LPS SECURITIES JOINT STOCK COMPANY
Số: 8244/2026/ CV-LPS
V/v: Explanation of the fluctuation in profit after tax for QIII 2026 with variance exceeding 10% QIII 2025.

THE SOCIALIST REPUBLIC OF VIETNAM
Independence – Freedom – Happiness
----o0o-----

HCM City, 19 October 2026

EXPLANATION LETTER

To: **- The State Securities Commission of Vietnam (SSC)**
- Viet Nam Exchange (VNX)
- Ho Chi Minh City Stock Exchange

Pursuant to Clause 1, Article 22 of Circular No. 96/2020/TT-BTC dated November 16, 2020, issued by the Ministry of Finance providing guidelines on information disclosure on the securities market, LPS Securities Joint Stock Company (LPS) hereby provides an explanation regarding the variance of 10% or more in Corporate Income Profit After Tax in the Income Statement of QIII 2026 compared to the same period last year

The variances in revenue and expenses for QIII 2026 compared to QIII 2025 are as follows:

Financial Indicators	Quarter III		Increase (+) / Decrease (-) QIII/2026 vs QIII/2025	
	2026 VND	2025 VND	Value VND	Percentage %
Operating income	1.556.052.279.026	430.396.894.089	1.125.655.384.937	261.54%
Operating expenses	947.358.812.700	123.209.741.739	824.149.070.961	668.90%
Finance expenses	385.886.554.695	157.917.860.010	227.968.694.685	144.36%
Profit before tax	176.294.046.269	123.212.682.228	53.081.364.041	43.08%
Profit after tax	141.173.164.694	98.489.687.346	42.683.477.348	43.34%

Profit after tax for the third quarter of 2026 reached VND 141.17 billion, an increase of VND 42.68 billion compared to QIII 2025, corresponding to a year-on-year growth of 43.34%. Core revenue segments continued to maintain strong growth momentum, making positive contributions to total revenue, specifically:

- Operating revenue reached VND 1,556 billion, an increase of VND 1,125 billion (up 261.54%) compared to QIII 2025. Revenue was primarily driven by gains from financial assets at fair value through profit or loss (FVTPL), which reached VND 937 billion more than a five-fold increase year-on-year. Margin lending, advance payment for securities sold, and underwriting and issuance agency activities generated revenues of VND 408 billion and VND 50 billion, respectively, representing year-on-year increases of 402.43% and 100%.

- However, persistently high interest rates have exerted significant pressure on the Company's investment activities, thereby narrowing LPS's profit margins. Operating expenses were recorded at VND 947 billion, an increase of VND 824 billion, representing a more than six-fold increase year-on-year. Interest expenses stood at VND 385 billion, up VND 227 billion (a 144.36% YoY increase)

The above is LPS Securities Joint Stock Company's explanation regarding the profit fluctuation in QIII 2026 compared to QIII 2025, respectfully submitted to the State Securities Commission, the Vietnam Exchange, and the Ho Chi Minh City Stock Exchange.

Respectfully yours!

1. GENERAL INFORMATION

LPS Securities Joint Stock Company (initially known as LPBank Securities Joint Stock Company which was renamed from Viettranimex Securities Joint Stock Company) is a joint stock company established in Vietnam under License No. 104/UBCK-GP issued by the State Securities Commission on 12 February 2009 and the Enterprise Registration Certificate No. 0309312029 dated 12 February 2009 issued by the Department of Planning and Investment of Ho Chi Minh City. The Company operates under the latest amended License 79/GPĐC-UBCK dated 26 June 2026 and Enterprise Registration Certificate No. 0309312029, with the 23rd amendment date on 27 August 2026.

The total number of employees of the Company as at 30 September 2026 was 478 people (as at 31 December 2025: 314 people).

The Company's head office is located at 4th Floor, Office Building, No. 257 Dien Bien Phu Street, Xuan Hoa Ward, Ho Chi Minh City, Vietnam. As at the reporting date, the Company has three (03) branches: the Hanoi Branch, the Cat Linh Branch, and the Da Nang Branch.

As at 30 September 2026, the Company's charter capital was VND 14,086,680,000,000 (as at 31 December 2025: VND 12,668,000,000,000).

Operating industry and principal activities

The Company operates in the securities sector.

The principal activities of the Company are securities brokerage service; financial and securities investment advisory services; securities trading; underwriting for securities issuance; securities depository services and other services in accordance with legal regulations applicable to securities companies.

Normal business cycle

The Company's normal business cycle is carried out for a time period of 12 months or less.

Investment restrictions of the Company

The Company complies with Article 28 of Circular No. 121/2020/TT-BTC dated 31 December 2020 ("Circular 121") issued by the Ministry of Finance prescribing operation of securities companies and applicable regulations on investment restrictions. The current restrictions on investment are as follows:

A securities company is not allowed to purchase, contribute capital to purchase real-estate except for the purpose of using the real estate as head office, branch, and transaction offices directly serving professional business activities of the securities company.

A securities company may purchase, invest in real estate under Clause 1 of this Article and fixed assets on the principle that the carrying value of fixed assets and investment properties should not exceed fifty percent (50%) of its total assets.

A securities company is not allowed to use more than seventy percent (70%) of its owners' equity to invest in corporate bonds. A securities company, licensed to engage in securities trading, is allowed to repurchase listed bonds in accordance with relevant regulations on securities repurchase agreement.

1. GENERAL INFORMATION (continued)

Investment restrictions of the Company (continued)

A securities company must not by itself, or authorize another entity or individuals to:

a) Invest in shares or contribute capital to companies that own more than fifty percent (50%) of the charter capital of the securities company, except for purchasing odd shares per request of customers;

b) Make joint investments with a related party in five percent (5%) or more of the charter capital of another securities company;

c) Invest in more than twenty percent (20%) of the total circulating shares or fund certificates of a listed entity;

d) Invest in more than fifteen percent (15%) of the total circulating shares or fund certificates of a non-listed entity. This provision shall not apply to member fund, exchange-traded fund and open-ended fund certificates;

e) Invest or contribute capital in more than ten percent (10%) of the total contributed capital of a limited liability company or a business project;

f) Invest or contribute more than fifteen percent (15%) of its owners' equity in an entity or a business project; and

g) Invest more than seventy percent (70%) of its owners' equity in shares, capital contribution and business projects, specifically invest more than twenty percent (20%) of its owners' equity in non-listed shares, capital contribution and business projects.

A securities company is allowed to establish, acquire a fund management company as a subsidiary. In this case, the securities company is not required to comply with the regulation of points c, d and e mentioned above. A securities company that plans to establish or acquire a fund management company as a subsidiary must meet the following conditions:

a) Equity after contributing capital to establish or acquire of a fund management company must be at least equal to the charter capital for business operations the company is performing;

b) The capital liquidity ratio after contributing capital to establish or acquire a fund management company must be at least one hundred and eighty percent (180%); and

c) After contributing capital to establish or acquire a fund management company, a securities company must ensure compliance with debt restrictions specified in Article 26 and investment restrictions specified in Clause 3, Article 28 and Point e, Clause 4, Article 28, Circular 121.

Where any securities company makes investments in excess of the prescribed limit due to its underwriting in the form of firm commitment, consolidation, merger or any change in assets or equity of the securities company or capital contributors, it must take necessary actions to comply with the limits specified in Clauses 2, 3 and 4 of Article 28 for a maximum period of one (01) year.

Associates

Sacom Crypto Asset Exchange Joint Stock Company (SCEX) was established under Business Registration Certificate No. 0111235712, dated October 14, 2026 (5th amendment), issued by the Department of Finance of Ho Chi Minh City. Its main line of business is financial service support activities. As of October 14, 2026, its charter capital is VND 10,000,000,000,000 (10 trillion Vietnamese Dong).

2. BASIS OF PRESENTATION

2.1. *Applied accounting standards and system*

The interim financial statements of the Company are presented in Vietnam Dong ("VND") and in accordance with Vietnamese Enterprise Accounting System, the accounting regulation and guidance applicable to securities companies as set out in Circular No. 210/2014/TT-BTC dated 30 December 2014 ("Circular 210"), Circular No. 334/2016/TT-BTC dated 27 December 2016 ("Circular 334") amending, supplementing and replacing Appendices No. 02 and No. 04 of Circular No. 210/2014/TT-BTC, Circular No. 114/2021/TT-BTC dated 17 December 2021 providing guidance on financial regime applicable to securities companies and fund management companies, Vietnamese Standards on Accounting No. 27 – the interim financial statements and other Vietnamese Accounting Standards promulgated by the Ministry of Finance as per:

- Decision No. 149/2001/QD-BTC dated 31 December 2001 on the Issuance and Promulgation of four Vietnamese Standards on Accounting (Series 1);
- Decision No. 165/2002/QD-BTC dated 31 December 2002 on the Issuance and Promulgation of six Vietnamese Standards on Accounting (Series 2);
- Decision No. 234/2003/QD-BTC dated 30 December 2003 on the Issuance and Promulgation of six Vietnamese Standards on Accounting (Series 3);
- Decision No. 12/2005/QD-BTC dated 15 February 2005 on the Issuance and Promulgation of six Vietnamese Standards on Accounting (Series 4); and
- Decision No. 100/2005/QD-BTC dated 28 December 2005 on the Issuance and Promulgation of four Vietnamese Standards on Accounting (Series 5).

2.2 *Registered accounting documentation system*

The Company's registered accounting documentation system is the General Journal.

2.3. *Fiscal period*

The Company's fiscal year starts on 01 January and ends on 31 December.

The Company also prepares interim financial statements for the financial period of three (03) months, six (06) months and nine (09) months ending at 31 March, 30 June and 30 September every year.

2.4 *Accounting currency*

The interim financial statements are prepared in Vietnam Dong ("VND"), which is also the accounting currency of the company.

3. STATEMENT ON COMPLIANCE WITH VIETNAMESE ACCOUNTING STANDARDS AND SYSTEMS

Management of the Company confirms that the Company has complied with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System, accounting guidance applicable to securities companies and statutory requirements relevant to preparation and presentation of interim financial statements.

Accordingly, the accompanying interim financial statements and its utilization are not designed for those who are not informed about Vietnam's accounting principles, procedures and practices and furthermore are not intended to present the interim financial position, the interim results of operations, interim cash flows and interim changes in owners' equity in accordance with accounting principles and practices generally accepted in countries other than Vietnam.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

4.1 Changes in accounting policies

The company prepares its cash flow statement using the indirect method instead of the direct method. The opening cash flow statement figures are restated for comparison purposes.

In addition to the changes mentioned, the accounting policies used by the Company to prepare the interim financial statements have been applied consistently with those used to prepare the interim financial statements for the nine-month period ended 30 September 2025 and the financial statements for the year ended 31 December 2025.

4.2 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits, cash in transit and short-term, highly liquid investments (not exceeding 3 months) that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Cash deposited by customers for securities trading are presented on the off-balance sheet.

Cash in banks for securities clearing and settlement is the amount available in place to clear off or settle securities transactions at the Stock Exchange Center and Viet Nam Securities Depository and Clearing Corporation.

4.3 Financial assets at fair value through profit or loss (FVTPL)

Financial assets recognized at fair value through profit and loss are financial assets that satisfy either of the following conditions:

a) It is classified as held for trading. A financial asset is classified as held for trading if:
   - It is acquired or incurred principally for the purpose of selling or repurchasing it in the near term;
   - There is evidence of a recent actual pattern of short-term profit-taking; or
   - It is a derivative (except derivative that is a financial guarantee contract or effective hedging instrument).

b) Upon initial recognition, a financial asset is designated by the entity as at fair value through profit and loss as it meets one of the following criteria:
   - The classification eliminates or significantly reduces the inconsistent treatment that would otherwise arise from measuring the asset or recognizing gains or losses on a different basis;
   - The financial assets are part of a group of financial assets which are managed and their performance is evaluated on a fair value basis, in accordance with the Company's risk management policy or investment strategy

Financial assets at FVTPL are initially recognized at cost (acquisition cost of the assets excluding transaction cost arising from the purchase) and subsequently recognized at fair value.

Increase in the difference arising from revaluation of financial assets at FVTPL in comparison with the previous period is recognized into the interim income statement *under "Gain from revaluation of financial assets at FVTPL"*. Decrease in the difference arising from revaluation of financial assets at FVTPL in comparison with the previous period is recognized into the interim income statement under *"Loss from revaluation of financial assets at FVTPL"*.

Transaction costs relating to the purchase of the financial assets at FVTPL are recognized when incurred as expenses in the interim income statement.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.4 Held-to-maturity investments ("HTM")

Held-to-maturity investments are non-derivative financial assets with determinable payments and fixed maturity that an entity has the positive intention and ability to hold to maturity, except for:

a) Those that the entity upon initial recognition designates as at fair value through profit or loss;
b) Those that the entity designates as available for sale;
c) Those meet the definition of loans and receivables.

HTM financial investments are recognized initially at cost (acquisition cost of the assets plus (+) transaction costs which are directly attributable to the investments such as brokerage fee, trading fee, agent fee, issuance agency fee and banking transaction fee). After initial recognition, HTM financial investments are subsequently measured at amortized cost using the effective interest rate.

Amortized cost of HTM financial investments is the amount at which the financial asset is measured at initial recognition minus (-) principal repayments, plus (+) or minus (-) the cumulative amortization using the effective interest method of any difference between that initial amount and the maturity amount, and minus (-) any reduction for impairment or irrecoverability (if any).

The effective interest rate method is a method of calculating the cost allocation on interest income or interest expense in the period of a financial asset or a group of HTM investments.

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter term to the net carrying amount of the financial assets or financial liabilities.

HTM investments are subjected to an assessment of impairment at the interim financial statement date. Provision is made for an HTM investment when there is any objective evidence that the investment is irrecoverable or there is uncertainty of recoverability, resulting from one or more events that has occurred after the initial recognition of the investment and that event have an impact on the estimated future cash flows of the investment that can be reliably estimated. Evidence of impairment may include a drop in the fair value/market value of the debt, indications that the debtors or a group of debtors are experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation and where observable data indicates that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults. When there is any evidence of impairment, provision for an HTM investment is determined as the negative difference between its fair value and amortized cost at the assessment date. Any increase/decrease in the balance of provision is recognized in the interim income statement under *"Provision expense for diminution in value and impairment of financial assets and doubtful receivables and borrowing costs of loans".*

4.5 Loans

Loans are non-derivative financial assets with fixed or identifiable payments and not listed on the market, excepted for:

a) The amounts the Company has the intent to immediately sell or will sell in a near future which are classified as assets held for trading, and like those which, upon initial recognition, the Company categorized as such recognized at fair value through profit or loss;

b) The amounts categorized by the Company as available for sale upon initial recognition; or

c) The amounts whose holders cannot recover most of the initial investment value not due to credit quality impairment and which are categorized as available for sale.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.5 Loans (continued)

Loans are initially recognized at cost. After initial recognition, loans are subsequently measured at amortized cost using the effective interest rate method.

Amortized cost of loans is the amount at which the loan is measured at initial recognition minus (-) principal repayments, plus (+) or minus (-) the cumulative amortization using the effective interest method of any difference between that initial amount and the maturity amount, and minus (-) any reduction for impairment or un-collectability (if any).

Loans are subject to an assessment of impairment at the interim financial statement date. Provision for loans is made based on estimated loss, which is calculated as the difference between the market value of the securities used as collateral for the loan and the loan balance. Any increase/decrease in the balance of provision is recognized in the interim income statement under "Provision expense for diminution in value and impairment of financial assets and doubtful receivables and borrowing costs of loans".

4.6 Available-for-sale (AFS) financial assets

Available-for-sale financial assets are non-derivative financial assets that are designated as available-for-sale or are not classified as:

a) Loans and receivables;
b) Held-to-maturity investments;
c) Financial assets at fair value through profit or loss (FVTPL)

Available-for-sale financial assets are recognized initially at cost (acquisition cost of the assets plus (+) transaction costs which are directly attribute to the purchase of the financial assets). After initial recognition, Available-for-sale financial assets are subsequently measured at fair value at the statement of financial position.

The differences arising from the remeasurement of available-for-sale financial assets due to changes in market prices (increase or decrease) compared to the prior period are presented under "Gain/(losses) from remeasurement of available-for-sale financial assets" within Other comprehensive income on the statement of profit or loss.

At the reporting date, the Company also reassesses whether there is any objective evidence that available-for-sale financial assets are impaired. Any increase or decrease in the impairment allowance balance is recognised in the statement of profit or loss under "Provision expenses for financial assets, write-off of doubtful receivables, impairment losses on financial assets and borrowing costs on loans".

- For equity instruments classified as available for sale, objective evidence of impairment includes a significant or prolonged decline in the fair value of the investment below its carrying amount. "Significant" is assessed relative to the original cost of the investment, while "prolonged" refers to the period during which the fair value remains below cost. When there is objective evidence of impairment, the impairment allowance is recognised based on the difference between the original cost and the fair value at the assessment date.
- For debt instruments classified as available for sale, impairment is assessed using the same criteria applied to held-to-maturity investments. When there is objective evidence of impairment, the impairment allowance is determined based on the difference between the amortised cost and the fair value at the assessment date.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.7 Fair value/market value of financial assets

Fair value/market value of the securities is determined as follows:

- For securities listed on Hanoi Stock Exchange and Ho Chi Minh City Stock Exchange, their market prices are their closing prices on the trading day preceding the date of setting up the revaluation;
- For unlisted securities registered for trading on the Unlisted Public Company Market ("UPCoM"), their market prices are the closing price on the most recent trading days up to the date of securities valuation;
- For delisted securities and suspended trading securities from the sixth day afterward, their prices are the book value at the latest financial report date;
- The actual market price for unlisted securities and securities unregistered for trading on the Unlisted Public Company Market ("UPCOM") is the actual trading prices of the latest transaction on over-the-counter ("OTC") market, based on the most recent financial statements of issuers as at the date of financial statements.

For securities which do not have reference price from the above sources, the fair value is determined based on internal valuation method of the Company.

Subjects of provisioning do not include government bonds, government-guaranteed bonds, and municipal bonds.

4.8 Reclassification of financial assets

Reclassification when selling financial assets other than FVTPL

When selling financial assets other than FVTPL, securities companies are required to reclassify those financial assets to financial assets at FVTPL. The difference arising from the revaluation of financial assets AFS which is recognized in "*Difference from revaluation of assets at fair value*" will be recognized as corresponding revenue or expenses at the date of reclassification of financial assets AFS for selling purpose.

Reclassification due to change in purpose or ability to hold

Securities companies are required to reclassify financial assets to their applicable categories if their purpose or ability to hold has changed, consequently:

- Non-derivative financial assets at FVTPL or financial assets that are not required to classify as financial asset at FVTPL at the initial recognition can be classified as loans and other receivables or as cash and cash equivalents if the requirements are met. The gains or losses arising from revaluation of financial assets at FVTPL prior to the reclassification are not allowed to be reversed.
- Due to changes in purposes or ability to hold, some HTM investments are required to be reclassified into AFS financial assets and to be reassessed at fair value. The difference arising from revaluation between carrying value and fair value are recognized under "*Difference from revaluation of assets at fair value*" in Owners' equity.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.9 Derecognition of financial assets

A financial asset (or part of a group of similar financial assets) is derecognized when:

- The rights to receive cash flows from the asset have expired; or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a pass-through arrangement; and either:
  - The Company has transferred substantially all the risks and rewards accompanying the asset; or
  - The Company has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred the right to use the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered a transfer arrangement; and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Company's continuing involvement in the asset. In that case, the Company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

The continued participation in transferred assets in the form of guarantee will be recognized at smaller value between the initial carrying value of the assets and the maximum amount that the Company is required to pay.

4.10 Recognition of mortgaged financial assets

During the period, the Company had mortgaged/pledged financial assets which are used as collaterals for financial obligations of the Company.

According to the terms and conditions of the mortgage/pledge contracts, during the valid period of the contracts, the Company is not allowed to sell, transfer or use the mortgaged/pledged assets under repurchase or swap contracts with any other third party.

In case the Company is unable to fulfil its obligations, the mortgagee/pledgee is allowed to use the mortgaged/pledged assets to settle the obligations of the Company after a period specified in the mortgage/pledge contracts, since the obligations due date.

The mortgaged/pledged assets are monitored in the Company's interim statement of financial position in accordance with accounting principles relevant to the assets' classification.

4.11 Investments

Investments in associates

Investments in associates companies are recorded according to the cost method on the Company's own interim financial statements. Dividends distributed from after-tax profits of associates companies are recognized as income on interim income statements.

Loss provision for investments in associates companies is made separately for each loss-making investment, and is reviewed at the end of the period. The Company makes provisions for investments in associates companies if the investment suffers losses due to losses of associates companies. Increase or decrease in the reserve account balance accounted for in financial expenses during the period.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.12 Receivables

Receivables are initially recorded at cost and subsequently always presented at cost.

Receivables are subject to review for impairment based on their overdue status or estimated loss arising from undue debts of corporate debtors who have bankruptcy or are under liquidation; or of individual debtors who are missing, have fled, are prosecuted, detained or tried by law enforcement bodies, are serving sentences, having serious illness (with hospital confirmation), have deceased, or debts that have been requested for law enforcement but cannot be performed due to the debtor having fled; debt that have been sued for debt collection but the settlement of the case has been suspended.

Increases or decreases to the provision balance are recorded in the interim income statement as *"Operating expenses"* for the period.

For receivables that are not yet due but are assessed as uncollectible, the Company estimates the irrecoverable loss (up to the carrying amount of the receivable recorded in the accounting books) to determine the impairment provision.

4.13 Tangible fixed assets and accumulated depreciation

Fixed assets are stated at cost less accumulated depreciation. The cost of a fixed asset comprises of its purchase price and any directly attributable costs of bringing the fixed asset to working condition for its intended use.

Depreciation of tangible assets are computed on a straight-line basis over the estimated useful lives of these assets as follows:

	Years
Machineries and equipment	3 - 5
Motor vehicles	6 - 8
Office equipment	5
Computer software	3 - 5
Other intangible fixed assets	3 - 5

Gains and losses arising from the liquidation or sale of assets are the difference between the net proceeds from the disposal of assets and the carrying amount of the assets and are recorded in the income statement.

4.14 Leasing

Leases where substantially all the rewards and risks of ownership of assets remain with the leasing company are accounted for as operating leases. Rentals payable under operating leases are charged to the income statement on a straight-line basis over the term of the relevant lease.

4.15 Intangible assets and amortization

Intangible assets present the value of software, is measured at historical cost less accumulated amortization. The software is amortized using a straight-line method over an estimated useful life from three to five years.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.16 Prepaid expenses

Prepaid expenses, including short-term prepaid expenses and long-term prepaid expenses in the interim statement of financial position, are amortized over the period for which the amounts are paid or the period in which economic benefits are generated in relation to these expenses.

The following types of expenses are recorded as prepaid expenses and are amortized over the period from one (01) year to three (03) years to the interim income statement:

- Office renovation expenses;
- Office rental expenses;
- Insurance fees;
- Software services extension, maintenance and warranty expenses.

4.17 Borrowings

Borrowings issued by the Company are recorded and stated at cost at the end of the accounting period.

4.18 Issued bonds

The Company issued bonds, which are usually for long-term borrowing purposes.

The carrying value of bonds is usually recorded on a net basis equal to the bond value at par value minus (-) Bond discount, plus (+) Bond premium and minus (-) Bond issuance cost.

The Company monitors discounts and premium for each type of bonds issued and the allocation of each discount and premium when determining borrowing costs included in production and business costs or capitalization by year, specifically:

- Bond discounts are gradually allocated to account for borrowing costs each year during the term of the bond;

- Bond premiums are allocated gradually to reduce borrowing costs each year during the term of the bond.

The Company uses a straight-line method to allocate bond issuance costs and discounts or premium, specifically: bond issuance costs and discounts or premium are evenly allocated throughout the bond's maturity.

4.19 Payables and accrued expenses

Payables and accrued expenses are recognized for amounts to be paid in the future for bonds interest payables, goods and services received, whether or not billed to the Company.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.20 Covered warrants payables

Covered warrants are secured securities with collaterals issued by the Company which give its holder the right to buy an amount of an underlying security at an exercise price or to receive a sum of money equal to the difference between the price (index) of the underlying securities and the exercise price (exercise index), when the former is higher than the latter, at the strike time.

When covered warrants are issued, the Company records an increase in covered warrant payables, at the same time monitoring the number of covered warrants still allowed to be issued. The transaction costs relating to the purchase and issuance of covered warrants are recognized when incurred as purchase costs of financial assets at FVTPL in the separate income statement. Profit or loss resulted from covered warrants when repurchase, upon the maturity of covered warrants or when covered warrant is recalled, are recognized under "Gain from disposal of financial assets at FVTPL" or "Loss from disposal of financial assets at FVTPL" in the separate income statement.

At the end of the year, the Company revaluates the covered warrants at fair value. The decrease in difference arising from revaluation of outstanding covered warrants at fair value in comparison with previous year is recognized in "Gain from financial assets at FVTPL" (line "Gain from revaluation of outstanding covered warrant payable"). The increase in difference arising from revaluation of outstanding covered warrants at fair value in comparison with previous year is recognized in "Loss from financial assets at FVTPL" (line "Loss from revaluation of outstanding covered warrant payable").

The securities used as hedging for the covered warrants are monitored by the Company. At the end of the year, securities used as hedging for the covered warrants are revaluated at fair value and the differences arising from revaluation is recorded like the revaluation of financial assets at FVTPL.

4.21 Employee benefits

4.21.1 Post-employment benefits

Retired employees of the Company will receive retirement benefits from the Social Insurance under the Ministry of Labor and Social Affairs. The company is required to contribute to these post-employment benefits by paying social insurance for each employee at the rate of 17.5% of the basic monthly salary, salary allowance and other supplements. Other than that, the Company has no further obligations.

4.21.2 Severance allowance

According to Article 46 of the Labor Code No. 45/2019/QH14 which is effective from 01 January 2021 and Decree No. 145/2020/ND-CP of the Government providing guidance on executing some articles of the Labor Code on working conditions and labor relations, the Company has the obligation to pay a severance allowance equal to half a month's salary for each working year to employees who voluntarily resign and fully meet factors in accordance with provisions of law. Working time to calculate severance allowance is the total actual working time of the employee at the Company minus the time the employee has participated in unemployment insurance in accordance with the law regarding unemployment insurance, and the working time that has been paid severance allowance by employers. The average monthly salary used in this calculation is the average monthly salary of the latest six-month period up to the resignation date.

4.21.3 Unemployment insurance

According to Article 57 of the Law on Employment No. 38/2013/QH13 which is effective from 01 January 2015 and Decree No. 28/2015/NĐ-CP dated 12 March 2015 of the Government providing guidelines for the Law on Employment in terms of unemployment insurance, the Company is required to contribute to the unemployment insurance at the rate of 1% of salary and wage fund of unemployment insurance joiners and deduct 1% of monthly salary and wage of each employee to contribute to the Unemployment insurance fund.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.22 Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of receipts or receivables less trade discount, concessions and sales return. The following specific recognition criteria must also be met before revenue is recognized:

Revenue from investment in financial assets

Revenue from investment in financial assets includes interest from financial assets at fair value through profit or loss, revenue from held-to-maturity investments, revenue from loans and receivables, revenue from available-for-sale financial assets are recognized based on the differences when disposing financial assets (recognized based on Announcement of securities transaction clearing results of Vietnam Securities Depository and Clearing Corporation).

Interest income from financial assets

Interest income from financial assets are recognized in the income statement when interest arises on an accrual basis (taking into account the return earned from the assets) unless the ability to recover interest is uncertain.

Dividends

Dividends received in cash are recognized in the income statement when the Company's right to receive payment is established. Dividends received by shares are only updated and monitored to the number of shares held and not recognized as revenue.

Revenue from brokerage services for investors and securities depository activities

Revenue from brokerage services for investors and securities depository activities are recognized in the income statement when all four (4) following criteria are met:

(a) The amount of revenue can be measured reliably;
(b) It is probable that the economic benefits associated with the transaction will flow to the Company;
(c) The percentage of completion of the transaction at the balance sheet date can be measured reliably;
(d) The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Revenue from financial advisory services

Revenue from financial advisory services are recognized in the income statement when the service is provided, and it is relatively certain to determine the revenue and the costs incurred relating to the transaction for transaction completion.

Other income

Other incomes are recognized in the income statement on an accrual basis.

Revenues related to multiple accounting periods are recognized according to the completion schedule or distributed on a straight-line basis during the term of service. Unallocated value is recognized as unearned revenue on the statement of financial position.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.23 Unearned revenue

Unearned revenue is the revenue received in advance relating to one or more accounting periods for securities custody services, and prepaid interest from deposit contracts. The Company recognizes unearned revenue corresponding to the obligations that the Company has to perform in the future. When the revenue recognition criteria are met, the unearned revenue will be recognized in the income statement during the year corresponding to the portion that satisfies such revenue recognition criteria.

4.24 Operating expenses

Operating expenses comprise losses and transaction costs for the purchase of financial assets, proprietary trading, and service expenses.

Losses and transaction costs for the purchase of financial assets reflect losses resulting from the sale of financial assets at fair value through profit or loss, transaction costs for purchases of financial assets at fair value through profit or loss, provision expenses for financial assets, settlement expenses for impairment of bad debts, financial assets and borrowing cost and losses, impairment on financial assets under financial asset investment portfolio of the securities company.

Expenses for providing services reflect the expenses on providing direct services of the securities company including proprietary trading costs, securities brokerage costs, underwriting and issuance agent service costs, advisory service costs and other operating expenses.

4.25 General and administrative expenses

General and administrative expenses reflect the securities company's general management expenses including salary expenses and payroll deductions of management staff, office material costs, cost of tools and supplies, depreciation and amortisation of fixed assets, outsourced services expense and other monetary expenses used for management activities.

4.26 Borrowing costs

Borrowing costs are recognized to the income statement in the year on an accrual basis.

4.27 Foreign currencies

Transactions arising in foreign currencies are translated at exchange rates ruling at the transaction date. The balances of monetary items denominated in foreign currencies as at the balance sheet date are retranslated at the exchange rates of commercial bank where the Company usually transacts on the same date. Exchange differences arising from the translation of these accounts are recognised in the interim income statement.

4.28 Payable provisions

Payable provisions are recognised when the Company has a present obligation as a result of a past event, and it is probable that the Company will be required to settle that obligation. Provisions are measured at the management's best estimate of the expenditure required to settle the obligation as at the balance sheet date.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.29 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years (including loss carried forward, if any) and it further excludes items that are never taxable or deductible.

Deferred tax is recognised on significant differences between carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using balance sheet liability method. Deferred tax liabilities are generally recognised for all temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which deductible temporary differences can be utilised.

Deferred tax is calculated at the tax rates that are expected to apply in the year when the liability is settled or the asset realised. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same tax authority and the Company intends to settle its current tax assets and liabilities on a net basis.

The determination of the tax currently payable is based on the current interpretation of tax regulations. However, these regulations are subject to periodic variation and their ultimate determination depends on the results of the tax authorities' examinations.

Other taxes are paid in accordance with the prevailing tax laws in Vietnam.

4.30 Owners' equity

Owners' equity represents contributed capital from stock issuance which is recorded in Charter Capital at par value.

4.31 Undistributed profit

Undistributed profit comprises of realised and unrealised undistributed profit.

Realised profit during the year is the net difference between total revenue and income, and total expenses in the income statement of the Company, except for gain or loss recognized in unrealized profit.

Unrealised profit of the year is the difference between gain and loss arisen from revaluation of financial assets at FVTPL or others through profit or loss in the income statement, and the deferred income tax related to the increase in revaluation of FVTPL financial assets and others.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.32 Reserves

The balance of Charter capital supplementary reserve as of 31 December 2021 is allocated from after-tax profit at a rate of 5%. According to the provisions of Circular 114/2021/TT-BTC of the Ministry of Finance on 17 December 2021, the Company will not allocate the Charter capital supplementary reserve from after-tax profit from 2024. For the balance of the charter capital supplementary reserve that has been allocated, the Company will supplement the charter capital through the issuance of shares in accordance with the provisions of relevant laws, after approval by the competent authority.

Operational risk and financial reserve fund balance as of 31 December 2021 is allocated from after-tax profit at a rate of 5%. According to Circular 114/2021/TT-BTC of the Ministry of Finance on 17 December 2021, the Company will not allocate the Operational risk and financial reserve fund from after-tax profit from 2024. For the operational risk and financial reserve fund balance that has been allocated, the Company will supplement the charter capital or use it according to the decision of the Company's General Meeting of Shareholders.

4.33 Accounting estimate

The preparation of financial statements in conformity with Vietnamese Accounting Standards, accounting regime applicable for securities companies and legal regulations relating to financial reporting requires the Board of Executive Officers to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting year. Although these accounting estimates are based on the Chief Executive Officers' best knowledge, actual results may differ from those estimates.

4.34 Related parties

Parties are considered related to the Company if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions, or when the Company and the other party are subject to common control or significant influence. The above stakeholders can be companies or individuals, including close members of their families.

4.35 Nil balances

Items or balances required by Circular No. 210/2014/TT-BTC dated 30 December 2014 and Circular No. 334/2016/TT-BTC dated 27 December 2016 issued by the Ministry of Finance that are not shown in these interim financial statements indicate nil balances.

7. FINANCIAL ASSETS

Concepts of financial assets

Cost

Cost of a financial asset is the amount of cash or cash equivalents paid, disbursed or payable for such financial asset at its initial recognition. The transaction costs incurred directly from the purchase of financial asset might or might not be included in the cost of the financial asset, depending on the category that the financial asset is classified in.

Fair value/market value

The fair value or market value of a financial asset is the price at which the financial asset would be traded voluntarily between knowledgeable parties on an arm's length basis.

The fair value/market value of securities is determined using the method described in Note 4.6.

Amortized cost

Amortized cost of a financial investment (which is debt instrument) is the amount at which the financial asset is measured at initial recognition minus (-) principal repayments plus (+) or minus (-) the cumulative recognized using the effective interest method of any difference between that initial amount and the maturity amount, and minus any reduction for impairment or irrecoverability (if any).

For presentation purpose, provision for diminution in value or irrecoverability of financial assets is recognized as "Provision for impairment of financial assets and mortgage assets" in the interim statement of financial position.

Carrying amount

Carrying amount of a financial asset is the amount at which the financial asset is recognized in the interim statement of financial position. Carrying amount of a financial asset might be recognized at fair value (for FVTPL and AFS financial assets) or at amortized cost (for HTM investments and loans), depending on the category that the financial asset is classified.
