1.4. Normal course of business cycle

The Company's normal course of business cycle is 12 months.

2. Accounting period, currency used in accounting

The Company's annual accounting period starts on 1 January and ends on 31 December.

NOTES TO THE FINANCIAL STATEMENTS (cont'd)

(These notes form part of and should be read in conjunction with the accompanying financial statements)

These interim financial statements are prepared for the first quarter of 2025 (starting from 01/01/2025 and ending on 31/03/2025).

Financial statements and accounting transactions are expressed in Vietnamese Dong (VND).

3. Applied accounting standards and accounting system

The Company adopted the Vietnamese Corporate Accounting System guided in Circular No. 200/2014/TT-BTC dated 22/12/2014 and Vietnamese Accounting Standards promulgated by the Ministry of Finance.

4. Summary of significant accounting policies

4.1 Cash and cash equivalents

Cash includes cash on hand, cash at bank, and cash in transit.

All short-term investments which are collectible or mature of 3 months or less as from purchasing date, that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value at reporting date shall be recognized as cash equivalents.

4.2 Receivables

Receivables include trade receivables and other receivables.

- Trade receivables are trade-related amounts arising from trading activities between the Company and its customers;
- Other receivables include non-trade amounts which are not related to trading activities, intra-company transactions.

Receivables are recorded at cost less provision for doubtful debts. Provision for doubtful debts is made in accordance with the guidelines of Circular No. 48/2019/TT-BTC dated 08/08/2019 by the Ministry of Finance. Accordingly, provision is made at the end of the accounting period for receivables that are overdue by more than 6 months or for those that are not yet due but are considered unlikely to be collected.

4.3 Inventories

Inventories are stated at the lower of cost and net realizable value.

Value of inventories is calculated using the weighted average method and accounted for using the perpetual method. Cost of inventories comprises costs of purchase, costs of conversion and any directly attributable costs of bringing the inventories to their present location and condition.

Net realizable value is the estimated selling price less the estimated costs of completing the products and the estimated costs needed for their consumption.

Provision for decline in value of inventories is made for each kind of inventories when the net realizable value of that kind of inventories is less than cost.

4.4 Tangible fixed assets

Cost

Tangible fixed assets are stated at cost less accumulated depreciation.

NOTES TO THE FINANCIAL STATEMENTS (cont'd)

(These notes form part of and should be read in conjunction with the accompanying financial statements)

The cost of tangible assets comprises their purchase price and all the costs incurred by the Company to acquire those assets as of the time of putting such assets into the ready-for-use state. The costs incurred after the initial recognition of tangible fixed asset shall be recorded as increase in their historical cost if these costs are certain to augment future economic benefits obtained from the use of those assets. Those incurred costs which fail to meet this requirement must be recognized as production and business expenses in the period.

Depreciation

Depreciation of tangible fixed assets is calculated on a straight-line basis over their estimated useful lives. The depreciation period is in conformity with Circular No. 45/2013/TT-BTC dated 25 April 2013 by the Ministry of Finance. Details are as follows:

<u>Kinds of assets</u>	<u>Depreciation period (years)</u>
Buildings, architectures	6 - 25
Machinery, equipment	6 - 20
Motor vehicles, transmission equipment	6 - 17
Office equipment	3 - 5

4.5 Intangible fixed assets

Cost

Intangible fixed assets are stated at cost less accumulated amortization.

The cost of intangible fixed assets comprises all the costs incurred by the Company to acquire those assets as of the time of putting such assets into the ready-for-use state.

Land use rights

Intangible fixed assets are land use rights including:

- Land use rights allocated by the State with a land use fee or acquired through legal transfer (including definite-term and indefinite-term land use rights);
- Prepaid land rent (either paid for the entire lease term or prepaid for multiple years, provided that the remaining prepaid lease term is at least five years) under land lease agreements signed before the effective date of the Land Act 2003 and being granted with a land use right certificate by the competent authority.

The cost of land use rights includes all costs directly attributable to the acquisition of legal land use rights.

Amortization

Intangible fixed assets being land use rights with an indefinite term are not amortized.

4.6 Prepaid expenses

Prepaid expenses are reported as short-term or long-term prepaid expenses. These are expenditures that have been incurred but related to the operations of many accounting periods. The Company selects appropriate method and criteria of allocation over the period in which economic benefits are expected to be received based on the nature and extent of the prepaid expenses.

NOTES TO THE FINANCIAL STATEMENTS (cont'd)

(These notes form part of and should be read in conjunction with the accompanying financial statements)

4.7 Payables

Payables include trade payables and other payables.

- Trade payables are trade-related amounts, arising from trading activities between the company and its suppliers;
- Other payables are non-trade amounts, which are not related to trading activities, intra-company transactions.

Payables are recognized at cost and reported as short-term or long-term payables based on the remaining terms at the balance sheet date.

Payables are monitored according to their creditors, principal terms, remaining terms and original currencies.

4.8 Accrued expenses

Accruals are recognized for amount to be paid in the future for goods and services received, whether or not billed to the Company.

4.9 Loans and finance lease liabilities

Loans and finance lease liabilities are recorded at cost and classified into current and non-current liabilities based on the remaining terms at the balance sheet date.

The Company monitors loans and finance lease liabilities according to their creditors, loan agreements, principal terms, remaining terms and original currencies.

Borrowing costs

Borrowing costs comprise interest and other costs that the Company incurs in connection with the borrowing of funds. Borrowing costs are recognized as an expense in the period in which they are incurred, except to the extent that they qualify the conditions to be capitalized in accordance with Accounting Standard "Borrowing costs".

Borrowing costs associated with a particular borrowing for the purpose of obtaining a qualifying asset shall be capitalized as part of the cost of that asset. For general borrowing funds, the borrowing costs eligible for capitalization in the period shall be determined according to the capitalization rate, which is the weighted average of the borrowing costs applicable to the borrowings of the Company that are outstanding during the period.

Capitalization of borrowing costs shall be suspended during extended periods in which it suspends active development of a qualifying asset, except to the extent that the suspension is necessary. Capitalization shall be ceased when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete.

4.10 Owners' equity

Share capital represents the amount of capital actually contributed by shareholders.

Profit distribution

Profit after corporate income tax is available for appropriation to funds and to shareholders in accordance with the Company's Charter or resolutions of the General Meeting of Shareholders.

NOTES TO THE FINANCIAL STATEMENTS (cont'd)

(These notes form part of and should be read in conjunction with the accompanying financial statements)

Dividends and profits to be paid to shareholders shall not exceed the undistributed profit after tax, with consideration of non-monetary items in undistributed post-tax profits that may affect cash flow and ability to pay dividends.

4.11 Recognition of revenue and other income

- Revenue from sales of commercial electricity is recognized based on certified records of electricity output delivered to the national grid and the applicable unit price under the avoided cost tariff schedule issued annually by the Ministry of Industry and Trade.
- Revenue from financing activities is recognized when revenue is determined with relative certainty and it is possible to obtain economic benefits from the transactions. Accordingly, interest is recognized on the basis of the actual term and interest rates.
- Other income is the income derived out of the Company's scope of business and recognized when it can be measured reliably and it is probable that the economic benefits associated with the transaction will flow to the Company.

4.12 Cost of goods sold

Cost of products, goods sold and services rendered shall be recognized in the correct accounting period in accordance with the matching principle and conservatism principle.

4.13 Financial expenses

Financial expenses reflect expenses or losses related to financial investment activities: interest expenses and other expenses attributable to investing activities.

4.14 Administrative expenses

Administrative expenses reflect expenses actually incurred related to the overall administration of the Company.

4.15 Current corporate income tax expense, deferred corporate income tax expense

Corporate income tax expenses in the period include current income tax and deferred income tax.

Current income tax is the tax amount computed based on the taxable income in the period at the tax rates ruling at the balance sheet date. The difference between taxable income and accounting profit is due to the adjustments of temporary differences between tax and accounting figures as well as those of non-taxable or non-deductible income and expenses.

Deferred income tax is determined for temporary differences at the balance sheet date between the tax base of assets and liability and their carrying amount for financial reporting purpose.

4.16 Financial instruments

Initial recognition

Financial assets

A financial asset is recognized initially at cost plus transaction costs directly attributable to the acquisition of the asset. The Company's financial assets comprise cash on hand, short-term deposits, trade receivables, and other receivables.

NOTES TO THE FINANCIAL STATEMENTS (cont'd)

(These notes form part of and should be read in conjunction with the accompanying financial statements)

Financial liabilities

A financial liability is recognized initially at cost plus transaction costs directly attributable to the issuance of such liability. The Company's financial liabilities comprise loans, trade payables, accrued expenses, and other payables.

Subsequent measurement

Currently, there has been no requirement for subsequent measurement of financial instruments.

4.17 Applicable tax rates and charges payable to the State Budget

- Value-added tax (VAT): A VAT rate of 10% is applied to the sale of commercial electricity.
- Corporate income tax (CIT): The Company is entitled to tax incentives for the hydropower project as follows:
 - + For the hydropower project:
 - The Company is eligible for a 10% preferential CIT rate for 15 years, starting from the commencement of project operations. As Nuoc Trong Hydropower Plant began operating in 2012, the Company is eligible for the 10% preferential CIT rate from 2012 to 2026.
 - A 4-year CIT exemption is granted, followed by a 50% CIT liability reduction for the subsequent 9 years, starting from the first year the project generates taxable income. As the project first incurred taxable income in 2015, the CIT exemption was applied from 2015 to 2018, and the 50% CIT liability reduction is applied from 2019 to 2027.
 - + For other business activities: A standard CIT rate of 20% is applied.
- Other taxes and obligations are fulfilled in accordance with prevailing regulations.

27. Segment reporting

According to Vietnamese Accounting Standard No. 28 and the relevant guiding circular, the Company is required to prepare segment reporting. A segment is a distinguishable component of the Company that is engaged in providing related products or services (business segment), or in providing products or services within a specific economic environment (geographical segment), and is subject to risks and returns that are different from those of other segments,

Based on the Company's actual operations, the Management assesses that business segments and segments by geographical area have no differences in bearing risks and obtaining returns, accordingly, the Company operates in a single business segment – electricity generation and sales – and within one geographical segment, which is Vietnam,,

28. Risk management

Capital risk management

The Company manages its capital to ensure that it will be able to continue as a going concern while maximizing the return to shareholders through the optimization of the debt and equity balance,

Financial risk management

Financial risks include market risk (including interest rate risk, exchange rate risk, price risk), credit risk and liquidity risk,

Market risk management: The Company's activities expose it primarily to the financial risks of changes in interest rates and prices,

Interest rate risk management

The Company's interest rate risk mainly derives from its existing loan agreements. To mitigate this risk, the Company has estimated the impact of interest expenses on its operating results in each period and conducted analysis and forecasting to determine appropriate repayment schedules. The Management assesses that the risk of unexpected interest rate fluctuations is low,

Price risk management

The Company operates in the field of commercial electricity generation and sales, therefore, the raw materials used in its operations are insignificant. As a result, the Company faces limited exposure to the risk of price fluctuations in raw materials used for its operating activities,

NOTES TO THE FINANCIAL STATEMENTS (cont'd)

(These notes form part of and should be read in conjunction with the accompanying financial statements)

Credit risk management

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company has only one customer, Central Power Corporation. Given the nature of the electricity trading business in Vietnam, the Management assesses that the Company is not exposed to any significant credit risk from its customers.

Liquidity risk management

To ensure the availability of funds to meet present and future financial obligations, the Company manages liquidity risk by regularly monitoring and maintaining sufficient cash reserve, optimizing cash flows, making use of credit from customers and counterparties, controlling maturing liabilities in relative to maturing assets and the amount of funds that can be generated within that period.

The Company's aggregate financial liabilities are categorized in line with their maturity as follows:

30/06/2025	Within 1 year	Over 1 year	Total
Trade payables	2,828,341,215	-	2,828,341,215
