The primary reasons for this improvement were the increase in financial income and the decrease in financial expenses, specifically as follows:

- Financial income for the first quarter of 2025 increased by VND 18.503 billion, equivalent to 295.44% compared to the same period of the previous year, mainly due to the increase in foreign exchange gains during the first quarter of 2025 compared to the same period last year.
- Financial expenses for the first quarter of 2025 decreased by VND 14.338 billion, equivalent to 58.90% compared to the same period of the previous year, primarily due to the decrease in foreign exchange losses during the first quarter of 2025 compared to the same period last year.

In order to address the challenges and mitigate accumulated losses in the forthcoming period, the Board of Directors of Petrocons has formulated the following strategic directions and remedial measures:

The Board of Directors of Petrocons is fully aware of the challenges the company is facing and has been taking steps to overcome them. Accordingly, with the support of PetroVietNam and its member units, Petrocons has been actively reviewing, developing, and implementing solutions to address difficulties, restore, and stabilize its business operations. The following specific solutions are planned for the upcoming period:

- Demonstrating resolute management in the execution of construction works across all projects undertaken by Petrocons and its subsidiaries.
- Proactively engage in marketing and bidding activities to seek and secure additional work sources.
- Continue implementing the comprehensive restructuring of Petrocons in alignment with the orientation approved by PetroVietNam, focusing on transforming the parent company into a direct participant in production and business activities within the construction sector. The parent company will play a strategic role in guiding the operations of its subsidiaries, divest all investments in entities outside Petrocons' core business sectors, and enhance its management, supervision, and operational oversight to ensure improved efficiency in the performance of subsidiaries and the effective utilization of Petrocons' investment capital.
- Take resolute measures in reviewing, reconciling, and recovering receivables, and develop detailed plans for debt recovery and resolution on a monthly and quarterly basis. These efforts aim to reclaim capital to ensure the continuity of production and business activities while minimizing financial costs arising from capital being tied up.
- Actively engage with PetroVietNam, its member units, and relevant state regulatory authorities to expedite the approval of additional costs incurred in projects in which Petrocons is currently participating
- Proactively and actively engage with banks and financial institutions to restructure debts, negotiate lower loan interest rates, and arrange sufficient capital to support production and business activities, as well as to release guarantees in the upcoming period
