Financial assets and financial liabilities are not revalued according to fair value at the year ended because Circular No. 210/2009/TT-BTC and prevailing statutory regulations require to present Financial Statements and additional note for financial instruments but do not provide any relevant instructions for assessment and recognition of fair value of financial assets and liabilities, excluding provisions for bad debts and provision for devaluation of securities investments which are presented in relevant notes.

Financial risk management

The Company's financial risks including market risk, credit risk and liquidity risk. The Company has developed its control system to ensure the reasonable balance between cost of incurred risks and cost of risk management. The Board of Directors and The Management Board of the Company is responsible for monitoring the risk management process to ensure the appropriate balance between risk and risk control.

Market risk

The Company's business operations will bear the risks of changes on prices, exchange rates and interest rates.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS**FORM B 09-DN***These notes are an integral part of and should be read in conjunction with the accompanying Separate financial statements***Price Risk**

The Company bears price risk of equity instruments from short-term and long-term security investments due to uncertainty on future prices of the securities. Long-term securities are held for long-term strategies, at the end of the fiscal year, the Company has no plans to sell these investments.

Exchange rate risk

The Company bears the risk of exchange rate due to fluctuation in fair value of future cash flows of a financial instrument according to changes in exchange rates if loans, revenues and expenses of the Company are done in foreign currencies other than VND.

Interest rate risk

The Company bears the risk of interest rates due to fluctuation in fair value of future cash flow of a financial instrument according to changes in market interest rates if the Company has time or demand deposits, loans and debts subject to floating interest rates. The Company manages interest rate risk by analyzing the market competition situation to obtain any interest profitable for its operation purpose.

Credit Risk

Credit risk is risk in which the potential loss may be incurred if a counterpart fails to perform its obligations under contractual terms or financial instruments. The Company has credit risk from operating activities (mainly for trade receivables) and financial activities (including bank deposits, loans and other financial instruments).
