2. Supervision by the BoD over the BoM

Supervisory activities of the BoD over the BoM are carried out in accordance with the Internal Management Regulations, the Regulations on Organization and Operation of the BoD and the Regulation on Organization and Operation of the BoM. In addition, the CEO is concurrently a Board member. Therefore, he promptly acknowledges the orientations and directions of the BoD and effectively implements in the whole system of VietinBank. Supervisory activities of the BoD over the BoM are implemented through many forms such as:

- a) Participate in reporting sessions of the Committees under the BoD;
- b) Attend monthly meetings of the CEO;
- c) Monitor through the processing of information from reports of the Supervisory Board and Internal Audit Department on banking operations;
- d) Monitor through monthly business reports and other reports/proposals submitted by the BoM.

Through monitoring activities, it proves that the BoM timely implemented all the orientations and directions of the BoD as well as the tasks according to the assigned functions and duties.

Based on the orientation of the BoD with important strategic goals and business targets assigned to each unit throughout the system, the CEO developed and implemented specific tasks in each period to each BoM member, instructed each Division/Department/Board to implement, reported fully and promptly in writing to the BoD on the results of the assigned tasks and rights. In the first 6 months of 2020, the BoM closely monitored and regularly updated the macro-economic situation, market developments, orientations and directions of the Government, the State Bank of Vietnam (SBV) and the BoD to strictly and drastically implement business solutions, innovating the direction and administration methods.

In order to have a basis for implementing VietinBank's activities in accordance with risk appetite and ensuring safe, sustainable and effective growth, the CEO directed professional units to consult the BoD to build and organize the implementation of credit direction and criteria for risk control limits, to allocate risk limits according to each business line, to each division/business unit in the system.

At monthly meetings of the BoD, the CEO fully reported on VietinBank's activities; progresses and results of the implementation of Resolutions of the GMS, Resolutions and Decisions of the BoD; report on several topics as required by the BoD; status of implementation of the Risk Control Limit, the proposed measures when the Limit (s) was (were) in danger of being exceeded or the risk of generating an unanticipated material risk.

In the first 6 months of 2020, due to the impact of the COVID-19 pandemic, the economy in general, the banking industry and VietinBank in particular faced many difficulties and challenges. Following the direction of the BoD, the CEO instructed to promulgate internal documents to implement the restructuring of debt payment, exemption and reduction of interest, and maintain the debt group for customers affected by COVID-19 immediately after the Circular 01/2020/TT-NHNN dated March 13, 2020 takes effect. At the same time, the CEO directed the implementation of lending programs with preferential interest rates and fees, reduction of remittance fees ... to support and accompany businesses and customers to overcome this difficult time and gradually restore

business operations. In addition, anticipating regional economic development, VietinBank's BoD decided to establish the Southern Customer Center. This can be considered as a breakthrough solution in the overall and long-term development strategy of VietinBank. Under the direction of the BoD, the CEO directed the Center to increase the activeness and flexibility in the management and development of customers, boosting support to branches, promoting business activities of VietinBank in accordance with orientation and strategy, aiming at sustainable growth and ensuring efficiency.

3. Activities of the BoD's committees

As at 30/06/2020, VietinBank has 03 committees under the BoD namely Personnel Committee; Risk Management Committee (RMC) and Policy Committee. The establishment of these Committees complied with the regulations of the SBV and the provisions of law. For the 1st half of 2020, the Committees worked closely with relevant departments and units to effectively carry out their functions and duties according to their Regulations on Organization and Operation issued by the BoD respectively. Details are as follow:

- **Human Resource (HR) Committee:** is an advisory and assisting agency for the BoD on dealing with issues under the BoD's authority in developing personnel policies, recruiting, arranging and using personnel for titles under the BoD's authority; assisting the BoD in supervising the implementation of the personnel mechanism and policies as well as personnel management activities of VietinBank. In the first^t six months of 2020, HR Committee effectively advised the BoD in consolidating and supplementing personnel under the authority of the BoD at head office, branches, subsidiaries and non-business units to ensure compliance with the regulations and procedures of VietinBank. Regarding organizational structure model, HR Committee advised on the consolidation of the organizational model in the direction of streamlining, cutting down the focal points for handling work at the head office, specializing functional groups into divisions and enhancing the effectiveness of coordination among the units in the system, establishing the Center for Development of Financial Solutions for Corporate Customers under the Corporate Banking Division of VietinBank.
- **Risk Management Committee:** In the first 6 months of 2020, the complicated development of the COVID-19 pandemic impacted greatly on the operation of the banking system in general and VietinBank's activities in particular. With the role of advising the BoD on supervision of senior management over risk management, the Risk Management Committee (RMC) actively advised the BoD to issue important risk management policies in accordance with the pandemic development such as: adjustment of risks appetite in the period of 2019-2020; issuance of 2020 credit orientation; promulgation of the set of Credit Risk Control Limits 2020 ... In addition, the RMC also proposed to the BoD several risk management contents for the Board to direct and orient to professional units, ensuring continuous and safe business activities as well as strictly controlling credit quality in the context of the COVID-19 pandemic, in compliance with the provisions of Circular 01/2020/TT-NHNN dated 13 March 2020 regarding restructuring the repayment, exemption and reduction of interest rates and fees and keeping the debt category in order to support customers affected by COVID -19.
- **Policy Committee:** In the first 6 months of 2020, the Policy Committee agreed on the principle of issuing policy documents of the focal points, ensuring the quality in drafting and

submitting to the Management for promulgation. At the same time, the Policy Committee directed its professional teams to review the policy documents system to develop 2020 policy documents issuance plan in the direction of streamlining and standardizing the policy documents system, while complying with the provisions of law. These plans were reviewed and considered by HR department to assign KPI for the focal points to promote the effectiveness and timeliness in issuing policy documents. In addition, under the direction of VietinBank in applying “automation”, the Policy Committee asked its professional teams to review and standardize business processes (focusing on processes at branch level and center level, those require many operational steps), then propose to apply RPA (robotic process automation) technology to improve labor productivity, reduce operational time for employees as well as limit operational risks. Based on the review results, the Policy Committee and its professional teams chose to apply a number of highly feasible priority processes to propose to the BoD to implement as pilot cases, thereby considering wide range application, ensuring feasibility and effectiveness.
