For the presentation of the separate financial statements as at 31 December 2018, the data is rounded to millions and expressed in millions of Vietnam dong ("VND million"). This presentation does not affect the view of users of the separate financial statements on the Bank's separate financial position, separate results of its operations and its separate cash flow.

III. APPLIED ACCOUNTING STANDARDS AND SYSTEM

1. *Statement of compliance*

The Board of Management of the Bank confirms that the accompanying separate financial statements have been prepared in accordance with Vietnamese Accounting Standards, Vietnamese Accounting System for Credit Institutions and other statutory requirements relevant to preparation and presentation of the separate financial statements.

Ho Chi Minh City Development Joint Stock Commercial Bank

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

As at 31 December 2018 and for the period then ended

Form B05a/TCTD

(issued under Circular No.

49/2014/TT- NHNN dated 31 December 2014)

2. Basis of preparation

The separate financial statements of the Bank have been prepared in accordance with the Accounting System applicable to Credit Institutions required under Decision No. 479/2004/QĐ-NHNN issued on 29 April 2004, Circular No. 10/2014/TT-NHNN dated 20 March 2014 and Circular No. 22/2017/TT-NHNN dated 29 December 2017 amending and supplementing Decision No. 479/2004/QĐ-NHNN; Decision No. 16/2007/QĐ-NHNN dated 18 April 2007, Circular No. 49/2014/TT-NHNN amending and supplementing a number of articles of the financial reporting regime applicable to credit institutions under Decision No. 16/2007/QĐ-NHNN and the chart of account system for Credit Institutions issued in connection with Decision No. 479/2004/QĐ-NHNN issued by the State Bank of Vietnam and Vietnamese Accounting Standard No. 27 - Interim Financial Reporting and other Vietnamese Accounting Standards issued by the Ministry of Finance as per:

- ▶ Decision No. 149/2001/QĐ-BTC dated 31 December 2001 on the Issuance and Promulgation of Four Vietnamese Standards on Accounting (Series 1);
- ▶ Decision No. 165/2002/QĐ-BTC dated 31 December 2002 on the Issuance and Promulgation of Six Vietnamese Standards on Accounting (Series 2);
- ▶ Decision No. 234/2003/QĐ-BTC dated 30 December 2003 on the Issuance and Promulgation of Six Vietnamese Standards on Accounting (Series 3);
- ▶ Decision No. 12/2005/QĐ-BTC dated 15 February 2005 on the Issuance and Promulgation of Six Vietnamese Standards on Accounting (Series 4); and
- ▶ Decision No. 100/2005/QĐ-BTC dated 28 December 2005 on the Issuance and Promulgation of Four Vietnamese Standards on Accounting (Series 5).

The accompanying separate financial statements have been prepared using accounting principles, procedures and reporting practices generally accepted in Vietnam. Accordingly, the accompanying separate financial statements and their utilizations are not designed for those who are not informed about Vietnam's accounting principles, procedures and practices and furthermore are not intended to present the separate financial position, results of separate operations and separate cash flows in accordance with accounting principles and practices generally accepted in countries other than Vietnam.

Items which are not presented in the separate financial statements in accordance with Decision No. 16/2007/QĐ-NHNN dated 18 April 2007 and Circular No. 49/2014/TT-NHNN dated 31 December 2014 issued by the State Bank of Vietnam stipulating the financial reporting regime applicable to credit institutions indicate nil balance.

3. Assumptions and uses of estimates

The preparation of the separate financial statements requires the Board of Management of the Bank make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent liabilities. These estimates and assumptions also affect the income, expenses and the resultant provisions. Such estimates are necessarily based on assumptions involving varying degrees of subjectivity and uncertainty and actual results may differ resulting in future changes in such provision.

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Foreign currency transactions

In accordance with the accounting system of the Bank, all transactions are recorded in original currencies. Monetary assets and liabilities denominated in foreign currencies are translated into VND using exchange rates ruling at the balance sheet date. Income and expenses arising in foreign currencies during the period are converted into VND at rates ruling at the transaction dates. Foreign exchange differences arising from the translation of monetary assets and liabilities are recognized and followed in the "Foreign exchange differences" under "Owners' Equity" section and will be transferred to the separate income statement at the end of the financial year.

The currency forward contracts are recognized at nominal value at the transaction date and are revalued for the reporting purpose at the exchange rate at the reporting date. Gains or losses realized or unrealized are recognized in the "Foreign exchange differences" under "Owners' Equity" section and will be transferred to the separate income statement at the end of the financial year.

Swap contract

The swap contracts are commitments to settle in cash on a pre-determined future date based on the difference between pre-determined exchange rates, calculated on the notional principal amount. The difference between spot rate and forward rate are recorded at contract date as assets or liabilities on separate balance sheet and are amortized to the income statement straight-line basis over the contract period.

3. Recognition and de-recognition of accrued interest income and expenses

Interest income and interest expenses are recognized in the income statement on an accrual basis. The recognition of accrued interest income is suspended when a loan is classified in Groups 2 to 5 in accordance with Circular 02 and Circular 09. Suspended interest income is reversed and monitored off-balance sheet and recognized in the income statement upon actual receipt.

4. Fees and commissions income

Fees and commissions income

Fees and commissions are recognized on accrued basis.

Income from investment

Income from investment is recognized on the difference between the selling price and cost of the securities sold.

Cash dividends from equity investment are recognized in the income statement when the Bank's right to receive the payment is established. For stock dividends and bonus shares, the number of shares is just updated and no dividend income is recognized in the income statement.

5. Loans to customers, purchased debts

5.1 Loans to customers

Loans to customers are presented at the principal amounts outstanding at the end of the period.

Short term loans are loans have maturities under one year from the loan disbursement date. Medium term loans are loans have maturities from one to five years from the loan disbursement date. Long term loans are loans have maturities over five years from the loan disbursement date.

The classification and provisioning of loans to customers is made in compliance with the Circular No. 02/2013/TT-NHNN (Circular 02) and Circular No. 09/2014/TT-NHNN which amends and supplements some articles of Circular 02 (Circular 09).

As at 31 December 2018 and for the period then ended

Form B05a/TCTD
(issued under Circular No.
49/2014/TT- NHNN dated 31 December 2014)

General provision as at 31 December 2018 is made at 0.75% of total outstanding loans excluding due from and loans to other credit institutions and loans classified as loss (group 5) as at 30 November 2018.

Loans sold to Vietnam Asset Management Company (“VAMC”)

The Bank sell loans to VAMC at the carrying amount in accordance with Decree No. 53/2013/ND-CP effective from 9 July 2013 on “Establishment, structure and operations of Vietnam Asset Management Company”, Circular No. 19/2013/TT-NHNN “Regulations on purchasing, selling and writing-off of bad debts of Vietnam Asset Management Company”, Circular No. 14/2015/TT-NHNN and Circular No 08/2016/TT-NHNN amend and supplement Circular 19/2013/TT-NHNN and Official Letter No. 8499/NHNN-TCKT on “Accounting guidance on selling and purchasing of bad debts between VAMC and credit institutions”. Accordingly, selling price equals to the outstanding loan balance minus (-) unused balance of specific provision. The Bank then receives the special bonds issued by VAMC.

Upon the sale of loans to VAMC, the Bank writes off loan balances and corresponding specific provisions and recognizes special bonds issued by VAMC at par value. When receiving loans previously sold to VAMC, the Bank uses annual specific provisions for special bonds to write off bad debts and recognize the difference between provision for credit losses and the remaining outstanding loan balance/bond value in “Other operating income” of the separate income statement.

5.2 Purchased debts

Purchased debts are recorded at the purchasing price on the contract and classified to the group with risk level is not lower than its original group classified before purchase. If the interest receipt thereafter includes the accrued interest before purchase date, the interest recognition is made as follows: (i) reduce the value of purchased debts by the interest incurred before the purchase date; (ii) record the interest income in the year by the amount incurred after the purchase date.

The Bank classify and make provision for purchased debts in accordance with regulations on loan classification and provision for credit loss.

6. Held for trading and investment securities

6.1 Securities held for trading

Classification and recognition

Securities held for trading include debt securities purchased for trading purposes. Securities held for trading are initially recognized at cost on transaction date.

Measurement

Listed debt securities held for trading are recognized at cost less provision for diminution in value of securities, which is based on the yield quoted on the Hanoi Securities Exchange as at the balance sheet date.

Provision for credit losses on corporate bonds which are not listed on the stock market or not registered for trading on the unlisted public companies market is made in accordance with Circular 02 and Circular 09.

Equity securities are initially recognized at the cost on transaction date and subsequently measured at cost. Equity securities held for trading are subject to impairment review on a periodical basis. Provision for diminution in value of securities is made when the carrying value is higher than the market value in compliance with Circular No. 228/2009/TT-BTC issued by the Ministry of Finance on 7 December 2009. In case market prices of securities are not available or cannot be determined reliably, no provision is calculated.

As at 31 December 2018 and for the period then ended

Form B05a/TCTD

(issued under Circular No.

49/2014/TT- NHNN dated 31 December 2014)

Provision for securities held for trading which is mentioned above is reversed when the recoverable amount of securities held for trading increases after the provision is made as a result of an objective event. Provision is reversed up to the gross value of these securities before the provision is made.

Gain or loss from disposal held for trading securities was recorded in separate income statement.

Interest and dividends derived from securities held for trading are recognized on cash basis in the separated income statement.

De-recognition

Securities held for trading are derecognized when the rights to receive cash flows from these securities are terminated or the Bank transfers substantially all the risks and rewards of ownership of these securities.

6.2 Available-for-sale securities

Classification and recognition

Available-for-sale securities include debt and equity securities that are acquired by the Bank for the investment and available-for-sale purposes, not regularly traded but can be sold when there is a benefit. For equity securities, the Bank are also neither the founding shareholder nor the strategic partner and do not have the ability to make certain influence in establishing and making the financial and operating policies of the investees through a written agreement on assignment of its personnel to the Board of Directors/Management.

Available-for-sale equity securities are initially recognized at cost at the purchase date and continuously presented at cost in subsequent periods.

Available-for-sale debt securities are recognized at par value at the purchase date. Accrued interest (for debt securities with interest payment in arrears) and deferred interest (for debt securities with interest payment in advance) is recognized in a separate account. Discount/premium, which is the difference between the cost and the amount being the par value plus (+) accrued interest (if any) or minus (-) deferred interest (if any) is also recognized in a separate account.

In subsequent periods, these securities are continuously recorded at par value, and the discount/premium (if any) is amortized to the income statement on a straight-line basis over the remaining term of securities. Interest received in arrears is recorded as follows: Cumulative interest incurred before the purchasing date is recorded as a decrease in the accrued interest; cumulative interest incurred after the purchasing date is recognized as income based on the accumulated method. Interest received in advance is amortized into the securities investment interest income on a straight-line basis over the term of securities investment.

Measurement

Periodically, available-for-sale securities will be considered for impairment.

Provision for impairment of equity securities is made when book value of the securities is higher than its market value which is determined according to Circular 228/2009/TT-BTC. In case market value of the securities is not possible to determined, provision for these securities will not be made. Provision for impairment is recorded to "Net gain/loss from investment securities" in the separate income statement.

Listed debt securities are recognized at the cost less provision for diminution in value of securities, which is based on the yield quoted on the Hanoi Securities Exchange as at the balance sheet date.

Provision for credit losses on corporate bonds which are not listed on the stock market or not registered for trading on the unlisted public companies market is made in accordance with Circular 02 and Circular 09.

6.3 *Held-to-maturity securities*

Special bonds issued by VAMC

Special bonds issued by VAMC are fixed-term valuable papers used to purchase bad debts of the Bank. These special bonds are initially recognized at face value at the date of transaction and subsequently carried at the face value during the holding period. Face value of the bonds equals to the outstanding balance of the debts sold less their unused specific provision.

During the holding period, the Bank annually calculates and makes specific provision in accordance with Circular No. 14/2015/TT-NHNN dated 28 August 2015 issued by the SBV amending and supplementing some articles of Circular No. 19/2013/TT-NHNN which stimulates the purchase, sale and write-off bad debts of VAMC.

As required by Circular No. 14/2015/TT-NHNN, each year, within five consecutive working days prior to the maturity date of special bonds, the Bank is obliged to fully make specific provision for each special bond using the below formula:

$$X_{(m)} = \frac{Y}{n} \times m - (Z_m + X_{m-1})$$

In which:

- $X_{(m)}$ is minimum provision for special bonds in the m^{th} year;
- X_{m-1} is accumulated specific provision for special bonds in the $m-1^{\text{th}}$ year;
- Y is face value of special bonds;
- n is term of special bonds (years);
- m is number of years from the bond issuance date to the provision date;
- Z_m is accumulated bad debt recoveries at the provision date (m^{th} year).

If $(Z_m + X_{m-1}) \geq (Y/n \times m)$, the specific provision ($X_{(m)}$) will be (0).

Specific provision for each special bond is recognized in the income statement in "Provision expense for credit losses". General provision is not required for the special bonds.

On settlement date of special bonds, interest occurred from debts collection shall be recognized into "Interest and similar income".

Other held-to-maturity securities

Held-to-maturity securities are debt securities purchased by the Bank for the investment purpose of earning dividend and the Bank has the capability and intention to hold these investments until maturity. Held-to-maturity securities have the determined value and maturity date. In case the securities are sold before the maturity date, these securities will be reclassified to securities held for trading or available-for-sale securities.

Debt securities are recognized and measured similarly as available-for-sale securities as presented at Note 6.2.

7. *Cash and cash equivalents*

Cash and cash equivalents comprise cash on hand, gold, balances with the State Bank of Vietnam, demand deposits, due from and loans to other credit institutions with an original maturity of less than three months from the transaction date and securities investments with maturity of less than three months from purchase dates which are readily convertible into cash at the reporting date.

8. *Provision, contingent liabilities and assets*

Off-balance sheet commitments include guarantees, letter of credit and other irrevocable lending commitments with specific implementing time.

Classification of off-balance-sheet commitments is made solely for the purposes of managing and monitoring the quality of credit granting activities in accordance with the classification policy applicable to loans.

9. *Corporate income tax*

Current corporate income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from (or paid to) the taxation authorities. The tax rates and tax laws used to compute the amount are those that are effective as at the separate balance sheet date.

Current income tax is charged or credited to the separate income statement except when it relates to items recognized directly to equity, in which case, the current income tax is also dealt with in equity.

Current income tax assets and liabilities are offset when there is a legally enforceable right for the Bank to offset current tax assets against current tax liabilities and when the Bank intends to settle its current tax assets and liabilities on a net basis.

Tax declarations of the Bank is subjected to examination by the tax authorities. Due to the ambiguity associated with the applicability of tax laws and regulations in Vietnam, amounts reported in the separate financial statements could be changed at a later date upon final determination by the tax authorities.

Deferred tax

Deferred tax is provided for temporary differences at the separate balance sheet date between the tax base of assets and liabilities and their carrying amount recorded in the separate financial statements reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- ▶ Deferred tax liabilities arise from the initial recognition of an asset or liability in a transaction that does not have an effect on the accounting profit or the taxable profit (or tax loss) at the time of transaction.
- ▶ Taxable temporary differences associated with investments in subsidiaries, associates and joint-ventures, where the Bank has the ability to control the timing of the reversal of the temporary difference and the temporary difference will not be reversed in the foreseeable future.

Deferred income tax assets should be recognized for all deductible temporary differences, the carrying amount of the tax deferred until further years of tax losses and unused tax losses, It is probable that future taxable profits will be available against which these deductible temporary differences, tax losses and unused tax losses can be utilized, except for:

- ▶ Deferred tax assets arise from the initial recognition of an asset or liability in a transaction that does not have an effect on the accounting profit or the taxable profit (or tax loss) at the time of transaction.
- ▶ In respect of deductible temporarily differences associated with investments in subsidiaries, associates, and interests in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of the deferred tax asset has to be reviewed at the end of the financial year and the carrying amount should be reduced to the extent there will be enough taxable profit to utilize deferred tax assets. Deferred tax assets not yet recognized previously are recognized at the balance sheet date and are recognized when it is probable that future taxable profits will be available to utilize these unrecognized deferred tax assets.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the fiscal year when the asset is recovered or the liability is settled, based on the effective tax rates and tax laws at the balance sheet date.

Deferred income tax is recognized in the income statement, except when it relates to items recognized directly to equity, in which case the deferred tax is also recorded directly in equity.

10. *Borrowings, debt securities issued, equity instruments*

The discounted, re-discount valuable paper at SBV are recognized at cost at balance sheet date. Borrowings interest is recognized in income statement based on accrual basic under Circular No. 12/2006/TT-NHNN dated 21 February 2006.

Valuable papers issued are recognized at cost. Cost of valuable papers issued include proceed from issuing minus direct expense related to issuing valuable papers.

11. *Capital*

Ordinary Share

Ordinary shares are recognized as charter capital.

Share premium

The Bank records the difference between the par value and issue price of shares if the issue price is higher than par value, and the difference between price of repurchasing of treasury stocks and the re-issue price of treasury stocks to share premium account. The expense related to issue shares will be recorded as the share premium deductible.

Treasury shares

Own equity instruments which are reacquired (treasury shares) are recognized at cost and deducted from equity. No gain or loss is recognized in profit and loss upon purchase, sale, issue or cancellation of the Bank's own equity instruments.

Funds and reserves

The Bank has set up the following reserves in accordance with the Law on Credit Institutions No. 47/2010/QH12 and Decree No. 93/2017/ND-CP and the Bank's Charter as follows:

	<i>Percentage of profit after tax</i>	<i>Maximum amount</i>
Capital supplementary reserve	5% of profit after tax	100% share capital
Financial reserve	10% of profit after tax	Not specified

Other funds will be allocated from profit after tax. The allocation from profit after tax and utilization of funds must be approved by the Annual General Meeting of Shareholders. These funds are not regulated by statutory and allowed to be fully allocated.

VIII. FINANCIAL RISK MANAGEMENT

22. Risk management related to financial instruments

Risk is inherent in the Bank's activities and is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Bank's continuing profitability and each individual within the Bank is accountable for the risk prevention within his or her responsibilities. The Bank are exposed to credit risk, liquidity risk and market risk (then being subdivided into trading and non-trading risks). The Bank is also subject to various operational risks.

The independent risk control process does not include business risks such as changes in the environment, technology and industry. The Bank's policy is to monitor those business risks through the Bank's strategic planning process.

(i) Risk management structure

The Board of Directors is ultimately responsible for identifying and controlling risks. However, each separate member shall be responsible for managing and monitoring risks.

(ii) Board of Directors

The Board of Directors is responsible for monitoring the overall risk management process within the Bank.

(iii) Risk Management Committee

Risk Management Committee advises the Board of Directors in the promulgation of

procedures and policies under their jurisdiction relating to risk management in the Bank's activities.

Risk Management Committee analyses and provides warnings on the potential risks that may affect the Bank's operation and preventive measures in the short term as well as long term.

Risk Management Committee reviews and evaluates the appropriateness and effectiveness of the risk management of procedures and policies of the Bank to make recommendations to the Board of Directors on the improvement of procedures, policies and operational strategies.

(iv) *Board of Supervision*

The Board of Supervision has the responsibility to control the overall risk management process within the Bank.

(v) *Internal Audit*

According to the annual internal audit plan, business processes throughout the Bank is audited annually by the internal audit function, which examines both the adequacy of the procedures and compliance with the Bank's procedures. Internal Audit discusses the results of all assessments with management, and reports its findings and recommendations to the Board of Supervision.

(vi) *Risk measurement and reporting systems*

The Bank's risks are measured using a method which reflects both the expected loss likely to arise in normal circumstances and unexpected losses, which is an estimate of the ultimate actual loss based on statistical models.

Monitoring and controlling of risks is primarily performed based on limits established by the Bank in compliance with the State Bank of Vietnam's regulations. These limits reflect the business strategy and market environment of the Bank as well as the level of risk that the Bank is willing to accept.

Information compiled from all business activities is examined and processed in order to analyses, control and early identify risks. This information is presented and explained to the Board of Management, Board of Directors and the department heads. The report includes aggregate credit exposure, credit metric forecasts, limit exceptions, liquidity ratios and risk profile changes. The Board of Directors assesses the appropriateness of the allowance for credit losses on a quarterly basis. The Board of Directors receives a comprehensive risk report quarterly which is designed to provide all the necessary information to assess and conclude on the risks of the Bank.

For all levels throughout the Bank, specifically tailored risk reports are prepared and distributed in order to ensure that all business departments have access to *extensive, necessary and up-to-date information*.

(vii) *Risk mitigation*

The Bank has actively used collateral to mitigate credit risk.

(viii) *Excessive risk concentration*

Concentrations arise when a number of counterparties of the Bank is engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would affect the group of customers' payment obligations or payment receipt rights when due under changes in economic, political or other conditions.

These above concentrations indicate the relative sensitivity of the Bank's performance to the developments of a particular industry or geographic allocation.

In order to avoid excessive concentrations of risk, the Bank's policies and procedures include specific guidelines to focus on maintaining a diversified portfolio. Identified concentrations of credit risk are controlled and managed accordingly. Selective

hedging is used within the Bank in respect of the industries and other related factors.

23. Credit risk

Credit risk is the risk that the Bank will incur a loss because its customers or counterparties fail to discharge their contractual obligations.

The Bank manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties and for geographical and industry concentrations, and by monitoring exposures in relation to such limits.

The Bank has established a credit quality review process to provide early identification of possible changes in the financial position and creditworthiness of counterparties based on qualitative and quantitative indicators, including frequently review collateral. Counterparty's limits are established by the use of a credit rating system, which assigns each counterparty a risk rating. Risk ratings are subject to regular revision.

The effective interest rates on balances with the SBV, due from and loans to other credit institutions, loans to customers in currencies.

24. Market risk

24.1 Interest risk

Interest rate risk arises from the possibility that changes in interest rates will affect the fair values of financial instruments. The Bank are exposed to interest rate risk as a result of mismatches of maturity dates or dates of interest rate re-pricing in respect of assets, liabilities and off-balance sheet instruments over a certain period. The Bank manage this risk by matching the dates of interest rate re-pricing of assets and liabilities through risk management strategies.

Analysis of assets and liabilities based on interest rate re-pricing date

The repricing period of interest rate of assets and liabilities is the term calculated from the balance sheet date to the nearest repricing date of interest rate or remaining contractual term whichever is earlier.

The following assumptions and conditions are used in analysis of the re-pricing period of interest rates of the Bank's assets and liabilities:

- ▶ Cash and gold; long-term investments and other assets (including fixed assets and other assets) are classified as non-interest bearing items;
- ▶ The re-pricing term of balances with the State Bank of Vietnam is considered as up to one-month;
- ▶ The re-pricing term of investment securities and held-for-trading securities is calculated based on the time to maturity from the balance sheet date for each type of securities;
- ▶ The re-pricing term of due to the SBV, due from and loans to other credit institutions; loans to customers; grants, entrusted funds and loans exposure to risks; due to and loan from other credit institutions and due to customers are determined as follows:
 - Items which bear fixed interest rate during the contractual term: The re-pricing term is determined based on the time to maturity from the balance sheet date.
 - Items which bear floating interest rate: The re-pricing term is determined based on the time to the nearest interest rate re-pricing date from the balance sheet date.
- ▶ The re-pricing term of valuable papers issued is determined based on the time to the nearest interest rate re-pricing date from the balance sheet date.

The following table presents the interest re-pricing period of the Bank's assets and liabilities as at 31 December 2018:

24.3 *Liquidity risk*

Liquidity risk is the risk which the Bank has difficulties in meeting the obligations of financial liabilities. Liquidity risk occurs when the Bank cannot afford to settle debt obligations at the due dates in the normal or stress conditions. To manage the liquidity risk exposure, the Bank has diversified the mobilization of deposits from various sources in addition to its basic capital resources. In addition, the Bank has established policy for control of liquidity assets flexibly; monitor the future cash flows and daily liquidity. The Bank has also evaluated the estimated cash flows and the availability of current collateral assets in case of obtaining more deposits.

The maturity term of assets and liabilities is the remaining period of assets and liabilities as calculated from the balance sheet date to the settlement date in accordance with contractual terms and conditions.

The following assumptions and conditions are applied in the analysis of maturity of the Bank's assets and liabilities:

- ▶ Balances with the SBV are classified as demand deposits which include compulsory deposits;
- ▶ The maturity term of investment securities is calculated based on the maturity date of each kind of securities; except for the maturity term of investments in Government bonds and bonds issued by the Vietnam Development Bank is considered within one month because of their high liquidity;
- ▶ The maturity term of due to the SBV, due from and loans to other credit institutions, loans to customers is determined based on the maturity date as stipulated in contracts. The actual maturity term may be altered because loan contracts may be extended;
- ▶ The maturity term of long-term investments is considered as more than one year because these investments do not have specific maturity date;
- ▶ The maturity term of due to and borrowings from other credit institutions, due to customers are determined based on features of these items or the maturity date as stipulated in contracts. Vostro account and demand deposits are transacted as required by customers, and therefore, classified as current accounts. The maturity term of borrowings and term deposits is determined based on the maturity date in contracts. In practice, these amounts may be rolled over, and therefore, they may last beyond the original maturity date;
- ▶ The maturity term of a fixed assets are determined based on remaining useful life of assets.

The following table presents assets and liabilities maturity from the Bank at 31 December 2018.
