# **PETROSETCO DISTRIBUTION JOINT STOCK COMPANY**

## **Consolidated Financial Statements**

For the accounting period from 01 January 2025 to 31 March 2025

### **NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**

**FORM B 09-DN**

*These notes form an integral part of and should be read in conjunction with the accompanying financial statements*

#### **1. GENERAL INFORMATION**

Petrosetco Distribution Joint Stock Company ("the Company") was formerly known as Petroleum General Distribution Services One Member Company Limited, which was incorporated with the origination of Petroleum Telecommunication Enterprise in accordance with enterprise registration certificate No. 0305482862 dated 4 February 2008.

According to the Resolution No. 28/NQ-DVTHDK dated 13 September 2011 of PetroVietnam General Services Joint Stock Corporation ("Petrosetco"), its parent company, on the restructuring plan of Petrosetco, Petroleum General Distribution Services One Member Company Limited was transformed into a joint stock company. The Company has officially operated under a joint stock company according to the 6th amended enterprise registration certificate No. 0305482862 dated 7 November 2011 and the following amended enterprise registration certificates issued by the Department of Planning and Investment of Ho Chi Minh City.

On 28 June 2013, the Company's shares were listed on the Hanoi Stock Exchange with the stock trading code "PSD".

The principal activities of the Company are trading of telecommunication equipments; wholesale of computers and equipments; wholesale of toys, game products; computers and peripheral equipments repairing services; supporting services including freight formatting services, logistic services.

#### **2. BASIS OF PREPARATION OF SEPARATE FINANCIAL STATEMENTS AND FISCAL YEAR**

##### **Basis of preparation of consolidated financial statements**

The consolidated financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System and applicable regulations on preparation and presentation of financial statements. The consolidated financial statements have been prepared under the historical cost convention.

##### **Fiscal year**

The Company's fiscal year is from 1 January to 31 December.

The consolidated financial statements are prepared for the period from 1 January to 31 March.

#### **3. APPLYING NEW ACCOUNTING POLICIES**

On 22 December 2014, Ministry of Finance issued Circular 200/2014/TT-BTC (Circular 200) providing guidance on Corporate Accounting System applicable for all types of enterprises in all sectors. Circular 200 became effective on 5 February 2015 and applies for the financial year beginning on or after 1 January 2015 and replaces the Corporate Accounting System issued in accordance to Decision 15/2006/QĐ-BTC and Circular 244/2009/TT-BTC. The Board of Directors evaluated that Circular 200 does not have a critical impact on the Company's financial statements for the accounting period from 01 January 2025 to 31 March 2025.

#### **4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

##### **Critical accounting estimates**

The preparation of consolidated financial statements in conformity with Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System and applicable regulations on preparation and presentation of consolidated financial statements requires the Director to make estimates and

*These notes form an integral part of and should be read in conjunction with the accompanying financial statements*

assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the year.

Such estimates and assumptions are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are assessed by the Director to be reasonable under the circumstances.

#### **Basis of consolidation**

Subsidiaries are all entities over which the Group have the power to govern the financial and operating policies in order to gain future benefits from their activities generally accompanying a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity. Subsidiary is fully consolidated from the date on which control is transferred to the Group. It is de-consolidated from the date that control ceases.

The purchase method of accounting is used to account for the acquisition of subsidiaries by the Group. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the acquisition. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any non-controlling interest. The excess of the cost of acquisition over the fair value of the Group's share of the identifiable net assets acquired is recorded as goodwill. If the cost of acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognised directly in the consolidated income statement.

In a multi-phase acquisition, when determining goodwill or bargain purchase, the consideration is the sum of the total consideration on the date of acquiring control and previous considerations remeasured to fair value on the date of control acquisition.

Inter-company transactions, balances and unrealised gains and losses on transactions between group companies are eliminated. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

The financial statements of the Group is prepared for the same accounting period. If there are differences in end dates, the gap must not exceed 3 months. Adjustments are made to reflect impacts of significant transactions and events occurring between the end dates of the subsidiaries' accounting period and that of the Group. The length of the reporting period and differences in reporting date must be consistent between years.

The Group apply a policy for transactions with non-controlling interests ("NCI") as transactions with external parties to the Group.

NCI are measured at their proportionate share of the acquiree's identifiable net assets at date of acquisition.

The divestment of the Group's interest in a subsidiary that does not result in a loss of control is accounted for as a transactions with owners. The difference between the change in the Group's share of net assets of the subsidiary and any consideration paid or received from divestment of Company's interest in a subsidiary is recorded directly in the undistributed earnings under equity.

In a divestment of the Group's interest in a subsidiary that results in a loss of control, the difference between the share of the Group in the net assets of the subsidiary and the net proceeds from divestment is recognised in the consolidated income statement. The retained interest in the entity will be accounted for as either an investment in an other entity or investment to be equity accounted for since the divestment date.

#### **Cash and cash equivalents**

Cash and cash equivalents comprise cash on hand, cash at banks and other short-term investments with an original maturity of three months or less.

## Consolidated Financial Statements

For the accounting period from 01 January 2025 to 31 March 2025

### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

FORM B 09-DN

*These notes form an integral part of and should be read in conjunction with the accompanying financial statements*

#### Receivables and Provision for doubtful debts

Receivables represent trade receivables from customers arising from sales of goods or non-trade receivables from others and are stated at cost. Provision for doubtful debts is made for each outstanding amount based on overdue days in payment according to the initial payment commitment (exclusive of the payment rescheduling between parties), or based on the estimated loss that may arise.

#### Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined by the weighted average method and includes all costs of purchase and other costs incurred in bringing the inventories to their present location and condition. Net realisable value is the estimated selling price in the normal course of business, less the estimated costs of completion and selling expenses.

Provision is made, when necessary, for obsolete, slow-moving and defective inventory items. The difference between the provision of this year and the provision of the previous year is recognised as an increase or decrease of cost of goods sold in the year.

#### Tangible and intangible fixed assets

Fixed assets are stated at historical cost less accumulated depreciation or amortisation. Historical cost includes expenditure that is directly attributable to the acquisition of the fixed assets bringing them to suitable conditions for their intended use. Expenditure which is incurred subsequently and has resulted in an increase in the future economic benefits expected to be obtained from the use of fixed assets, can be capitalised as an additional historical cost. Otherwise, such expenditure is charged to the consolidated income statement when incurred in the year.

Fixed assets are depreciated and amortised using the straight-line basis so as to write off the depreciable amount of the fixed assets over their estimated useful lives. Depreciable amount equals to the historical cost of fixed assets recorded in the interim consolidated financial statements minus (-) the estimated disposal value of such assets. The principal annual rates of each asset class are as follows:

Machinery, equipment	20%/year
Motor vehicles	16.67%/year
Office equipment	20 - 33%/year
Software	20%/year

#### Revenue recognition

Revenue from sale of goods is recognised in the consolidated income statement when all five (5) of the following conditions are satisfied:

- The Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Company; and
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due or the possible return of goods.

# **PETROSETCO DISTRIBUTION JOINT STOCK COMPANY**

## **Consolidated Financial Statements**

For the accounting period from 01 January 2025 to 31 March 2025

### **NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**

**FORM B 09-DN**

*These notes form an integral part of and should be read in conjunction with the accompanying financial statements*

#### **4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

##### **Exchange rates**

Transactions arising in foreign currencies are translated at exchange rates prevailing at the transaction dates. Foreign exchange differences arising from these transactions are recognised in the consolidated income statement.

Monetary assets and liabilities denominated in foreign currencies at the consolidated balance sheet date are respectively translated at the buying and selling exchange rates at the consolidated balance sheet date of the commercial banks with which the Company regularly transacts. Foreign currencies deposited in banks at the consolidated balance sheet date are translated at the buying exchange rate of the commercial banks with where the Company opens its foreign currency accounts. Foreign exchange differences arising from these translations are recognised in the consolidated income statement.

##### **Borrowings**

Borrowings include borrowings from banks.

Borrowings are classified into short-term and long-term based on remaining period from the consolidated balance sheet date to the maturity date.

Borrowing costs are recognised in the consolidated income statement when incurred.

##### **Provisions**

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation and the amount has been reliably estimated. Provision is not recognised for future operating losses.

Provisions are measured at the level of the expenditures expected to be required to settle the obligation. If the time value of money is material, provision will be measured at the present value using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as a financial expense. Changes in the provision balance during the year are recorded as an increase or decrease in consolidated operating expenses.

##### **Current and deferred income tax**

Income taxes includes all income taxes which is based on taxable profits. Income tax expense comprises current income tax expense and deferred income tax expense.

Current income tax is the amount of income taxes payable or recoverable in respect of the current year taxable profits at the current year tax rates. Current and deferred tax are recognised as an income or an expense and included in the profit or loss of the year, except to the extent that the tax arises from a transaction or event which is recognised, in the same or a different year, directly in equity.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. Deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of occurrence affects neither the accounting nor the taxable profit or loss. Deferred income tax is determined at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantively enacted by the consolidated balance sheet date.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.
