Ms. Doan Thi Thu	Deputy Chief Executive Officer	
Mr. Luu Duc Huy	Deputy Chief Executive Office	(Appointed on 11 January 2019)

BOARD OF EXECUTIVE OFFICERS' STATEMENT OF RESPONSIBILITY

The Board of Executive Officers of the Company is responsible for preparing the consolidated financial statements, which give a true and fair view of the consolidated financial position of the Company as at 31 December 2019, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to consolidated financial reporting. In preparing these consolidated financial statements, the Board of Executive Officers is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable accounting principles have been followed, subject to any material departures disclosed and explained in the consolidated financial statements;
- prepare the consolidated financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business; and
- design and implement an effective internal control system for the purpose of properly preparing and presenting the consolidated financial statements so as to minimize errors and frauds.

TNG INVESTMENT AND TRADING JOINT STOCK COMPANY

No. 434/1 Bac Kan Street, Hoang Van Thu District,
Thai Nguyen City, Thai Nguyen Province, Vietnam

STATEMENT OF THE BOARD OF EXECUTIVE OFFICERS (Continued)

The Board of Executive Officers is responsible for ensuring that proper accounting records are kept, which disclose, with reasonable accuracy at any time, the consolidated financial position of the Company and that the consolidated financial statements comply with Vietnamese accounting standards, accounting regime for enterprises and legal regulations relating to consolidated financial reporting. The Board of Executive Officers is also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of frauds and other irregularities.

The Board of Executive Officers confirms that the Company has complied with the above requirements in preparing these consolidated financial statements.

For and on behalf of the Board of Executive Officers,

Luong Thi Thuy Ha
Deputy Chief Executive Officer

Thai Nguyen, 23 March 2020

The Board of Directors approved the accompanying consolidated financial statements, which present fairly, in all material respects, the consolidated financial position of the Company as at 31 December 2019, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to consolidated financial reporting.

For and on behalf of the Board of Directors,

Nguyen Van Thoi
Chairman

Thai Nguyen, 23 March 2020

No.: 0995 /VN1A-HN-BC

INDEPENDENT AUDITORS' REPORT

**To: The Shareholders
The Board of Directors and Board of Executive Officers
TNG Investment and Trading Joint Stock Company**

We have audited the accompanying consolidated financial statements of TNG Investment and Trading Joint Stock Company (the "Company"), prepared on 23 March 2020 as set out from page 05 to page 33, which comprise the consolidated balance sheet as at 31 December 2019, the consolidated income statement and consolidated cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

The Board of Executive Officers' Responsibility for the consolidated financial statements

The Board of Executive Officers is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to consolidated financial reporting and for such internal control as the Board of Executive Officers determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Executive Officers, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

INDEPENDENT AUDITORS' REPORT (Continued)

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Company as at 31 December 2019, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to consolidated financial reporting.

Emphasis of Matter

As presented in Note 1 of Notes to the consolidated financial statements, the comparative figures are the figures of the Holding Company's audited financial statements for the year ended 31 December 2018. The comparative figures are presented for reference purpose, not for comparison purpose.

Our opinion is not modified in respect of this matter.

The significant accounting policies, which have been adopted by the Company in the preparation of these consolidated financial statements, are as follows:

Estimates

The preparation of consolidated financial statements in conformity with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to consolidated financial reporting requires the Board of Executive Officers to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the financial year. Although these accounting estimates are based on the Board of Executive Officers' best knowledge, actual results may differ from those estimates.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and enterprises controlled by the Company (its subsidiaries) up to 31 December each year. Control is achieved where the Company has the power to govern the financial and operating policies of an investee enterprise so as to obtain benefits from its activities.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used in line with those used by the Company.

Intragroup transactions and balances are eliminated in full on consolidation.

Non-controlling interests consist of the amount of those non-controlling interests at the date of the original business combination (see below) and the non-controlling interests' share of changes in equity since the date of the combination. Losses in subsidiaries are respectively attributed to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Business combinations

On acquisition, the assets and liabilities and contingent liabilities of a subsidiary are measured at their fair values at the date of acquisition. Any excess of the cost of acquisition over the fair values of the identifiable net assets acquired is recognised as goodwill. Any deficiency of the cost of acquisition below the fair values of the identifiable net assets acquired is credited to profit and loss in the period of acquisition.

The non-controlling interests are initially measured at the non-controlling shareholders' proportion of the net fair value of the assets, liabilities and contingent liabilities recognised.

Investments in associates

An associate is an entity over which the Company has significant influence and that is neither a subsidiary nor an interest in joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but not control or joint control over those policies.

The results and assets and liabilities of associates are incorporated in these financial statements using the equity method of accounting. Interests in associates are carried in the balance sheet at cost as adjusted by post-acquisition changes in the Company's share of the net assets of the associate. Losses of an associate in excess of the Company's interest in that associate (which includes any long-term interests that, in substance, form part of the Company's net investment in the associate) are not recognised.

Where a group entity transacts with an associate of the Company, unrealised profits and losses are eliminated to the extent of the Company's interest in the relevant associate.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Loan receivables

Loan receivables are measured at cost less provision for doubtful debts. Provision for doubtful debts relating to loan receivables is made in accordance with prevailing accounting regulations.

Receivables

Receivables represent the amounts recoverable from customers or other debtors and are stated at book value less provision for doubtful debts.

Provision for doubtful debts is made for receivables that are overdue for six months, or when the debtor is in dissolution, in bankruptcy, or is experiencing similar difficulties and so may be unable to repay the debt according to the Board of Executive Officers' assessment.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost comprises direct materials and where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Cost is calculated using the weighted average method. Net realisable value represents the estimated selling price less all estimated costs to completion and costs to be incurred in marketing, selling and distribution.

The evaluation of necessary provision for inventory obsolescence follows current prevailing accounting regulations which allow provisions to be made for obsolete, damaged, or sub-standard inventories and for those which have costs higher than net realisable values as at the balance sheet date.

Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less accumulated depreciation.

The costs of purchased tangible fixed assets comprise their purchase prices and any directly attributable costs of bringing the assets to their working condition and location for their intended use. The costs of self-constructed or manufactured assets are the actual construction or manufacturing cost plus installation and test running costs.

Tangible fixed assets are depreciated using the straight-line method over their estimated useful lives as follows:

	<u>Years</u>
Buildings and structures	4 - 40
Machinery and equipment	3 - 20
Office equipment	3 - 9
Motor vehicles	6 - 10
Others	5 - 7

Loss or gain resulting from sales and disposals of tangible fixed assets is the difference between profit from sales or disposals of assets and their residual values and is recognised in the consolidated income statement.

Intangible assets and amortisation

Land use rights

Intangible assets representing land use rights are stated at cost less accumulated amortisation. Land use rights are allocated over the duration of the right to use the land.

Computer software

Intangible assets representing computer software is measured initially at purchase price and amortized using the straight line method over their estimated useful life.

Inventory, payroll, production management and accounting management software are amortised using the straight-line method over the duration of 6 years.

Investment properties

Investment properties are composed a part of commercial area of TNG Village Building at Minh Cau street, Thai Nguyen city held by the Company to earn rentals, stated at cost less accumulated depreciation. The costs of self-constructed investment properties are the finally accounted construction or directly attributable costs of the properties.

Investment properties held to earn rentals are depreciated using the straight-line method over their estimated useful lives of 50 years.

Construction in progress

Properties in the course of construction for production, rental or administrative purposes, or for other purposes, are carried at cost. Cost includes professional fees, and related borrowing costs dealt with in accordance with the Company's accounting policy. Depreciation of these assets, on the same basis as other assets, commences when the assets are ready for their intended use.

Prepayments

Prepayments are expenses which have already been paid but relate to results of operations of multiple accounting periods. Prepayments include the expense which is paid to acquire the land use right, assets on land, good will and other types of prepayments.

The expense prepaid to acquire the land use right and assets on land is allocated to the consolidated income statement using straight-line method over the lease term.

Goodwill arising on acquisition represents the excess of the cost of acquisition over the Company's interest in the net fair value of the identifiable assets, liabilities and recognised contingent liabilities of the acquired company. The goodwill is allocated to consolidated income statement using straight-line method for the period of 3 years from the date of acquisition.

Other type of prepayments comprise costs of small tools, supplies and spare parts issued for consumption, advertising expenditures and insurance expenditures incurred during the operating stage of the Company which are expected to provide future economic benefits to the Company. These expenditures have been capitalised as prepayments, and are allocated to the consolidated income statement using the straight-line method in accordance with the current prevailing accounting regulations.

Payable provisions

Payable provisions are recognised when the Company has a present obligation as a result of a past event, and it is probable that the Company will be required to settle that obligation. Provisions are measured at the management's best estimate of the expenditure required to settle the obligation as at the balance sheet date.

Straight bond issued

Bonds are issued as long-term borrowings.

Carrying value of straight bonds is recorded on net basis, equal to bonds' nominal amount.

Convertible bonds

A convertible bond is a bond that can be converted into common stock of the same issuer under conditions specified in the issuance plan.

Costs relating to the issue of convertible bonds are amortised over the lives of the convertible bonds using the straight-line method and are recorded in the financial expenses. Periodically, costs relating to the issue of convertible bonds are recorded in the financial expenses in line with recognition of convertible bonds' interest expense.

Revenue recognition

Sales of goods

Revenue from the sale of goods is recognised when all five (5) following conditions are satisfied:

- (a) the Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- (b) the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- (c) the amount of revenue can be measured reliably;
- (d) it is probable that the economic benefits associated with the transaction will flow to the Company; and
- (e) the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Sales of real estate

Revenue from the sale of real estate which the Company is the investor is recognised when all five (5) following conditions are satisfied:

- (a) the real estate has been completed and transferred to the buyer, the Company has transferred to the buyer the significant risks and rewards of ownership of the real estate;
- (b) the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the real estate sold;
- (c) the amount of revenue can be measured reliably;
- (d) the economic benefits associated with the transaction flowed or will flow to the Company; and
- (e) the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenue from rendering of services

Revenue of a transaction involving the rendering of services is recognised when the outcome of such transactions can be measured reliably. Where a transaction involving the rendering of services is attributable to several years, revenue is recognised in the year by reference to the percentage of completion of the transaction at the balance sheet date of that year. The outcome of a transaction can be measured reliably when all four (4) following conditions are satisfied:

- (a) the amount of revenue can be measured reliably;
- (b) it is probable that the economic benefits associated with the transaction will flow to the Company;
- (c) the percentage of completion of the transaction at the balance sheet date can be measured reliably; and
- (d) the costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Interest income is accrued on a time basis, by reference to the principal outstanding and at the applicable interest rate.

Foreign currencies

Transactions arising in foreign currencies are translated at exchange rates ruling at the transaction date. The balances of monetary items denominated in foreign currencies as at the balance sheet date are retranslated at the exchange rates on the same date. Exchange differences arising from the translation of these accounts are recognised in the consolidated income statement.

Borrowing costs

Borrowing costs are recognised in the consolidated income statement in the year when incurred unless they are capitalised in accordance with Vietnamese Accounting Standard No.16 "Borrowing costs". Accordingly, borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the cost of those assets.

For specific borrowings for the purpose of construction of fixed assets, borrowing costs are capitalised even when the construction period is under 12 months. Other borrowing costs are recognised in the consolidated income statement when incurred.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible.

Deferred tax is recognised on significant differences between carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using balance sheet liability method. Deferred tax liabilities are generally recognised for all temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which deductible temporary differences can be utilised.

Deferred tax is calculated at the tax rates that are expected to apply in the year when the liability is settled or the asset realised. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same tax authority and the Company intends to settle its current tax assets and liabilities on a net basis.

The determination of the tax currently payable is based on the current interpretation of tax regulations. However, these regulations are subject to periodic variation and their ultimate determination depends on the results of the tax authorities' examinations.

Other taxes are paid in accordance with the prevailing tax laws in Vietnam.

4. CASH AND CASH EQUIVALENTS

	<u>Closing balance</u> VND	<u>Opening balance</u> VND
Cash on hand	1,198,591,671	601,453,628

Tax rate	0% and 20%	0%, 15% and 20%
Corporate income tax	52,937,411,936	34,307,549,178
Less: Expense for female employees	(303,300,000)	(261,000,000)
Current corporate income tax	52,634,111,936	34,046,549,178

31. BASIC EARNINGS PER SHARE

The calculation of the basic earnings per share as at 31 December 2019 is based on profit attributable to ordinary equity holders and weighted average number of ordinary shares in circulation in the year. Details are as below:

	Current year	Prior year
	VND	(Restated) (ii) VND
Accounting profit after corporate income tax	230,111,112,269	180,260,470,141
Appropriation to bonus and welfare funds, remuneration of the Board of Directors and Supervisory Board (i)	-	(17,124,744,663)
Profit or loss attributable to ordinary shareholders	230,111,112,269	163,135,725,478
Average ordinary shares in circulation for the year (share)	61,902,192	59,700,989
Basic earnings per share	3,717	2,733

(i) As at 31 December 2019, the Company had not estimated reliably the amount of profit appropriated to bonus and welfare funds. If the Company makes appropriation to bonus and welfare funds out of 2019 profit, profits to calculate the basic earnings per share would be reduced, accordingly.

(ii) The earnings per share ratio of 2018 was restated due to the effects from profits distributed to bonus and welfare funds, remuneration for Board of Directors and Supervisory Board in compliance with Circular No. 200/2014/TT-BTC issued on 22 December 2014 by Ministry of Finance, and from the payment of 2018 share dividends made in 2019, as follows:

	Reported amount	Adjustment from reported amount	Restated amount
	VND	VND	VND
Net profit after corporate income tax	180,260,470,141	-	180,260,470,141
Appropriation to bonus and welfare funds, remuneration of the Board of Directors and Supervisory Board (i)	-	(17,124,744,663)	(17,124,744,663)
Profit attributable to ordinary shareholders	180,260,470,141	(17,124,744,663)	163,135,725,478
Weighted average number of ordinary shares in circulation for the year (share)	49,340,180	10,360,809	59,700,989
Basic earning per share	3,653		2,733

Diluted earnings per share

The calculation of the diluted earnings per share attributable to ordinary shareholders of the Company is based on the following data:

	<u>Current year</u>	<u>Prior year</u>
	VND	VND
Profit for the year attributable to equity holders of the Company	230,111,112,269	163,135,725,478
Effect of dilutive potential ordinary shares (Convertible bonds) (share)	6,336,000,000	427,051,811
Earnings for the purposes of calculating diluted earnings per share	<u>236,447,112,269</u>	<u>163,562,777,289</u>
Weighted average number of ordinary shares for the purposes of calculating basic earnings per share (share)	61,902,192	59,700,989
Effect of dilutive potential ordinary shares (share)	11,956,522	794,123
Weighted average number of ordinary shares for the purposes of calculating diluted earnings per share (share)	<u>73,858,714</u>	<u>60,495,112</u>
Diluted earning per share	<u>3,201</u>	<u>2,704</u>

32. RELATED PARTY TRANSACTIONS AND BALANCES

During the year, the Company entered into the following significant transactions with its related parties:

	<u>Current year</u>	<u>Prior year</u>
	VND	VND
Remuneration of the Board of Executive Officers and Board of Directors	18,508,150,608	12,257,980,347
	<u>18,508,150,608</u>	<u>12,257,980,347</u>

33. SUPPLEMENTAL DISCLOSURES OF CASH FLOW INFORMATION

Supplemental non-cash disclosures

Cash outflows for purchases of fixed assets and construction in progress during the year exclude an amount of VND 31,375,248,834 (in 2018: VND 16,571,721,028), representing an addition in fixed assets and construction in progress during the year that has not yet been paid. Consequently, increase, decrease in accounts payable have been adjusted by the same amount.

34. SUBSEQUENT EVENTS

2019 dividend advance

According to Board of Directors' Resolution No. 55/NQ-HDQT dated 08 January 2020, the Board of Directors of the Company approved the cash dividend advance plan phase 1 for 2019 with the rate of 8% of par value per share (equivalent to VND 800/share), book closure date of 21 February 2020 and payment date of 06 March 2020.

Listing shares converted from convertible bonds

On 09 January 2020, Vietnam Securities Depository granted the securities registration certificate for the shares converted from convertible bonds issued on 12 December 2019 as presented in Note 21. On 25 February 2020, Hanoi Stock Exchange approved additional listing of share from the issuance for the Company.

Transfer of convertible bonds

On 11 March 2020, Mr. Nguyen Van Thoi – Chairman of the Company ("The Buyer") registered to buy 10 convertible bonds with total par value of VND 10 billion from Asam Vietnam Mezzanine Focus Hedge Fund 1 – the organization related to Mr. Kim Hwan Kyoon – Member of Board of Directors. Asam Vietnam Mezzanine Focus Hedge Fund 1 ("The Seller") registered to sell 10 convertible bonds which is equivalent to the purchase register. The Buyer and Seller are processing procedure related to the transfer of convertible bonds.

Impact of COVID-19

Due to impacts of COVID-19 disease outbreak, the Company's operating industries have been subject to risks of changes in garment market. Such significant changes may dramatically affect economic benefits and obligations of the Company. The Company's Board of Executive Officers assessed that market changes due to COVID-19 disease outbreak may have impact on the Company. Therefore, the Company's Board of Executive Officers has prudently monitored and evaluated the possible effects of this matter on the Company's operations in 2020.
