## 2 . ACCOUNTING SYSTEM AND ACCOUNTING POLICY

### 2.1 . Accounting period and accounting currency

Annual accounting period commences from 1st January and ends as at 31st December.

The Company maintains its accounting records in VND.

### 2.2 . Standards and Applicable Accounting Policies

#### *Applicable Accounting Policies*

The Company applies Corporate Accounting System issued under Circular No. 200/2014/TT-BTC dated December 22, 2014 of the Minister of Finance and the Circular No. 53/2016/TT-BTC dated 21 March 2016 issued by Ministry of Finance amending and supplementing some articles of the Circular No. 200/2014/TT-BTC.

*Declaration of compliance with Accounting Standards and Accounting System*

The Company applies Vietnamese Accounting Standards and supplement documents issued by the State. General Financial Statements are prepared in accordance with regulations of each standard and supplement documents as well as with current Accounting Standards and Accounting System.

**2.3 . Basis for preparation of General Financial Statements**

General Financial Statements are presented based on historical cost principle.

General Financial Statements of the Company are prepared based on summarization of transactions incurred dependent accounting entities and at the offices of the Company.

**2.4 . Accounting estimates**

The preparation of General Financial Statements in conformity with Vietnamese Accounting Standards, Vietnamese Corporate Accounting System and legal regulations relating to financial reporting requires the Board of Management to make estimates and assumptions that affect the reported amounts of liabilities, assets and disclosures of contingent liabilities and assets at the end of the fiscal year and the reported amounts of revenues and expenses during the fiscal year.

The estimates and assumptions that have a material impact in the General Financial Statements include:

- Provision for doubtful debts;
- Provision for devaluation of inventories;
- Estimated useful life of fixed assets;
- Estimated allocation of prepaid expenses;
- Estimated corporate income tax.

Such estimates and assumptions are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are assessed by the Board of Management to be reasonable under the circumstances.

**2.5 . Financial Instruments***Initial recognition**Financial assets*

Financial assets of the Company include cash and cash equivalents, trade receivables and other receivables. At initial recognition, financial assets are identified by purchasing price/issuing cost plus other expenses directly related to the purchase and issuance of those assets.

*Financial liabilities*

Financial liabilities of the Company include borrowings, trade payables and other payables, accrued expenses. At initial recognition, financial liabilities are determined by issuing price plus other expense directly related to the issuance of those liabilities.

*Subsequent measurement after initial recognition*

Financial assets and financial liabilities are not revalued according to fair value at the end of the year because the Circular No. 210/2009/TT-BTC and prevailing statutory regulations require to present Financial Statements and Notes to financial instruments but do not provide any relevant instruction for assessment and recognition of fair value of financial assets and liabilities.

**2.6 . Foreign currency transactions**

Foreign currency transactions during the year are translated into Vietnam Dong using the actual rate at transaction date.

Actual exchange rate when revaluating monetary items denominated in foreign currencies at the reporting date of General Financial Statements is determined on the following principles:

- For asset accounts, applying the bid rate of the commercial bank where the Company regularly conducts transaction;
- For cash deposited in bank, applying the bid rate of the commercial bank where the Company opens its foreign currency
- For liability accounts, applying the offer rate of the commercial bank where the Company regularly conducts transaction.

All exchange differences arising as a result of transactions or revaluation at the balance sheet date shall be recorded into the financial income or expense in the year.

## 2.7 . Cash and cash equivalents

Cash comprises cash on hand, demand deposits.

Cash equivalents are short-term investments with the maturity of not over than 3 months from the date of investment, that are highly liquid and readily convertible into known amount of cash and that are subject to an insignificant risk of conversion into cash.

## 2.8 . Financial investments

*Investments held to maturity* comprise term deposits (including treasury bills and promissory notes), bonds, preference shares which the issuer is required to repurchase at a certain time in the future and loans, etc. held to maturity to earn profits periodically and other held to maturity investments.

The provision for doubtful debts shall be made based on the recovery capacity in accordance with statutory regulations.

## 2.9 . Receivables

The receivables shall be kept records in details according to period receivables, entities receivables, types of currency receivable and other factors according to requirements for management of the Company. The receivables shall be classified into short-term receivables or long-term receivables on the General Financial Statements according to their remaining terms at the reporting date.

The provision for doubtful debts is made for receivables that are overdue under an economic contract, a loan agreement, a contractual commitment or a promissory note and for receivables that are not due but difficult to be recovered. Accordingly, the provisions for overdue debts shall be based on the due date stipulated in the initial sale contract, exclusive of the debt rescheduling between contracting parties and the case where the debts are not due but the debtor is in bankruptcy, in dissolution, or missing and making fleeing.

## 2.10 . Inventories

Inventories are initially recognized at original cost including purchase price, processing cost and other costs incurred in bringing the inventories to their location and condition at the time of initial recognition. After initial recognition, at the reporting date, inventories are stated at the lower of cost and net realizable value.

The net realizable value is estimated based on the selling price of the inventory, less estimated costs to complete the products and estimated costs to sell the products.

The cost of inventory for motor vehicles is calculated using the specific identification method.

The cost of inventory for others goods is calculated using weighted average method.

Provision for devaluation of inventories made at the end of the year is based on the excess of original cost of inventory over their net realizable value.

## 2.11 . Fixed assets

Fixed assets (tangible and intangible) are initially stated at the historical cost. During the using time, fixed assets (tangible and intangible) are recorded at cost, accumulated depreciation and carrying amount.

### *Subsequent measurement after initial recognition*

If these costs augment future economic benefits obtained from the use of tangible fixed assets are extended to their initial standards conditions, these costs are capitalized as an incremental in their historical cost.

Other costs incurred after tangible fixed assets have been put into operation such as repair, maintenance and overhaul costs are recognized in the General Statement of Income in the year in which the costs are incurred.

Fixed assets are depreciated using the straight-line method over their estimated useful lives as follows:

- Buildings, structures	06 - 30 years
- Machinery, equipment	03 - 05 years
- Vehicles	06 years
- Office equipment and furniture	03 - 05 years
- Other fixed assets	04 - 05 years

## 2.14 . Prepaid expenses

The expenses incurred but related to operating results of several accounting periods are recorded as prepaid expenses and are allocated to the operating results in the following fiscal year.

The calculation and allocation of long-term prepaid expenses to operating expenses in each fiscal year should be based on the nature of those expenses to select a reasonable allocation method and criteria.

Prepaid expenses of the Company including:

- Tools and supplies include assets which are possessed by the Company in an ordinary course of business, with historical cost of each asset less than 30 million dongs and therefore not eligible for recording as fixed asset under current legal regulations. The historical cost of tools and supplies are allocated on the straight-line basis from 03 months to 36 months.
- Other prepaid expenses such as office rent, warehouse rent, insurance costs, engine testing, etc., are recorded according to their historical costs and allocated on the straight-line basis from 03 months to 60 months.

## 2.15 . Payables

The payables shall be kept records in details according to period payables, entities payables, types of currency payable and other factors according to requirements for management of the Company. The payables shall be classified into short-term payables or long-term payables on the General Financial Statements according to their remaining terms at the reporting date.

#### 2.16 . Borrowings

Borrowings shall be recorded in details in terms of lending entities, loan agreement and terms of borrowings. In case of borrowings denominated in foreign currency, they shall be recorded in details in terms of types of currency.

#### 2.17 . Borrowing costs

Borrowing costs are recognized as operating expenses in the year, in which it is incurred excepting those which are directly attributable to the construction or production of a qualifying asset are capitalized as part of the cost of that asset in accordance with VAS No. 16 "Borrowing costs". Besides, regarding borrowings serving the construction of fixed assets and investment properties, the interests shall be capitalized even when the construction duration is under 12 months.

#### 2.18 . Accrued expenses

Payables to goods or services received from the seller or provided for the seller during a reporting year, but payments of such goods or services have not been made and other payables such as Interest expense, LC UPAS service costs payable...which are recorded to operating expenses of the reporting year.

The recording of accrued expenses as operating expenses during the year shall be carried out under the matching principle between revenues and expenses during the year. Accrued expenses are settled with actual expenses incurred. The difference between accrued and actual expenses is reverted.

#### 2.19 . Provision for payables

Provision for payables is only recognized when meeting all of the following conditions:

- The Company has a present debt obligation (legal obligation or joint obligation) as a result of past events;
- It is probable that the decrease in economic benefits may lead to the requirement for debt settlement;
- Debt obligation can be estimated reliably.

Value recorded as a provision for payable is the most reasonably estimated amount required to settle the current debt obligation at the end of the accounting year.

Only expenses related to the previously recorded provision for payable shall be offset by that provision for payables.

Provisions for payables are recorded as operating expenses for the fiscal year. The difference between the provision for liabilities made in the previous year that has not been fully used and the provision for liabilities made in the reporting year is reversed and recorded as a reduction in production and business expenses for the year.

#### 2.20 . Unearned revenues

Unearned revenue includes advance payments such as: amounts paid by customers in advance for one or more accounting periods for leasing assets, interest received in advance on loans or the purchase of debt instruments, and other unearned revenues such as: the difference between the selling price of goods sold on installment or deferred payment terms and the immediate payment selling price, revenue corresponding to the value of goods or services, or amounts to be discounted for customers in traditional customer programs...

Unearned revenue is transferred to revenue from sales and services based on the amount determined for each fiscal year.

#### 2.21 . Owner's equity

Owner's equity is stated at actually contributed capital of owners.

Share premium is recorded at the difference between the par value with costs directly attributable to the issuance of shares and issue price of shares (including the case of re-issuing treasury shares) and can be a positive premium (if the issue price is higher than par value and costs directly attributable to the issuance of shares) or negative premium (if the issue price is lower than par value and costs directly attributable to the issuance of shares).

### 33 . FINANCIAL INSTRUMENTS

#### Financial risk management

The Company's financial risks include market risk, credit risk and liquidity risk. The Company has developed its control system to ensure the reasonable balance between cost of incurred risks and cost of risk management. The Board of Directors of the Company is responsible for monitoring the risk management process to ensure the appropriate balance between risk and risk control.

#### Market risk

The Company may face market risks such as changes on prices, exchange rates and interest rates.

##### Exchange rate risk:

The Company bears the risk of exchange rate according to changes in exchange rates if loans, revenues, expenses, import of materials, goods, machinery and equipment, ....

##### Interest rate risk:

The Company bears the risk of interest rates due to fluctuation in fair value of future cash flow of a financial instrument according to changes in market interest rates if the Company has time or demand deposits, loans and debts subject to floating interest rates. The Company manages interest rate risk by analyzing the market competition situation to obtain any interest profitable for its operation purpose.

#### Credit Risk

Credit risk is risk in which the potential loss may be incurred if a counterpart fails to perform its obligations under contractual terms or financial instruments. The Company has credit risk from operating activities (mainly for trade receivables) and financial activities (including bank deposits, loans and other financial instruments), detailed as follows:

No. 13 /2025/CV – VIMID  
(Re.: Explanation of financial statements  
for the First quarter of 2025)

Hanoi, April 18, 2025

To: - State Securities Commission  
- Hanoi Stock Exchange

1. Company name: Vietnam Machine Investment Development Joint Stock Company
2. Ticker: VVS
3. Head office address: BT1-07 An Hung New Urban Area, To Huu Street, Duong Noi Ward, Ha Dong District, Hanoi, Vietnam
4. Contents of disclose information:

The Company's financial statements for the First quarter of 2025 include: Balance sheet, Statement of business results, Statement of cash flows and Explanation of financial statements.

Explanation contents: Explanation for profit after corporate income tax in the Statement of business results of the announced period increased by over 10% or more compared to the report of the same period last year as follows:

Criteria	Quarter I/2025	Quarter I/2024	Increase
Profit before CIT (VND)	32,587,436,932	10,506,349,275	210.2%
Profit after CIT (VND)	26,057,362,706	8,405,069,791	210.0%

The reasons for such increase:

- Sales revenue increased by 41.7% over the same period last year, due to the continuously boost in implementation of public investment disbursement, logistics projects and large infrastructure projects nationwide, leading to the increase in demand of freight carriers as well as project contractors for vehicle investment.
- Financial expenses decreased by 23.1% over the same period last year; Revenue from financial activities increased by 94.8% due to:
  - + During the period, the Company has still maintained the policy of actively paying off high-interest-rate debts before due date, reducing loans and financial debts to help reduce interest expenses;
  - + Flexible and efficient exchange rate management through purchase of foreign currency futures (forward) for payables in USD, thereby leading to gain on exchange rate differences.
- Selling expenses decreased by 11.2% over the same period last year due to the Company's effective management of sales activities.

Vietnam Machine Investment Development Joint Stock Company would like to explain the reasons for profit after-tax on the Statement of Business Results for the first quarter of 2025 which increase by over 10% compared to the same period last year to the State Securities Commission and the Hanoi Stock Exchange.

We would like to take full responsibility for the accuracy and truthfulness of above contents./.
