PART II

BUSINESS PLAN FOR 2025

I. GENERAL CHARACTERISTICS OF SITUATION

1. Favorable:

POS Company continues to receive close attention, direction and strong support from the Party Committee, Board of Directors, General Directorate of the Corporation, and cooperation and assistance from other Units.

The leadership team at POS is united, and the staff are young, enthusiastic, dynamic and creative. They are also highly qualified professionals with a strong sense of responsibility.

Practical experience gained from implementing projects in previous years is also an advantage for the Company to successfully implement projects in 2025.

2. Hard:

2025 is expected to be a challenged year and POS Company will have to face many difficulties and challenges in its business operation because of unpredictable oil price fluctuations, as well as recent unstable and complicated political situation in the world.

Developing Oil and Gas services in foreign markets is also a huge challenge and difficulty for POS Company such as: protectionist policies of the host country, logistics, policies regarding sending workers to work abroad...

Lack of equipment and facilities for offshore construction and installation works significantly affected the competitiveness of POS Company.

Insufficiency of management and human resources and technology related to business operation sometimes cannot fully meet job requirements.

Promote the work of the Trade Union, emulate and promote its active role in the activities of the Company.
14. Effectively implement social security, communication and corporate culture works in accordance with the business operating activities of the Company, closely linked with promoting services and enhancing the brand of PTSC.
15. Resolutely carry out continuous, medium and long-term restructuring; review, evaluate, adjust and arrange resources, organizational structure and personnel in an effective way.
16. Research and apply green development solutions, reduce greenhouse gas emissions, gradually approach international standards to create competitive advantages in the future. Prioritize the selection of new product and service development options and investment in advanced machinery and equipment, efficient use of fuel, increase renewable energy, reduce pollution and carbon emissions, and use recycled water. Move towards limiting and stopping investment/renting of cars running entirely on fossil fuels.
17. Perform well other tasks, jobs and activities assigned by the Corporation.

IV. SOLUTIONS TO IMPLEMENT BUSINESS OPERATION GOALS IN 2025

To achieve the above mentioned main goals of 2025 and enhance the company's competitiveness, the Company proposes the following specific groups of solutions:

1. Solutions for business organization and management

Continue to complete the organizational structure and improve the Management system to be closer to the Company's business operations, continue to deploy and maintain the effectiveness of standards ISO 9001:2015, ISO 14001:2015, ISO 45001:2018, ISO/IEC 17025, ISM code, ISPS code, MLC 2006, ASME, ISO 3834, EN 1090.

Regularly review existing technical and economic standards to cut costs to the most effective level. Improve working processes to reduce management costs and improve efficiency in business operations. Save costs on electricity, water, telephone, stationery, gasoline, and minimize costs for conferences, seminars, summaries and interim reviews. Strictly control investment costs to ensure that waste is avoided.

Continue to build a corporate culture of solidarity, promote dynamism, creativity, professionalism and create a favorable working environment for employees to maximize their abilities.

2. Human resource development solutions

Reorganize resources according to business operation needs. Maximize the use of available resources to implement projects, limit outsourced personnel. Apply salary and bonus regulations flexibly and effectively, improve the policies for employees to promptly encourage and motivate employees.

Periodically review and evaluate the Company's core staff (core team) in order to continue developing human resources, staff expertise, professionalism, safety and foreign language skills to meet service trading requirements.

Search and cooperate with available human resource providers to be ready to hire and use when POS's staff is lacking due to carrying out many projects at the same time.

Continue to train employees in foreign languages, professional skills, technical skills and advanced management skills according to international standards. Review training needs, strengthen internal training to foster and improve skills, expertise and professionalism at the workplace.

3. Solutions for marketing, market research and service implementation

Maximize participation in bidding to find jobs both domestic and abroad, develop a synchronous, comprehensive and long-term marketing strategy and plan on price policy, service quality, customer relations, domestic and foreign markets... to suit the development strategy of POS and quickly approach and adapt to the current open economy. Actively seek new markets and new customers.

Continue to actively seek jobs in the main service fields such as offshore construction; industrial construction (construction of oil and gas facilities and onshore industrial facilities such as refineries, power plants, fertilizer plants, etc.); operation, maintenance and repair services.

Continue to promote service development, market development in the region, optimize the operating time of accommodation barges and transport barges to the

Southeast Asian market, especially Malaysia, Thailand, Indonesia, Brunei and countries with opposite Monsoon to Vietnam such as India, Australia...

4. Solutions to improve self-implementation capacity:

Strengthen training, developing resources, supplement necessary design & manufacturing certificates, gradually invest and equip specialized calculation software, cooperate with design contractors in the early stages if necessary, etc. to improve the Company's self-implementation capacity for Engineering, Procurement, Construction, and Installation services (EPCI Brownfield) for oil and gas projects, industrial projects.

5. Investment solutions:

Review investment items, deploy truly effective investment projects at the right time to promptly meet POS's service supply activities. On the basis of developing the Company's long-term core services, select equipment to invest, suitable for the orientation of these services, in order to build facilities to ensure future services.

6. Solution on emulation and rewards:

Maintain POS star movement, Kaizen movement, HSE movement. Summarize and organize awards in a timely manner to promote the positivity of individuals and typical examples.

Maintain team building activities in each department, between divisions inside and outside the Company. The Company's Board of Directors and the leaders of the workshop departments must be examples of dynamism, impartiality, and work wholeheartedly for the collective.

STATEMENT OF THE BOARD OF MANAGEMENT

Statement of responsibility of the Board of Management of the Company in respect of the financial statements

The Board of Management of PTSC Offshore Services Joint Stock Company ("the Company") is responsible for preparing the financial statements of the Company which give a true and fair view of the financial position of the Company as at 31 December 2024, and of its financial performance and its cash flows for the year then ended. In preparing these financial statements, the Board of Management is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent; and
- prepare the financial statements on a going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Board of Management of the Company is responsible for ensuring that proper accounting records are kept which disclose, with reasonable accuracy at any time, the financial position of the Company and which enable financial statements to be prepared which comply with the basis of accounting set out in Note 2 to the financial statements. The Board of Management is also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud or error.

Approval of the financial statements

We hereby, approve the accompanying financial statements as set out on pages 5 to 47 which give a true and fair view of the financial position of the Company as at 31 December 2024, and of its financial performance and its cash flows for the year then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System and applicable regulations on preparation and presentation of financial statements.

On behalf of the Board of Management

Vu Dinh Cao Son
President

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF PTSC OFFSHORE SERVICES JOINT STOCK COMPANY

We have audited the accompanying financial statements of PTSC Offshore Services Joint Stock Company ("the Company") which were prepared on 31 December 2024 and approved by the Board of Management on 7 March 2025. The financial statements comprise the balance sheet as at 31 December 2024, the income statement and the cash flow statement for the year then ended and explanatory notes to the financial statements including significant accounting policies, as set out on pages 5 to 47.

Responsibility of the Board of Management

The Board of Management of the Company is responsible for the preparation and the true and fair presentation of these financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System and applicable regulations on preparation and presentation of financial statements and for such internal control which the Board of Management determines is necessary to enable the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical standards and requirements and plan and perform the audit in order to obtain reasonable assurance as to whether the financial statements of the Company are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including an assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and true and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Auditor's Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as at 31 December 2024, its financial performance and its cash flows for the year then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System and applicable regulations on preparation and presentation of financial statements.

Other Matters

The independent auditor's report is prepared in Vietnamese and English. Should there be any conflict between the Vietnamese and English versions, the Vietnamese version shall take precedence.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2024****1 GENERAL INFORMATION**

PTSC Offshore Services Joint Stock Company (the "Company"), is a subsidiary of Petroleum Technical Service Corporation which was established in accordance with Decision No. 253/QĐ-DVKT-HĐQT dated 28 September 2007 issued by Petroleum Technical Service Corporation and the first Enterprise registration certificate No. 3500818790 dated 5 October 2007 issued by the Department of Planning and Investment of Ba Ria – Vung Tau Province, latest Enterprise registration certificate on 4 July 2024.

The shares of the Company have been officially traded in the Unlisted Public Company Market - Upcom with the share code of POS.

The registered activities of the Company comprise of:

- Services of transportation, installation, connection and hook up commissioning of oil and gas works;
- Services of relocation and dismantling of mines after the end of the offshore mining cycle;
- Services of operation and maintenance for oil and gas projects; and
- Services of manpower supply.

The normal business cycle

The normal business cycle of the Company is 12 months.

As at 31 December 2024, the Company had 643 employees (as at 31 December 2023: 595 employees).

2.1 Basis of preparation of the financial statements

The financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System and applicable regulations on preparation and presentation of financial statements. The financial statements have been prepared under the historical cost convention.

The accompanying financial statements are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam. The accounting principles and practices utilised in Vietnam may differ from those generally accepted in countries and jurisdictions other than Vietnam.

The financial statements in Vietnamese language are the official statutory financial statements of the Company. The financial statements in English language have been translated from the Vietnamese version.

2.2 Fiscal year

The Company's fiscal year is from 1 January to 31 December.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**2.3 Currency**

The financial statements are measured and presented in Vietnamese Dong ("VND"), which is the Company's accounting currency.

2.4 Exchange rates

Transactions arising in foreign currencies are translated at exchange rates ruling at the transaction dates. Foreign exchange differences arising from these transactions are recognised in the income statement.

Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are respectively translated at the buying and selling exchange rates at the balance sheet date of the commercial bank with which the Company regularly transacts. Foreign currencies deposited in bank at the balance sheet date are translated at the buying exchange rate of the commercial bank where the Company opens its foreign currency accounts. Foreign exchange differences arising from these translations are recognised in the income statement.

2.5 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, cash at bank and other short-term investments with an original maturity of three months or less.

2.6 Receivables

Receivables represent trade receivables from customers arising from sales of rendering of services or non-trade receivables from others and are stated at cost. Provision for doubtful debts is made for each outstanding amount based on overdue days in payment according to the initial payment commitment (exclusive of the payment rescheduling between parties), or based on the estimated loss that may arise. The difference between the provision of this year and the provision of the previous year is recognised as an increase or decrease of general and administration expenses in the year. Bad debts are written off when identified as uncollectible.

Receivables are classified into long-term and short-term receivables on the balance sheet based on the remaining period from the balance sheet date to the maturity date.

2.7 Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined by the weighted average method and includes direct materials, direct labor costs, overhead expenses, purchase cost, conversion costs and other costs incurred in bringing the inventories to their present location and condition. Net realisable value is the estimated selling price in the normal course of business, less the estimated costs of completion and selling expenses.

The Company applies the perpetual method for inventories.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**2.7 Inventories (continued)**

Provision is made, where necessary, for obsolete, slow-moving and defective inventory items. The difference between the provision of this year and the provision of the previous year is recognised as an increase or decrease of cost of goods sold in the year.

2.8 Investments held to maturity

Investments held to maturity are investments which the Company's Board of Management has positive intention and ability to hold until maturity.

Investments held to maturity include bank term deposits. Those investments are initially accounted for at cost. Subsequently, the Board of Management reviews all outstanding investments to determine the amount of provision to recognise at the year end.

Provision for diminution in value of investments held-to-maturity is made when there is evidence that part or the whole of the investment is uncollectible. Changes in the provision balance during the fiscal year are recorded as an increase or decrease in financial expenses. A reversal, if any, is made only to the extent the investment is restored to its original cost.

2.9 Construction contracts

A construction contract is a contract specifically negotiated for the construction of an asset or a combination of assets that are closely interrelated or interdependent in terms of design, technology and functions or ultimate purpose of use.

When the outcome of a construction contract cannot be reliably estimated, contract revenue is recognised to the extent of contract costs incurred where it is probable those costs will be recoverable. Contract costs are only recognised when incurred during the year.

When the outcome of a contract can be estimated reliably, contract revenue and contract costs are recognised over the period of the contract as revenue and expenses, respectively. The Company uses the percentage of completion method to determine the appropriate amount of revenue and costs to be recognised in the fiscal year. The percentage of completion is measured by reference to the proportion of actual completed work incurred to date to the estimated total work of each contract, the evaluation of the completed work. Where it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

When the outcome of a contract can be estimated reliably and the contractor is paid for the works performed and certified by the customer, contract revenue and contract costs are recognised in the period for the works performed and certified by customer.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**2.10 Fixed assets***Tangible and intangible fixed assets*

Fixed assets are stated at historical cost less accumulated depreciation and amortisation. Historical cost includes expenditure that is directly attributable to the acquisition of the fixed assets bringing them to their suitable conditions for their intended use. Expenditure incurred subsequently which has resulted in an increase in the future economic benefits expected to be obtained from the use of fixed assets, can be capitalised as an additional historical cost. Otherwise, they are charged to the income statement when incurred in the year.

Depreciation and amortisation

Fixed assets are depreciated and amortized using the straight-line basis so as to write off the depreciable amount of the fixed assets over their estimated useful lives. Depreciable amount equals to the historical cost of fixed assets recorded in the financial statements minus (-) the estimated disposal value of such assets. The estimated useful lives of each asset class are as follows:

Buildings and structures	6 - 25 years
Machinery and equipment	3 - 7 years
Motor vehicles	6 - 7 years
Office equipment	3 years
Software	3 years

Disposals

Gains or losses on disposals are determined by comparing net disposal proceeds with the carrying amount and are recognised as income or expense in the income statement.

Construction in progress

Construction in progress represents the cost of assets in the course of installation or construction for production, rental or administrative purposes, or for purposes not yet determined, which are recorded at cost and are comprised of such necessary costs to construct, repair and maintain, upgrade, renew or equip the projects with technologies as construction costs in accordance with the Company's accounting policies. Depreciation of these assets, on the same basis as other fixed assets, commences when they are ready for their intended use.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**2.11 Prepaid expenses**

Prepaid expenses include short-term and long-term prepayments on the balance sheet. Short-term prepaid expenses represent prepayments for insurance expenses for a period not exceeding 12 months or a business cycle from the date of prepayment. Long-term prepaid expenses represent prepayments for tools and services, which do not meet the recognition criteria for fixed assets for a period exceeding 12 months or more than one business cycle from the date of prepayment. Prepaid expenses are recorded at historical cost and allocated using the straight-line method over their estimated useful lives.

Prepayments for land rental contracts which are effective after the effective date of the land law 2003 (ie. 1 July 2004) or which land use right certificates are not granted are recorded as prepaid expenses and allocated using the straight-line method over the prepaid lease term.

2.12 Payables

Classifications of payables are based on their nature as follows:

- Trade accounts payable are trade payables arising from purchase of goods and services; and
- Other payables including non-trade payables, and not relating to purchase of goods and services.

Payables are classified as long-term and short-term payables on the balance sheet based on remaining period from the balance sheet date to the maturity date.

2.13 Accrued expenses

Accrued expenses include liabilities for goods and services received in the year but not yet paid for due to pending invoice or insufficient records and documents. Accrued expenses are recorded as expenses in the reporting year.

2.14 Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount has been reliably estimated. Provision is not recognised for future operating losses.

Provisions are measured at the level of the expenditures expected to be required to settle the obligation. If the time value of money is material, provision will be measured at the present value using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as a financial expense. Changes in the provision balance during the fiscal year are recorded as an increase or decrease in operating expense.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**2.15 Unearned revenue**

Unearned revenue mainly comprises the amounts that customers have paid in advance for one or many accounting periods for transportation services. The Company records unearned revenue for the future obligations that the Company has to fulfil. Unearned revenue is recognised as revenue in the income statement during the year to the extent that revenue recognition criteria have been met.

2.16 Fund for scientific and technological development

The scientific and technological development fund is established to create a source of investment for scientific and technological activities of the Company. The fund is formed of the Company's development and technological innovation needs and is recognised on the income statement in accordance with Joint Circular No. 12/2016/TTLTBKHCN-BTC issued by the Ministry of Finance on 28 June 2016. Accordingly, the Company bases on the need to use capital sources for scientific and technological activities to set up up to 10% of the taxable income of corporate income tax in the period to form the fund.

2.17 Capital and reserves

Owners' capital of the shareholders is recorded according to the actual amounts contributed and is recorded according to par value of the share.

Undistributed earnings record the Company's profit after CIT at the reporting date.

2.18 Appropriation of profit

Profit after CIT could be distributed to shareholders in accordance with the Resolutions of the Annual General Meeting of Shareholders including dividend distribution and appropriation to funds in accordance with the Company's charter and Vietnamese regulations.

The Company's dividends are recognised as a liability on the financial statements in the year in which the shareholder list for dividend payment is finalised according to Resolution of Board of Directors after the dividends are approved by shareholders at the Annual General Meeting of Shareholders.

The Company's funds are as below:

(a) Investment and development fund

The investment and development fund is appropriated from profit after CIT of the Company and approved by shareholders in the General Meeting of shareholders. This fund is used for investment and development purposes of the Company.

(b) Bonus and welfare fund

The bonus and welfare fund is appropriated from the Company's profit after CIT and subject to shareholders approval at the General Meeting of shareholders. This fund is presented as a liability on the balance sheet. This fund is used for bonus and welfare contribution to employees.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**2.19 Revenue recognition****(a) Revenue from rendering of services**

Revenue from rendering of services is recognised in the income statement when the services are rendered, by reference to completion of the specific transaction assessed on the basis of the actual service provided as a proportion of the total services to be provided. Revenue from rendering of services is only recognised when all four (4) following conditions are satisfied:

- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Company;
- The percentage of completion of the transaction at the balance sheet date can be measured reliably; and
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

(b) Revenue from construction contracts

Revenues from construction contracts are comprised of the revenue initially set out in contracts; increases and/or decreases during the term of the contract; bonuses; and other payments to be received from customers or other parties to compensate for the costs not included in the contractual price; other payments that customers agreed to compensate; and other payments provided that these amounts can change the revenue and can be reliably determined. Revenue from construction contracts is recognised in accordance with the guidance presented in Note 2.9.

(c) Interest income

Interest income is recognised in the income statement on the basis of the actual time and interest rates for each period when both (2) of the following conditions are satisfied:

- It is probable that economic benefits associated with the transaction will flow to the Company; and
- Income can be measured reliably.

2.20 Cost of services rendered

Cost of goods services rendered are cost of services rendered during the year and recorded on the basis of matching with revenue and on a prudence basis.

2.21 Financial expenses

Financial expenses are expenses incurred in the year for financial activities including expenses or losses from foreign exchange differences.

2.22 Selling expenses

Selling expenses represent expenses that are incurred in the process of providing services.

2.23 General and administration expenses

General and administration expenses represent expenses that are incurred for administrative purposes.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**2.24 Current and deferred income tax**

Income tax includes all income tax which is based on taxable profits. Income tax expense comprises current income tax expense and deferred income tax expense.

Current income tax is the amount of income taxes payable or recoverable in respect of the current year taxable profits at the current year tax rates. Current and deferred tax should be recognised as an income or an expense and included in the profit or loss of the year, except to the extent that the tax arises from a transaction or event which is recognised, in the same or a different year, directly in equity.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of occurrence affects neither the accounting nor the taxable profit or loss. Deferred income tax is determined at the tax rates that are expected to apply to the financial period when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

2.25 Related parties

Enterprises and individuals that directly, or indirectly through one or more intermediaries, control, or are controlled by, or are under common control with the Company, including holding companies, subsidiaries and fellow subsidiaries are related parties of the Company. Associates and individuals owning, directly or indirectly, an interest in the voting power of the Company that gives them significant influence over the Company, key management personnel, including Board of Management; Board of Directors and close members of the family of these individuals and companies associated with these individuals also constitute related parties.

In considering its relationships with each related party, the Company considers the substance of the relationships, not merely the legal form.

2.26 Segment reporting

A segment is a component which can be separated by the Company engaged in sales of goods or rendering of services ("business segment"), or sales of goods or rendering of services within a particular economic environment ("geographical segment"). Each segment is subject to risks and returns that are different from those of other segments. The Board of Management of the Company has determined that the business's risk and profitability are primarily influenced by the fact that the Company operates in various geographical areas. As a result, the primary segment reporting of the Company is presented in respect of the Company's geographical segments.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**2.27 Critical accounting estimates**

The preparation of financial statements in conformity with Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System and applicable regulations on preparation and presentation of financial statements requires the Board of Management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expense during the year.

The areas involving significant estimates and assumptions are as follows:

- Estimated useful life of fixed assets (Note 2.10);
- Estimation of provision (Note 2.14);
- Recognition of deferred tax assets (Note 2.24); and
- Recognition of accrued revenue (Note 7).

Such estimates and assumptions are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

PROPOSAL

Regarding the addition of business lines

To: Annual General Meeting of Shareholders 2025

Pursuant to the Law on Enterprises No. 59/2020/QH14;

Pursuant to relevant legal regulations on enterprise registration;

Pursuant to the current Charter of PTSC Offshore Services Joint Stock Company (POS);

Based on the actual situation in the coming time, the Company has researched and oriented the investment of 3000T construction ships to carry out installation services of oil and gas structures and pipelines for potential projects in the future such as: White Lion Field Project - Phase 2B, Golden Sea Lion, Block B, Khanh My - Bat Lagoon, Hoa Mai, Nam Du - U Minh,... At the same time, the Unit is also looking for opportunities to participate in the decommissioning of oil and gas works and pipelines that are about to expire such as Ruby, Rang Dong, VSP's rig clusters, etc. The company realizes that adding industries will help the company effectively use its existing assets and capacity, synchronize the service supply chain, improve competitiveness, and expand business opportunities for the company. On the above basis, the Board of Directors respectfully reports and proposes the General Meeting of Shareholders to approve the following contents:

1. Supplementing business lines

Business line code	Business sector name	Notes
5012	Sea and Coastal freight water transport. Details: – Sea and coastal freight water transport – Ocean freight water transport	<i>Details of business lines may be amended and supplemented appropriately at the request of the competent authority within the scope of the industry code approved by the General Meeting of Shareholders.</i>

2. Amending and supplementing the Company's Charter

Authorizing the Board of Directors to amend and supplement the Charter corresponding to the contents approved in Section 1 above.

The Board of Directors respectfully submits to the General Meeting for consideration and approval

ON BEHALF OF THE BOARD OF
DIRECTORS
CHAIRMAN

PROPOSAL
Regarding the Approval of the Company's Charter

To: Annual General Meeting of Shareholders 2025

Pursuant to the Law on Enterprises No. 59/2020/QH14;

Pursuant to the Charter of organization and operation of PTSC Offshore Services Joint Stock Company;

Pursuant to the Ministry of Finance's Circular No. 116/2020/TT-BTC dated 31/12/2020 guiding a number of articles on corporate governance applicable to public companies in the Government's Decree No. 155/2020/ND-CP dated 31/12/2020 detailing the implementation of a number of articles of the Law on Securities ("Circular 116").

In order to ensure that the organization and operation of the Company comply with current regulations, enhance transparency, efficiency and professionalism in the Company's governance activities and in accordance with the regulations of securities management agencies and organizations, the Board of Directors (BOD) has directed the development of the Draft Charter as attached documents.

The draft has been directed by the BOD to be developed on the basis of the model Charter specified in Circular 116, in accordance with the provisions of law and the Company's operations. The draft full text and supporting documents have been published and posted on the Company's website according to regulations for shareholders to consider and vote for approval at this meeting.

The BOD respectfully requests the General Meeting of Shareholders to consider:

1. To approve the Draft Charter of the Company as enclosed.
2. Assign the Board of Directors to complete and promulgate the above documents in accordance with current regulations.

Sincerely./.

CHAPTER III. THE BOARD OF DIRECTORS

Article 7. Roles, rights and obligations of the Board of Directors, responsibilities of members of the Board of Directors

1. The Board of Directors is the Company's management agency, which has the full right to decide and exercise the company's rights and obligations on behalf of the Company, except for the rights and obligations under the jurisdiction of the General Meeting of Shareholders.

2. Rights and obligations of the Board of Directors

The Board of Directors has all rights and obligations as prescribed in the Law on Enterprises, other relevant provisions of law and Article 27 of the Company's Charter.

3. Responsibilities of Members of the Board of Directors

Members of the Board of Directors are responsible for complying with the provisions of the Law on Enterprises, other relevant provisions of law and the Company's Charter.

Article 8. Term and number of members of the Board of Directors

The number of members of the Board of Directors is 05 people. The term of office of a member of the Board of Directors is 05 years and can be re-elected for an unlimited number of terms. An individual may only be elected as an independent member of the Board of Directors of the Company for no more than 02 consecutive terms.

Article 9. Criteria, conditions and structure of members of the Board of Directors

1. Members of the Board of Directors must meet the standards and conditions specified in Article 155 of the Law on Enterprises and the Company's Charter.

2. The structure of the Board of Directors must ensure that at least 1/3 of the total number of members of the Board of Directors are non-executive members. The Company minimizes members of the Board of Directors who concurrently hold executive positions of the Company to ensure the independence of the Board of Directors.

Article 10. Nomination and candidacy for members of the Board of Directors

1. Candidates nominated or recommended by shareholders or groups of shareholders

a. Shareholders or groups of shareholders owning 10% or more of the total ordinary shares as prescribed in Clause 3, Article 12 of the Company's Charter have the right to nominate and recommend candidates for election as members of the Board of Directors. The number of nominations to be introduced corresponds to the percentage of shares that the Shareholders or groups of Shareholders own are eligible for introduction specified in Clause 1, Article 25 of the Company's Charter.

b. Nomination Candidate Profile

- Written nomination of candidates of shareholders or groups of shareholders sent to the Company as Form **02**;
- Curriculum vitae (CV) of the applicant as Form **03**;
- Legal documents validly authenticated by the candidate, shareholders or group of introducing shareholders as prescribed.

c. How to send the Candidate Introduction Dossier: The candidate introduction dossier is sent to the Company's headquarters directly, by post or email or fax address that has been officially announced. The submission of dossiers must ensure the time in accordance with current regulations.

2. Candidates nominated and recommended by the Board of Directors

In case the candidates of the Board of Directors approve the nomination specified in Clause 1 of this Article but do not meet the necessary number as prescribed, the incumbent Board of Directors shall nominate and introduce additional candidates as prescribed in Article 25 of the Company's Charter, in the following order:

a. Members of the Board of Directors have the right to recommend personnel to be selected as candidates for members of the Board of Directors. On the basis of the list of recommended personnel meeting the criteria specified in Article 155 of the Law on Enterprises and the provisions of the Company's Charter, the Board of Directors shall organize a vote to select personnel determined by the highest number of votes until the number of candidates recommended for the election is sufficient. In case there are two (02) or more personnel with the same number of votes for the position of the last candidate, the vote of the Chairman of the Board of Directors shall be the decision vote.

b. Based on the results of personnel selection at Point a of this Clause, the Board of Directors shall issue a resolution approving the list of candidates recommended for the General Meeting of Shareholders to elect as members of the Board of Directors.

3. Candidates nominated and recommended by other shareholders

In case a candidate for the Board of Directors approves the nomination specified in Clauses 1 and 2 of this Article but does not meet the necessary number as prescribed, the right to recommend the remaining candidate belongs to other shareholders as prescribed in Clause 5, Article 115 of the Law on Enterprises.

4. The nominee and candidate must be responsible before the law and the General Meeting of Shareholders for the accuracy and truthfulness of the information content in the dossier as prescribed, ensuring that the referral dossier is sent to the right address and time as prescribed for each election. The Company does not deal with any complaints of the referrer and third parties regarding the circulation of the application before the application reaches the Company.

Article 11. Announcement of the list of candidates

1. The list of candidates shall be prepared and published on the Company's Website within 24 hours from the last time of completion of the nomination according to the announced program of each election.

2. Information related to candidates for members of the Board of Directors is announced, including the minimum contents as stated in Clause 2, Article 25 of the Company's Charter.

Article 12. How to vote

1. The election of members of the Board of Directors and THE BOARD OF SUPERVISORS must be carried out by the method of voting by vote. Accordingly, each Shareholder has a total number of votes corresponding to the total number of shares owned multiplied (X) by the number of elected members of the Board of Directors and Shareholders, and the Shareholder has the right to put all of his votes to one or a number or distribute them equally to all candidates.

2. If the number of candidates is less than or equal to the number of members of the Board of Directors to be elected, the election of members of the Board of Directors may be carried out by the method of cumulative voting specified in Clause 3,

Article 148 of the Law on Enterprises or by the method of voting (approve, disagree, have no opinions).

3. The ballot is pre-printed by the Organizing Committee, with a list of candidates, arranged in order according to the Vietnamese alphabet, with the number of shares owned by the Shareholders, with the Company's seal.

An invalid ballot paper is a ballot in one of the following cases:

- a. The voucher is not issued by the Company;

- c. The ballot contains the names of people who are not on the list announced by the Company before the election;
- d. The ticket has erased or corrected the content;
- e. Other cases as prescribed by law or the decision of the General Meeting of Shareholders at each election.

4. Shareholders have the right to vote for themselves if they are on the list of candidates listed on the ballot.

5. How to determine the election results:

a. In case the election of members of the Board of Directors must be carried out by the method of accumulating votes: Based on the number of members to be elected in each election and ensuring the number of members as prescribed in the Company's Charter, the elected members of the Board of Directors shall be determined according to the number of votes calculated from high to low. starting from the candidate with the highest number of votes until the number of Members specified in the company's Charter is reached.

b. In case the election of members of the Board of Directors and shareholders must be carried out by voting method (approve, disagree, no opinion): The voting rate approved by the voting method shall comply with Clause 2, Article 21 of the company's charter.

In case there are 02 or more candidates with the same number of votes for the position of the last member of the Board of Directors, a re-election will be conducted among the candidates with the same number of votes. The method and method of determining the results as the first election are specified in this Article. If the final candidate is still not identified after the re-election, the election of additional members of the Board of Directors will be considered at the next meeting of the General Meeting of Shareholders.

Article 13. Cases of dismissal, dismissal or addition of members of the Board of Directors

1. A member of the Board of Directors is no longer a member of the Board of Directors when he is dismissed or dismissed by the General Meeting of Shareholders in the cases specified in Clause 4, Article 26 of the Company's Charter.

2. The Board of Directors must convene a meeting of the General Meeting of Shareholders to elect additional members of the Board of Directors in the cases specified

in Clause 4, Article 160 of the Law on Enterprises and Clause 3, Article 14 of the Company's Charter.

Article 14. Notice of election, dismissal and dismissal of members of the Board of Directors

Results and resolutions and decisions on election, dismissal and dismissal of members of the Board of Directors must disclose information to shareholders and related parties in accordance with the provisions of the law on securities and securities market for public companies registering for trading.

Article 15. Election, dismissal and dismissal of the Chairman of the Board of Directors

The Chairman of the Board of Directors is elected, dismissed or dismissed by the Board of Directors among the members of the Board of Directors.

1. The Company shall elect the Chairman of the Board of Directors when this position is vacant in the following cases:

- a. End of term;
- b. Dismissal, dismissal and other cases as prescribed.
- c. There is a letter of resignation.

2. Order of election of the Chairman of the Board of Directors:

a. Selection of candidates to vote:

- The Board of Directors selects from among the Members to elect the Chairman of the Board of Directors in the form of nomination or self-nomination.

- Candidates for election must ensure the conditions prescribed by law, the Charter and current regulations on personnel work related to each position.

b. Organizing the election session:

- Convening and administering the election session: The person selected as the convener and administering of the election meeting is determined according to the following principles: In case the entire Board of Directors expires at the same time according to Clause 3, Article 154 of the Law on Enterprises, the Board of Directors shall hold a meeting to elect the Chairman of the Board of Directors within seven (07) working days. from the end of the election of the Board of Directors for that term.
