Profits after corporate income tax	4,670	4,113	557	13.54

- In the first quarter of 2025, due to the continuous downward fluctuations in the prices of raw materials such as soybean meal and corn... domestically and internationally. The company did not actively promote trading activities in this segment, as a result revenue and gross profit decreased compared to the same period last year.

- In addition, the company focused on short-term financial investments, which yielded positive results. As a result, profit after tax increased by 13.54% compared to the same period last year.
