**REPORT ON THE ACTIVITIES
OF THE BOARD OF DIRECTORS
Year 2024**

To: The Annual General Meeting of Shareholders 2025

The Board of Directors of Power Engineering Consulting Joint Stock Company 3 respectfully submits this report on the Activities of the Board of Directors in 2024, as follows:

1. General Meeting of Shareholders

On June 27, 2024, Power Engineering Consulting Joint Stock Company 3 held the Annual General Meeting of Shareholders (AGM) for 2024 at the Company's headquarters, located at 32 Ngo Thoi Nhiem Street, Vo Thi Sau Ward, District 3, Ho Chi Minh City. The meeting was attended by members of the Board of Directors (BOD), members of the Board of Supervisors (BOS), 23 shareholders, and representatives of shareholders holding 7,027,445 shares, accounting for 73.84% of the total company shares (*the charter capital at the time of the AGM was 95,173,030,000 VND*). Guests included representatives from the State Securities Commission, EVN Capital Management Department, and VACO Auditing Company Limited. The AGM issued Resolution No. 185/NQ-ĐHĐCĐ-TVĐ3 dated June 27, 2024, voting to approve the following matters:

+ The business results for 2023 and the business plan for 2024; The 2023 combined financial statements audited by VACO Auditing Company Limited, the 2023 financial results, and the 2024 financial plan; The 2023 profit distribution plan and the 2024 profit distribution plan; The finalization of salaries and remuneration for the members of the BOD and the BOS in 2023 and the salaries and remuneration plan for the members of the BOD and the BOS in 2024; The 13th amendment to the Company Charter; Dismissal of Ms. Nguyen Minh Hieu from the BOS (term 2022-2027) effective June 27, 2024; Approval of Ms. To Thi My Hang as a BOS member for the term 2024-2029.

On December 12, 2024, the Company issued a notice to collect shareholders' opinions in writing. The voting results approved an adjustment to some key indicators in the 2024 business plan (Resolution No. 282/NQ-ĐHĐCĐ-TVĐ3 dated December 25, 2024).

6. Supervision of the General Director and the Executive Board

- The Executive Board closely followed the 2024 AGM Resolutions in managing and directing the Company's operations.

- Every two weeks, a representative of the BOD attends the company management meeting chaired by the General Director, with participation of the affiliated heads of departments, branches, and center. Throughout the Company's business operations, all Board members have remained actively involved in inspection and monitoring activities - especially for major projects or those with urgent implementation schedules.

- The Executive Board regularly held progress review meetings focused on the acceptance, payment, and project execution schedules, emphasizing quality and timely delivery for each client project.

7. Construction investment project for EVNPECC3 Headquarters in Thu Duc City, Ho Chi Minh City

- In accordance with Article 6 of Resolution No. 135/NQ-ĐHĐCĐ-TVĐ3 dated June 22, 2023, approved by the 2023 AGM, regarding the investment policy for the construction of EVNPECC3 Headquarters in Thu Duc City, Ho Chi Minh City, the Company issued a decision to establish the Project Management Board for the construction of EVNPECC3 Headquarters in Thu Duc City, Ho Chi Minh City (*referred to as the PMB of new headquarters in Thu Duc City*). This was formalized in Decision No. 175/QĐ-HĐQT-TVĐ3 dated July 20, 2023, issued by the BOD, and Decision No. 3108/QĐ-TVĐ3 dated September 5, 2023, issued by the General Director, to organize and assign personnel for subsequent implementation steps.

- To ensure compliance with the Construction Law and relevant regulations,

the BOD issued Resolution No. 144/NQ-HĐQT-TVĐ3 dated May 15, 2024, approving the Investor and project management model to the organization of the construction project management. Additionally, the PMB of new headquarters in Thu Duc City was reorganized into the Project Management Board of the Company's Headquarters under the direct authority of the Investor. The project's implementation status has been detailed in the report on the Company's business results for 2024 and the business plan for 2025:

+ Project preparation and construction permit application phase: Implementing Package No. 01 (Consulting services for Survey, Preparation of the General master plan; Architectural design proposal; Survey, FS Report for construction investment project; and Construction drawing design - Cost estimate) and Package No. 02 (Verification consulting for the FS Report and the Construction drawing design - Cost estimate). The total amount of advance and progress payments under both contracts in 2024 is 1.25 billion VND, achieving 41.6% of the planned target.

+ For 2025: Complete the project preparation and construction permit application phase; commence the project implementation phase, including contractor selection for construction works, groundbreaking, and construction execution. The projected cost plan for 2025 is 36.4 billion VND.

8. Selection of an independent auditing firm to conduct the audit of the Company's combined financial statements for the 2023-2025 period

- In accordance with Article 5 of Resolution No. 135/NQ-ĐHĐCĐ-TVĐ3 dated June 22, 2023, approved at the 2023 AGM: *"Authorized the BOD to approve the list of independent auditing firms for the 2023-2025 period based on the BOS's proposal; Select the independent audit firm to conduct the audit of the Company's combined financial statements for the 2023-2025 period; Dismiss the independent audit firm if necessary."*, the BOD approved the list of independent auditing firms for the 2023-2025 period based on the BOS's proposal. The Company conducted a bidding process and signed an audit contract for the 2023-2025 financial statements with VACO Auditing Company Limited - Ho Chi Minh City Branch. VACO completed and issued the 2024 financial statements audit report on time.

- Regarding the independent auditor's qualified opinion on the 2024 financial statements, the Board of Directors has directed the Company to develop and implement specific remedial actions. Additionally, the Company has been instructed to report and fully disclose the relevant information in compliance with regulations, ensuring that all issues are fully rectified before issuing the interim financial statements for 2025.

- VACO will continue conducting the 2025 financial statements audit of EVNPECC3 as per the signed contract.

THE BUSINESS PLAN FOR 2025**

To: The Annual General Meeting of Shareholders 2025

Power Engineering Consulting Joint Stock Company 3 (EVNPECC3) respectfully report on the Business results for 2024 and the Business plan for 2025 with the following main contents:

I. Section 1: The business results for 2024

1. The results of the 2024 business plan

a) Revenue and Profit

Target	Plan ^(*)	Actual	Achievement Rate
Revenue	170.00 billion VND	197.24 billion VND	116.03%
Profit before tax	13.00 billion VND	13.03 billion VND	100.24%
Profit after tax	11.40 billion VND	11.75 billion VND	103.10%

() As approved by the GMS under Resolution No. 282/NQ-DHĐCĐ-TVĐ3 dated December 25, 2024.*

b) New contract value

Target	Plan	Actual	Achievement Rate
New contract value	300.0 billion VND	282.1 billion VND	94.0%

Among these, 55 contracts were signed between the Company and its related persons, with a total value of 81.31 billion VND. The contracts cover consultancy services such as surveying, design, supervision, verification, bidding document preparation, etc., in line with the Company's business activities. The basic contract terms comply with the standard forms of consulting contract issued under Circular No. 08/2022/TT-BKHĐT dated May 31, 2022. Detailed contract values are listed in Appendix 1.

c) Investment in construction and procurement of assets, machinery, equipment

Investment in construction of the Company's headquarters in Thu Duc City	3.00 billion VND	1.25 billion VND	41.63%
Procurement of assets, machinery, equipment	5.00 billion VND	0.76 billion VND	15.28%

2. Performance assessment

2.1. Revenue and Profit

- In 2024, the Company's business production and operation (BPO) continued to face many challenges. The Company proactively reviewed and adjusted its BPO activities to boost labor productivity and enhance the quality of consulting services, ensuring the achievement of the set plan, with the following key advantages and disadvantages:

*** Advantages**

- + The leaders of the electricity sector have shown concern and promoted working with localities to expedite the investment policy approval (IPA) process. Several projects located within one province have obtained IPA approval, including the 220kV Nhon Trach 3 - Thu Duc transmission line (TL), the 500kV Tay Ninh 1 substation (SS); the 220kV Sam Son SS and the 220kV Sam Son - Thanh Hoa TL, the 220kV Tam Hiep SS and connection, the 220kV Cai Be SS and connection, the 220kV Hoa Binh SS and connection; the 220kV double-circuit TL connecting the 220kV Bac Lieu SS; the 220kV TL connecting the 500kV Tay Ninh 1 SS - Phuoc Dong; and the 220kV Binh My SS and connection.

*** Disadvantages**

- + The procedures for applying for IPA for projects still encounters many difficulties, especially for projects that must be submitted to the Prime Minister. Although personnel have been assigned to follow up regularly, only 1/7 of the projects have obtained approval (the 220kV Long Thanh - High-Tech Park TL: this is the first project after the 500kV circuit 3 TL projects to be approved by the Prime Minister); the progress has not yet met expectations.
- + The amendments to the Electricity Law help alleviate many difficulties in the IPA approval process, but they were issued quite late (November 30, 2024), so only a few IPAs were approved at the end of 2024.
- + Private sector projects still face many obstacles regarding policies, capital, etc., so there are almost no new projects such as the TGS Duyen Hai wind power plant (WPP) and the TGS Duyen Hai solar power plant (SPP).
- + Complicated land clearance and compensation procedures have prolonged project completion timelines and required significant manpower for technical supervision, resulting in extended project settlement periods.

Despite these challenges, the Company's leadership and employees have made significant efforts to accelerate projects execution and secure new contracts to generate revenue. As a result, the Company successfully achieved the 2024 targets set by the GMS.

2.2. New contracts

- The company continues to expand its bidding activities across various sectors to create job opportunities for employees. However, many bidding packages anticipated by investors have yet to be implemented in reality due to the FS Report not being approved (e.g., 500kV Hai Phong SS, 500kV Hai Phong - Thai Binh TL, etc.).

- Currently, securing contracts is extremely challenging as anticipated bidding packages have yet to materialize due to IPA procedures. Price competition is increasingly fierce, with a large number of bidders, especially private contractors and even EVN-affiliated consulting firms, aggressively undercutting prices. Meanwhile, the limited number of projects further intensifies the competition..

2.3. Investment in construction and procurement of assets, machinery, equipment

- Investment in construction of the Company's Headquarters in Thu Duc City:
- + The contractor selection plan and Bidding documents for the project preparation phase: Completed and approved on June 3, 2024.
- + Package No. 01 (Consulting services for Survey, Preparation of the General master plan; Architectural design proposal; Survey, FS Report for construction investment project; and Construction drawing design - Cost estimate): Contract signed on July 23, 2025. Implementation status:
 - ✓ Preparation and submission for approval of the 1:500 Detailed Master Plan (DMP): Relevant competent authorities have reviewed and provided their opinions on the proposal, and the Standing Committee of the Thu Duc City Party Committee has approved the policy to accept this dossier. The revised and finalized dossier was resubmitted to the Thu Duc City People's Committee on March 27, 2025, for official approval. The approval decision for the DMP is expected in early April 2025.
 - ✓ The BD and FS Report: Completed and reviewed by relevant competent authorities regarding infrastructure technical connection dossier. Once the DMP approval decision is issued, the BD and FS Report will be submitted to the Ho Chi Minh City Department of Construction for verification in April 2025.
 - ✓ The Construction drawing design and Cost estimate: In progress. The verification process will be conducted once the DMP and BD approvals are obtained. Expected completion: Early May 2025.
 - ✓ Construction Permit application: Expected completion in May 2025.
- + Package No. 02 (Verification consulting for the FS Report and the Construction drawing design - Cost estimate):
 - ✓ The BD and FS Report: The dossier has been reviewed, and the final verification will be provided after the 1:500 DMP approval. The process is expected to be completed once the Ho Chi Minh City Department of Construction provides its verification comments on the BD in April 2025.
 - ✓ The Construction drawing design and Cost estimate: In the verification process. Expected completion in early May 2025.
- + The total value of advance and progress payments under both contracts in 2024 is 1.25 billion VND.
- The majority of assets, machinery, equipment purchases were intended to support projects implementation, such as design software. Since these projects were not initiated in 2024, the procurement plan has been adjusted to 2025 to optimize costs.

3. Executive management

3.1. Management by objectives

- Organizational management work both maintains the stability of the current organizational model to complete the targets, tasks, and BPO plan for 2024, and researches plans to streamline the apparatus, restructure some units to focus manpower on implementing larger projects, enhance external competitiveness, and apply digital transformation in management, administration, and more effective resource utilization. Key initiatives in 2024 include:

- + Internal management regulations: Reviewing and updating key policies and regulations, including: Salary regulations, Performance management and evaluation guidelines, Salary fund and cost allocation regulations, Management personnel regulations, Workforce learning and human resource development guidelines, Labor management regulations.
- + Development and restructuring strategy (2023-2025, vision to 2030): Completed the merger of two departments into one. Further restructuring and organizational optimization planned.
- + Mid-term review and evaluation of 11 strategic solutions assigned by EVN, assessing the company's capacity for innovation.
- + Digital transformation in management (ERP Phase 2): Implementing digitalization of HR, finance & accounting, business planning, and quality management processes.

3.2. Strengthening management competence and human resource development

- In 2024, the Company developed and issued the updated Workforce learning and human resource development guidelines with improvements to enhance effectiveness and motivation.

- With the objective of enhancing the management capabilities of the leadership and management team, as well as strengthening training and professional skill development for employees, the Company implemented the 2024 training plan with the following results:

- + Management competency development: Level 3 management training for 4 managers, mid-level management competency enhancement for 1 manager.
- + Professional and technical training for employees: 19 short-term training courses for over 300 employees, focusing on technical expertise, quality management systems, and occupational safety; 28 internal training sessions conducted across departments to share technical knowledge and expertise.
- + Cost optimization: Maximized e-learning programs to facilitate flexible learning while reducing training costs.
- + Developed and completed 3 e-learning modules and 2 microlearning courses.
- Enhancing the Company's consulting capabilities:
 - + Issued or renewed construction practice certificates (CPCs): 62 employees.

- + Renewed bidding practice certificates: 20 employees.
- + Submitted applications for: Business license for cybersecurity products and services; Class I construction operation competency certificate (for design, design verification, and construction supervision in agriculture and rural development (irrigation, dykes) projects).

3.3. Digital transformation (DX)

In 2024, the Company strengthened the application of science and technology, promoted DX, and implemented tasks closely following the DX roadmap to 2025, focusing on key areas such as:

- Human and organizational development:
 - + Timely adjusted policies to encourage DX and promote a culture of knowledge sharing within the Company.
 - + Implementation of remote work policies.
 - + Completed the development and communication of the Quality culture criteria set.
- Communication and customer service: Data from CRM has been synchronized with other modules in ERP, creating seamless connectivity and effectively supporting operational activities.
- Production processes: Prioritized the task of enhancing BIM implementation capacity for the Grid and Source segments according to the approved plan.
- Internal governance: The Company concentrated resources on implementing the "Enterprise Resource Planning (ERP) Software - Phase 2" project, completing it on schedule and according to the approved plan.
- Data and information security:
 - + Completed the revision and upgrade of the Document library website according to the plan to serve the storage of design consulting document files and other document groups of the Company.
 - + Completed the first periodic monitoring and evaluation of the information security system according to ISO/IEC 27001:2022 as planned.

3.4. Communication and marketing

- Marketing: Due to cost savings, it was not implemented according to the approved plan.
- Communication: Regular communication activities were carried out on various channels with: 57 website articles, 32 Facebook posts, 7 LinkedIn posts, and participation in 5 seminars, etc.

3.5. Improvement of Quality Management Regulations, Processes, and Policies

- Internal management regulations: The Company has demonstrated a strong commitment to enhancing and developing its quality management system. 15/18 internal regulations were successfully reviewed and implemented according to the approved plan. However, some regulations were delayed, requiring better

coordination among departments and strengthened monitoring efforts to ensure timely and high-quality implementation.

- Risk management system under ISO 31000:2018: 5/6 phases of the risk management system have been completed.

3.6. Employee welfare, work environment, and well-being

- Despite financial difficulties and limited cash flow, the Company has managed to maintain salary payments twice a month. All mandatory contributions for employees, including social insurance, health insurance, and unemployment insurance have been fully paid. The average salary for employees in 2024 was 15.7 million VND/person/month.

- Employee health care initiatives: Annual health examination were conducted for all employees, with health classification and follow-up support for those with health issues. Measurements of workplace environmental factors and testing of water quality were carried out. 24-hour accident insurance was provided for employees.

- Workplace dining support: Mid-shift meal allowances were maintained; Arranged a dining area (canteen) for employees to have lunch on-site, ensuring hygiene, safety, and convenience.

- Organized a 450km online running event to commemorate the Company's 45th anniversary (13/02/1979 - 13/02/2024), which received enthusiastic participation from employees, clients, and partners.

- Organized one Trade Union meal gathering to promote unity and support among employees. Maintained employee welfare programs, including: Birthday, illness, maternity, and bereavement support; Children's programs for International Children's Day and the Mid-autumn festival; Financial assistance for employees in need, including interest-free loans from the Employee Solidarity Fund.

- Conducted fire prevention and firefighting training to enhance employees' awareness and emergency response skills.

- Delegated representatives to participate in gender equality training organized by EVN, Conducted awareness programs for employees on gender equality, Organized activities to promote women's advancement in the workplace.

II. Section 2: Objectives, Tasks, and Solutions for implementing the 2025 Business plan

1. Objectives

- Based on the 2024 BPO performance results and the forecast of the BPO situation in the coming period, the Company assesses the feasibility of implementing the 2025 BPO plan as follows:

- + Revenue from design consulting: increase by 5% compared to 2024.
- + Pre-tax profit: increase by 7% compared to 2024.
- + Contracts: 20% higher than the 2025 revenue.

- Enhance consulting quality: ensure accuracy and economic-technical optimization.

- Continue to effectively manage clients, expanding the presence of the EVNPECC3 brand.

- Maintain and improve the quality management system and information security system, integrate service execution processes provided by EVNPECC3.

- Training and human resource development, build and develop a trustworthy corporate culture through communication of the Company's 4 core values.

2. The 2025 Business plan targets

The 2025 Business plan targets are expected to be submitted to the 2025 AGM for approval as follows:

2.1. Revenue plan: 200 billion VND.

2.2. Contract value plan: 240 billion VND.

- Focus on securing new contracts with major clients in the power sector, including EVN and its subsidiaries (which are also related persons of the Company), through competitive bidding. The contracts will cover consultancy services such as surveying, design, supervision, verification, and bid document preparation, aligning with the Company's business activities; The basic contract terms comply with the standard forms of construction consultancy contract issued under Circular No. 02/2023/TT-BXD dated March 3, 2023, and the standard forms of consulting contract issued under Circular No. 22/2024/TT-BKHĐT dated November 17, 2024, or other contract templates as prescribed by law.

- For the hydropower sector: focus on implementing the Nam Neun 1 HPP project, especially obtaining FS Report and BD approvals in 2025.
- For the thermal power sector: focus on implementing and obtaining FS Report approvals for LNG O Mon 3 and Quang Trach 2 TPP projects, etc.
- For the renewable energy (RE) sector: promote the implementation of signed contracts, continue to seek private and foreign investors to perform related consulting services, especially for transitional RE projects developed by private entities.
- Manage and strictly control unit costs based on efficient use of expenses.
- Promote the acceptance and payment of completed work volume and debt recovery.
- Continue to develop training plans to enhance the capacity of key personnel, focusing on the capacity of project managers.

3.2. Project search, new contract signing, market development, and brand enhancement

- Focus on participating in bidding and signing contracts to implement subsequent phases (Technical Design, Construction Drawing Design) for projects already implemented (FS Report) such as Technical Design - 220kV Tay Ninh 1 - Phuoc Dong TL; Technical Design - 500kV Tay Ninh 1 SS, 500kV Long An SS, 220kV Phuoc Dong SS, 220kV Hong Ngu SS, etc.
- Focus on signing the TGS Duyen Hai SPP project with the investor and continue implementation.

- Plan and work with Power generation corporations 1,2, 3 on matters related to TPPs and HPPs such as Overall fuel conversion studies for GENCO's TPPs, construction of ICE plants, evaluation of operating units, dam safety assessment, plant displacement monitoring, and improvement of operational efficiency of existing power plants.

- Research self-consumption RE projects. Seek to implement EPC contracts for the power grid sector.

- Units actively coordinate and connect with the Business Development department to provide quotes to clients with appropriate bid prices for each clients segment, especially private clients.

- Promote marketing and client relations to seek new work; Continue to provide client care and understand client evaluations of EVNPECC3's best products; Increase information related to EVNPECC3's projects on the Company's forums, corporate culture, Facebook Fanpage, Zalo, LinkedIn, etc. Require information support from relevant units for more frequent updates. Also, enhance activities that allow company employees to interact on the Company's fan page and Facebook group.

3.3. Investment in construction

The PMB of the Company's Headquarters in Thu Duc City continues to implement the construction investment project with the expected implementation timeline as follows:

- Project preparation and construction permit application phase: Expected completion in Q2/2025.

- Project implementation phase:

- + Construction package: The preparation of the contractor selection plan, bidding documents, bid organization, and contractor selection is currently in the documentation preparation stage, expected to be completed in Q2/2025.

- + Construction commencement is scheduled for Q3/2025.

- + Construction period: Q3/2025 - Q1/2027.

- + Project completion and operational commissioning: Q2/2027.

- + The projected cost plan for 2025 is 36.4 billion VND.

For details, refer to Appendix 2 attached.

3.4. Procurement of assets, machinery, equipment

- Continue to implement ERP software Phase 2.

- Purchase assets, machinery, equipment for production according to actual needs.

3.5. Financial management

- Continue to manage and monitor the Company's finances and cash flow, and track the effective implementation of approved expense plans.

- Focus on promoting debt recovery, cost savings, and cost reduction.

- Consider legal procedures to bring overdue debts to economic arbitration, especially with first-time private customers.

3.6. Internal management system enhancement

- The 2025 Internal management regulations (IMRs) review and adjustment plan includes: amending a total of 20 IMRs, in which:

- + 10 IMRs: supplement content related to risk management according to ISO 31000:2018;
- + 02 IMRs: new issuance;
- + 08 IMRs: adjust some content to ensure compliance with current legal regulations.

- The review and revision of the regulations will be completed in Q2 and Q3 of 2025 and implemented uniformly and operated effectively in the units from Q4 of 2025, through the following solutions:

- + Synchronous training and communication: Unit heads are responsible for conveying the new points of the revised regulations to their unit's employees through meetings, internal training, etc.
- + Strict monitoring of the application process: Annually, the Company will have internal cross-evaluation sessions between units and external evaluation units (TUV) to check the compliance and accuracy of the quality management system applied in each unit.
- + Continuous improvement: Collect feedback from units to make adjustments, ensuring regulations are always suitable for actual production and business.

With these synchronous solutions, the company will build a strict, effective, and flexible internal management system, contributing to enhancing competitiveness and sustainable development.

- The risk management system according to ISO 31000:2018: will continue to complete phase 6 in the 2025 plan by applying and adjusting related processes, ensuring the system operates effectively, integrating risk into production and management activities, to enhance risk prevention and response capabilities, supporting the Company's sustainable development.

2.2. Supervision activities for members of the BOD and Executive Board

2.2.1. The Board of Director

- In 2024, the BOD held four regular in-person quarterly meetings. Additionally, during the Company's business operations, the BOD conducted voting by written consent and convened extraordinary meetings as necessary to direct the Company's activities within its authority.
- The BOD issued 27 resolutions directing the Executive Board on key matters within its authority, including reviewing business results, approving and adjusting the 2024 business and financial plans, investment in construction plan, and the procurement of assets, machinery, equipment plan for the year 2024. The BOD also approved several policies to provide a basis for the Executive Board to implement production management and addressed other issues related to the approval of internal regulations and personnel matters.

2.2.2. The Executive of Board

- The BOD has coordinated with the Executive Board to operate in accordance with the functions, duties and powers stipulated in the Charter and internal governance regulations of the Company.

- The Executive Board has implemented production management in accordance with the content approved by the GMS and the BOD in their resolutions.

2.2.3. Coordination of activities between the BOS and the BOD

- The BOS always receives full information on the financial situation, planning activities as well as implementation of the Company's business plans during the period.
- The BOS always actively and closely coordinates with the BOD and the Executive Board. The BOS also closely coordinates with departments and units in the Company to conduct inspections during the period.

2.3. Activities to monitor financial situation and review audited financial statements in 2024

2.3.1. Audit results of financial statements in 2024

- The audited 2024 Financial Statements conducted by VACO Company have stated an exceptional audit opinion. The BOS has monitored the independent audit process performed by VACO and has re-examined the results of VACO's Audit Report.
- With the Company's business operations being profitable and its financial situation under stable control, there is, however, a qualified opinion from the auditor regarding *"were unable to obtain the confirmation letters for the Trade receivables and Advances from customers from Southern Vietnam Power Projects Management Board - Branch of National Power Transmission Corporation at 31 December 2024, with the value of VND 5.63 billion and VND 2.99 billion, respectively"*. With this opinion, The BOS believes that the reconciliation of receivables and payables is a part of the basic activities in financial work. Therefore, the Company is required to urgently collect and reconcile debts with customers and take measures to prevent this problem from existing in the audited financial statements for the first 6 months of 2025.

4. RECOMMENDATIONS

4.1. The BOS recommends that the 2025 AGM approve:

In year 2024, the BOS conducted inspection, supervision, examination and appraisal of the activities as well as reports of the BOD and the Executive Board of the Company.

- Firstly: The Company has been operating in compliance with the Enterprise Law, the Company's charter as well as related regulations such as internal governance regulations and other regulations related to the Company's production operations.
- Second: The BOS agrees with the contents of the report submitted to the BOD and the Company's Executive Board for approval of the 2025 AGM, including:
 - + Business results, audited financial statements, profit distribution results and salaries and remuneration of the Company in 2024;
 - + The Company's 2025 business plan according to the report of the BOD and the Executive Board.

4.2. The BOS recommends to the Company's BOD:

- Directing the Executive Board to take remedial measures against the VACO auditor's exception opinion on the 2024 financial statements, to consider and audit the Financial Statements up to the end of the first quarter of 2025 and the first 6 months of 2025.
- For bad debts: The Company is requested to actively collect receivables (short-term, long-term) to avoid capital appropriation, affecting the Company's cash flow. Pay special attention to the bad debt receivables of Song Bung 2 Hydropower Project Management Board.
- Implement cost-saving measures to increase the efficiency of surveying and design projects, thereby enhancing capital utilization efficiency.

The above is the report of the BOS of Power Engineering Consulting Joint Stock Company 3, respectfully submitted to the Annual General Meeting of Shareholders in 2025 for review and approval./.

The Board of General Directors of the Company is responsible for preparing the combined financial statements, which give a true and fair view of the financial position of the Company as at 31 December 2024, its financial performance and its cash flows for the year then ended. In preparing these combined financial statements, the Board of General Directors is required to:

- Select suitable accounting policies and then apply them consistently;
- Make judgments and estimates that are reasonable and prudent;
- State whether applicable accounting principles have been followed, subject to any material departures disclosed and explained in the combined financial statements;
- Prepare the combined financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business; and
- Design and implement an effective internal control system for the purpose of properly preparing and presenting the combined financial statements so as to minimize errors and frauds.

The Board of General Directors is responsible for ensuring that proper accounting records are kept, which disclose, with reasonable accuracy at any time, the financial position of the Company and that the combined financial statements comply with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to the preparation and presentation of the combined financial statements. The Board of General Directors is also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of frauds and other irregularities.

The Board of General Directors confirms that the Company has complied with the above requirements in preparing these combined financial statements.

STATEMENT OF THE BOARD OF GENERAL DIRECTORS (CONTINUED)

BOARD OF GENERAL DIRECTORS' STATEMENT OF RESPONSIBILITY (CONTINUED)

In the Board of General Directors's opinion, the accompanying combined financial statements give a true and fair view of the financial position of the Company as at 31 December 2024, its financial performance and its cash flows for the year then ended in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to the preparation and presentation of the combined financial statements.

For and on behalf of the Board of General Directors,

INDEPENDENT AUDITORS' REPORT

To: The shareholders
The Board of Management and the Board of General Directors
Power Engineering Consulting Joint Stock Company 3

We have audited the accompanying combined financial statements of Power Engineering Consulting Joint Stock Company 3 (the "Company"), prepared on 06 March 2025 as set out from page 05 to page 34, which comprise the combined balance sheet as at 31 December 2024, the combined income statement and the combined cash flow statement for the year then ended, and the notes to the combined financial statements (hereafter called the "combined financial statements").

Board of General Directors' Responsibility

The Board of General Directors is responsible for the true and fair preparation and presentation of these combined financial statements in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to the preparation and presentation of the combined financial statements and for such internal control as the Board of General Directors determines as necessary to enable the preparation of combined financial statements that are free from material misstatement, whether due to frauds or errors.

Auditors' Responsibility

Our responsibility is to express an opinion on these combined financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the combined financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the combined financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the combined financial statements, whether due to frauds or errors. In making those risk assessments, the auditors consider internal control relevant to the Company's true and fair preparation and presentation of the combined financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of General Directors, as well as evaluating the overall presentation of the combined financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Basis for Qualified Opinion

We were unable to obtain the confirmation letters for the Trade receivables and Advances from customers from Southern Vietnam Power Projects Management Board - Branch of National Power Transmission Corporation at 31 December 2024, with the value of VND 5.63 billion and VND 2.99 billion, respectively. We were also unable to perform any other necessary audit procedures to obtain sufficient appropriate audit evidence regarding the existence, completeness, and value of the above-mentioned liabilities. Therefore, we are unable to determine whether we need to make adjustments for the figures related to the above-mentioned items and relevant accounts in the Company's combined financial statements for the year then ended.

INDEPENDENT AUDITORS' REPORT (CONTINUED)

Qualified Opinion

In our opinion, except for the impact of the matter mentioned in the “Basis for Qualified Opinion” paragraph, the combined financial statements give a true and fair view of, in all material respects, the financial position of Power Engineering Consulting Joint Stock Company 3 as at 31 December 2024, its financial performance and its cash flows for the year then ended in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to the preparation and presentation of the combined financial statements.

Emphasis of matter

We would like to draw the readers' attention to Note 35 of the Notes to the combined financial statements on the Company's contingent liabilities. Our opinion is not modified in respect of this matter.

The Company applied Vietnamese Accounting Standards, accounting regime for enterprises in accordance with Circular No. 200/2014/TT-BTC dated 22 December 2014, Circular No. 53/2016/TT-BTC dated 21 March 2016, and circulars guiding the implementation of accounting standards of the Ministry of Finance in the preparation and presentation of combined financial statements.

Declaration of compliance with accounting standard and accounting regime

The Board of General Directors ensures to comply with the requirements of Vietnamese Accounting Standards, accounting regime for enterprises in accordance with Circular No. 200/2014/TT-BTC dated 22 December 2014, Circular No. 53/2016/TT-BTC dated 21 March 2016, and circulars guiding the implementation of accounting standards of the Ministry of Finance in the preparation of combined financial statements.

The accompanying combined financial statements are not intended to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam.

Disclosure of information comparability in the combined financial statements

The corresponding figures of the prior year are comparable with those of the current year.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**Accounting convention**

The combined financial statements are prepared on an accrual basis (except for information relating to cash flows).

Affiliated units have their own accounting work and dependent accounting. The Company's combined financial statements are prepared based on the combination of financial statements of affiliated units. Revenue and balances between affiliates are eliminated when preparing the combined financial statements.

NOTES TO THE COMBINED FINANCIAL STATEMENTS (CONTINUED)*These notes are an integral part of and should be read in conjunction with the accompanying combined financial statements***3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)****Accounting convention (Continued)**

The accompanying combined financial statements, expressed in Vietnamese Dong (VND), are prepared under the historical cost convention and in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to the preparation and presentation of combined financial statements.

The significant accounting policies, which have been adopted by the Company in the preparation of these combined financial statements, are as follows:

Estimates

The preparation of combined financial statements in conformity with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to the preparation and presentation of the combined financial statements requires the Board of General Directors to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the combined financial statements and the reported amounts of revenues and expenses during the financial year. Although these accounting estimates are based on the Board of General Directors' best knowledge, actual results may differ from those estimates.

Evaluation and recognition at fair value

The Law on Accounting came into effect from 01 January 2017, which included regulations on evaluation and recognition at fair value. However, there is no specific instruction for this matter; therefore, the Board of General Directors has considered and applied as follows:

- a) *Financial instruments are recognized and revaluated at fair value based on historical cost less provisions (if any) in accordance with current regulations.*
- b) *Monetary items denominated in foreign currencies shall be evaluated based on the actual exchange rates;*
- c) *For assets and liabilities (except items a and b as mentioned above), the Company does not have any basis to determine the reliable value; therefore, the Company records at historical cost.*

Financial instruments**Initial recognition**

Financial assets: At the date of initial recognition, financial assets are recognised at cost plus transaction costs that are directly attributable to the acquisition of the financial assets. Financial assets of the Company comprise cash, cash equivalents, trade and other receivables, and financial investments.

Financial liabilities: At the date of initial recognition financial liabilities are recognised at cost plus transaction costs that are directly attributable to the issue of the financial liabilities. Financial liabilities of the Company comprise trade and other payables, accrued expenses, and borrowings.

Subsequent measurement after initial recognition

Currently, Circular No. 210/2009/TT-BTC issued by the Ministry of Finance dated 06 November 2009 ("Circular 210") and the current regulations have no specific guidance on determining the fair value of financial assets and liabilities.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and deposits with the term of less than 03 months.

NOTES TO THE COMBINED FINANCIAL STATEMENTS (CONTINUED)*These notes are an integral part of and should be read in conjunction with the accompanying combined financial statements***3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)****Financial investments*****Trading securities***

Trading securities are those the Company holds for trading purpose. Trading securities are recognised from the date the Company obtains the ownership of those securities and initially measured at the fair value of payments made at the transaction date plus directly attributable transaction costs.

In subsequent periods, investments in trading securities are measured at cost less provision for impairment of such investments.

Provision for impairment of trading securities is made for each type of securities which are traded on the market and its market price is lower than the original price. To determine the fair value of trading securities listed on the securities market or traded on UPCOM, the fair value of securities is the closing price at the balance sheet date. If there is no transactions on the securities market or UPCOM at the balance sheet date, the fair value of the securities is the closing price at the day before the balance sheet date.

The change of provision for impairment of trading securities at the balance sheet date is recognized in financial expenses.

Equity investments in other entities

Equity investments in other entities represent the Company's investments in ordinary shares of the entities over which the Company has no control, joint control, or significant influence.

Equity investments in other entities are carried at cost less provision for impairment.

Provision of loss for equity investment in other entities as follows:

- For investments in listed shares or the fair value of a defined investment, provision is made based on the market value of the shares.
- For an investment that does not have a fair value at the reporting date, provision is made based on the investee's losses at the rate by the difference between the actual contributed capital of the parties at other unit and owner's equity multiplied by the ratio of capital contribution of the Company to the total actual contributed capital of the parties at other units.

Receivables

Receivables represent the amounts recoverable from customers or other debtors and are stated at book value less provision for doubtful debts.

Provision for doubtful debts is made for receivables that are overdue for six months or more, or when the debtor is in dissolution, in bankruptcy, or is experiencing similar difficulties and so may be unable to repay the debt.

NOTES TO THE COMBINED FINANCIAL STATEMENTS (CONTINUED)*These notes are an integral part of and should be read in conjunction with the accompanying combined financial statements***3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)****Inventories**

Inventories are stated at the lower of cost and net realisable value. Cost comprises direct materials and where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Cost is calculated using the weighted average method and is recorded using the perpetual method. Net realisable value represents the estimated selling price less all estimated costs to completion and costs to be incurred in marketing, selling and distribution.

The evaluation of necessary provision for inventory obsolescence follows current accounting regulations which allow provisions to be made for obsolete, damaged, or sub-standard inventories and for those which have costs higher than net realisable values as at the balance sheet date.

Prepayments

Prepayments are expenses which have already been paid but relate to results of operations of multiple accounting periods, including:

Tools and supplies: Tools and supplies which have been used are allocated into expenses using the straight-line method no more than 03 years.

Other prepayments: Other prepayments which have been recorded at cost are allocated into expenses using the straight-line method no more than 03 years.

Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less accumulated depreciation. The costs of purchased tangible fixed assets comprise their purchase prices and any directly attributable costs of bringing the assets to their working condition and location for their intended use.

Tangible fixed assets are depreciated using the straight-line method over their estimated useful lives as follows:

	Estimated useful lives
Buildings and structures	12 - 25
Machinery and equipment	05 - 06
Motor vehicles and conveyances	06 - 10
Management equipment	03 - 05

Loss or gain resulting from sales and disposals of tangible fixed assets is the difference between profit from sales or disposals of assets and their residual values and is recognised in the combined income statement.

Intangible assets and amortisation***Land use rights***

Intangible assets represent land use rights that are stated at cost less accumulated amortisation. Land use rights are amortised using the straight-line method over the duration of the land use right. Land use right with indefinite term is not amortised.

Computer software

Computer software is initially stated at cost and is amortized using the straight-line method over its estimated useful lives.

NOTES TO THE COMBINED FINANCIAL STATEMENTS (CONTINUED)*These notes are an integral part of and should be read in conjunction with the accompanying combined financial statements***3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)****Payables and accrued expenses**

Payables and accrued expenses are recognized for future amounts payable related to goods and services received. Accrued expenses are recognized based on reasonable estimates of the amount payable.

The classification of payables into trade payables, accrued expenses, and other payables are made on the following principles:

- Trade payables reflect payables arising from purchases of goods, services, assets and sellers are independent units to Company.
- Accrued expenses reflect amounts payable for goods or services received from the seller or provided to the buyer but not be paid due to lack of invoices or incomplete accounting records and documents, payments to employees for leave and prepaid production and business expenses.
- Other payables reflect non-trade payables and does not relate to the purchase, sale or supply of goods or services.

Equity

Owner's contributed capital is reflected as the actual charter capital contributed by the shareholders.

The distribution of profits of the Company is made in accordance with the Resolution of the General Meeting of Shareholders, the provisions of the Regulation on financial management of the Company.

Revenue recognition

Revenue is recognized when the Company is capable of receiving economic benefits that can be reliably determined. Revenue is determined at the fair value of the amounts received or to be received after deducting trade discounts, sales rebates and sales returns. The following specific recognition conditions must also be met when recognizing revenue:

Revenue of a transaction involving the rendering of services is recognised when the outcome of such transactions can be measured reliably. Where a transaction involving the rendering of services is attributable to several periods, revenue is recognised in each period by reference to the percentage of completion of the transaction at the balance sheet date of that period. The outcome of a transaction can be measured reliably when all four (4) following conditions are satisfied:

- (a) The amount of revenue can be measured reliably;
- (b) It is probable that the economic benefits associated with the transaction will flow to the Company;
- (c) The percentage of completion of the transaction at the balance sheet date can be measured reliably; and
- (d) The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Interest income is accrued on an accrual basis, by reference to the principal outstanding and at the applicable interest rate

Foreign currencies

Transactions arising in foreign currencies are translated at exchange rates ruling at the transaction date. The balances of monetary items denominated in foreign currencies as at the balance sheet date are retranslated at the exchange rates on the same date. Exchange differences arising from the translation of these accounts are recognised in the combined income statement. Unrealised exchange gains as at the balance sheet date are not treated as part of distributable profit to shareholders.

Borrowing costs

Borrowing costs are recognised in the combined income statement in the year when incurred.

NOTES TO THE COMBINED FINANCIAL STATEMENTS (CONTINUED)*These notes are an integral part of and should be read in conjunction with the accompanying combined financial statements***3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)****Taxation**

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the combined income statement because it excludes items of income or expense that are taxable or deductible in other years (including loss carried forward, if any) and it further excludes items that are never taxable or deductible.

Deferred tax is recognised on significant differences between carrying amounts of assets and liabilities in the combined financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using balance sheet liability method. Deferred tax liabilities are generally recognised for all temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which deductible temporary differences can be utilised.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realised. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same tax authority and the Company intends to settle its current tax assets and liabilities on a net basis.

The determination of the tax currently payable is based on the current interpretation of tax regulations. However, these regulations are subject to periodic variation and their ultimate determination depends on the results of the tax authorities' examinations.

Other taxes are paid in accordance with the prevailing tax laws in Vietnam.

The Company has determined the fair value of its financial assets and liabilities as at the balance sheet date as stated in Note 3, since there is no comprehensive guidance under Circular No. 210/2009/TT-BTC issued by the Ministry of Finance on 06 November 2009 ("Circular 210") and other relevant prevailing regulations to determine fair value of these financial assets and liabilities. While Circular 210 refers to the application of International Financial Reporting Standards ("IFRS") on presentation and disclosures of financial instruments, it did not adopt the equivalent guidance for the recognition and measurement of financial instruments, including application of fair value, in accordance with IFRS.

Financial risk management objectives

The Company has set up risk management system to identify and assess the risks exposed by the Company and designed control policies and procedures to manage those risks at an acceptable level. Risk management system is reviewed on a regular basis to reflect changes in market conditions and the Company's operations.

NOTES TO THE COMBINED FINANCIAL STATEMENTS (CONTINUED)*These notes are an integral part of and should be read in conjunction with the accompanying combined financial statements***33. FINANCIAL INSTRUMENTS (CONTINUED)**

Financial risks include market risk (including interest rate risk), credit risk and liquidity risk.

Market risk

The Company's activities expose it primarily to the financial risks of changes in interest rates. The Company does not hedge these risk exposures due to the lack of active market for the trading activities of financial instruments.

Interest rate risk management

The Company has significant interest rate risks arising from interest bearing loans which are arranged. The risk is managed by the Company by maintaining an appropriate level of borrowings and analysing market competition to enjoy favourable interest rates from appropriate lenders.

Credit risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company has a credit policy in place and the exposure to credit risk is monitored on an on-going basis. The Company does not have any significant credit risk exposure to any counterparty because receivables consist of a large number of customers, spread across diverse industries and geographical areas.

Liquidity risk management

The purpose of liquidity risk management is to ensure the availability of funds to meet present and future financial obligations. Liquidity is also managed by ensuring that the excess of maturing liabilities over maturing assets in any period is kept to manageable levels relative to the amount of funds that the Company believes can generate within that period. The Company policy is to regularly monitor current and expected liquidity requirements to ensure that the Company maintains sufficient reserves of cash, borrowings and adequate committed funding from its shareholders to meet its liquidity requirements in the short and longer term.

The following table details the Company's remaining contractual maturity for its non-derivative financial assets and financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial assets and undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The inclusion of information on non-derivative financial assets is necessary in order to understand the Company's liquidity risk management as the liquidity is managed on a net asset and liability basis.

35. CONTINGENT LIABILITIES**- Dispute over "Insurance Contract":**

In 2020, insurance companies (including Global Insurance Corporation, Baoviet Insurance Corporation, and Vietnam National Aviation Insurance Corporation) filed lawsuits at the People's Court of Ho Chi Minh City to ask consulting contractors related to the incident at the diversion tunnel of Song Bung 2 Hydropower Plant in 2016 (including Power Engineering Consulting Joint Stock Company 3, Kunming Survey and Design Institute and Power Engineering Consulting Joint Stock Company 2) to jointly reimburse the amount of VND 6,516,225,000 to the above mentioned insurance companies, without specifying the reimbursement amount of each contractor in the petition. The Company made a response to the People's Court of Ho Chi Minh City on 22 September 2020 stating that the field construction product of the diversion tunnel valve tower is not a design consulting product of the Company, therefore, the Company is not liable for such reimbursement.

In June 2021, the People's Court of Ho Chi Minh City issued a notice on the handling of the additional case No. 49A/TB-TA dated 28 June 2021, which adjusted the jointly reimbursement amount from VND 6,516,225,000 to VND 14,871,605,885. On 16 December 2021, the Company made a response to the People's Court of Ho Chi Minh City, which further affirmed that the field construction product of the diversion tunnel valve tower is not a design consulting product of KHIDI and PECC3, therefore, the Company shall not be liable for such reimbursement. In addition, in this document, the Company requested the Court to solicit an expert assessment of KHIDI and PECC3's design dossiers of the diversion tunnel to determine its errors (if any).

On 02 November 2022, Kunming Survey and Design Institute (KHIDI) also sent an explanation to the People's Court of Ho Chi Minh City, which asked the Court to reconsider the limitations period and dismiss Plaintiff's unwarranted claims.

NOTES TO THE COMBINED FINANCIAL STATEMENTS (CONTINUED)*These notes are an integral part of and should be read in conjunction with the accompanying combined financial statements***35. CONTINGENT LIABILITIES (CONTINUED)**

On 06 June 2024, the Company received the Notice No. 2517/2024/QĐ-TCGD from the People's Court of Ho Chi Minh City soliciting Joint Stock Company for Civil Engineering Consultant and Construction - COFEC to conduct an appraisal of the design documents to ensure the load-bearing safety and determine the consultant's fault (if any).

On 06 September 2024, the Judicial expertise appraiser - Joint Stock Company for Civil Engineering Consultant and Construction - COFEC made the Judicial Expertise Conclusion No. 07/2024/CV-COFEC upon request of Appraisal Request Decision No. 2517/2024/QĐ-TCGD dated 06 June 2024 of the People's Court of Ho Chi Minh City. The appraisal conclusion states that the design documents of the Project's construction items ensure the legality, comply with the provisions of laws, and meet the requirements of the Investor, and the technical design documents and construction drawings of the diversion tunnel of Song Bung 2 Hydropower Plant ensure the safety and load bearing capacity as required.

On 29 October 2024, the Company sent to the People's Court of Ho Chi Minh City a written opinion on the Appraisal Conclusion. In the document, the Company reaffirmed that it is not responsible for compensation for damages as requested by the plaintiff because the Appraisal Conclusion clearly stated that the Company's design documents ensure the legality, comply with the provisions of laws, and meet the requirements of the Investor, and the technical design documents and construction drawings of the diversion tunnel of Song Bung 2 Hydropower Plant ensure the safety and load bearing capacity as required.

On 06 December 2024, the People's Court of Ho Chi Minh City issued Document No. 5726/TATP-TLD dated 06 December 2024 to the Ministry of Industry and Trade regarding the provision of information and documents related to compensation for damages in the incident of the diversion tunnel of the Song Bung 2 Hydropower Project.

On 10 January 2025, the Ministry of Industry and Trade issued Document No. 69/DL-TD dated 10 January 2025 on the provision of information and documents in response to Document No. 5726/TATP-TLD dated 06 December 2024 of the People's Court of Ho Chi Minh City. Accordingly, the Ministry of Industry and Trade, following the direction of the Prime Minister, organized an appraisal of the cause of the incident at the Song Bung 2 Hydropower Project.

- Dispute over "Compensation for damages outside the contract":

In 2022, the Company also received the Notice No. 39/2022/TLBS of the People's Court of Binh Thanh District dated 11 July 2022 on the additional handling of the lawsuit; in which Hydraulics Construction Corporation No. 4 - JSC sued PECC3 and Lung Lo Construction Corporation to jointly compensate for the residual value of equipment and motorbikes at the time of being swept away in the diversion tunnel breaking of Song Bung 2 Hydropower Project with the amount of VND 6,595,720,000. The Company made a response to the People's Court of Binh Thanh District on 26 July 2022 asking the Court to reject the Plaintiff's claim and remove the Company's liability for compensation. The Company affirmed that the field construction product of the diversion tunnel valve tower is not a design consulting product of the Company and KHIDI, therefore, the Company is not liable for such compensation. In addition, the Company also requested the Court to solicit an expert assessment of KHIDI and the Company's design dossiers of the diversion tunnel to determine its errors (if any).

In 2023, the Company received the Notice No. 1837/2023/QĐST-DS of the People's Court of Binh Thanh District dated 19 September 2023 on the transfer of preliminary civil case file No. 1745/2020/TLST-DS dated 29 October 2020 of the People's Court of Binh Thanh District, Ho Chi Minh City to the People's Court of Ho Chi Minh City to resolve by authority.

On 25 February 2025, the People's Court of Ho Chi Minh City summoned the parties to appear at the headquarter of the People's Court of Ho Chi Minh City to publicly announce the Plaintiff's amended Petition (4th time) with the content of re-determining the parties' participation in the proceedings and requesting the Court to request valuation of the assets that the Plaintiff suffered damage, specifically: Defendants include: Lung Lo Construction Corporation, Power Construction Consulting Joint Stock Company 3, Power Generation Corporation 2 - LLC, Power Construction Consulting Joint Stock Company 2 and Kunming Research, Survey and Design Institute; Persons with related rights and obligations: Post and Telecommunication Insurance Joint Stock Corporation, Ministry of Industry and Trade.

NOTES TO THE COMBINED FINANCIAL STATEMENTS (CONTINUED)*These notes are an integral part of and should be read in conjunction with the accompanying combined financial statements***35. CONTINGENT LIABILITIES (CONTINUED)**

Currently, the People's Court of Ho Chi Minh City is still conducting sessions to summon the litigants to work at the Court to photocopy documents additionally submitted by the Plaintiff (Irrigation Construction Corporation 4-JSC) and the evidence obtained by the Court from the Ministry of Industry and Trade.

By the time of these combined financial statements, the Company has not received a notice from the People's Court of Ho Chi Minh City about the schedule of mediation and trial for the above 02 lawsuits. Accordingly, these combined financial statements do not include the impacts (if any) related to the results of the above 02 lawsuits.
