**REPORT ON THE ACTIVITIES OF THE BOARD OF DIRECTORS
AT THE 2026 ANNUAL GENERAL MEETING OF SHAREHOLDERS**

**To: The General Meeting of Shareholders
Thanh Le Corporation**

The Board of Directors of Thanh Le Corporation (*“the Corporation”*) respectfully reports to the General Meeting of Shareholders on the governance status and operational results of the Board of Directors, the actual business management of the Corporation in 2025, and the business orientation for 2026.

In 2025, members of the Board of Directors and the Board of General Directors of the Corporation actively coordinated to perform the production and business tasks approved by the General Meeting of Shareholders. The Board of Directors reports the operational results as follows:

PART I. OPERATIONAL SITUATION OF THANH LE CORPORATION IN 2025**1. Evaluation of the 2025 business situation and results:**

In 2025, Vietnam's socio-economic situation remained generally stable with a positive recovery. However, the economy still faced numerous difficulties and challenges due to global economic fluctuations, policy changes, natural disaster risks, climate change, and increasing competitive pressure.

Global petroleum prices in 2025 experienced significant volatility caused by geopolitical tensions and the demand from major world economies. This led to abnormal price fluctuations, especially in the final months of the year, affecting inventory values as major traders are required to maintain reserves in accordance with current regulations.

Under the domestic petroleum price management mechanism, global price movements directly impact business performance. The Board of Directors and the Board of General Directors proactively monitored the market, promptly updated policies, and flexibly managed business operations to fulfill the role of a major petroleum trading enterprise. The Corporation fulfilled the minimum total petroleum source for 2025 allocated by the Ministry of Industry and Trade, ensuring timely supply for the distribution system to serve economic development and social needs.

In 2025, the total volume of petroleum purchased and imported reached 1.374.738 m3, achieving 106% of the total source allocated by the Ministry of Industry and Trade, representing an 11% increase compared to 2024.

The Corporation maintained its existing distribution system and expanded its business network, establishing relationships with major traders, distributors, and industrial customers.

The Hai Phong City Branch, which began operations in 2024, has quickly stabilized and gradually fulfilled its strategic role in expanding the petroleum network and increasing market share in Northern provinces. The Branch's consumption output contributed positively to the Corporation's overall results, creating a favorable foundation for further business expansion in the North in the coming time.

No.	Indicator	2025 Plan	2025 Performance	Achievement rate
1	Total revenue	20.010.845.000.000	21.548.788.944.071	107,69%

3	Profit after tax	110.699.000.000	144.720.583.914	130,73%

(Source: 2025 AGM Resolution and 2025 audited consolidated financial statements)

The 2025 business results met and exceeded the set targets, driven by market recovery and growth, combined with the Corporation's expansion of its distribution system and increased sales volume across both wholesale and retail channels.

2025 revenue exceeded the plan by 7,69%, while both profit before and after tax increased by over 30% compared to the targets assigned by the General Meeting of Shareholders. This reflects the effective business management of the Board of Directors and the Management Team, successful financial governance, and optimized sourcing and inventory management aligned with market trends. Operating, selling, and administrative expenses were strictly controlled, thereby improving profit margins compared to the plan.

In 2025, per Document No. 6705/UBCK-GSDC dated October 24, 2025, from the Chairman of the State Securities Commission, the Corporation performed a retrospective adjustment for unallocated costs in 2023 and 2024. Specifically, under Circular 138/2012/TT-BTC, the Corporation was to allocate business goodwill of 307,42 billion VND over 05 years (2023–2027) at 61,48 billion VND per year.

However, on August 15, 2025, the Ministry of Finance issued Circular 83/2025/TT-BTC (effective October 01, 2025), which superseded Circular 138/2012/TT-BTC. Consequently, the Corporation re-allocated the business goodwill over 03 years (2023–2025) at 102,47 billion VND per year, representing an increase of 41 billion VND compared to the previous circular.

This re-allocation impacted business results, reducing profit before tax by 41 billion VND and profit after tax by 30 billion VND.

Due to the retrospective adjustment for 2023 and 2024, the undistributed profit after tax carried forward from 2024 to 2025 was negative 105,5 billion VND, leading to a recorded profit after tax of negative 12,4 billion VND at the end of 2025. As a result, the Corporation will be unable to establish funds or distribute dividends for 2025. This adjustment is a mandatory requirement by the State Securities Commission and the Ministry of Finance, objective in nature, and beyond the Corporation's forecasting.

Real estate activities, primarily involving factory leases, industrial park infrastructure, warehousing, and property transfers, along with other goods and services, provided stable revenue.

Overall, the 2025 results show that the Corporation's business operations maintain positive growth momentum, providing a vital basis to consolidate financial capacity, improve operational efficiency, and set the stage for next year's development goals.

State Budget Contributions: In 2025, the total contribution to the State budget was 3.490 billion VND. The Corporation was honored as one of 16 entities in Ho Chi Minh City post-merger with contributions over 3.000 billion VND, receiving a Certificate of Merit from the Ho Chi Minh City People's Committee.
