II. FISCAL PERIOD AND ACCOUNTING CURRENCY

1. Fiscal period

The fiscal year of the Group is from 01 January to 31 December annually. The 3rd quarter of 2020 began on 01 July 2020 and ended on 30 September 2020.

2. Accounting currency unit

The accounting currency unit is Vietnamese Dong (VND).

III. ACCOUNTING STANDARDS AND SYSTEM

1. Accounting System

The Group applies the Vietnamese Accounting Standards and System, which were issued together with the Circular No. 200/2014/TT-BTC dated 22 December 2014 guiding the Vietnamese Accounting System, the Circular No. 202/2014/TT-BTC dated 22 December 2014 guiding the preparation and presentation of the Consolidated Financial Statements as well as other Circulars guiding implementation of Vietnamese Accounting Standards of the Ministry of Finance in preparation and presentation of the Consolidated Financial Statements.

2. Statement of the compliance with the Accounting Standards and System

The Board of Directors ensures to follow all the requirements of the Vietnamese Accounting Standards and System, which were issued together with the Circular No. 200/2014/TT-BTC dated 22 December 2014, the Circular No. 202/2014/TT-BTC dated 22 December 2014 as well as other Circulars guiding the implementation of the Accounting Standards of the Ministry of Finance in the preparation and presentation of the Consolidated Financial Statements.

IV. ACCOUNTING POLICIES

1. Accounting convention

All the Consolidated Financial Statements are prepared on the accrual basis (except for the information related to cash flows).

2. Consolidation bases

The Consolidated Financial Statements include the Financial Statements of the Parent Company and those of its subsidiaries. A subsidiary is an enterprise that is controlled by the Parent Company. The control exists when the Parent Company has the power to directly or indirectly govern the financial and operating policies of the subsidiary to obtain economic benefits from its activities. In determining the control power, the potential voting right arising from options or debt and capital instruments that can be converted into common shares as of the balance sheet date should also be taken into consideration.

The financial performance of subsidiaries, which is bought or sold during the period, are included in the Consolidated Income Statement from the date of acquisition or until the date of selling investments in those subsidiaries.

The Financial Statements of the Parent Company and those of subsidiaries used for consolidation are prepared in the same fiscal period and apply consistently accounting policies to the same types of transactions and events in similar circumstances. In the case that the accounting policy of a subsidiary is different from the accounting policy applied consistently in the Group, the Financial Statements of that subsidiary will be properly adjusted before being used for the preparation of the Consolidated Financial Statements.

CONSOLIDATED FINANCIAL STATEMENTS

For the 3rd quarter of the fiscal period ending 31 December 2020

Notes to the Consolidated Financial Statements (cont.)

Intra-group balances in the Balance Sheet, intra-group transactions and unrealized profits resulting from these transactions must be completely eliminated. Unrealized losses resulting from intra-group transactions are also eliminated unless costs cannot be recovered.

Benefits of non-controlling shareholders reflect profit or loss and net assets of subsidiaries, which are not held by the Group and presented in a separate item of the Consolidated Income Statement and Consolidated Balance Sheet (classified under "Owner's equity"). Benefits of non-controlling shareholders include the values of their non-controlling interest at the initial date of the business combination and those arise within the ranges of changes in owner's equity from the date of the business combination. The losses arising in the subsidiary are attributed equally to the ownership rate of non-controlling shareholders, even if such losses are higher than the interest owned by these shareholders in net assets of the subsidiaries.

In case the Group invests to raise its benefit rate held in the subsidiaries, the difference between the additional investment cost and the carrying value of the subsidiaries' net assets additionally purchased as at the acquisition date is directly recorded in item "Retained earnings" on the Consolidated Balance Sheet.

As the Group withdraws a part of its capital from subsidiaries:

- If the Group still holds the control right after its capital withdrawal: the result of capital withdrawal is recorded into item "Retained earnings" on the Consolidated Balance Sheet.
- If the Group loses its control right after its capital withdrawal and subsidiaries turn into its joint ventures, associates: the remaining investment is presented in item "Investments in joint ventures, associates" in the Consolidated Financial Statements in accordance the equity method and the result of capital withdrawal is recorded into Consolidated Income Statement.
- If the Group loses its control right after capital withdrawal and subsidiaries turn into normal investment: the remaining investment is presented at the carrying value in Consolidated Financial Statements and the result of capital withdrawal is recorded into Consolidated Income Statement.

In case where subsidiaries raise capital from the owners, if the additional capital contribution rate of the involved parties is not in correspondence with the current capital ownership rate, the difference between the additional capital contribution rate of the Group and the increase of the ownership share in the subsidiaries' net assets is recorded into item "Retained earnings" on the Consolidated Balance Sheet.

3. Foreign currency transactions

Transactions in foreign currencies are converted at the actual exchange rates ruling as of the transaction dates. The ending balances of monetary items in foreign currencies are converted at the actual exchange rates ruling as of the balance sheet date.

Foreign exchange differences arisen from foreign currency transactions during the period shall be included into financial income or financial expenses. Foreign exchange differences due to the revaluation of ending balances of the monetary items in foreign currencies after offsetting their positive differences against negative differences shall be included into financial income or financial expenses.

The exchange rate used to convert foreign currency transactions is the actual exchange rate ruling as at the time of these transactions. The actual exchange rates applied to foreign currency transactions are as follows:

- For the foreign currency trading contract (including spot contract, forward contract, future contract, option contract, currency swap): the exchange rate stipulated in the contracts of trading foreign currency between the Group and the Bank.

GEMADEPT CORPORATION

CONSOLIDATED FINANCIAL STATEMENTS

For the 3rd quarter of the fiscal period ending 31 December 2020

Notes to the Consolidated Financial Statements (cont.)

- For capital contribution made or received: the buying rate of the bank where the Group opens its account to receive capital contributed from investors as of the date of capital contribution.
- For receivables: the buying rate of foreign currency ruling as at the time of transaction of the commercial bank where the Group designates the customers to make payments.
- For payables: the selling rate of foreign currency ruling as at the time of transaction of the commercial bank where the Group supposes to make payments.
- For acquisition of assets or immediate payments in foreign currency (not included into payable accounts): the buying rate of the commercial bank where the Group makes payments.

The exchange rate used to re-evaluate ending balances of monetary items in foreign currencies is determined in accordance with following principles:

- For foreign currency deposits: the buying rate of the bank where the Group opens its foreign currency account.
- For monetary items in foreign currencies classified as other assets: the buying rate of Orient Commercial Joint Stock Bank (OCB) – Tan Binh Branch where the Group frequently makes transactions.
- For monetary items in foreign currencies classified as liabilities: the selling rate of Orient Commercial Joint Stock Bank (OCB) – Tan Binh Branch where the Group frequently makes transactions.

Exchange rates used when converting the Financial Statements prepared in foreign currency of subsidiaries into the accounting currency of the Parent Company are as follows:

- For assets and goodwill incurred when acquiring a subsidiary overseas, apply the buying rate of the bank as at the balance sheet date.
- For liabilities, apply the selling rate of the bank as at the balance sheet date.
- For net value of assets of subsidiary held by the Parent Company at the acquisition date, apply the carrying exchange rate at the acquisition date.
- For retained earnings incurred after the date of acquiring subsidiary, apply the calculation of the items of income and expenses in the Income Statement.
- For dividends shared, apply the actual exchange rate ruling as at the time of sharing dividends.
- For items in the Income Statement and Cash Flow Statement, apply the actual exchange rate at the time of the transactions. In case the average exchange rates of the accounting period is approximate the actual rate at the time of the transaction (the difference does not exceed 2%), apply the average exchange rate. In case the fluctuation margin of beginning and ending exchange rate exceeds 2%, apply the exchange rate as at the balance sheet date.

Exchange differences arising from the conversion of Financial Statements of the subsidiary are accumulated in the item of “owner’s equity” on the Consolidated Balance Sheet under the following convention:

- Exchange differences attributable to the Parent Company are presented in the item “Foreign exchange differences” under the owner’s equity item of the Consolidated Balance Sheet.
- Exchange differences attributable to non-controlling shareholders are presented in the item “Benefits of non-controlling shareholders”.

The exchange differences arising in relation to the conversion of goodwill not fully allocated as of the balance sheet date are counted for the Parent Company and are recorded in the item “Foreign exchange differences” under the owner’s equity item in the Consolidated Balance Sheet.

CONSOLIDATED FINANCIAL STATEMENTS

For the 3rd quarter of the fiscal period ending 31 December 2020

Notes to the Consolidated Financial Statements (cont.)

4. Cash and cash equivalents

Cash includes cash on hand and demand deposits in banks. Cash equivalents are short-term investments of which the due dates cannot exceed 03 months from the dates of the investments and the convertibility into cash is easy, and which do not have a lot of risks in the conversion into cash as of the balance sheet date.

5. Financial investments

Trading securities

Investments classified as trading securities are those held for the trading purpose with the aim of making profit.

Trading securities are recognized at costs. The costs are determined by the fair value of the payments at the time of the transaction plus other costs related to the purchase of trading securities.

The time of recognizing trading securities is when the Group acquires the ownership, as follows:

- For listed securities: recognized at the time of order-matching (T+0).
- For unlisted securities: recognized at the time of acquiring official ownership as stipulated by law.

Interest, dividends, and profit of the periods prior to the acquisition of trading securities are recorded as a decrease in the value of such securities. Interest, dividends and profit of the periods after the acquisition of such securities are recorded in the revenues. Particularly, the dividends paid in form of shares are not recorded as an increase in values, but the increasing quantity is followed up.

Convertible shares are determined on the basis of the fair value at the date of exchange. The fair value of the shares is determined as follows:

- For shares of listed companies: the closing price listed on the stock market at the date of exchange. In case where the stock market is not available for making transaction at the date of exchange, the fair value of shares is the closing price of the preceding transaction section with the date of exchange.
- For unlisted shares traded on UPCOM: the closing price on UPCOM at the date of exchange. In case where the UPCOM is not available for transaction at the exchange date, the fair value of shares is the closing price of the preceding transaction section with the date of exchange.
- For other unlisted shares: the price agreed by the parties under the contracts or the carrying value at the time of exchange.

Provisions for devaluation of trading securities are made for each particular type of securities in the market of which the fair value is lower than original costs. The fair value of the shares is determined as follows:

- For securities listed on the stock market: the closing price at the most recent trading date by the balance sheet date.
- For shares registered for trading on UPCOM: the average reference price in the 30 most preceding trading days prior to the balance sheet date, disclosed by Stock Exchange.
- For shares listed on the stock market or shares registered for trading on Upcom without transactions within 30 days prior to the date of provision, the shares which are delisted, canceled or suspended from trading: provision is made based on the losses of the investee at the rate equal to the difference between the actual capital invested by the owners and owner's equity as of the balance sheet date multiplying by the ownership rate over the total actual charter capital invested.

CONSOLIDATED FINANCIAL STATEMENTS

For the 3rd quarter of the fiscal period ending 31 December 2020

Notes to the Consolidated Financial Statements (cont.)

Increases/(decreases) in the provisions for devaluation of trading securities are recorded into "Financial expenses" as at the balance sheet date.

Gain or loss from transfer of trading securities is recorded into financial income or financial expenses. The costs are determined in accordance with the mobile weighted average method.

Held-to-maturity investments

Investments are classified as held-to-maturity investments that the Group intends and is able to hold to maturity. Held-to-maturity investments include term deposits (including debentures and promissory note), bonds, preferred shares that the issuer are required to re-purchase at a certain date in the future and held-to-maturity loans for the purpose of receiving periodical interest as well as other held-to-maturity investments.

Held-to-maturity investments are initially recognized at cost including the purchase cost and other transaction costs. After initial recognition, these investments are recorded at recoverable value. Interest from these held-to-maturity investments after acquisition date is recognized in the profit or loss on the basis of the interest income to be received. Interests arising prior to the Group's acquisition of held-to-maturity investments are recorded as a decrease in the costs as at the acquisition time.

When there are reliable evidences proving that a part or the whole investment cannot be recovered and the loss are reliably determined, the loss is recognized as financial expenses during the period while the investment value is derecognized.

Loans

Loans are measured at costs less allowance for doubtful debts, which is made on the basis of estimated losses.

Investments in joint ventures and associates

Joint ventures

A joint venture is an entity which is established by a contractual arrangement whereby the Group and the involved parties undertake an economic activity that is subject to joint control. Joint control is the contractually agreed sharing of control over an economic activity, and exists only when the strategic financial and operating decisions relating to the activity require the unanimous consent of the parties sharing control (the venturers).

The Group recognizes its interests in jointly-controlled entities in accordance with the equity method. Accordingly, contributed capital in joint ventures is initially recognized at original cost and then adjusted for the changes in the Group's ownership rate of net assets of jointly-controlled entities. The consolidated Income Statement reflects the Group's ownership in the financial performance of jointly-controlled entities. The Group stops using the equity method from the date it ceases to have the jointly-controlled right or significant influences on jointly-controlled entities.

The Financial Statements of the jointly controlled entity are prepared for the fiscal period that is the same as the Consolidated Financial Statements of the Group. In the case that the accounting policy of a jointly controlled entity is different from the accounting policy applied consistently in the Group, the Financial Statements of that jointly controlled entity will be properly adjusted before being used for the preparation of the Consolidated Financial Statements.

Unrealized profits/(losses) arising from transactions with jointly-controlled entities are eliminated in proportion to the amount under the Group's ownership in the preparation of the Consolidated Financial Statements.

CONSOLIDATED FINANCIAL STATEMENTS

For the 3rd quarter of the fiscal period ending 31 December 2020

Notes to the Consolidated Financial Statements (cont.)

Associates

An associate is an entity which the Group has significant influence but not the control to govern the financial and operating policies. Significant influence is the right to participate in making the associate's financial and operating policies but not control those policies.

Investments in associates are recorded as in the owner's equity method. Accordingly, the investment into associate is initially recorded at costs on the Consolidated Financial Statements and then adjusted for the post acquisition change in the Group's share of net assets of the associate. If the Group's share of loss of an associate exceeds or equals the carrying amount of an investment, the investment is then reported at nil (0) value on the Consolidated Financial Statements, except when the Group has obligations to pay on behalf of the associate to satisfy obligations of the associate.

The Financial Statements of the associate are prepared for the accounting period that is the same as the Consolidated Financial Statements of the Group. In the case that the accounting policy of an associate is different from the accounting policy applied consistently in the Group, the Financial Statements of that associate will be properly adjusted before being used for the preparation of the Consolidated Financial Statements.

Unrealized profits/(losses) arising from transactions with associates are eliminated in proportion to the amount under the Group's ownership in the preparation of the Consolidated Financial Statements.

Investments in equity instruments of other entities

Investments in equity instruments of other entities include such investments in equity instruments that the Group does not have the control, joint control or significant influence on these entities.

Investments in equity instruments of other entities are initially recognized at original costs, including the purchase price plus other directly attributable expenditure. Dividends and profits of the periods prior to the purchase of investments are recorded as a decrease in value of such investments. Dividends and profit of the periods after the purchase of investments are recorded into the sales. Particularly, the dividends paid in the form of shares are not recorded as an increase in values, but the increasing quantity is followed up.

Provisions for investments in equity instruments of other entities are made as follows:

- For investments in listed shares or the reliably determined fair value of investments, provisions are made on the basis of the market value of shares.
- For investments of which the fair value is unable to determine at the time of reporting, provisions are made on the basis of the losses of the invested entities at the rate equal to the difference between the actual capital invested by parties and the actual owner's equity multiplying (x) by the Group's rate of capital contribution in comparison with the total actual capital invested by parties.

Increases/(decreases) in the provisions for investments in equity instruments of other entities as of the balance sheet date are recorded into "Financial expenses".

6. Receivables

Receivables are recognized at the carrying amounts less allowances for doubtful debts.

The classification of receivables as trade receivables and other receivables is made according to the following principles:

GEMADEPT CORPORATION

Address: No. 6 Le Thanh Ton Street, Ben Nghe Ward, District 1, Ho Chi Minh City, Vietnam

CONSOLIDATED FINANCIAL STATEMENTS

For the 3rd quarter of the fiscal period ending 31 December 2020

Notes to the Consolidated Financial Statements (cont.)

- Trade receivables reflect receivables concerning the commercial nature arising from purchase and sale transactions between the Group and customers who are independent to the Group.
- Other receivables reflect receivables not concerning the commercial nature and irrelevant to purchase and sale transactions.

Allowance is made for each doubtful debt on the basis of estimated loss.

Increases/(decreases) in the obligatory allowance for doubtful debts as of the balance sheet date are recorded into "General and administration expenses"

7. Inventories

Inventories are recognized at the lower of cost or net realizable value.

Cost of inventories is determined as follows:

- For materials and merchandises: Costs comprise costs of purchases and other directly relevant costs incurred in bringing the inventories to their present location and conditions.
- Work-in-process: The item reflects the arisen expenses related to unfinished projects.
- For finished goods: Costs comprise costs of materials, direct labor and directly relevant general manufacturing expenses allocated on the basis of normal operations.

Stock-out costs are determined in accordance with the weighted average method and recorded in line with the perpetual method.

Net realizable value is the estimated selling price of inventories in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Allowance for inventories is recognized when their costs are higher than their net realizable values. For services in progress, allowance is recorded for each type of services with specific prices. Increases/(decreases) in the obligatory allowance for inventories as of the balance sheet date are recorded into "Costs of sales".

8. Prepaid expenses

Prepaid expenses comprise actual expenses arising but relevant to financial performance in several accounting periods. Prepaid expenses of the Group mainly include expenses for land use right transfer, land rental, repair expenses, expenses of dredging and maintaining ports and interest expenses for container financial lease. These prepaid expenses are allocated over the prepayment period or period of corresponding economic benefits generated from these expenses.

Expenses for land use right transfer

Expenses for land use right transfer represent the rental, consultancy fees and other expenses already prepaid for the land being used by the Group. Expenses for land use right transfer are allocated in line with the land lease period.

Land rental

Prepaid land rental reflects the rental already prepaid for the land being used by the Group. Prepaid land rental is allocated into expenses in accordance with the straight-line method corresponding with the lease term.

Repair expenses

Repair expenses arising once with high value are allocated into expenses in accordance with the straight-line method for the maximum period of 03 periods.

Interest expenses for container financial lease

GEMADEPT CORPORATION

Address: No. 6 Le Thanh Ton Street, Ben Nghe Ward, District 1, Ho Chi Minh City, Vietnam

CONSOLIDATED FINANCIAL STATEMENTS

For the 3rd quarter of the fiscal period ending 31 December 2020

Notes to the Consolidated Financial Statements (cont.)

Interest expenses for container financial lease are allocated into expenses in accordance with the straight-line method for the maximum period of 06 periods.

9. Operating leased assets

A lease is classified as an operating lease if it transfers substantially all the risks and rewards incident to ownership belonging to the lessor. The lease expenses are allocated in the Group's operation costs in accordance with the straight-line method over the lease term and do not depend on the method of lease payment.

10. Tangible fixed assets

Tangible fixed assets are determined by their historical costs less accumulated depreciation. Historical costs of tangible fixed assets include all the expenses paid by the Group to bring the asset to its working condition for its intended use. Other expenses arising subsequent to initial recognition are included into historical costs of fixed assets only if it can be clearly demonstrated that the expenditure has resulted in future economic benefits expected to be obtained from the use of these assets. Those which do not meet the above conditions will be recorded into operation expenses during the period.

When a tangible fixed asset is sold or disposed, its historical cost and accumulated depreciation are written off, then any gain or loss arising from such disposal is included in the income or the expenses during the period.

Tangible fixed assets are depreciated in accordance with the straight-line method over their estimated useful lives. The depreciation periods applied are as follows:

<u>Fixed assets</u>	<u>Periods</u>
Buildings and structures	05 – 40
Machinery and equipment	05 – 10
Vehicles	06 – 20
Office equipment	03 – 10

11. Financial leased assets

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incident to ownership belonging to the lessee. Financial leased assets are determined by their historical costs less accumulated depreciation. Historical cost is the lower cost of the fair value of the leased asset at commencement of the lease term and the present value of the minimum lease payments. Discount rate used to calculate the present value of the minimum lease payments is the interest rate implicit in the lease or else mentioned in the lease. If the interest rate implicit in the lease cannot be determined, the incremental borrowing rate at commencement of the lease term will be applied.

Financial leased assets are depreciated in accordance with the straight-line method over their estimated useful lives. If there is no reasonable certainty that the Group will obtain ownership at the end of the lease, the fixed asset shall be depreciated over the shorter of the lease term and the estimated useful life of the asset. The maximum depreciation periods of vehicles are 06 periods.

12. Intangible fixed assets

Intangible fixed assets are determined by their initial costs less accumulated amortization.

Initial costs of intangible fixed assets include all the costs paid by the Group to bring the asset to its working condition for its intended use. Other costs relevant to intangible fixed assets arising subsequent to initial recognition are included into operation costs during the period only if these costs are associated with a specific intangible fixed asset and result in future economic benefits expected to be obtained from the use of these assets.

GEMADEPT CORPORATION

Address: No. 6 Le Thanh Ton Street, Ben Nghe Ward, District 1, Ho Chi Minh City, Vietnam

CONSOLIDATED FINANCIAL STATEMENTS

For the 3rd quarter of the fiscal period ending 31 December 2020

Notes to the Consolidated Financial Statements (cont.)

When an intangible fixed asset is sold or disposed, its initial costs and accumulated amortization are written off, then any gain or loss arising from such disposal is included in the income or the expenses during the period.

Intangible fixed assets of the Group include:

Land use right

Land use right includes all the actual expenses paid by the Corporation directly related to the land being used such as expenses to obtain the land use right, compensation for house removal, land clearance and ground leveling, registration fees, etc. The land use right is permanent, so it is not amortized.

Computer software

Expenses attributable to computer software, which is not a part associated with the relevant hardware, will be capitalized. Costs of computer software include all the expenses paid by the Corporation until the date the software is put into use. Computer software is amortized in accordance with the straight-line method for the period from 03 to 08 periods.

Website design expenses

Website design expenses include all the expenses directly related to the development of the website. These expenses are amortized in accordance with the straight-line method in 03 periods.

13. Construction-in-progress

Construction-in-progress reflects the expenses (including relevant loan interest expenses following the accounting policies of the Group) directly related to assets under construction and machinery and equipment under installation to serve for production, leasing, and management as well as the repair of fixed assets in progress. These assets are recorded at historical costs and not depreciated.

Expenses incurred for poorly-grown trees shall be recorded as a decrease in other expenses during the period in the Consolidated Income Statement.

14. Business combination and goodwill

The business combination is accounted by applying acquisition method. The costs of business combination include the fair values as at the acquisition date of the exchanged assets, the incurred or assumed liabilities as well as the equity instruments issued by the Group in exchange for control of the acquiree, plus any cost directly attributable to the business combination. The acquired assets, the identifiable and contingent liabilities assumed from the business combination are recognized at their fair values as at the acquisition date.

If the business combination covers some accounting periods, the cost of business combination equals the total investment made at the date of obtaining the control of subsidiaries plus the amount of previous investments which are re-evaluated at fair value as at the date of obtaining the control of subsidiaries. The difference between the re-evaluated amount and the cost of investment shall be recorded in the financial performance provided that the Group does not have any significant influence on subsidiaries prior the date of obtaining the control and the investment in subsidiaries is presented in line with the cost method. In case where the Group has significant influence on the subsidiaries prior the date of obtaining the control the investment in subsidiaries is presented in line with the equity method, the difference between the re-evaluated amount and the cost of investment determined in line with the equity method shall be recorded in the financial performance; and the difference between the investment determined in line with the equity method and the cost of investment shall be directly recorded in "Retained earnings" of the Consolidated Balance Sheet.

The excess of the cost of business combination over the ownership share of the Group in the net fair value of the assets, the identifiable and contingent liabilities of acquiree which are recognized at the date obtaining the control of subsidiaries is recognized as goodwill. If the ownership share of

the Group in the net fair value of the assets, the identifiable and contingent liabilities of acquiree which are recognized at the date of obtaining the control of subsidiaries exceeds the cost of business combination, the difference will be included in the financial performance.

The goodwill is allocated according the straight-line method in 10 periods. When there is evidence that goodwill loss is more than the allocated amount, the allocated amount during the period is the loss incurred.

The benefit of non-controlling shareholders as at the date of business combination is initially measured on the basis of the ownership share of non-controlling shareholders in the fair values of the assets, the liabilities and the inherent liabilities recognized.

15. Payables and accrued expenses

Payables and accrued expenses are recorded for the amounts payable in the future associated with the goods and services already received. Accrued expenses are recorded based on reasonable estimates for the amounts payable.

The classification of payables as trade payables, accrued expenses and other payables is made on the basis of the following principles:

- Trade payables reflect payables of commercial nature arising from the purchase of goods, services, or assets, of which the seller is an independent entity with the Group.
- Accrued expenses reflect expenses for goods, services received from suppliers or supplied to customers but have not been paid, invoiced or lack of accounting records and supporting documents; pay on leave payable to employees; and accrual of operation expenses.
- Other payables reflect payables of non-commercial nature and irrelevant to purchase, sales of goods or provisions of services.

The payables and accrued expenses are classified as short-term and long-term items in the Consolidated Balance Sheet on the basis of their remaining term as of the balance sheet date.

16. Provisions for payables

Provisions are recorded when the Group has present obligations (legal or constructive) as a result of a past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and a reliable estimate can be made of the amount of the obligation.

If time causes material effects, the provisions will be determined by deducting the amount to be spent in future to settle the liability at the pre-tax discount rate that reflects the assessments of the time value of money and the specific risks from this liability in the current market. The increase in provisions due to the effect of time will be recognized as a financial expense.

Provisions payable of the Group is related to compensation for damages during transport.

17. Owner's equity

Capital

Capital is recorded according to the actual amounts invested by shareholders.

Share premiums

Share premiums are recorded in accordance with the difference between the issuance price and face value upon the IPO, additional issue or the difference between the re-issuance price and carrying value of treasury shares and the equity component of convertible bonds upon maturity date. Expenses directly related to the additional issue of shares and the re-issuance of treasury shares are recorded as a decrease in share premiums.

Other sources of capital

GEMADEPT CORPORATION

Address: No. 6 Le Thanh Ton Street, Ben Nghe Ward, District 1, Ho Chi Minh City, Vietnam

CONSOLIDATED FINANCIAL STATEMENTS

For the 3rd quarter of the fiscal period ending 31 December 2020

Notes to the Consolidated Financial Statements (cont.)

Other sources of capital are due to the supplementation from business profits, revaluation of assets and net carrying values between the fair values of the assets gifted or granted to the Group after deducting taxes payable (if any) related to these assets.

18. Profit distribution

Profit after tax is distributed to the shareholders after appropriation for funds under the Charter of the Corporation as well as legal regulations and approved by the General Meeting of Shareholders.

The distribution of profits to the shareholders is made with consideration toward non-cash items in the retained earnings that may affect cash flows and payment of dividends such as profit due to revaluation of assets contributed as investment capital, profit due to revaluation of monetary items, financial instruments and other non-cash items.

Dividends are recorded as payables upon approval of the General Meeting of Shareholders.

19. Recognition of sales and income

Sales of service provision

Sales of service provision shall be recognized when all of the following conditions are satisfied:

- The amount of sales can be measured reliably. When the contract stipulates that the buyer is entitled to return the services provided under specific conditions, sales is recognized only when these specific conditions are no longer existed and the buyer is not entitled to return the services provided.
- The Group received or shall probably receive the economic benefits associated with the provision of services.
- The stage of completion of the transaction at the end of reporting period can be measured reliably.
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

In the case that the services are provided in several accounting periods, the determination of sales during the period is done on the basis of the volume of work done as of the balance sheet date.

Income from leasing operating assets

Income from leasing operating assets is recognized in accordance with the straight-line method during the lease term. Rentals received in advance for several periods are allocated to revenues in consistence with the lease term.

Interest

Interest is recorded, based on the term and the actual interest rate applied in each particular period.

Dividends and profit shared

Dividends and profit shared are recognized when the Group has the right to receive dividends or profit from the capital contribution. Particularly, the dividends paid in form of shares are not recorded as an increase in value, but the increasing quantity is followed up.

20. Sales deductions

Sales deductions include trade discounts, sales allowances incurred in the same period of providing merchandises, services, in which revenues are derecognized.

In case of merchandises, services provided in the previous years but trade discounts, sales allowances incurred in the current year, revenues are derecognized as follows:

- If trade discounts, sales allowances incur prior to the release of the Consolidated Financial Statements, revenues are derecognized on the Consolidated Financial Statements of the current period.

GEMADEPT CORPORATION

Address: No. 6 Le Thanh Ton Street, Ben Nghe Ward, District 1, Ho Chi Minh City, Vietnam

CONSOLIDATED FINANCIAL STATEMENTS

For the 3rd quarter of the fiscal period ending 31 December 2020

Notes to the Consolidated Financial Statements (cont.)

- If trade discounts, sales allowances incur after the release of the Consolidated Financial Statements, revenues are derecognized on the Consolidated Financial Statements of the following period.

21. Borrowing costs

Borrowing costs are interests and other costs that the Group directly incurs in connection with the borrowing.

Borrowing costs are recorded as an expense when it is incurred. In case the borrowing costs are directly attributable to the construction or the production of an asset in progress, which takes a substantial period of time (over 12 months) to get ready for intended use or sales of the asset, these costs will be included in the cost of that asset. To the extent that the borrowings are especially for the purpose of construction of fixed assets and investment properties, the borrowing cost is eligible for capitalization even if construction period is under 12 months. Incomes arisen from provisional investments as loans are recognized as a decrease in the costs of relevant assets.

In the event that general borrowings are partly used for the acquisition, construction or production of an asset in progress, the costs eligible for capitalization will be determined by applying the capitalization rate to average accumulated expenditure on construction or production of that asset. The capitalization rate is computed at the weighted average interest rate of the borrowings not yet paid during the period, except for particular borrowings serving the purpose of obtaining a specific asset.

22. Expenses

Expenses are those that result in outflows of the economic benefits and are recorded at the time of transactions or when incurrence of the transaction is reliable regardless of whether payment for expenses is made or not.

Expenses and their corresponding revenues are simultaneously recognized in accordance with the matching principle. In the event that matching principle conflicts with the prudence principle, expenses are recognized based on the nature and regulations of accounting standards in order to guarantee that transactions can be fairly and truly reflected.

23. Corporate income tax

Corporate income tax includes current income tax and deferred income tax.

Current income tax

Current income tax is the tax amount computed based on the taxable income. Taxable income is different from accounting profit due to the adjustments of temporary differences between tax and accounting figures, non-deductible expenses as well as those of non-taxable income and losses brought forward.

Deferred income tax

Deferred income tax is the amount of corporate income tax payable or refundable due to temporary differences between book values of assets and liabilities serving the preparation of the Financial Statements and the values for tax purposes. Deferred income tax liabilities are recognized for all the temporary taxable differences. Deferred income tax assets are recorded only when there is an assurance on the availability of taxable income in the future against which the temporarily deductible differences can be used.

Carrying values of deferred corporate income tax assets are considered as of the balance sheet date and will be reduced to the rate that ensures enough taxable income against which the benefits from part of or all of the deferred income tax can be used. Deferred corporate income tax assets, which have not been recorded before, are considered as of the balance sheet date and are recorded when

CONSOLIDATED FINANCIAL STATEMENTSFor the 3rd quarter of the fiscal period ending 31 December 2020**Notes to the Consolidated Financial Statements (cont.)**

there is certainly enough taxable income to use these unrecognized deferred corporate income tax assets.

Deferred income tax assets and deferred income tax liabilities are determined at the estimated rate to be applied in the period when the assets are recovered or the liabilities are settled based on the effective tax rates as of the balance sheet date. Deferred income tax is recognized in the Income Statement. In the case that deferred income tax is related to the items of the owner's equity, corporate income tax will be included in the owner's equity.

The Group shall offset deferred tax assets and deferred tax liabilities if:

- The Group has the legal right to offset current income tax assets against current income tax liabilities; and
- Deferred income tax assets and deferred income tax liabilities are relevant to corporate income tax which is under the management of one tax authority either:
 - Of the same subject to corporate income tax; or
 - The Group has intention to pay current income tax liabilities and current income tax assets on a net basis or recover tax assets and settle tax liability simultaneously in each future period to the extent that the majority of deferred income tax liabilities or deferred income tax assets are paid or recovered.

24. Related parties

A party is considered a related party of the Group in case that party is able to control the Group or to cause material effects on the financial decisions as well as the operations of the Group. A party is also considered a related party of the Group in case that party is under the same control or is subject to the same material effects.

Considering the relationship of related parties, the nature of the relationship is focused more than its legal form.

Notes to the Consolidated Financial Statements (cont.)

Profit after tax of the Parent Company of the first 9 month of 2020 is over 314 billion dong, is lower than that in the same period last year for the amount of 136 billion dong. The main reasons are:

- Due to impact of Covid-19, accounting profit before tax from normal business activities decreases over 70 billion dong and profit from joint ventures and associates decreases over 62 billion dong;
- Loan interest expense increases over 5 billion dong.
