REPORT OF THE BOARD OF DIRECTORS IN 2024 AND THE STRATEGIC PLAN IN 2025

I. SITUATION CHARACTERISTICS

In 2024, the global situation will still face many difficulties and challenges due to numerous uncertain economic and political factors. The world economy will continue its slow and uneven recovery, with prolonged risks to international supply chains and commodity prices, although global inflation has improved significantly.

Domestically, the economy has recovered with the growth of the processing and manufacturing industries, the strong recovery of tourism and the stable development of the agricultural sector with a record increase in agricultural exports. However, the recovery and growth of the industries have not been uniform; textile and garment enterprises have to face challenges from the market, such as exchange rate fluctuations, high raw material costs, and increasingly strict requirements on quality and sustainability. In 2024, the stock market has experienced many difficulties and challenges with tense exchange rates, record net selling by foreign investors, and the market has many potential fluctuations and risks.

II. PRODUCTION AND BUSINESS RESULTS IN 2024

Saigon 3 Group operates under the Holdings model with many subsidiaries. Therefore, the Parent Company has no revenue from business activities but revenue from financial activities.

Through the process of monitoring the Company's activities in 2024, the Board of Directors has the following comments:

- The Board of Directors highly appreciates the efforts of the Executive Board of member companies in building a management system and improving business methods to bring efficiency. However, due to objective factors of the market and customers, the consolidated profit results in 2024 have not completed the plan. The results of the production and business activities of member companies will be presented by the General Director in the report on production and business activities in 2024.
- The activities of the Company and its subsidiaries are managed by the law and the Company's Charter.

The Company's shares (Stock Code: SGI) were approved by the General Meeting of Shareholders to list shares on the Ho Chi Minh City Stock Exchange (HOSE) according to Resolution No. 02/2024/NQ-DHDCD dated June 20, 2024. However, due to the unfavorable market situation for listing and the benefit of shareholders, the Company has not implemented the procedures for listing SGI shares on HOSE in 2024.

The Board of Directors will make a report on the suspension of the listing of SGI shares on HOSE, which has been approved by the 2024 Annual General Meeting of Shareholders.

VI. SITUATION AND ORIENTATION IN 2025

1. Assessment of the situation:

- On April 2, 2025, the reciprocal tariff policy announced by the US is considered a shock to the world economy, in the context that many countries have just escaped the period of record-high inflation after the Covid-19 pandemic and are facing pressure from accumulated debt as well as geopolitical conflicts.

- The inclusion of Vietnam in the group of countries subject to the highest reciprocal tariff - up to 46% % - will increase costs for businesses. Part of the increased cost can be factored into the selling price to the end consumer, tariffs can cause prices to rise, reduce revenue and narrow business profit margins.
- The stock market had the sharpest decline in the history of nearly 25 years, the VN-Index fell nearly 88 points on the first day after the information was announced, and all fluctuations were difficult to judge.
- As a multi-industry corporation in which the main activities are garment production and securities, 2025 will be quite a challenging year for Saigon 3 Group. The company needs to change drastically to match market trends, restructure and improve the quality of human resources to achieve the 2025 target

2. Plans and orientations for 2025:

2.1. Consolidated production and business plan in 2025:

| No. | Items | Plan for 2025 (billion VND) |
|------------|------------------------------------|--|
| 1 | Net revenues | 1.781,83 |
| 2 | Revenues | 2.091,67 |
| 3 | Total accounting profit before tax | 127,32 |
| 4 | Profit after tax | 85,28 |
| 5 | Profit after tax of Parent Company | 37,04 |
| 6 | Expected Dividend (%) | 10% in cash or stock |

The General Meeting of Shareholders assigns/authorizes the Board of Directors to decide on the implementation and implementation of dividend payment to shareholders based on the actual situation.

2.2. Business orientation in 2025:

- Focus on implementing the consolidated revenue and profit targets of Saigon 3 Group and its subsidiaries in 2025.

On behalf of the Board of Directors

CHAIRMAN

NGUYEN KHANH LINH

REPORT ON BUSINESS RESULTS IN 2024 AND THE BUSINESS PLAN IN 2025

I. GENERAL SITUATION

In 2024, amid the unpredictable global economic and political situation, some production, business, and investment activities of the member companies within the Group were affected.

1. Regarding the garment manufacturing activity - wash:

- Due to the fluctuations in the global economy, escalating inflation has led consumers to reduce unnecessary spending, resulting in a global decrease in purchasing power in 2024. As a consequence, many large brands had to close some of their stores for restructuring. This has impacted the operations of the garment manufacturing industry. The business performance of Saigon 3 Garment Joint Stock Company ("SG3 Garment") did not meet the set targets
- Additionally, with the trend towards sustainable development, customers are demanding green practices, better welfare for workers, but the product prices must be competitive. This significantly impacts the already low profit margins of garment companies in general and SG3 Garment in particular.
- The business operations of Saigon 3 Jean Co., Ltd. ("SG3 Jean") did not achieve the results as planned, but there have been positive highlights, including the development of new customers, the addition of potential customers, and the support of the garment factory's operations.
- SG3 Garment is currently working with the wash factory in an effective collaboration to create an interconnected and optimized production chain, supporting each other.

2. Regarding the manufacturing and business activities of medical equipment:

In 2024, Bông Bạch Tuyết and Bạch Tuyết Kotton quickly adapted to changes in consumer trends, not only protecting their market share in traditional distribution channels but also significantly growing sales on e-commerce platforms to maintain their growth.

In addition to expanding the market, the company has diversified its products and developed higher-value products. By controlling costs and managing risks better, it has created a sustainable foundation for development. As a result, the profit achieved is very positive and exceeds the set plan.

3. Regarding investment, finance, and securities activities:

The year 2024 is one in which opportunities and challenges appear intertwined in business activities. The market still harbors many fluctuations, and liquidity has yet to improve. The Board of Directors of the Company and the Executive Board of the subsidiary companies continuously monitor market developments and promptly adjust business operations accordingly.

SG3 Group always prioritizes capital safety, so it is quite cautious with investment activities during periods of market instability. The business, investment, and service operations of its member companies have achieved over 93% of the targeted profit plan, reflecting the efforts of the member companies' executive boards.

1. Regarding the implementation of the accounting regime, financial statements and business results:

Through the verification of the Company's financial statements for the fiscal year 2024, the Supervisory Board would like to report the verification results as follows:

- The Company's periodic financial statements are prepared in an honest and reasonable manner, accurately reflecting the Company's financial situation at all times and periods, strictly complying with Vietnamese accounting standards and other current accounting regulations in Vietnam. Financial statements are also disclosed to shareholders in a timely manner in accordance with current regulations for large-scale public companies.
- The Supervisory Board does not have any objection to the figures shown in the Financial Statements for 2024 and the Company's Semi-Annual Financial Statements have been audited by an independent audit organization.

2. Regarding the inspection of the company's financial situation:

- ❖ The company's total consolidated assets in 2024 increased slightly compared to 2023 (an increase of about VND 698 billion compared to the previous year, equivalent to an increase of about 15.29%).
- ❖ The company's short-term assets increased slightly compared to the previous year from VND 3,429 billion in 2023 to VND 3,470 billion in 2024. The main reason is that the system increases short-term financial investment but decreases short-term loan receivables.
- ❖ For long-term assets: The Company's long-term assets increased by VND 658 billion due to a sharp increase in long-term receivables from VND 44 billion to VND 712 billion during the year.

- ❖ For liabilities: Total short-term liabilities in 2024 increased by VND 717.96 billion, equivalent to 50.81%, of which the company's short-term loans increased sharply, corresponding to 54.55%.
- ❖ For equity: The Company's total equity in 2024 decreased slightly compared to the previous year, mainly due to the company's dividend distribution to existing shareholders, while the Company did not have capital increase activities at its member units and profits declined at most members and even appeared losses at 02 member units.

3. Regarding the report on the company's business results:

The consolidated revenue of the whole system in 2024 increased slightly compared to 2023, an increase of VND 282 billion, equivalent to an increase of 17.76%. However, due to the sharp decline in the profit of the textile and garment industry, even two member units lost a lot, leading to a deep decline in the overall profit of the whole system, from VND 216 billion in 2023 to more than VND 10 billion for the whole system in 2024. The decline in profit makes the company's profitability rates tend to decrease, showing a difficult business year of the entire SGI system.

❖ IV/ COMMENTS AND PROPOSALS TO THE BOARD OF DIRECTORS AND THE COMPANY'S EXECUTIVE BOARD:

- The system needs to take measures to strengthen the expansion of market share and revenue growth in the face of the increasingly difficult, volatile and unfavorable world economic situation, striving to complete the sales targets approved by the General Meeting of Shareholders.
- The system needs to continue to promote effective cost management, especially in sales costs and business management costs, ensuring the efficiency of production and business activities as planned.

VI/ OPERATION PLAN OF THE SUPERVISORY BOARD IN 2025:

In order to properly implement the control according to the Law on Enterprises and the Company's Charter, the Supervisory Board develops the 2025 plan as follows:
