3 - Business sectors:

- Construction of civil, industrial, and road transport works at all levels, bridges, irrigation, postal facilities, foundations, urban infrastructure projects, and industrial zones, electrical transmission lines, and substations up to 110KV; foundation leveling, treatment of weak soil; construction of drainage works; installation of technological and pressure pipes, refrigeration systems;
- Residential development, real estate business;
- Repair, replacement, and installation of machinery and equipment, all types of concrete structures, steel structures, technical systems of construction (elevators, air conditioning, ventilation, drainage);
- Production and trading of construction materials (sand, stone, bricks, tiles, cement, concrete components, ready-mixed concrete, and other types of construction materials used in interior decoration. Business is only permitted when authorized by competent State authorities
- Consulting, investing, implementing construction investment projects, project planning, consulting tenders, supervising, and project management.
- Import and export of materials, machinery, equipment, spare parts, production materials, consumer goods, production materials, technological lines, automated machinery and equipment, construction materials, means of transport;
- Agent for domestic and foreign companies trading items serving production and consumption (The enterprise may only conduct business when it meets the conditions as prescribed by law)

4 The operational characteristics of the enterprise in the fiscal year affect the financial statements

II - Accounting period, currency used in accounting

1 - Annual accounting period

The company's financial year starts on January 1st and ends on December 31st each year.

2 - Currency unit

The currency used in accounting is the Vietnamese Dong (VND).

III - Standards and accounting regulations applied

1 - Accounting regulations applied

The company applies the Vietnamese enterprise accounting regulations.

2 - Declaration of compliance with accounting standards and regulations

VIN2 Investment and Construction Joint Stock Company ensures that it has fully complied with the requirements of the current accounting standards and enterprise accounting regulations in preparing financial statements.

3 - Accounting method applied

The company uses the general journal method according to the accounting program on the computer.

IV - Accounting policies applied

1 - Recognition principles for cash and cash equivalents- The method of converting other currencies into the currency used in accounting

Cash and cash equivalents include cash, bank deposits, cash in transit, and short-term investments with a recovery or maturity period of no more than 3 months from the date of purchase, easily convertible into a defined amount of cash and not having significant risks in conversion.

2 - Principles of recording inventories:

- Inventory is determined based on its cost. The cost of inventory includes purchase costs, processing costs, and other directly related costs incurred to obtain the inventory at its current location and condition.

- The initial cost of inventory is calculated using the weighted average method and is recorded using the periodic inventory method.

- A provision for inventory write-down is recognized when the historical cost exceeds the net realizable value. The net realizable value is the estimated selling price of the inventory less the estimated costs to complete the product and the estimated costs necessary to sell them.

- In the year when the company does not incur inventory write-downs, provisions need to be made.

3 - Principles of recognition and depreciation of fixed assets and investment properties

- Principles of recognizing fixed assets (tangible, intangible, finance lease);

+ Tangible and intangible fixed assets are recognized at their original cost. In the Balance Sheet, they are reflected through three indicators: original cost, accumulated depreciation, and net book value.

+ Finance leased fixed assets are recognized at the lower of the fair value of the leased asset and the current value of the minimum lease payments

-Methods of depreciating fixed assets (tangible, intangible, finance lease).

Fixed assets are depreciated using the straight-line method, based on their expected useful life in accordance with the guidance in Decision No. 206/2003/QD-BTC dated December 12, 2003, by the Minister of Finance. Fixed assets such as machinery, equipment, means of transportation, and management tools are subject to a quick depreciation coefficient of 2 times.

4 - Principles of recognition and depreciation of investment properties:

- Principles of recognizing investment properties;

Investment properties are recognized at cost, not at fair value

- Depreciation method for investment properties.

Enterprises apply the straight-line method

5 - Principles of recognizing financial investments:

Investments in subsidiaries, joint ventures, and contributions to jointly controlled businesses are reflected in the separate financial statements of the enterprise at cost. When liquidating an investment, the difference between the net liquidation value and the book value is recorded as income or expense in the period.

- Short-term securities investments, other short-term and long-term investments are recorded at cost

- Method for establishing provisions for impairment of short-term and long-term investments.

6 - Principles of recognizing and capitalizing borrowing costs: -

Principles of recognizing borrowing costs;

Borrowing costs are capitalized when they are directly related to the investment in construction or the production of assets under construction that require a sufficiently long time (over 12 months) to be put into use for their intended purpose or sold. Other borrowing costs are recognized as expenses in the period

The capitalization rate used to determine the borrowing costs capitalized in the period;

$$\text{Capitalization rate (\%)} = \frac{\text{Actual loan amount L borrowed from loans incurred during the period}}{\text{Average weighted balance of principal loans}} \times 100\%$$

7 - Principles for recognizing and capitalizing other expenses;

- Prepaid expenses;
- Other expenses;
- Method of allocating prepaid expenses;
- Method and period of allocating goodwill.

8 - The principle of recognizing accrued expenses.

Accrued expenses are recognized based on reasonable estimates of the amounts payable for goods and services consumed during the period

9 - The principles and methods for recognizing provisions.

10 - The principle of recognizing equity:

- The principle of recognizing owner contributions, surplus of share capital, and other equity of the owner.

+ Owner contributions are recognized at the actual amount contributed by the owner

+ Surplus of share capital is recognized at the difference exceeding (or lower than) the actual issuance price and the par value of the shares in joint-stock companies when shares are issued for the first time, additional issuance, or reissuance of treasury shares

+ Other equity of the owner is recognized at the remaining value between the fair value of the assets donated to the enterprise by other organizations or individuals, after deducting any taxes owed (if any) related to the donated assets

- The principle of recognizing revaluation surplus of assets.

- The principle of recognizing foreign exchange differences

Foreign exchange differences reflected in the Balance Sheet are the foreign exchange differences arising or revalued at the end of the period for monetary items denominated in foreign currencies (foreign exchange gains or losses) from capital construction investment activities (during the pre-activity phase, not yet completed)

- The principle of recognizing undistributed profits.

Undistributed profits after tax reflected in the Balance Sheet are the amounts of profits (gains or losses) from the enterprise's activities after deducting this year's corporate income tax expenses and adjustment items due to retrospective application of accounting policy changes and retrospective adjustments for significant errors from previous years

11 - Principles and methods of revenue recognition:

- Sales revenue;

+Revenue recognition for a company's sales adheres fully to the 5 revenue recognition conditions outlined in Accounting Standard No. 14 "Revenue and Other Income". Sales revenue is determined based on the fair value of the amounts received or expected to be received according to the accrual accounting principle. Advances received from customers are not recognized as revenue in the period.

+When selling goods and finished products, revenue is recognized when most of the risks and benefits associated with ownership of those goods are transferred to the

buyer and there is no significant uncertainty related to payment, accompanying costs, or the possibility of returned merchandise.

- *Service revenue;*

+Revenue recognition for service provision fully complies with the 4 revenue recognition conditions specified in Accounting Standard No. 14 "Revenue and Other Income"

+ When providing services, revenue is recognized when there are no substantial unknowns about payment or associated costs. When services are done throughout many accounting periods, revenue for each period is computed based on the service completion ratio at the end of the period

- *Financial activity revenue;*

+Recognition of financial activity revenue completely conforms with the 2 revenue recognition standards mentioned in Accounting Standard No. 14 "Revenue and Other Income".

+Interest, dividends, and profit shares are recorded when a company is anticipated to benefit financially from the transaction and the revenue is considered to be reasonably certain. Interest is recognized based on time and interest rates for each period. Dividends are recognized when shareholders are entitled to receive dividends or when parties participating in capital contributions are entitled to profits from their contributions.

- *Revenue from construction contracts.*

12 - Principles and methods for recognizing financial expenses.

Financial expenses recorded in the Income Statement are the total financial expenses incurred during the period (not offset against financial revenue)

13 Principles and methods for recognizing current corporate income tax expenses, deferred corporate income tax expenses.

Current corporate income tax expenses are determined based on taxable income and the corporate income tax rate for the current year. Deferred corporate income tax expenses are determined based on temporary differences that are tax-deductible and the corporate income tax rate. Current corporate income tax expenses should not be offset against deferred corporate income tax expenses.

14 - Currency exchange risk provision transactions.

15 - Other accounting principles and methods.
