**Report on the Activities of the Board of Directors of Vinacomin Northern
Coal Trading Joint Stock Company for the Year 2024**

To: Dear Shareholders

Pursuant to the Law on Enterprises No. 59/2020/QH14 passed by the 14th National Assembly of the Socialist Republic of Vietnam on 2020-06-17.

Pursuant to the Charter of Vinacomin Northern Coal Trading Joint Stock Company.

Pursuant to the Regulations on the Operation of the Board of Directors of Vinacomin Northern Coal Trading Joint Stock Company.

The Board of Directors of Vinacomin Northern Coal Trading Joint Stock Company, Term IV (2022-2027), consisting of 05 members, was elected by the 2022 Annual General Meeting of Shareholders. The Board members elected Mr. Pham Tuan Ngoc as Chairman of the Board of Directors for the term (2022-2027). Following the meeting, the Chairman issued a decision assigning tasks to Board members to proactively coordinate and implement the resolutions and decisions of the Board of Directors.

Based on the Company Charter, the Resolution of the 2024 Annual General Meeting of Shareholders, and the business performance of the past year, the Board of Directors reports on the 2024 operating results as follows:

I. RESULTS OF THE BOARD OF DIRECTORS' ACTIVITIES IN 2024:

1. Company's Business Performance in 2024:

1.1 Advantages and Difficulties:

In 2024, with the direction of TKV's leadership, the support and coordination of TKV's specialized departments in operational solutions, and proactive preparation of coal sources from the end of 2023, TMB promptly implemented business plan tasks from the beginning of the year, strictly implementing operational discipline, ensuring timely coal supply to thermal power plants according to TKV's consumption plan, and fulfilling the task of being TKV's focal point for coal imports.

Under the leadership of the Party Committee and the Board of Directors, the Company's leadership and executive apparatus proactively and flexibly developed monthly and quarterly production and business plans suitable to the actual situation, ensuring safety and efficiency.

Key solutions implemented by the Company in 2024:

(i) During the implementation of coal import activities, especially during periods of scarce imported coal sources, TMB proactively worked with winning bidders to flexibly adjust the schedule of imported coal arriving at unloading ports, ensuring timely supply of imported coal for blending, fulfilling the task of being the focal point for coal imports to supply blending units (including TMB) and directly supply customers (Vinh Tan 2 Power Plant) according to TKV's plan.

(ii) Strictly implemented TKV's operational discipline, closely managed goods from receipt at the source, during transportation, to loading and warehousing, preventing the transportation of goods to unloading locations different from those stated on sales invoices. Closely followed the monthly consumption management plan and promoted coal blending for delivery to TKV.

(iii) TMB carried out coal blending based on the blending ratio according to TKV's planned scheme. During some periods of scarce imported coal sources, TMB flexibly adjusted the ratio of imported coal in the blend to ensure the blended coal volume while still ensuring the quality of the blended coal as prescribed in the contract.

(iv) TMB implemented the blending and processing work according to the TKV plan, meeting the timely needs of the plants, especially during the peak season. During the rainy season, many plants reduced power generation, did not receive the full amount of coal as registered, slow loading and unloading... causing coal to be stored for a long time on means of transport waiting to be unloaded, especially in September 2024, due to the influence of storm number 3 and the flood situation due to prolonged heavy rain, production activities were disrupted for a period of time, the blended output delivered to TKV in September therefore did not meet the initial TKV plan.

(v) To proactively plan coal supply for thermal power plants in the Central and Southern regions such as: Vung Ang 1 Thermal Power, Vinh Tan 2 Thermal Power, Duyen Hai 1 Thermal Power and implement coal imports from Laos, TMB has been approved by TKV to research and open a coal transit warehouse in the Central region.

(vi) With the goal of managing costs well, reducing the cost per ton of coal consumed, and complying with regulations from superiors, TMB has coordinated with units to implement competitive bidding/offers to select suppliers of loading and unloading services, coal transportation, coal processing, insurance... to reduce costs and increase profits for the entire company.

(vii) Doing well in occupational safety and health, fire prevention and fighting, improving working conditions, industrial hygiene, and environmental protection. In 2024, TMB's production and business activities had no occupational accidents and fires, ensuring the safety of property and people.

1.2 Results of the Company's production and business activities in 2024 are as follows:

* Key indicators:

| No. | Indicator | Unit | Plan year 2024 | Actual 2024 | Actual/Plan (%) |

- + Investment project to build a cargo loading and unloading wharf, shore protection dyke, and car wash system, dust-proof net for Khanh Phu port warehouse - Ninh Binh Coal Trading Company: Implementing investment preparation, preparing the Feasibility Study Report.

- * Evaluation of the Company's production and business results in 2024:

Last year, with the direction and attention of TKV's leadership, and with the assistance and collaboration of TKV's specialized departments, TMB proactively implemented the 2024 business plan tasks assigned by TKV, supplying coal promptly to thermal power plants according to TKV's operational plan. These results were achieved because the Company recognized the difficulties, proactively adapted flexibly and dynamically in business, promoted the unit's traditions, leveraged the strength of the workforce, and coordinated business solutions effectively.

2. Summary of the Board of Directors' activities:

- In 2024, the Company's Board of Directors directed the successful implementation of the strategic objectives approved by the Company's 2024 Annual General Meeting of Shareholders, focusing on the following key contents: strengthening management and administration, effectively organizing and implementing management in various areas, and flexibly directing production, creating stability and synchronization in production and business activities, in line with practical realities.

- The Board of Directors held regular and irregular meetings to approve fundamental issues, provide direction for the Company's operations, and ensure timely resolution of arising issues related to production and business activities. The meetings had specific agendas, ensuring the required number of attending

members and voting procedures according to regulations. Depending on the content, some Board of Directors meetings invited the Head of the Company's Supervisory Board to participate. The Board of Directors effectively implemented its supervisory role over the General Director and other management personnel.

* Summary of resolutions and decisions of the Board of Directors in 2024:

- Total number of resolutions and decisions: 61

In which:
