Viet.Iet Aviation Joint Stock Company Statement of the Board of Directors

The Board of Directors of VietJet Aviation Joint Stock Company ("the Company") presents this statement and the accompanying separate interim financial statements of the Company for the sixmonth period ended 30 June 2019.

The Board of Directors is responsible for the preparation and fair presentation of the separate interim financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to interim financial reporting. In the opinion of the Board of Directors:

- (a) the separate interim financial statements set out on pages 6 to 49 give a true and fair view of the unconsolidated financial position of the Company as at 30 June 2019, and of the unconsolidated results of operations and the unconsolidated cash flows of the Company for the six-month period then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to interim financial reporting; and
- (b) at the date of this statement, there are no reasons to believe that the Company will not be able to pay its debts as and when they fall due.

The Board of Directors has, on the date of this statement, authorised these accompanying separate interim financial statements for issue.

On behalf of the Board of Directors

SEPARATE INTERIM FINANCIAL STATEMENTS REVIEW REPORT

To the Shareholders VietJet Aviation Joint Stock Company

We have reviewed the accompanying separate interim financial statements of VietJet Aviation Joint Stock Company ("the Company"), which comprise the separate balance sheet as at 30 June 2019, the separate statements of income and cash flows for the six-month period then ended and the explanatory notes thereto, which were authorised for issue by the Company's Board of Directors on 30 August 2019, as set out on pages 6 to 49.

Management's Responsibility

The Company's Board of Directors is responsible for the preparation and fair presentation of these separate interim financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to interim financial reporting, and for such internal control as the Board of Directors determines is necessary to enable the preparation of separate interim financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on these separate interim financial statements based on our review. We conducted our review in accordance with Vietnamese Standard on Review Engagements 2410 – Review of interim financial information performed by the independent auditor of the entity.

A review of Interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Auditor's Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying separate interim financial statements do not give a true and fair view, in all material respects, of the unconsolidated financial position of VietJet Aviation Joint Stock Company as at 30 June 2019 and of its unconsolidated results of operations and its unconsolidated cash flows for the six-month period then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to interim financial reporting.

2. Basis of preparation

(a) Statement of compliance

These separate interim financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to interim financial reporting. The Company prepares and issues its consolidated interim financial statements separately. For a comprehensive understanding of the Company's consolidated financial position, its consolidated results of operations and its consolidated cash flows, these separate interim financial statements should be read in conjunction with the consolidated interim financial statements.

(b) Basis of measurement

The separate interim financial statements, except for the separate statement of cash flows, are prepared on the accrual basis using the historical cost basic. The separate statement of cash flows is prepared using the indirect method.

Form B 09a - DN

(Issued under Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

(c) Annual accounting period

The annual accounting period of the Company is from 1 January to 31 December. These separate interim financial statements are prepared for the six-month period ended 30 June 2019.

(d) Accounting and presentation currency

The Company's accounting currency is Vietnam Dong ("VND"), which is also the currency used for the separate interim financial statements presentation purpose.

3. Change in accounting policy

During the period, the Company has changed its accounting policy for maintenance costs for engine performance restoration and auxiliary power unit in the scope of maintenance reserves retrospectively to provide more relevant information about the effects of transaction in the separate interim financial statements. See Note 4(1) for more information.

4. Summary of significant accounting policies

The following significant accounting policies have been adopted by the Company in the preparation of these separate interim financial statements.

The accounting policies that have been adopted by the Company in the preparation of these separate interim financial statements are consistent with those adopted in the preparation of the latest separate annual financial statements, except as described in Note 4(1).

(a) Foreign currency transactions

Transactions in currencies other than VND during the period have been translated into VND at rates approximating actual rates of exchange ruling at the transaction dates.

Monetary assets and liabilities denominated in currencies other than VND, except for items hedged by financial instruments, are translated into VND at the average of the account transfer buying rates and selling rates at the end of the accounting period quoted by the commercial bank where the Company most frequently conducts transactions.

All foreign exchange differences are recorded in the separate statement of income.

(b) Cash and cash equivalents

Cash comprises cash balances and call deposits. Cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

Form B 09a - DN

(Issued under Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

(c) Investments

(i) Trading securities

Trading securities are those held by the Company for trading purpose i.e. purchased for resale with the aim of making profits over a short period of time. Trading securities are initially recognised at cost which include purchase price plus any directly attributable transaction costs. Subsequent to initial recognition, they are measured at cost less allowance for diminution in value. An allowance is made for diminution in value of trading securities if market price of the securities item falls below its carrying amount. The allowance is reversed if the market price subsequently increases after the allowance was recognised. An allowance is reversed only to the extent that the securities' carrying amount does not exceed the carrying amount that has been determined if no allowance had been recognised.

(ii) Held-to-maturity investments

Held-to-maturity investments are those that the Company's Board of Directors has the intention and ability to hold until maturity. Held-to-maturity investments include term deposits at banks, investments in business cooperation contracts and loans receivable. These investments are stated at costs less allowance for doubtful debts.

(iii) Investments in subsidiaries and associates

For the purpose of these separate interim financial statements, investments in subsidiaries and associates are initially recognised at cost which include purchase price plus any directly attributable transaction costs. Subsequent to initial recognition, these investments are stated at cost less allowance for diminution in value. An allowance is made for diminution in investment value if the investee has suffered a loss, except where such loss was anticipated by the Company's Board of Directors before making the investment. The allowance is reversed if the investee subsequently made a profit that offsets the previous loss for which the allowance had been made. An allowance is reversed only to the extent that the investment's carrying amount does not exceed the carrying amount that would have been determined if no allowance had been recognised.

(iv) Investments in equity instruments of other entities

Investments in equity instruments of other entities are initially recognised at cost which include purchase price plus any directly attributable transaction costs. Subsequent to initial recognition, these investments are stated at cost less allowance for diminution in value. An allowance is made for diminution in investment value if the investee has suffered a loss, except where such loss was anticipated by the Company's Board of Directors before making the investment. The allowance is reversed if the investee subsequently made a profit that offsets the previous loss for which the allowance had been made. An allowance is reversed only to the extent that the investment's carrying amount does not exceed the carrying amount that would have been determined if no allowance had been recognised.

Form B 09a - DN

(Issued under Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

(d) Accounts receivable

Trade and other receivables are stated at cost less allowance for doubtful debts.

(e) Maintenance reserves of leased aircrafts

Under the terms of its aircraft operating lease agreements, the Company is legally and contractually responsible for maintenance and repair of the leased aircrafts throughout the lease period and is also required to make maintenance reserves with the lessors. The maintenance reserves are recorded as other short-term and long-term receivables when there is no significant uncertainty regarding recovery of the reimbursement from lessors. Maintenance reserves made to lessors are typically calculated based on a performance measure, such as flight hours or cycles, and are contractually required to be reimbursed to the Company upon the completion of the required maintenance of the leased aircraft including replacement of life limited parts, engine performance restoration, airframe major structural inspection, landing gear overhaul and auxiliary power unit (APU) heavy repair. If there are excess amounts on maintenance reserves at the expiration of the leases, the lessors are entitled to retain such excess amounts.

(f) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on a weighted average basis and includes all costs incurred in bringing the inventories to their present location and condition. Net realisable value is the estimated selling price of inventory items, less the estimated costs of completion and direct selling expenses.

The Company applies the perpetual method of accounting for inventories.

(g) Tangible fixed assets

(i) Cost

Tangible fixed assets are stated at cost less accumulated depreciation. The initial cost of a tangible fixed asset comprises its purchase price, including import duties, non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition for its intended use. Manufacturers' discounts for purchases of tangible fixed assets, if any, are deducted from the value of the related asset. Expenditure incurred after tangible fixed assets have been put into operation, such as repairs and maintenance and overhaul cost, is charged to the separate statement of income in the period in which the cost is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of tangible fixed assets beyond their originally assessed standard of performance, the expenditure is capitalised as an additional cost of tangible fixed assets.

Form B 09a – DN

(Issued under Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

Depreciation (ii)

Depreciation is computed on a straight-line basis over the estimated useful lives of tangible fixed assets. The estimated useful lives are as follows:

aircraft and components 10-20 years machinery and equipment 3 - 10 years

office equipment 3 - 5 years

motor vehicles 6 years

Intangible fixed assets (h)

Software

Cost of acquiring new software, which is not an integral part of the related hardware, is capitalised and treated as an intangible asset. Software is amortised on a straight-line basis over 3 years.

(i) Construction in progress

Construction in progress represents the costs of construction and acquiring aircrafts which have not been fully completed. No depreciation is provided for construction in progress during the period of construction.

Long-term prepaid expenses (j)

(i) Major inspection and overhaul expenditure

Major inspection and overhaul expenditure for leased aircrafts are deferred and amortised over the shorter of the period to the next major inspection event and the remaining term of the lease.

(ii) Rotable parts

Rotable parts which have estimated useful lives of more than 1 year are recorded in long-term prepaid expenses and amortised on a straight-line basis over their estimated useful lives but not exceeding 3 years.

(iii) Tools and instruments

Tools and instruments include assets held for use by the Company in the normal course of business whose costs of individual items are less than VND30 million and therefore not qualified for recognition as fixed assets under prevailing regulations. Cost of tools and instruments are amortised on a straight-line basis over a period from 2 to 5 years.

Trade and other payables (k)

Trade and other payables are stated at their costs.

Form B 09a - DN

(Issued under Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

(l) Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

(i) Provisions for maintenance costs in the scope of maintenance reserves

Policy applicable in the separate financial statements for the year ended 31 December 2018

According to the aircraft leasing agreements between the Company and its lessors and the requirements of Vietnam Aviation Authority, the Company has to perform the routine maintenance and periodic maintenance for leased aircrafts based on its own Maintenance Planning Development which was constructed based on the guidance of airline manufacturers. Routine maintenance will be performed at the Company's cost while the periodic maintenance will be covered by maintenance reserves. The provisions for all maintenance expenses in the scope of maintenance reserves is determined by discounting the expected future costs of maintenance for the leased aircrafts, having regard to the current fleet plan. During the period of leasing, the estimated costs are recorded in provisions with the corresponding debit to long-term prepaid expenses. The estimated costs in long-term prepaid expenses are amortised on the basis of flight hours or cycles to the next maintenance event. If effect of time value of money is material, unwinding discount of the provisions is recorded as financial expenses.

Policy applicable in the separate interim financial statements for the six-month period ended 30 June 2019

According to the aircraft leasing agreements between the Company and its lessors and the requirements of Vietnam Aviation Authority, the Company has to perform the routine maintenance and periodic maintenance for leased aircrafts based on its own Maintenance Planning Development which was constructed based on the guidance of airline manufacturers. Routine maintenance will be performed at the Company's cost while the periodic maintenance will be covered by maintenance reserves. The provisions for maintenance expenses in the scope of the maintenance reserves, except for engine performance restoration and anxiliary power unit heavy repair, is determined by discounting the expected future costs of maintenance for the leased aircrafts, having regard to the current fleet plan. During the period of leasing, the estimated costs are recorded in provisions with the corresponding debit to long-term prepaid expenses. The estimated costs in long-term prepaid expenses are amortised on the basis of flight hours or cycles to the next maintenance event. If effect of time value of money is material, unwinding discount of the provisions is recorded as financial expenses.

The estimated costs of engine performance restoration and anxiliary power unit heavy repair are accrued and charged to the separate statement of income over the estimated period between maintenance events using the ratios of actual flying hours or cycles and estimated flying hours or cycles between maintenance events.

The change in accounting policy did not have significant impact to separate balance sheet as at 1 January 2019 and separate statements of income and cash flows for the six-month period ended 30 June 2018.

Form B 09a - DN

(Issued under Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

(ii) Provisions for cost to make good on leased assets

With respect to aircraft operating lease agreements where the Company is required to return the aircraft with adherence to certain maintenance conditions, cost to make good on leased assets is estimated at the inception of the lease based on the present value of the future expected costs at the expiration of the lease in order for the Company to meet the conditions for the return of the aircraft to the lessors, including certain levels of maintenance as well as arranging for final test flights, inspection, custom and deregistration costs, removal of the Company's modifications, if any and return of the aircraft to a specified location. At the inception of the lease, the estimated cost is recorded in provisions with the corresponding debit to long-term prepaid expenses. The estimated costs in long-term prepaid expenses are amortised on a straight-line basis over the term of the leases. If effect of time value of money is material, unwinding discount of the provisions is recorded as financial expenses.

(m) Share capital

(i) Ordinary shares

Ordinary shares are recognised at issuance price less incremental costs directly attributable to the issue of ordinary shares, net of tax effects. Such costs are recognised as a deduction from share premium.

(ii) Shares premium

The difference between proceeds from issuance of shares over the par value is recorded in share premium.

(n) Taxation

Income tax on the profit or loss for the period comprises current and deferred tax. Income tax is recognised in the separate statement of income except to the extent that it relates to items recognised directly to equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the period, using tax rates enacted at the end of the accounting period, and any adjustment to tax payable in respect of previous periods.

Deferred tax is provided using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities using tax rates enacted or substantively enacted at the end of the accounting period.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Form B 09a - DN

(Issued under Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

(o) Revenue and other income

(i) Passenger transportation

Revenue from passenger transportation is recognised in the separate statement of income when the transportation is provided or when the ticket expires. The value of unused passenger tickets and miscellaneous charges is recorded in current liabilities as unearned revenue. Non-refundable tickets generally expire on the date of the intended flight, unless the date is extended by notification from the customer on or before the intended flight date. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due. Revenue of passenger transportation is recognised at the net amount after deducting sales discounts stated on the invoice.

(ii) Ancilliary revenue

Ancilliary revenue includes cargo transportation, baggage service, other revenue related to passenger transportation, sale of in-flight and duty free merchandise, advertising and commission. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due or the possible return of goods or services.

Revenue from cargo transportation is recognised in the separate statement of income when the services are provided.

Revenue from baggage service is recognised in the separate statement of income when the related passenger transportation service is provided or when the ticket expires.

Other revenue related to passenger transportation such as fees charged in association with changes or extensions to non-refundable tickets is recorded as ancilliary revenue at the time the fee is earned. Amendment fees related to non-refundable tickets are considered a separate transaction from the passenger transportation and they are recognised in the separate statement of income when charged to passengers.

Sales of in-flight and duty free merchandise is recognised in the separate statement of income when the significant risks and rewards of ownership have been transferred to the buyers.

Advertising revenue and commission are recorded as ancilliary revenue at the time the fee is earned.

(iii) Charter flights

Revenue from charter flights is recognised in the separate statement of income when the services are provided. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due.

(iv) Aircrafts leasing

Revenue from aircrafts leasing is recognised in the separate statement of income on a straight-line basis over the term of the lease. Lease incentives granted are recognised as an integral part of the total lease revenue.

Form B 09a - DN

(Issued under Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

(v) Other services

Revenue from services rendered is recognised in the separate statement of income in proportion to the stage of completion of the transaction at the end of the accounting period. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due.

(vi) Interest income

Interest income is recognised on the time proportion basis with reference to the principal outstanding and the applicable interest rate.

(vii) Dividend income

Dividend income is recognised when the right to receive dividend is established. Share dividends are not recognised as income. Dividends received which are attributable to the period before investment acquisition date are deducted from the carrying amount of the investment.

(p) Borrowing costs

Borrowing costs are recognised as an expense in the period in which they are incurred, except where the borrowing costs relate to borrowings in respect of the construction of qualifying assets, in which case the borrowing costs incurred during the period of construction are capitalised as part of the cost of the assets concerned.

(q) Operating lease payments

Payments made under operating leases are recognised in the separate statement of income on a straight-line basis over the term of the lease. Lease incentives received are recognised in the separate statement of income as an integral part of the total lease expense.

(r) Segment reporting

A segment is a distinguishable component of the Company that is engaged either in providing related products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments. The Company's primary format for segment reporting is based on business segment.

(s) Related parties

Parties are considered to be related to the Company if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions, or where the Company and the other party are subject to common control or significant influence. Related parties may be individuals or corporate entities and include close family members of any individual considered to be a related party.

Form B 09a - DN

(Issued under Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

5. Segment reporting

(a) Business segment

For management purpose, the Company has one reportable operating segment which was providing passenger and cargo transportation, ancilliary services, aircraft rental and advertising on aircrafts (referred to as "aviation services").

Except as indicated above, the Company has no other operating segments being aggregated to form a reportable operating segment. Segmental information for total revenue and cost of sales is shown in Note 31 and Note 32 to the separate interim financial statements. There is no intersegment revenue between operating segments. All the Company's assets, liabilities, financial income and financial expenses, general and administration expenses, selling expenses, other income and other expenses are unallocated.

The Board of Directors determined the operating segment based on reports that are reviewed and used to make strategic decisions.

(b) Geographical segment

The Company's revenue is presented by geographical area (by country of destination) as follows:

Six-month period ended		
30/6/2019 VND	30/6/2018 VND	
9,237,387,169,733 10,944,374,943,735	9,069,847,742,053 7,442,468,395,553	
20,181,762,113,468	16,512,316,137,606	
	30/6/2019 VND 9,237,387,169,733 10,944,374,943,735	

The Company's fixed assets and capital expenditure are primarily located in Vietnam.

6. Seasonality of operations

The Company primarily involved in the provision of air transportation services and thus, is subject to the seasonal demand for air travel. With the assumptions of unchanged number of operating routes and aircrafts, the first half of the year typically tends to result in higher revenue than the second half of the year. This seasonal pattern is in line with the expectation of the Company's Board of Directors.

Form B 09a - DN

(Issued under Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

7. Changes in accounting estimates

In preparing these separate interim financial statements, the Board of Directors has made several accounting estimates. Actual results may differ from these estimates. During the period, the Board of Directors made some changes in accounting estimates related to limited life parts upon return compare to those made in the most recent annual separate financial statements or those made in the same interim period of the prior year. Refer to Note 25 for movements of provisions during the six-month period ended 30 June 2019 which was already reflected the above changes in estimates.

8. Cash and cash equivalents

	30/6/2019 VND	1/1/2019 VND
Cash on hand	8,147,072,171	7,979,150,266
Cash in banks	1,509,318,670,438	3,632,420,091,472
Cash equivalents	3,383,295,890,411	3,515,960,000,000
9	4,900,761,633,020	7,156,359,241,738

Cash equivalents comprised term deposits, certificate of deposits and valuable papers at banks with original terms to maturity of three months or less from their transaction dates and earned interest at rate from 5.5% to 8.0% per annum during the period (six-month period ended 30 June 2018: 5.5%).

As at 30 June 2019, the Company has current and term deposit accounts of VND940 billion (1/1/2019: VND1,749 billion), certificate of deposits of VND205 billion (1/1/2019: VND700 billion) and valuable papers of VND300 billion at Ho Chi Minh City Development Joint Stock Commercial Bank ("HDBank"), a related party at normal trading terms.

Form B 09a – DN (Issued under Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

9. Investments

(a) Trading securities

Trading securities included the investments in securities of Petrovietnam Oil Corporation as follow:

		92	Fair value	VND	815,500,000,000
1/1/2019	Allowance for	diminution	in value	VND	50,000,000 990,000,000,000 174,500,000,000 815,500,000,000
7			Cost		990,000,000,000
			Quantity	an It	50,000,000
			Fair value		578,000,000,000
30/6/2019	Allowance for	diminution	in value	AND	412,000,000,000 578,000,000,000
30			Cost	VND	50,000,000,000,000,000,000
			Quantity		50,000,000
				2	PetroVietnam Oil Corporation

Fair value of the investments in securities at reporting dates was determined by reference to the closing price on IIo Chi Minh Stock Exchange on 28 June 2019 and 28 December 2018.

Form B 09a - DN

Repayable after 1	2 months	8	\$ 	545,219,641,100	572,231,674,577

Original principal of this loan is repayable in 24 equal semi-annual instalments of USD1.4 million (equivalent to VND33 billion) each and a final instalment of USD1.5 million (equivalent to VND35 billion) on 13 June 2028.

In accordance with Principle Agreement No. 24012017/HDNT/MB-VJ dated 24 January 2017 between the Company and the lender, the Company also entered into currency and interest rate swap transactions with the lender to a portion of its borrowings to manage the impact of changes in currency exchange rate and interest rate on these borrowings. Under the Agreement, the Company will receive USD amounts from the lender to settle the due principal and related interest expense; and pay VND equivalent amounts to the lender using fixed VND/USD exchange rate of 22,575 and fixed interest rate of 7.5% per annum for the period from 24 January 2017 to 13 December 2019. Payments are made at the end of each six-month period and the first payment date was on 13 June 2017.

Detail of asset pledged as security for this loan was as follows:

	30/6/2019 VND	1/1/2019 VND
Aircraft No. A320 MSN7167, VNA675 (Note 15)	756,980,565,945	781,624,125,287

(c) Applicable tax rates

For public passenger and cargo air transportation services, under the terms of current income tax regulations and income tax laws, the Company has an obligation to pay the government income tax at the rate of 20% of taxable profits for the first 10 years starting from the first year of operation and at usual income tax rate for the succeeding years. The current tax regulations also allow the Company to be exempt from income tax for 2 years starting from the first year it generates a taxable profit (2014) and entitled to a 50% reduction in income tax for the 3 succeeding years (2016, 2017 and 2018).

For other activities, under the terms of current income tax regulations, the Company has an obligation to pay the government income tax at usual income tax rate. The usual income tax rate applicable to the Company before any incentives is 20% of taxable profits.
