INDEPENDENT AUDITOR'S REPORT

To the Shareholders VietJet Aviation Joint Stock Company

We have audited the accompanying consolidated financial statements of VietJet Aviation Joint Stock Company ("the Company") and its subsidiaries (together referred to as "the Group"), which comprise the consolidated balance sheet as at 31 December 2018, the consolidated statements of income and cash flows for the year then ended and the explanatory notes thereto which were authorised for issue by the Company's Board of Directors on [] 5 APR, 2019 as set out on pages 6 to 53.

Management's Responsibility

The Company's Board of Directors is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to financial reporting, and for such internal control as the Board of Directors determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

KPMG Limited Branch in Ho Chi Minh City, a branch of KPMG Limited, a Vietnamese one member ilmited liability company and a member firm of the KPMG network of independent member firms affiliated with KPMG International Cooperative ("KPMG International"), a Swiss entity.

Auditor's Opinion

In our opinion, the consolidated financial statements give a true and fair view, in all material respects, of the consolidated financial position of VietJet Aviation Joint Stock Company and its subsidiaries as at 31 December 2018 and of their consolidated results of operations and their consolidated cash flows for the year then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to financial reporting.

2. Basis of preparation

(a) Statement of compliance

The consolidated financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to financial reporting.

(b) Basis of measurement

The consolidated financial statements, except for the consolidated statement of cash flows, are prepared on the accrual basis using the historical cost basis. The consolidated statement of cash flows is prepared using the indirect method.

(c) Annual accounting period

The annual accounting period of the Group is from 1 January to 31 December.

(d) Accounting and presentation currency

The Company's accounting currency is Vietnam Dong ("VND"), which is also the currency used for the consolidated financial statements presentation purpose.

3. Summary of significant accounting policies

The following significant accounting policies have been adopted by the Group in the preparation of these consolidated financial statements.

(a) Basis of consolidation

(i) Subsidiaries

Subsidiaries are entities controlled by the Group. The financial statements of the subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

(ii) Non-controlling interests

Non-controlling interests ("NCI") are measured at their proportionate share of the acquiree's identifiable net assets at date of acquisition.

Form B 09 - DN/HN

(Issued under Circular No. 202/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as transactions with owners. The difference between the change in the Group's share of net assets of the subsidiary and any consideration paid or received is recorded directly in retained profits under equity.

(iii) Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any resulting gain or loss is recognised in the consolidated statement of income. Any interest retained in the former subsidiary when control is lost is stated at the carrying amount of the retained investment in the separate financial statements adjusted for appropriate shares of changes in equity of the investee since the acquisition date, if significant influence in the investee is maintained, or otherwise stated at cost.

(iv) Associates

Associates are those entities in which the Group has significant influence, but not control, over the financial and operating policies. Associates are accounted for using the equity method. The consolidated financial statements include the Group's share of the income and expenses of the associates, after adjustments to align the accounting policies with those of the Group, from the date that significant influence commences until the date that significant influence ceases. When the Group's share of losses exceeds its interest in an associate, the carrying amount of that interest (including any long-term investments) is reduced to nil and the recognition of further losses is discontinued except to the extent that the Group has an obligation or has made payments on behalf of the associate.

(v) Transactions eliminated on consolidation

Intra-group balances and any unrealised income and expenses arising from intra-group transactions are eliminated in preparing the consolidated financial statements. Unrealised gains and losses arising from transactions with associates are eliminated against the investment to the extent of the Group's interest in the associates.

(b) Foreign currency

(i) Foreign currency transactions

Transactions in currencies other than VND during the year have been translated into VND at rates approximating actual rates of exchange ruling at the transaction dates.

Monetary assets and liabilities denominated in currencies other than VND are translated into VND, except for items hedged by financial instruments, at the average of the account transfer buying rates and selling rates at the end of the annual accounting period quoted by the commercial bank where the Group's entities most frequently conducts transactions.

All foreign exchange differences are recorded in the consolidated statement of income.

Form B 09 - DN/HN

(Issued under Circular No. 202/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

(ii) Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated to VND at exchange rates at the end of the annual accounting period. The income and expenses of foreign operations are translated to VND at exchange rates at the dates of transactions.

Foreign currency differences arising from the translation of foreign operations are recognised in the consolidated balance sheet under the account "Foreign exchange differences" in equity.

(c) Cash and cash equivalents

Cash comprises cash balances and call deposits. Cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

(d) Investments

(i) Trading securities

Trading securities are those held by the Group for trading purpose i.e. purchased for resale with the aim of making profits over a short period of time. Trading securities are initially recognised at cost which include purchase price plus any directly attributable transaction costs. Subsequent to initial recognition, they are measured at cost less allowance for diminution in value. An allowance is made for diminution in value of trading securities if market price of the securities item falls below its carrying amount. The allowance is reversed if the market price subsequently increases after the allowance was recognised. An allowance is reversed only to the extent that the securities' carrying amount does not exceed the carrying amount that has been determined if no allowance had been recognised.

(ii) Held-to-maturity investments

Held-to-maturity investments are those that the Board of Directors has the intention and ability to hold until maturity. Held-to-maturity investments include term deposits at banks, investments in business cooperation contracts and loans receivable. These investments are stated at costs less allowance for doubtful debts.

Form B 09 - DN/HN

(Issued under Circular No. 202/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

(iii) Investments in equity instruments of other entities

Investments in equity instruments of other entities are initially recognised at cost which include purchase price plus any directly attributable transaction costs. Subsequent to initial recognition, these investments are stated at cost less allowance for diminution in value. An allowance is made for diminution in investment value if the investee has suffered a loss, except where such loss was anticipated by the Board of Directors before making the investment. The allowance is reversed if the investee subsequently made a profit that offsets the previous loss for which the allowance had been made. An allowance is reversed only to the extent that the investment's carrying amount does not exceed the carrying amount that would have been determined if no allowance had been recognised.

(e) Accounts receivable

Trade and other receivables are stated at cost less allowance for doubtful debts.

(f) Maintenance reserves of leased aircrafts

Under the terms of its aircraft operating lease agreements, the Group is legally and contractually responsible for maintenance and repair of the leased aircrafts throughout the lease period and is also required to make maintenance reserves with the lessors. The maintenance reserves are recorded as other short-term and long-term receivables when there is no significant uncertainty regarding recovery of the reimbursement from lessors. Maintenance reserves made to lessors are typically calculated based on a performance measure, such as flight hours or cycles, and are contractually required to be reimbursed to the Group upon the completion of the required maintenance of the leased aircraft including replacement of life limited parts, engine performance restoration, airframe major structural inspection, landing gear overhaul and auxiliary power unit (APU) heavy repair. If there are excess amounts on maintenance reserves at the expiration of the leases, the lessors are entitled to retain such excess amounts.

(g) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on a weighted average basis and includes all costs incurred in bringing the inventories to their present location and condition. Net realisable value is the estimated selling price of inventory items, less the estimated costs of completion and direct selling expenses.

The Group applies the perpetual method of accounting for inventories.

Form B 09 - DN/HN

(Issued under Circular No. 202/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

(h) Tangible fixed assets

(i) Cost

Tangible fixed assets are stated at cost less accumulated depreciation. The initial cost of a tangible fixed asset comprises its purchase price, including import duties, non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition for its intended use. Manufacturers' discounts for purchases of tangible fixed assets, if any, are deducted from the value of the related asset. Expenditure incurred after tangible fixed assets have been put into operation, such as repairs and maintenance and overhaul cost, is charged to the consolidated statement of income in the year in which the cost is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of tangible fixed assets beyond their originally assessed standard of performance, the expenditure is capitalised as an additional cost of tangible fixed assets.

(ii) Depreciation

Depreciation is computed on a straight-line basis over the estimated useful lives of tangible fixed assets. The estimated useful lives are as follows:

	aircraft and components	10 - 20 years
	machinery and equipment	3 - 10 years
•	office equipment	3-5 years
•	motor vehicles	6 years

(i) Intangible fixed assets

Software

Cost of acquiring new software, which is not an integral part of the related hardware, is capitalised and treated as an intangible asset. Software is amortised on a straight-line basis over 3 years.

(j) Construction in progress

Construction in progress represents the costs of construction and acquiring aircrafts which have not been fully completed. No depreciation is provided for construction in progress during the period of construction.

(k) Long-term prepaid expenses

(i) Major inspection and overhaul expenditure

Major inspection and overhaul expenditure for leased aircrafts are deferred and amortised over the shorter of the period to the next major inspection event and the remaining term of the lease.

Form B 09 - DN/HN

(Issued under Circular No. 202/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

(ii) Rotable parts

Rotable parts which have estimated useful lives of more than 1 year are recorded in long-term prepaid expenses and amortised on a straight-line basis over their estimated useful lives but not exceeding 3 years.

(iii) Tools and instruments

Tools and instruments include assets held for use by the Group in the normal course of business whose costs of individual items are less than VND30 million and therefore not qualified for recognition as fixed assets under prevailing regulations. Cost of tools and instruments are amortised on a straight-line basis over a period from 2 years to 5 years.

(1) Trade and other payables

Trade and other payables are stated at their costs.

(m) Provisions

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

(i) Provisions for maintenance costs in the scope of maintenance reserves

According to the aircraft leasing agreements between the Group and its lessors and the requirements of Vietnam Aviation Authority, the Group has to perform the routine maintenance and periodic maintenance for leased aircrafts based on its own Maintenance Planning Development ("MPD") which was constructed based on the guidance of airline manufacturers. Routine maintenance will be performed at the Group's cost while the periodic maintenance will be covered by maintenance reserves. The provisions for maintenance expenses in the scope of maintenance reserves is determined by discounting the expected future costs of maintenance for the leased aircrafts, having regard to the current fleet plan. During the period of leasing, the estimated costs are recorded in provisions with the corresponding debit to long-term prepaid expenses. The estimated costs in long-term prepaid expenses are amortised on the basis of flight hours or cycles for the next maintenance event. The effect of unwinding discount of the provisions is recorded as financial expenses.

Form B 09 - DN/HN

(Issued under Circular No. 202/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

(ii) Provisions for cost to make good on leased assets

With respect to aircraft operating lease agreements where the Group is required to return the aircraft with adherence to certain maintenance conditions, cost to make good on leased assets is estimated at the inception of the lease based on the present value of the future expected costs at the expiration of the lease in order for the Group to meet the conditions for the return of the aircraft to the lessors, including certain levels of maintenance as well as arranging for final test flights, inspection, custom and deregistration costs, removal of the Group's modifications, if any and return of the aircraft to a specified location. At the inception of the lease, the estimated cost is recorded in provisions with the corresponding debit to long-term prepaid expenses. The estimated costs in long-term prepaid expenses are amortised on a straight-line basis over the term of the leases. The effect of unwinding discount of the provisions is recorded as financial expenses.

(n) Share capital

(i) Ordinary shares

Ordinary shares are recognised at issuance price less incremental costs directly attributable to the issue of ordinary shares, net of tax effects. Such costs are recognised as a deduction from share premium.

(ii) Shares premium

The difference between proceeds from issuance of shares over the par value is recorded in share premium.

(o) Taxation

Income tax on the consolidated profit or loss for the year comprises current and deferred tax. Income tax is recognised in the consolidated statement of income except to the extent that it relates to items recognised directly to equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted at the end of the annual accounting period, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amounts of assets and liabilities using the tax rates enacted or substantively enacted at the end of the annual accounting period.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Form B 09 - DN/HN

(Issued under Circular No. 202/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

(p) Revenue and other income

(i) Passenger transportation

Revenue from passenger transportation is recognised in the consolidated statement of income when the transportation is provided or when the ticket expires. The value of unused passenger tickets and miscellaneous charges is recorded in current liabilities as unearned revenue. Non-refundable tickets generally expire on the date of the intended flight, unless the date is extended by notification from the customer on or before the intended flight date. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due. Revenue of passenger transportation is recognised at the net amount after deducting sales discounts stated on the invoice.

(ii) Ancillary revenue

Ancilliary revenue includes cargo transportation, baggage service, other revenue related to passenger transportation, sale of in-flight and duty free merchandise, advertising and commission. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due or the possible return of goods or services.

Revenue from cargo transportation is recognised in the consolidated statement of income when the services are provided.

Revenue from baggage service is recognised in the consolidated statement of income when the related passenger transportation service is provided or when the ticket expires.

Other revenue related to passenger transportation such as fees charged in association with changes or extensions to non-refundable tickets are recorded as ancilliary revenue at the time the fee is earned. Amendment fees related to non-refundable tickets are considered a separate transaction from the passenger transportation and they are recognised in the consolidated statement of income when charged to passengers.

Sales of in-flight and duty free merchandise is recognised in the consolidated statement of income when the significant risks and rewards of ownership have been transferred to the buyers.

Advertising revenue and commission are recorded as ancilliary revenue at the time the fee is earned.

(iii) Charter flights

Revenue from charter flights is recognised in consolidated statement of income when the services are provided. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due.

Form B 09 - DN/HN

(Issued under Circular No. 202/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

(iv) Aircrafts leasing

Revenue from aircrafts leasing is recognised in consolidated statement of income on a straight-line basis over the term of the lease. Lease incentives granted are recognised in the consolidated statement of income as an integral part of the total lease revenue.

(v) Sales of aircrafts

Revenue from the sales of aircrafts is recognised in consolidated statement of income when the significant risks and rewards of ownership have been transferred to the buyer. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due or the possible return of aircrafts.

Aircraft sales and leaseback transaction

The Group's aircraft sales and leaseback transaction is a transaction where an aircraft is sold then leased back by the Group. The accounting treatment of a sale and leaseback transaction depends upon the type of lease involved.

For a transaction that results in an operating lease:

- If the sale price are at fair value, there has in effect been a normal sale transaction and any profit
 or loss is recognised immediately.
- If the sale price is below fair value, any profit or loss shall be recognised immediately except that, if the loss is compensated for by future lease payments at below market price, it shall be deferred and amortised in proportion to the lease payments over the period for which the aircraft is expected to be used.
- If the sale price is above fair value, the excess over fair value shall be deferred and amortised over the period for which the aircraft is expected to be used.
- If the fair value at the time of a sale and leaseback transaction is less than the carrying amount
 of the aircraft, a loss equal to the amount of the difference between the carrying amount and fair
 value shall be recognised immediately.

(vi) Other services

Revenue from services rendered is recognised in consolidated statement of income in proportion to the stage of completion of the transaction at the end of the annual accounting period. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due.

(vii) Interest income

Interest income is recognised on the time proportion basis with reference to the principal outstanding and the applicable interest rate.

Form B 09 - DN/HN

(Issued under Circular No. 202/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

(viii) Dividend income

Dividend income is recognised when the right to receive dividend is established. Share dividends are not recognised as income. Dividends received which are attributable to the period before investment acquisition date are deducted from the carrying amount of the investment.

(q) Borrowing costs

Borrowing costs are recognised as an expense in the year in which they are incurred, except where the borrowing costs relate to borrowings in respect of the construction of qualifying assets, in which case the borrowing costs incurred during the period of construction are capitalised as part of the cost of the assets concerned.

(r) Operating lease payments

Payments made under operating leases are recognised in the consolidated statement of income on a straight-line basis over the term of the lease. Lease incentives received are recognised in the consolidated statement of income as an integral part of the total lease expense.

(s) Earnings per share

The Group presents basic earnings per share (EPS) for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to the ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year. The Company does not have potential dilutive ordinary share.

(t) Segment reporting

A segment is a distinguishable component of the Group that is engaged either in providing related products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments. The Group's primary format for segment reporting is based on business segment.

(u) Related parties

Parties are considered to be related to the Group if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions, or where the Group and the other party are subject to common control or significant influence. Related parties may be individuals or corporate entities and include close family members of any individual considered to be a related party.

Form B 09 - DN/HN

(Issued under Circular No. 202/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

4. Segment reporting

(a) Business segment

For management purpose, the Group has 2 reportable operating segments as follows:

- Providing passenger and cargo transportation, ancilliary services, aircraft rental and advertising
 on aircrafts (referred to as "aviation services"); and
- Sales of aircrafts.

Except those indicated above, the Group has no other operating segments being aggregated to form a reportable operating segment. Segmental information for total revenue and cost of sales is shown in Note 28 and Note 29 to the consolidated financial statements. There is no intersegment revenue between operating segments. All the Group's assets, liabilities, financial income and financial expenses, general and administration expenses, selling expenses, other income and other expenses are unallocated.

The Board of Directors determined the operating segments based on reports that are reviewed and used to make strategic decisions.

(b) Geographical segment

The Group's revenue is presented by geographical area (by country of destination) as follows:

	2018 VND	2017 VND
In Vietnam Outside Vietnam		14,164,060,449,620 28,138,512,232,998
