TIEN PHONG SECURITIES JOINT STOCK COMPANY	SOCIALIST REPUBLIC OF VIETNAM Independence – Freedom – Happiness
No.: 511 /2026/TPS-CV	*Ha Noi City, 20 October 2026*
Ref: Report, explanation of the change in the business results for Quarter 3/2026 compared to the same period in 2025	

To: **- THE STATE SECURITIES COMMISSION OF VIETNAM**
- THE VIETNAM STOCK EXCHANGE
- THE HO CHI MINH CITY STOCK EXCHANGE

- *Pursuant to Circular No. 96/2020/TT-BTC dated 16/11/2020 of the Ministry of Finance regarding the guidance on disclosure of information on the securities market;*

Tien Phong Securities Joint Stock Company ("**the Company**") would like to send our respectful greetings to the Agency and thanks for your interest and support during the past time.

Pursuant to Circular No. 96/2020/TT-BTC dated 16 November 2020 of the Ministry of Finance guiding information disclosure on the securities market, the Company hereby discloses the Financial Statements for Q3/2026 and provides an explanation for the variation in net profit after tax in the Q3/2026 Financial Statements of over 10% compared to the same period last year.

I. Business results for Quarter 3/2026 compared to Quarter 3/2025:

No.	Items	Q3/2026	Q3/2025	Difference	Rate (%)
1	**Revenues**	**490,489,082,950**	**357,852,023,464**	**132,637,059,486**	**37.06%**
	Realized revenues	475,143,318,100	354,378,332,221	120,764,985,879	34.08%
	Revenues measured at Fair Value Through Profit or Loss (FVTPL)	15,345,764,850	3,473,691,243	11,872,073,607	
2	**Expenses**	**381,992,870,738**	**223,974,468,414**	**158,018,402,324**	**70.55%**
	Realized expenses	354,778,465,138	222,577,022,264	132,201,442,874	59.40%
	Expenses measured at Fair Value Through Profit or Loss (FVTPL)	27,214,405,600	1,397,446,150	25,816,959,450	
3	**Profit before tax**	**108,496,212,212**	**133,877,555,050**	**(25,381,342,838)**	**-18.96%**
4	**Corporate income tax expense**	**22,110,384,023**	**415,249,018**	**21,695,135,005**	
5	**Net profit after tax**	**86,385,828,189**	**133,462,306,032**	**(47,076,477,843)**	**-35.27%**

II. Reasons for Fluctuation:

In the context of significant volatility in the stock market during Q3/2026, the Company continued to maintain revenue growth and achieve profitable business operations.

Total revenue for Q3/2026 reached VND 490.49 billion, up 37.06% year-on-year (YoY). Total expenses stood at VND 381.99 billion, representing a YoY increase of 70.55%, primarily driven by expenses related to trading activities and the revaluation loss on Financial Assets at Fair Value Through Profit or Loss (FVTPL). Consequently, profit before tax (PBT) reached VND 108.50 billion, down 18.96% YoY.

The fluctuation in profit before tax was mainly attributable to two key factors:

- Impact from the revaluation of FVTPL financial assets (accounting for approximately 55% of the total profit decline): The net revaluation result shifted from a gain of VND 2.08 billion to a loss of VND 11.87 billion, reducing total profit by VND 13.95 billion. This represents an unrealized loss stemming from market price fluctuations at the end of the reporting period and is subject to potential reversal upon market recovery.

Impact from trading activities of FVTPL financial assets (accounting for approximately 45% of the total profit decline): Realized loss on disposal of FVTPL assets increased by VND 109.62 billion, serving as the primary driver behind the increase in realized operating expenses. In contrast, other realized operating expenses grew by only 13.37%, significantly lower than the realized revenue growth rate of 34.08%, demonstrating that other operating expenses remained well controlled.

Overall, the profit fluctuations in Q3/2026 originated predominantly from the FVTPL financial asset portfolio. The Company maintained positive revenue growth, delivered profitable performance, and effectively managed its remaining operating costs.

In the fourth quarter of 2026 (Q4/2026), the Company expects its business performance to further improve, supported by maintaining stable operations and enhancing operational efficiency, thereby fulfilling the target business plan set for 2026.

The Company commits to continue fulfilling its reporting and information disclosure obligations and ensuring compliance with legal regulations.

Best regards,

TIEN PHONG SECURITIES JOINT STOCK COMPANY

In this case, the securities company must not comply with the provisions of Point c, d and e, Clause 4 of this Article. The securities company expected to establish and buy back fund Management Company as subsidiary company must meet the following conditions:

a) The equity, after capital contribution for establishment and acquisition of fund management company, must be at least equal to the legal capital for the business operations the company are performing;

b) The ratio of disposable funds after capital contribution for the establishment or acquisition of fund management company must reach at least one hundred eighty percent (180%);

c) Securities company after capital contribution for the establishment or acquisition of fund management company must ensure compliance with the limits on borrowings set out in Article 42 of this Circular and the limits on investment set out in Clause 3 of this Article and Point e, Clause 4 of this Article.

6. Where any investment by a Securities company exceeds the limits due to the underwriting in the form of firm commitment, due to consolidation, merger or a change in assets, or equity of the securities company or organization contributing capital, the securities company must adopt the necessary measures to comply with the investment limits s set out in Clause 2, 3 and 4 of this Article within one (01) year.

4. Employees

The Company's total number of employees as at 30 September 2026 is 173 people (as at 31 December 2025: 164 people).

II. ACCOUNTING PERIOD AND STANDARD CURRENCY USED IN ACCOUNTING

1. Accounting period

The accounting period of the Company is from 01 January to 31 December annually.

The annual accounting period ended 30 September 2026 is the Company's 20th accounting period.

2. Standard currency unit used in accounting

The standard currency unit used is Vietnam Dong (VND).

III. ACCOUNTING STANDARDS AND REGIME

1. Accounting Regime

The Company has been applying Accounting Regime for securities company issued in accordance with the Circular No.210/2014/TT-BTC dated 30 December 2014 ("Circular 210") issued by Ministry of Finance, Circular No.334/2016/TT-BTC dated 27 December 2016 ("Circular 334") issued by Ministry of Finance "amendment, supplement and replace Appendix 02 và Appendix 04 of Circular 210", Circular 146/214/TT-BTC dated 6 October 2014, Official Dispatch No.6190/BTC-CĐKT dated 12 May 2017 and Circular No. 23/2018/TT-BTC dated 12 March 2018 of Ministry of Finance, the Vietnamese Accounting Standards issued by Ministry of Finance and attached amendment and supplement documents.

2. Statement on the compliance with the Accounting Standards and Regime

The Board of General Directors ensures to follow all the requirements of the prevailing Vietnamese Accounting Standards and Vietnamese Accounting Regime in the preparation of the financial statements for securities companies.

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies, which have been adopted by the Company in the preparation of the financial statements, are as follows:

1. Accounting convention

The financial statements are prepared in accordance with the historical cost convention in compliance with the Vietnamese Accounting Standards, Vietnamese Accounting Regime as well as the prevailing relevant regulations in Vietnam applicable to securities companies.

2. Estimates

The preparation of financial statements in conformity with Vietnamese Accounting Standards, Vietnamese Accounting Regime as well as the prevailing relevant regulations in Vietnam requires the Board of General Directors to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

3. Cash and cash equivalents

Cash and cash equivalents include cash on hand, cash in bank, and short-term investments of which the due dates cannot exceed 3 months from the dates of the investments and the convertibility into cash is easy, and which do not have a lot of risks in the conversion.

Cash deposited by customers for securities trading and cash deposited by securities issuers are presented at items off report of financial position (off).

4. Financial assets

a) Classification of financial assets

Financial assets at fair values through profit or loss (FVTPL)

Financial assets FVTPL recognized at fair value through profit and loss are financial assets that satisfy either of the following conditions:

a) It is classified as held for trading. A financial asset is classified as held for trading if:

- It is acquired or incurred principally for the purpose of selling or repurchasing it in the near term;
- There is evidence of a recent actual pattern of short-term profit-taking; or
- It is a derivative (except derivative that is a financial guarantee contract or effective hedging instrument).

b) Upon initial recognition, a financial asset is designated by the entity as at fair value through profit and loss as it meets one of the following criteria:

- The designation eliminates or significantly reduces the inconsistent treatment that would otherwise arise from measuring the asset or recognizing gains or losses on a different basis.
- The assets and liabilities are part of a group of financial assets which are managed and their performance evaluated on a fair value basis, in accordance with a documented risk management policy or investment strategy.

Financial assets at FVTPL are initially recognized at cost (acquisition cost of the assets excluding transaction cost arising from the purchase) and subsequently recognized at fair value.

Increase in the difference arising from the revaluation of financial assets at FVTPL in comparison with previous year will be recognized in the income statement in the period on the item of "Gain from revaluation of financial assets at FVTPL" Decrease in the difference arising from the revaluation of financial assets at FVTPL in comparison with previous year will be recognized in the income statement in the period on the item of, or on the target "Loss from revaluation of financial assets at FVTPL".

Transaction costs relating to purchasing financial assets at FVTPL are recognized when incurred as expenses in the income statement..

Held to maturity investments (HTM)

Held-to-maturity investments are recognized initially at cost (purchase price plus (+) transaction costs which are directly attributable to the investments such as brokerage fee, trading fee, agent fee, issuance agent fee and banking transaction fee. After initial recognition, held-to-maturity financial investments are subsequently measured at amortized cost using the effective interest rate ("EIR").

Amortized cost of HTM financial investments is the amount at which the financial asset is measured at initial recognition minus (-) principal repayments, plus (+) or minus (-) the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, and minus any reduction for impairment or uncollectibility (if any).

The effective interest rate method is a method of calculating the cost allocation on interest income or interest expense in the period of a financial assets or a group of HTM investments.

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter year to the net carrying amount of the financial asset..

Loans

Loans are non-derivative financial assets with fixed or identifiable payments and not listed on the market, with the exceptions of:

a) The amounts the Company intent to immediately sell or will sell in a near future which are classified as assets held for trading, and like those which, upon initial recognition, the Company categorized as such recognized at fair value through profit and loss;

b) The amounts categorized by the Company as available for sale upon initial recognition; or

c) The amounts whose holders cannot recover most of the initial investment value not due to credit quality impairment and which are categorized as available for sale.

Loans are recognized initially at cost. After initial recognition, loans are subsequently measured at amortized cost using the effective interest rate ("EIR").

Amortized cost of loans is the amount at which the financial asset is measured at initial recognition minus (-) principal repayments, plus (+) or minus (-) the cumulative amortization using the effective interest method of any difference between that initial amount and the maturity amount, and minus any reduction for impairment or uncollectibility (if any).

Loans are subject to an assessment of impairment at the financial statement date. Provision is made for loan based on its estimated loss which is determined by the negative difference between the market value of securities used as collaterals for such loan and the loan balance. Any increase/decrease in the balance of provision is recognized in the interim income statement under "Provision expense for diminution in value and impairment of financial assets and doubtful debts and borrowing costs of loans".

Available-for-sale financial assets (AFS)

Available-for-sale financial assets are those non-derivative financial assets that are designated as available-for-sale or are not classified as:

- Loans and receivables;
- Held-to-maturity investments; or
- Financial assets at fair value through profit or loss.

Available-for-sale financial assets are recognized initially at cost (acquisition cost of the assets plus (+) transaction costs which are directly attributable to the purchase of the financial assets). After initial recognition, AFS financial assets are subsequently measured at fair value.

Difference arising from the revaluation of AFS financial assets in comparison with previous period is recognized under "Gain/(loss) from revaluation of AFS financial assets" in "Other comprehensive income after tax" which is a part of the income statement.

b) Determination of fair value/market value

Fair value/market value of the securities is determined as follows:

- For securities listed on Hanoi Stock Exchange and Ho Chi Minh City Stock Exchange, their market prices are their closing prices on the trading day preceding the date of setting up the provision.
- For unlisted securities registered for trading on the Unlisted Public Company Market ("UPCom"), their market prices are their closing prices on the trading day preceding the date of setting up the provision.
- For the delisted securities and suspended trading securities from the sixth day afterward, their prices are the book value at the latest financial report date.
- The market price for unlisted securities and securities unregistered for trading on UPCom used as a basis for setting up the provision is the average of actual trading prices quoted by three (03) securities companies conducting transactions at the latest date preceding the revaluation date.
- For unlisted bonds, their market prices is the maximum value of the following values: The quoted price (if any) announced on quotation systems selected by the securities-trading organization, plus accrued interest; the purchase price, plus accrued interest; the par value, plus accrued interest; the price determined according to internal regulations of the Company, including accrued interest.

- For securities which do not have reference price from the above sources, the impairment is determined based on the financial performance and the book value of securities issuers as at the assessment date.

For the purpose of determining CIT taxable profit, the tax bases for financial assets are determined by cost minus (-) provision for diminution in value. Accordingly, market value of securities for provision purpose is determined in accordance with the Circular No.48/2019/TT-BTC ("Circular 48") dated 8th August 2019 by the Ministry of Finance .

c) Derecognition of financial assets

Financial assets (or a part of a group of similar financial assets) are derecognized when:

- The rights to receive cash flows from the asset have expired; or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either:
  - + The Company has transferred substantially all the risks and rewards of the asset, or
  - + The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cashflows from an assets or has entered into a pass-through arrangement, and has neither transferred nor retained substantially all the risks and rewards of the assets not transferred control of the assets, the assets are not recognised to the extent of the Comapny's continuing involvement in the assets. In that case, the Company also recognises an associated liability. The transferred assets and the associated liabilities are measured on the basis that reflects the rights and obiligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred assets are measured at the lower of the original carrying amount of the assets and the maximum amount of consideration that the Company could be required to repay.

5. Receivables

Receivables are initially recorded at cost and subsequently always presented at cost.

Receivables are subject to review for impairment based on their overdue status or estimated loss arising from undue debts of corporate debtors who have bankruptcy or are under liquidation; or of individual debtors who are missing, have fled, are prosecuted, detained or tried by law enforcement bodies, are serving sentences or are currently suffering from a fatal disease (certified by the hospital) or dead or the debt has been sued for debt collection by the enterprise but the case has been suspended. Increases or decreases to the provision balance are recorded as "Provision expenses for diminution in value and impairment of financial assets, doubtful debts and borrowing costs of loans" in the interim income statement.

The Company has made provision for doubtful receivables in accordance with Circular No. 48/2019/TT-BTC dated 8 August 2019 issued by the Ministry of Finance. Accordingly, the provision rates for overdue receivables are as follows:

Overdue year	Provision rate
From over six (6) months to less than one (1) year	30%
From one (1) year to less than two (2) years	50%
From two (2) years to less than three (3) years	70%
From three (3) years and above	100%

6. Repurchase and reverse agreements

Repurchase agreements

Securities sold under agreements to repurchase at a specified future date ("repos") are not derecognized from the financial statements. The corresponding cash received is recognized in the financial statements as a liability. The difference between the sale price and repurchase price is recognized as interest expense and is accrued over the life of the agreement using the straight-line method to the income statement during the effective period of the repurchase agreement.

Reverse agreements

Conversely, securities purchased under agreements to resell at a specified future date ("reverse repos") are not recognized in the financial statements. The corresponding cash paid is recognized in the statement of financial position as a liability. The difference between the purchase price and resale price is treated as interest income and is accrued over the life of the agreement using the straight-line method. For overdue commitments, the Company makes a provision for risks according to the overdue age of the debt according to the receivables policy mentioned above

7. Tangible fixed assets and depreciation

Tangible fixed assets are determined by their historical costs less accumulated depreciation.

The historical costs of tangible fixed assets include purchasing prices and the expenses directly related to the work of putting the assets into use. Maintenance and repair costs are recorded in Report of comprehensive income for the period.

Tangible fixed assets are depreciated in line with the straight - line method over their estimated useful lives, as follows:

	Depreciation years
Machinery and equipment	3 - 5
Vehicles	6
Office equipment	3

8. Intangible fixed assets and depreciation

The Company's intangible fixed assets representing the value of computer softwares are all expenses paid by the Company to the time of putting the softwares into use. Computer softwares are amortized on a straight-line method over 5 years.

9. Leasing

Determining whether an agreement is a assets lease agreement based on the nature of that agreement at the beginning: whether the implementation of this agreement depends on using a fixed assets and that agreement includes terms on the rights to use asset.

Leases under operating lease contract are recognized in the statement of income in accordance with the straight-line method over the lease period of the contract.

10. Prepaid expenses

Prepaid expenses are reported as short-term or long-term prepaid expenses on the statement of financial position and amortized over the period for which the amount are paid or the period in which economic benefit are generated in relation to these expenses.

The following types of expenses are recorded as long-term prepaid expense and are amortized to the income statement over 2 to 5 years, including: Office renovation costs, tools and supplies, transmission rental and other expenses.

11. Borrowings

Borrowings are disclosed and presented at historical cost at the preparation date of the financial statements.

12. Payable for securities trading activities

Payables for securities trading activities reflect the deposit the Company receives from investors to carry out securities trading transactions with the Stock Exchange.

Payables for securities trading activities also include fees for trading activities and securities services to the Stock Exchange, the Securities Depository Center and other payables.

13. Payables and accrued expenses

Payables and accrued expenses are recognized for amounts to be paid in the future for goods and services received, whether or not billed to the Company.

14. Owners' equity

The Company's capital includes:

- Contributed capital from stock issuance is recorded at chartered capital account in par value.
- Share preminum is recorded in accodrance with the larger difference between issuance price and face value of shares in the first issuance, additional issuance or reissuance treasury shares.
- Retained earnings comprises of realized and unrealized profit.

Unrealized profit of the year is total difference between gain or loss arising from revaluation of financial assets at FVTPL or other financial assets which are in the financial assets portfolio of the Company, charged into Report of comprehensive income and deferred corporate income tax payable related to the valuation increased compared with the historical cost of the Company's FVTP and other financial assets.

Realized profit during the year is the net difference between total revenue, income and total expenses in Report of comprehensive income of the Company, except for gain or loss arising from revaluation of financial assets recognized in unrealized profit.

Funds

The Company has been using the annual profit after tax to appropriate funds in accordance with the Decision of the Company's Annual General Meeting of Shareholders.

15. Profit distribution

Net profit after tax corporate income is distributed to shareholders after being approval by the Meeting of Shareholders, and after making appropriation to reserve funds in accordance with the Company's Charter and Vietnam's regulatory requirements.

16. Revenues and income

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is determined according to fair value of receivables which ware received or not after deducted trading discounts, price reductions and sales returns. The following specific recognition criteria must also be met before revenue is recognized.

Revenue from brokerage activities

Where the contract outcome can be reliably measured, revenue is recognized by reference to the stage of completion. Where the contract outcome cannot be reliably measured, revenue is recognized only to the extent of the expenses recognized which are recoverable.

Revenue from securities investment, capital contribution

Revenue from securities investment and capital contribution includes the difference in profit from selling proprietary securities of the Company (recognized based on the Notice of results of clearing and settlement of securities transactions of the Vietnam Securities Depository) and dividends are recognized in the income statement on an accrual basis, with the exception of dividends which are updated and tracked only on the number of shares held without recognized as revenue.

Revenue from advisory and securities depository activities

Revenue from securities advisory and depository activities is recognized in the income statement in the period when the services are rendered and the cost to complete the transaction providing that service.

Interest income

Revenue is recognized when interest arising on the accrual basis (including income which is brought its assets) unless its collectability ability is uncertainty.

Other revenues from rendering services

Where the contract outcome can be reliably measured, revenue is recognized by reference to the stage of completion.

Where the contract outcome cannot be reliably measured, revenue is recognized only to the extent of the expenses recognized which are recoverable.

Other income

Revenues from irregular activities other than turnover-generating activities are recorded to other incomes as stipulated by VAS 14 - Revenue and other income, including: Revenues from disposals of fixed assets; fines paid by customers for their contract breaches; collected insurance compensation; collected debt which had been written off and included in the preceding year expenses; payable debts which are now recorded as revenue increase as their owners no longer exist; collected tax amounts which now are reduced and reimbursed; and other revenues.

17. Operating expenses

Losses and transaction costs for the purchase of financial assets

Loss and transaction costs for the purchase of financial assets reflect losses from the disposal of financial assets FVTPL, transaction costs for the purchase of financial assets FVTPL, provision for financial assets, borrowing costs, losses from loans and receivables and losses on assets in the portfolio Financial assets of the Securities Company, including: financial assets FVTPL, investments HTM, loans and receivables.

Borrowing cost

Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds. Borrowing costs are recorded as expense during the period

Proprietary operating expenses

Proprietary operating expenses reflect the operating expenses of the securities company incurred when conducting the securities trading services for itself with the securities company's own capital.

The Company applies the moving average method to calculate the cost of proprietary securities and the nominal method to calculate the cost of bonds.

Service-providing opearating expenses

Service-providing operating expenses reflect the direct service-providing costs of the securities company, including: securities brokerage costs, underwriting costs, and securities issuance agents, advisory costs, auction operation costs, entrustment, securities custody costs and other expenses.

18. Administration expenses of the securities company

Administration expenses of the securities company are used to reflect the general administrative expenses of the securities company, including: salary expenses and related expenses of the management staff, office materials expenses, tools and equipment, depreciation of fixed assets, external services and other monetary expenses used for management activities.

19. Corporate income tax

Current income tax

Current income tax assets and liabilities for the current and prior year are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted as at the reporting date.

Current income tax is charged or credited to the income statement, except when it relates to items recognized directly to owners' equity, in which case the current income tax is also dealt with in owners' equity.

Current income tax assets and liabilities are offset only when there is a legally enforceable right for the Company to set off current tax assets against current tax liabilities and when the Company intends to settle its current tax assets and liabilities on a net basis.

Deferred income tax

Deferred income tax is provided using the liability method on temporary differences at the balance sheet date between the tax base of assets and liabilities and their carrying amount for interim financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except where the deferred tax liability arises from the initial recognition of an asset or liability in a transaction which at the time of the transaction affects neither the accounting profit nor taxable profit (or loss).

Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profits will be available against which deductible temporary differences, carry forward of unused tax credits and unused tax losses can be utilized, except where the deferred tax asset in respect of deductible temporary difference which arises from the initial recognition of an asset or liability which at the time of the related transaction, affects neither the accounting profit nor taxable profit (or loss).

The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Previously unrecognized deferred income tax assets are re-assessed at each balance sheet date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

20. Appropriation of net profits

Basic earnings per share is calculated by allocating profits or losses to shareholders owning odinary shares of the Company after appropriating bonus and welfare funds for the weighted average number of outsanding ordinary shares for the period.

Diluted earnings per share is determined by adjusting the profit or loss amortized to shareholders owning ordinary shares of the Company (after appropriating the bonus and welfare fund) and the weighted average number of ordinary shares outstanding for the effect of dilutive potential ordinary shares to calculate dilutive earnings per share.

21. Related parties

Parties are considered to be related parties of the Company if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions, or when the Company and other party are under common control or under common

significant influence. Related parties can be enterprise or individual, including close members of the family of any such individual.
