## INDEPENDENT AUDITORS' REPORT

To: **Shareholders**  
**The Boards of Directors and Executive Officers**  
**Sunshine Group Joint Stock Company**

We have audited the accompanying consolidated financial statements of Real Tech Group Joint Stock Company (the "Company") and its subsidiaries, prepared on 29 March 2025 as set out from page 05 to page 64 which comprise the consolidated balance sheet as at 31 December 2024, the consolidated statement of income, and consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

### ***Board of Executive Officers' Responsibility for the Consolidated Financial Statements***

The Board of Executive Officers is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting and for such internal control as the Board of Executive Officers determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditors' Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Executive Officers, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## INDEPENDENT AUDITORS' REPORT (Continued)

### *Opinion*

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Company as at 31 December 2024, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to consolidated financial reporting.

### *Emphasis of Matter*

As presented in Note 09 and Note 10 of Notes to the consolidated financial statements, the Company has extended the period to execute the contracts for share transfer and to collect interest from individuals due to the delay in related procedures.

Our opinion is not modified in respect of this matter.

#### Disclosure of information comparability in the consolidated financial statements

The comparative figures of the Company's audited consolidated financial statements for the year ended 31 December 2023.

## 2. ACCOUNTING CONVENTION AND FINANCIAL YEAR

### Accounting convention

The accompanying consolidated financial statements, expressed in Vietnam Dong (VND), are prepared under the historical cost convention and in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to consolidated financial reporting.

The consolidated financial statements are prepared based on consolidated of the separate financial statements of the Company and its subsidiaries' financial statements.

The accompanying consolidated financial statements are not intended to present the consolidated financial position, consolidated results of operations and cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam.

### Financial year

The Company's financial year begins on 01 January and ends on 31 December.

## 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies, which have been adopted by the Company in the preparation of these consolidated financial statements, are as follows:

### Estimates

The preparation of consolidated financial statements in conformity with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to consolidated financial reporting requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the financial year.

Although these accounting estimates are based on the management's best knowledge, actual results may differ from those estimates.

#### **Basis of consolidation**

The consolidated financial statements incorporate the financial statements of the Company and enterprises controlled by the Company (its subsidiaries) for the year ended 31 December 2023. Control is achieved where the Company has the power to govern the financial and operating policies of an investee enterprise so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated income statement from the effective date of acquisition or up to the effective date of disposal, as appropriate.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used in line with those used by the Company.

Intragroup transactions and balances are eliminated in full on consolidation.

Non-controlling interests consist of the amount of those non-controlling interests at the date of the original business combination (see below) and the non-controlling interests' share of changes in equity since the date of the combination. Losses in subsidiaries are respectively attributed to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

#### **Business combinations**

On acquisition, the assets and liabilities and contingent liabilities of a subsidiary are measured at their fair values at the date of acquisition. Any excess of the cost of acquisition over the fair values of the identifiable net assets acquired is recognised as goodwill. Any deficiency of the cost of acquisition below the fair values of the identifiable net assets acquired is credited to profit and loss in the period of acquisition.

The non-controlling interests are initially measured at the non-controlling shareholders' proportion of the net fair value of the assets, liabilities and contingent liabilities recognised.

#### **Business combinations under common control**

A business combination under common control is a business combination in which all enterprises are jointly controlled by one or more entities before and after a business combination, and this control is not transient. An enterprise may be controlled by an individual or group of individuals under a contractual agreement.

A business combination transaction under common control is carried out as follows:

- Assets and liabilities of entities are consolidated at carrying amount at the date of business combination;
- There is no goodwill arising from a business combination transaction;
- Consolidated income statement that reflects the results of business activities of the consolidated entities from the time of business combination;
- The difference between the cost of the business combination and the net asset value of the merged party is recognized in equity.

Adjusted net assets for unrealized profits (if any) at the date of consolidation under joint control.

Post-business combination, if the Company transfers and/or reduces its ownership interest in the investee, the difference between the consolidated price and the net assets previously recognized in equity will be allocated gradually and recognized in the retained earnings component of the consolidated balance sheet.

#### **Investments in associates**

An associate is an entity over which the Company has significant influence and that is neither a subsidiary nor an interest in joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but not control or joint control over those policies.

The results and assets and liabilities of associates are incorporated in these financial statements using the equity method of accounting. Interests in associates are carried in the balance sheet at cost as adjusted by post-acquisition changes in the Company's share of the net assets of the associate. Losses of an associate in excess of the Company's interest in that associate (which includes any long-term interests that, in substance, form part of the Company's net investment in the associate) are not recognised.

Where a group entity transacts with an associate of the Company, unrealised profits and losses are eliminated to the extent of the Company's interest in the relevant associate.

#### **Cash and cash equivalents**

Cash and cash equivalents comprise cash on hand, bank demand deposits and short-term, highly liquid investments (original term not exceeding 3 months) that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

#### **Financial investments**

##### ***Trading securities***

Trading securities are holds for trading purpose. Trading securities are recognised from the date the Company and its subsidiaries obtains the ownership of those securities and initially measured at the fair value of payments made at the transaction date plus directly attributable transaction costs.

In subsequent year, investments in trading securities are measured at cost less provision for impairment of such investments.

Provision for impairment of investments in trading securities is made in accordance with prevailing accounting regulations.

##### ***Held-to-maturity investments***

Held-to-maturity investments comprise investments that the Company and its subsidiaries has the positive intent or ability to hold to maturity. Held-to-maturity investments include term deposits, bonds.

Held-to-maturity investments are recognised on a trade date basis and are initially measured at acquisition price plus directly attributable transaction costs. Post-acquisition interest income from held-to-maturity investments is recognised in the consolidated income statement on accrual basis. Pre-acquisition interest is deducted from the cost of such investments at the acquisition date.

Held-to-maturity investments are measured at cost less for impairment of such investments.

Provision for impairment of held-to-maturity investments is made in accordance with prevailing accounting regulations.

***Loan receivables***

Loan receivables are measured at cost less provision for doubtful debts. Provision for doubtful debts relating to loan receivables is made in accordance with prevailing accounting regulations.

***Equity investments in other entities***

Equity investments in other entities represent the Company's investments in ordinary shares of the entities over which the Company has no control, joint control, or significant influence.

Equity investments in other entities are carried at cost less provision for impairment. Provisions for impairment of equity investments in other entities are made when there is strong evidence that there is a decrease in the value of these investments at the consolidated balance sheet date in accordance with current regulations.

***Receivables***

Receivables represent the amounts recoverable from customers or other debtors and are stated at book value less provision for doubtful debts.

Provision for doubtful debts is made for receivables that are overdue for six months or more, or when the debtor is in dissolution, in bankruptcy, or is experiencing similar difficulties and so may be unable to repay the debt.

***Inventories***

Inventories include finished construction of commercial apartment complex projects at plot CT03A-CT in plot CT03, Nam Thang Long phase III urban area, Phu Thuong Ward, Tay Ho District, Hanoi (Sunshine Riverside project), and at plots B1 & B4, Tan Phu ward, District 7, Ho Chi Minh City (Block S1, Sunshine Sky City project), construction in progress for the high-rise apartment building project with commercial services and low-rise residential land - townhouses with gardens located at Lot CT02A Nam Thang Long urban area - Phase III Phu Thuong Ward, Tay Ho District, Hanoi City (Sunshine Golden River project) and goods used for promotional purposes or gifts for customers receiving real estate transfer under the projects, tools, materials, and other goods for computer-related service business operations.

Finished inventories are accounted for using perpetual method and stated at the lower of cost and net realizable value. The cost of finished construction of Sunshine Riverside project and Sunshine Sky City project's Block S1 includes land use fees, land rental fee, site clearance and compensation cost, construction cost, borrowing cost, other direct and overhead costs that are incurred during project construction. The cost of work in progress and other finished goods includes direct material costs, direct labor costs, and overhead costs, if any, to bring the inventory to its current location and condition. The cost of raw materials, tools, and goods includes purchase costs and other expenses directly related to the purchase of raw materials, tools, and goods. Net realisable value represents the estimated selling price less all estimated costs to completion and costs to be incurred in marketing, selling and distribution.

The evaluation of necessary provision for inventory obsolescence follows current prevailing accounting regulations which allow provisions to be made for obsolete, damaged, or sub-standard inventories and for those which have costs higher than net realisable values as at the consolidated balance sheet date.

***Leasing***

All leases at the Company and its subsidiaries are considered operating leases. Leases where substantially all the rewards and risks of ownership of assets remain with the leasing company are accounted for as operating leases.

The Company as lessor

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

The Company as lessee

Leases where substantially all the rewards and risks of ownership of assets remain with the leasing company are accounted for as operating leases. Rentals payable under operating leases are charged to the income statement on a straight-line basis over the term of the relevant lease. Benefits received and receivable as an incentive to enter into an operating lease are also spread on a straight-line basis over the lease term.

**Tangible fixed assets and depreciation**

Tangible fixed assets are stated at cost less accumulated depreciation.

The costs of purchased tangible fixed assets comprise their purchase prices and any directly attributable costs of bringing the assets to their working condition and location for their intended use.

Tangible fixed assets are depreciated using the straight-line method over their estimated useful lives as follows:

	Years
Buildings and structures	5 - 50
Machinery, equipment	3 - 15
Motor vehicles	4 - 10
Office equipment	3 - 10

**Intangible assets and amortisation**

Intangible fixed assets representing software programs and other assets are stated at cost less accumulated amortisation. Intangible assets are amortized on a straight-line basis over their estimated useful lives, specifically as follows:

	Years
Software programs	3 - 15
Industrial property rights	27
Patents	10

**Investment properties and depreciation**

Investment property includes buildings, structures, and machinery and equipment under the Sunshine Riverside project; Block S1 and the floor space of the Commercial Center under the Sunshine Sky City project; buildings and structures under the Sunshine Golden River project; and the floor space of the King Palace Commercial Center under the King Palace mixed-use building project, consisting of commercial, service, office, hotel, apartment, and residential units for sale. These properties are held by the Company for the purpose of generating rental income. Investment property for rent is presented at cost less accumulated depreciation. The cost of self-constructed investment property is the value of the completed project or directly related costs, along with overhead costs allocated based on the corresponding area of the investment property.

The costs associated with investment properties subsequent to initial recognition are accounted for as the net book value of the investment properties when the Company is likely to achieve more economic benefits in the future than the initially assessed operating level of such investment properties.

Investment properties held to earn rentals are depreciated using the a straight-line method over their estimated useful lives as follows:

	Years
Building, structures	35 - 45
Machinery, equipment	10

#### Construction in progress

Properties in the course of construction for production, rental or administrative purposes, or for other purposes, are carried at cost; the cost includes any costs that are necessary to form the assets in accordance with the Company's accounting policy. Depreciation of these assets, on the same basis as other assets, commences when the assets are ready for their intended use.

#### Prepayments

Prepayments are expenses which have already been paid but relate to results of operations of multiple accounting years, including sales person's commissions, expenses of interest rate support, capital withdrawal commitment expenses and other prepayments.

Sales person's commissions, expenses of interest rate support incurred before the handover of real estates to customers are expected to provide future economic benefits to the Company and its subsidiaries and are allocated to the consolidated income revenue form real estate tranfer is recognized.

Capital withdrawal commitment costs arise when the Company and its subsidiaries borrows capital from banks. These expenditures are allocated to the consolidated income statement throughout the loan term.

#### Revenue recognition

##### *Revenue from the sales of real estate*

Revenue from the transfer of real estate and investment properties under Sunshine Riverside Project, Sunshine Sky City Project and Sunshine Golden River Project is recognised when all five (5) following conditions are satisfied:

- (a) the real estate has been completed and transferred to the buyer, the Company has transferred to the buyer the significant risks and rewards of ownership of the real estate;
- (b) the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the real estate sold;
- (c) the amount of revenue can be measured reliably;
- (d) the economic benefits associated with the transaction flowed or will flow to the Company; and
- (e) the costs incurred or to be incurred in respect of the transaction can be measured reliably.

For the real estate properties where the Company and its subsidiaries are the investors; customers have the right to complete the interior of the property, and the Company carries out the interior completion according to the design, style, and requirements of the customers, the Company shall recognize revenue upon completion and delivery of the unfinished part of the property to the customer, provided that all five conditions mentioned above are met.

##### *Revenue from sales of goods*

Revenue from the sale of goods is recognised when all five (5) following conditions are satisfied:

- (a) the Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- (b) the Company retains neither continuing managerial involvement to the degree usually associated with; ownership nor effective control over the goods sold;

- (c) the amount of revenue can be measured reliably;
- (d) it is probable that the economic benefits associated with the transaction will flow to the Company; and
- (e) the costs incurred or to be incurred in respect of the transaction can be measured reliably.

***Revenue for services rendered***

Revenue of a transaction involving the rendering of services is recognised when the outcome of such transactions can be measured reliably. In the event that transaction involving the rendering of services is attributable to several years, revenue is recognised in each year by reference to the percentage of completion of the transaction at the consolidated balance sheet date of that year. The outcome of a transaction can be measured reliably when all four (4) following conditions are satisfied:

- (a) the amount of revenue can be measured reliably;
- (b) it is probable that the economic benefits associated with the transaction will flow to the Company;
- (c) the percentage of completion of the transaction at the consolidated balance sheet date can be measured reliably; and
- (d) the costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

***Revenue from securities trading activities***

Revenue from securities business includes revenue from securities brokerage activities; securities depository; investment advice; underwriting, securities issuance agency and other activities.

***Securities brokerage activities for investors and securities depository activities***

Revenue from securities brokerage and securities depository activities is recognized in the consolidated income statement when all four (4) of the following conditions are satisfied:

- (a) the amount of revenue can be measured reliably;
- (b) securities brokerage or depository services;
- (c) the percentage of completion of the transaction at the consolidated balance sheet date can be measured reliably; and
- (d) the costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

***Other revenue***

Other revenue is recognized in the consolidated income statement on an accrual basis.

Revenue related to multiple accounting years are recognized on a schedule or amortized on a straight-line basis over the term of the service. Unallocated value is recognized as unearned revenue in the consolidated financial statements.

***Financial income***

Gain from the transfer of financial investments is recognized when the Company completes the transaction and is measured at the difference between the transfer price and the carrying amount of the investments.

Interest on deposits and loans is recognized on an accrual basis, which is determined on the balance of the deposit and loan accounts and the applicable interest rate.

Dividend income from investments is recognised when the Company's right to receive payment has been established.

***Unearned revenue***

Unrealized revenue includes depository fee, collateral management fee, bonholders' representative fee received in advance from customers for many accounting periods, and building management service fee for under Sunshine Riverside project and Block S1 of Sunshine Sky City project.

Depository fees and collateral management fees are amortized to the consolidated income statement using the straight-line method over the prior payment term.

Fees for building management services are recognized as unrealized revenue at the time of apartment handover to customers and periodically amortized to the consolidated income statement according to relevant agreement terms.

#### **Sales deductions**

Sales deductions include trade discounts.

Sales deductions incurred in the same year of the related revenue from sales of products, goods and rendering of services are recorded as a deduction from the revenue of that year/period. In case that sales deductions for sales of products, goods or rendering of services sold in the year incurred after the balance sheet date but before the issuance of the financial statements, the Company recorded as revenue deductions for the year.

#### **Borrowing costs**

Borrowing costs are recognised in the consolidated income statement in the year when incurred unless they are capitalised in accordance with Vietnamese Accounting Standard No. 16 "Borrowing costs". Accordingly, borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial year of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the cost of those assets. For specific borrowings for the purpose of construction of fixed assets and investment properties, borrowing costs are capitalised even when the construction period is under 12 months.

#### **Taxation**

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the consolidated income statement because it excludes items of income or expense that are taxable or deductible in other years (including loss carried forward, if any) and it further excludes items that are never taxable or deductible.

Deferred tax is recognised on significant differences between carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using balance sheet liability method. Deferred tax liabilities are generally recognised for all temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which deductible temporary differences can be utilised.

Deferred tax is calculated at the tax rates that are expected to apply in the year when the liability is settled or the asset realised. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same tax authority and the Company intends to settle its current tax assets and liabilities on a net basis.

The determination of the tax currently payable is based on the current interpretation of tax regulations. However, these regulations are subject to periodic variation and their ultimate determination depends on the results of the tax authorities' examinations.

Other taxes are paid in accordance with the prevailing tax laws in Vietnam.

The parties will share the business results after

tax of the project, with the profit sharing ratio corresponding to the ratio of the BCC parties' contribution to the project's total investment capital. The capital recipient shall return the received fund or the remaining of the received fund to the capital contributors every 36 months from the fund receipt date. The profit of the capital contributors shall, in all cases, not be lower than 39% of the contributed capital value. Additionally, every 3 months before the profit-making period, a return amount of at least 2.5% of the contributed capital value (minimum profit share) will be advanced. For the year ended 31 December 2024, Sunshine Sky Villa Joint Stock Company has temporarily recognized a profit payable amount of VND 51,483,307,041 to the capital contributors and has paid VND 28,000,000,000, which is calculated at the rate of 13% per annum.
