**CPC EXPLAINS THE CAUSES LEADING TO
PROFIT DIFFERENCE OF MORE THAN 5% BEFORE AND
AFTER AUDIT**

CPC's post-audit profit after tax in 2024 reached over 10.00 billion VND, increasing by 9.30% compared to pre-audit figures.

Now, CPC would like to present the fundamental reasons for the aforementioned profit difference of more than 5% as follows:

- CPC's financial expenses in 2024 after audit decreased by 12.53% compared to before audit, which is the reason for the above profit difference.

In the context of the general difficulties of the whole economy, our Company has made efforts to save costs and utilize all resources, so it has exceeded both the profit after tax and revenue targets for the whole year 2024 compared to the plan assigned by the General Meeting of Shareholders.
