22 November 2005, the Company signed an ODA Credit Contract No. 01/TDNN with Phu Yen Development Fund, currently known as Vietnam Development Bank - Phu Yen Branch, to take over the loans to invest in Song Hinh Hydro-power Plant Project. The loans include:

- The interest-free loan of USD 8,378,301.48 from Nordic Development Fund (NDF) subject to the management fee of 0.2% p.a. and service fee of 0.75% p.a. of the loan balance. Principal is repayable twice a year on every 31 March and 30 September in 30 years (from 2005 to 2035). Each installment amounts to USD 83,783.01 for the period from 2005 to 2014 and USD 167,566.02 for the remaining years. The first repayment is on 01 December 2005 and the last repayment is on 31 March 2035. Overdue interest rate is 3% p.a.
- The loan of USD 10,725,187.27 from Nordic Investment Bank (NIB), bearing interest rate of LIBOR plus margin rate; the specific rate will be periodically informed by NIB. The management fee is 0.2% p.a. of the loan balance. Principal is repayable twice a year on every 31 March and 30 September in 10 years (from 2005 to 2015) in equal instalments of USD 510,723.21 each. The first repayment is on 01 June 2005 and the last repayment is on 31 March 2015. Overdue interest rate is 9% p.a.

The Company has mortgaged its assets in Song Hinh Hydro-power plant with the net book value of VND 339,128,312,016 as at 30 June 2013 to secure the loans under Mortgage Contract No. 01/2006/HDTCTS-TL dated 12 April 2006.

- (ii) Loans from Vietnam International Commercial Joint Stock Bank ("VIB") - Quy Nhon Branch include:

- The loan under Credit Contract No. 0018/HDTD2-VIB412.10 dated 8 June 2010 with the 60-month term and credit line of VND 52,096,000,000; interest rate is adjusted every 6 months and equal to VIB's interest rate applied for VND inter-fund transfer with the 6-month term plus minimum margin rate of 1.8% p.a., and subject to VIB's interest rate policy from time to time. The loan is unsecured.
- The loan under Credit Contract No. 0022/HDTD2-VIB412.10 dated 27 September 2010 with the 36-month term and credit line of VND 40,000,000,000; interest rate is equal to VIB's interest rate applied for inter-fund transfer plus minimum margin rate of 1.8% p.a. Principal is repaid every six months; the first repayment is on 06 March 2011. This loan is secured by the Company's deposit accounts at VIB.

- (iii) The loan under Credit Contract No. BDL.DN.02231210 dated 26 December 2010 signed with Asia Commercial Joint Stock Bank - Binh Dinh Branch with the credit line of VND 262,000,000,000, loan term of 120 months and grace period of 36 months from the first disbursement. Interest rate is fixed for each month and specified for each withdrawal at the 12-month saving rate with interest paid in arrears plus 3.1% p.a. This loan is secured by the deposits of VND 20,000,000,000.

Basic earnings per share	<u>413</u>	<u>692</u>

24. COMMITMENTS

On 17 September 2010, the Company signed Contract No.786/2010/HD-VSH-LD with a group of contractors, namely Construction Joint Stock Company No. 47, Tien Dung Investment Construction and Trading Limited Company and Power Engineering Consulting Joint Stock Company 1 for design, equipment supply and installation, and construction of the pressure line of Thuong Kon Tum Hydro-power plant Project with the contract value of VND 505,583,654,488. As at 30 June 2013, the completed works of this contract amounted to about 153.4 billion.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued) **FORM B 09-DN/HN**
*These notes are an integral part of and should be read in conjunction with the accompanying consolidated financial statements***24. COMMITMENTS (Continued)**

On 20 October 2010, the Company signed Contract No. 885/2010/HD-VSH-TH with the group of contractors namely Hydrochina Huadong - CR18G for designing and constructing the second stage of power line of Thuong Kon Tum Hydro-power plant Project and Contract No. 886/2010/HD-VSH-TH with these contractors for designing and constructing the water tunnel (from Km0+270 to Km3+000) of the same Project with the value of VND 1,324,037,315,815 and USD 25,000,000. The Company signed Addendum to contract No. 930/2011/BSHD-VSH-HHCR-18G on 12 October 2011 as an amendment to Contract No. 886/2010/HD-VSH-TH for implementing the second stage of construction and reinforcement of the inside and outside of the water tunnel (from Km0+000 to Km0+270); Addendum to Contract No. 827/2012/PLHD-VSH-TH on 17 August 2012 for constructing electricity distribution station and Addendum to Contract No. 317/2013/HD-VSH-TH on 8 April 2013 for moving the plant towards the upstream with the value of VND 6,723,438,229, VND 27,035,830,000 and 50,456,430,300, respectively. The completed works of these contracts amounted to about VND 305 billion up to 30 June 2013.

On 15 August 2012, the Company signed Contract No. 817/2012/HD-VSH-AH with Andritz Hydro GmbH (Republic of Austria) for supplying electromechanical equipment and technical services for Thuong Kon Tum hydro-power project with the amount of USD 35,489,858. Up to 30 June 2013, the Company has advanced the contractor VND 100 billion.

On 28 March 2013, the Company signed an export facility agreement with Raiffeisenlandesbank Oberosterreich Aktiengesellschaft (Republic of Austria) with the value of USD 27,100,933.35 and the amount in USD equivalent to EUR 3,000,000. The loan is used to cover 85% of the payment obligations of the Company under the aforementioned contract with Andritz Hydro GmbH (Republic of Austria). Up to the end of the reporting period, the loan has not been disbursed.

25. FINANCIAL INSTRUMENTS**Capital risk management**

The Company manages its capital to ensure that the Company will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance.

The capital structure of the Company consists of net debt (borrowings disclosed in Note 12 and Note 15 offset by cash and cash equivalents) and shareholders' equity (comprising capital, reserves and retained earnings).

Gearing ratio

The gearing ratio of the Company as at the balance sheet date was as follows:

	<u>30/6/2013</u>	<u>31/12/2012</u>
	VND	VND
Borrowings	844,078,623,434	802,891,785,785
Cash and cash equivalents	626,949,545,610	640,342,507,484
Net debt	217,129,077,824	162,549,278,301
Owners' capital	<u>2,527,124,114,314</u>	<u>2,449,203,529,076</u>
Net debt to owners' equity ratio	<u>0.09</u>	<u>0.07</u>

Significant accounting policies

Details of the significant accounting policies and methods adopted (including the criteria for recognition, the bases of measurement, and the bases for recognition of income and expenses) for each class of financial asset, financial liability and equity instrument are disclosed in Note 4.

Total	855,874,487,707	855,771,155,118

The Company has not assessed fair value of its financial assets and liabilities as at the balance date since there are no comprehensive guidance under Circular No. 210/2009/TT-BTC issued by the Ministry of Finance on 06 November 2009 ("Circular 210") and other relevant prevailing regulations to determine fair value of these financial assets and liabilities. While Circular 210 refers to the application of International Financial Reporting Standards ("IFRS") on presentation and disclosures of financial instruments, it did not adopt the equivalent guidance for the recognition and measurement of financial instruments, including application of fair value, in accordance with IFRS.

Financial risk management objectives

The Company has set up risk management system to identify and assess the risks exposed by the Company and designed control policies and procedures to manage those risks at an acceptable level. Risk management system is reviewed on a regular basis to reflect changes in market conditions and the Company's operations.

Financial risks include market risk (including foreign currency risk, interest rate risk and price risk), credit risk and liquidity risk.

Market risk

The Company's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates and commodity prices.

Foreign currency risk management

The Company undertakes certain transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

	Liabilities		Assets	
	30/6/2013	31/12/2012	30/6/2013	31/12/2012
	VND	VND	VND	VND
US Dollars (USD)	287,746,814,110	296,581,927,897	-	-

25. FINANCIAL INSTRUMENTS (Continued)*Foreign currency sensitivity analysis*

The Company is mainly exposed to United States Dollar.

5% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 5% change in foreign currency rates. For a 5% increase/decrease in United States Dollar against Vietnam Dong, the profit before tax in the period and the balance of foreign exchange reserve in the consolidated financial statement as at 30 June 2013 would decrease/increase by VND 9.55 billion and VND 4.83 billion, respectively.

Interest rate risk management

The Company has significant interest rate risks arising from interest bearing loans which are arranged. The risk is managed by the Company by maintaining an appropriate level of borrowings and analyzing market competition to enjoy favorable interest rates from appropriate lenders.

Interest rate sensitivity

The loan's sensitivity to interest rate change may arise at an appropriate level. Assuming all other variables were held constant, if interest rates applicable to floating interest bearing loans had been 2% higher/lower, the Company's interest expense (including interest expense recognized in the income statement and interest expense capitalized in construction in progress) for the period from 01 January 2013 to 30 June 2013 would have increased/ decreased by VND 7.98 billion.

Commodity price risk management

The Company purchases materials, commodities from local and foreign suppliers for business purpose. Therefore, the Company is exposed to the risk of changes in selling prices of materials, commodities.

Credit risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis. At 30 June 2013, there is a significant receivables amount of VND 148,617,831,610 due from Vietnam Electricity (a related party). The Board of Directors assessed the credit risk concentration at low level.

Liquidity risk management

The purpose of liquidity risk management is to ensure the availability of funds to meet present and future financial obligations. Liquidity is also managed by ensuring that the excess of maturing liabilities over maturing assets in any period is kept to manageable levels relative to the amount of funds that the Company believes can generate within that period. The Company policy is to regularly monitor current and expected liquidity requirements to ensure that the Company maintains sufficient reserves of cash, borrowings and adequate committed funding from its shareholders to meet its liquidity requirements in the short and longer term.

25. FINANCIAL INSTRUMENTS (Continued)
Liquidity risk management (Continued)

The following table details the Company's remaining contractual maturity for its non-derivative financial assets and financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial assets and undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The inclusion of information on non-derivative financial assets is necessary in order to understand the Company's liquidity risk management as the liquidity is managed on a net asset and liability basis.
