STATEMENT OF THE BOARD OF MANAGEMENT

The Board of Management of Hoang Ha Joint Stock Company (the "Company") presents this report together with the Company's consolidated financial statements for the year ended 31 December 2024

THE BOARD OF DIRECTORS, BOARD OF MANAGEMENT AND BOARD OF SUPERVISORY

The member of Board of Directors and Board of Management who held office during the year and to the date of this report are as follows:

Board of Directors

Mr. Luu Huy Ha	Chairman of the Board
Mr. Nguyen Huu Hoan	Vice Chairman
Mr. Luu Tuan Anh	Member
Mr. Dinh Van Tho	Member
Mr. Luu Minh Son	Member

Board of Management

Mr. Nguyen Huu Hoan	Chief Executive Officer
Mr. Le Van Sinh	Deputy Chief Executive Officer

Board of Supervisory

Ms. Nguyen Thu Huong	Head of the Supervisory Board
Ms. Bui Thi Tam	Member
Mr. Vu Doan Quan	Member

Legal Representative

The legal representative of the Company from 01 January 2024 to the date of this report is Mr. Luu Huy Ha - Chairman of the Board of Director and Mr Nguyen Huu Hoan - Chief Executive Officer.

RESPONSIBILITIES OF THE BOARD OF MANAGEMENT

The Board of Management of the Company is responsible for preparing the consolidated financial statements, which give a true and fair view of the consolidated financial position of the Company as at 31 December 2024, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to consolidated financial reporting. In preparing these consolidated financial statements, the Board of Management is required to:

- Select suitable accounting policies and then apply them consistently;
- Make judgments and estimates that are reasonable and prudent;
- State whether applicable accounting principles have been followed, subject to any material departures disclosed and explained in the consolidated financial statements;
- Prepare the consolidated financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business; and
- Design and implement an effective internal control system for the purpose of properly preparing and presenting the consolidated financial statements so as to minimize errors and frauds.

The Board of Management is responsible for ensuring that proper accounting records are kept, which disclose, with reasonable accuracy at any time, the financial position of the Company and that the consolidated financial statements comply with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to consolidated financial reporting.

The Board of Management is also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of frauds and other irregularities.

STATEMENT OF THE BOARD OF MANAGEMENT (CONTINUED)

The Board of Management confirms that the Company has complied with the above requirements in preparing these consolidated financial statements.

For and on behalf of the Board of Management,

Nguyen Huu Hoan
Nguyen Huu Hoan
Chief Executive Officer
Thai Binh, March 28, 2025

No.: 032802/2025/BCKT-iCPA

INDEPENDENT AUDITORS' REPORT

**To: The shareholders, Board of Directors and Board of Management
Hoang Ha Joint Stock Company**

We have audited the accompanying consolidated financial statements of Hoang Ha Joint Stock Company (the "Company"), prepared on March 28, 2025 as set out from page 6 to page 34, which comprise the consolidated balance sheet as at 31 December 2024, and the consolidated statement of income, and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statement.

Board of Management 's Responsibility

Board of Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to consolidated financial reporting and for such internal control as management determines is necessary to enable the preparation and presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Auditor's Opinion

In our opinion, the consolidated financial statements give a true and fair view, in all material respects, of the financial position of the Company as at December 31, 2024, as well as its consolidated financial performance and consolidated cash flows for the year then ended, in accordance with Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System, and relevant legal regulations on the preparation and presentation of consolidated financial statements.

INDEPENDENT AUDITORS' REPORT (CONTINUED)

Matter of Emphasis

We would like to draw the reader's attention to Note II of the Consolidated Financial Statements. As of December 31, 2024, the total short-term liabilities exceeded the total short-term assets by VND 85,554,073,445 (as of December 31, 2023, this amount was VND 50,555,116,957). The accumulated loss of the Company as of December 31, 2024, is VND 269,014,330,117 (as of December 31, 2023, it was VND 235,712,178,540). Additionally, the Company's net cash flow from operating activities in 2024 is minus VND 1,540,852,792 (in 2023, it was negative VND 13,513,726,861). These conditions indicate the existence of a material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern.

The auditor's opinion is not related to the emphasis of matter mentioned above.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

These notes are an integral part of and should be read in conjunction with the accompanying consolidated financial statement

II. BASIS OF CONSOLIDATED FINANCIAL STATEMENT PREPARATION AND FISCAL YEAR

Basis of consolidated financial statement preparation

The accompanying consolidated financial statements, expressed in Vietnam Dong (VND), are prepared under the historical cost convention and in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to consolidated financial reporting.

The accompanying consolidated financial statements are not intended to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam.

Going Concern Assumption

The Company's consolidated financial statements have been prepared on the going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future.

As at December 31, 2024, total short-term liabilities exceeded total short-term assets by VND 85,554,073,445 (as at December 31, 2023, it was VND 50,555,116,957). The Company's accumulated loss as of December 31, 2024 was VND 269,014,330,117 (as of December 31, 2023, it was VND 235,712,178,540). In addition, the Company's net cash flow from operating activities in 2024 is minus VND 1,540,852,792 (minus VND 13,513,726,861 in 2023). These conditions indicate the existence of a material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern. The Board of Directors and Board of Management have been regularly assessing the impact and are actively implementing plans to ensure that the Company can maintain its ability to continue as a going concern. The solutions that have been and are being implemented include:

- The Western Bus Station project of Thai Binh city has now completed the site clearance phase. The company will focus resources on investing and constructing the Western Bus Station of Thai Binh city according to the standards of a class I bus station of Thai Binh city. The completion of this project will ensure to bring significant revenue to the company.
- The Company has signed transfer contract No. 52/2025/HDCN-HH-TPM dated February 24, 2025 with Tien Phong Moi Trading Joint Stock Company on the transfer of the entire project of Company Office - Passenger Station of Hoang Ha Joint Stock Company at No. 368 Ly Bon, Tien Phong Ward, Thai Binh City, Thai Binh Province.
- The Company also seeks additional financial support with preferential interest rates from shareholders and the Company's Board of Directors.
- Reduce debt from credit institutions to reduce monthly interest expenses that must be paid.
- The company is strengthening and adjusting management work accordingly, such as expanding revenue allocation to departments and divisions directly involved in production to increase labor productivity and business efficiency, improve workers' lives and increase competitiveness in the labor market.
- In addition, the Company is also looking for other sources of income such as liquidation of some old cars that are not suitable for use. During the year, the Company liquidated some means of transport and collected a total amount of VND 2,534,541,770. Thereby, there is a financial source to cover and invest in renovating passenger transport vehicles, in order to improve productivity and quality, and services.
- The company implements measures to reduce management costs, indirect costs, etc. For example, the company has developed regulations on electricity use at the office to guide employees to be aware and responsible for saving electricity. Regularly check the electricity saving work in the office.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

These notes are an integral part of and should be read in conjunction with the accompanying consolidated financial statement

II. BASIS OF CONSOLIDATED FINANCIAL STATEMENT PREPARATION AND FISCAL YEAR (CONTINUED)

Going Concern Assumption (Continued)

The Board of Directors and Board of Management have prudently assessed the business plan and cash flow plan, as well as balanced financial resources to meet outstanding liabilities and due financial obligations. The Board of Directors and Board of Management believe that the accompanying consolidated financial statements are appropriately prepared on a going concern basis.

Fiscal year

The financial year of the enterprise begins on January 1 and ends on December 31 of each year.

III. ACCOUNTING STANDARDS AND APPLIED ACCOUNTING REGIME

The Board of Management applies Vietnamese Accounting Standards and the Accounting regime for enterprises promulgated under the Circular No. 200/2014/TT-BTC dated 22 December 2014 by Ministry of Finance guiding the accounting regime for enterprises and Circular No. 53/2016/TT-BTC dated 21 March 2016 by Ministry of Finance amending and supplementing some articles of Circular No. 200/2014/TT-BTC; Circular No. 202/2014/TT-BTC ("Circular 202") dated December 22, 2014, provides guidance on the preparation and presentation of consolidated financial statements, as well as other circulars issued by the Ministry of Finance guiding the implementation of accounting standards in the preparation of consolidated financial statements.

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies, which have been adopted by the Company in the preparation of these consolidated financial statements, are as follows:

Estimates

The preparation of consolidated financial statements in conformity with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the financial year. The actual results may differ from those estimates.

Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries, which are controlled by the Company, as of December 31 each year. Control is achieved when the Company has the ability to direct the financial and operational policies of the investees to derive benefits from their activities.

The operating results of subsidiaries acquired or disposed of during the year are included in the consolidated income statement from the date of acquisition or up to the date of disposal.

Where necessary, the financial statements of subsidiaries are adjusted to ensure that accounting policies applied across the Company and its subsidiaries are consistent.

All intra-group transactions and balances are eliminated upon consolidation.

The non-controlling interest in the net assets of consolidated subsidiaries is presented separately from the equity of the Company's shareholders. The non-controlling interest includes the amount of such interests at the initial business combination date (as detailed below) and their share in changes in the total equity of the subsidiary since the acquisition date. Losses incurred by a subsidiary are allocated to non-controlling interests even if this results in a deficit balance.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

These notes are an integral part of and should be read in conjunction with the accompanying consolidated financial statement

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of consolidation (Continued)

Assets, liabilities, and contingent liabilities of subsidiaries are measured at fair value at the acquisition date. Any excess of the purchase consideration over the total fair value of the acquired assets is recognized as goodwill. Conversely, any shortfall is recognized in the income statement of the period in which the acquisition occurs.

The non-controlling interest at the initial consolidation date is determined based on the proportion of the non-controlling shareholders in the total fair value of the acquired assets, liabilities, and contingent liabilities recognized

Cash and cash equivalents

Cash and cash equivalents include cash on hand, demand deposits, and short-term investments with original maturities of no more than three months, which are highly liquid, readily convertible to cash, and subject to insignificant risk of changes in value.

Held-to-maturity investments

Held-to-maturity investments comprise investments that the Company has the positive intent or ability to hold to maturity, including term deposits (commercial bills), bonds, preference shares which the issuer shall redeem at a certain date in the future, loans held to maturity to earn periodic interest and other held-to-maturity investments.

Held-to-maturity investments are recognised on a trade date basis and are initially measured at acquisition price plus directly attributable transaction costs. Post-acquisition interest income from held-to-maturity investments is recognised in the income statement on accrual basis. Pre-acquisition interest is deducted from the cost of such investments at the acquisition date

When there is strong evidence that part or all of the investment may not be recovered and the amount of loss can be measured reliably, the loss is recognized in financial expenses during the year and reduced direct deduction of investment value.

Held-to-maturity investments are measured at cost less provision for doubtful debts.

Provision for doubtful debts relating to held-to-maturity investments is made in accordance with prevailing accounting regulations.

Receivables

Receivables represent the amounts recoverable from customers or other debtors. Accounts receivable are stated at book value less provision for doubtful debts.

The allowance for doubtful debts represents the portion of accounts receivable that the Company expects to be uncollectible as at the reporting date. Increases or decreases in the allowance balance are recognized as administrative expenses in the income statement.

Inventories

Inventories are measured at the lower of cost and net realizable value. Inventory cost includes direct material costs, direct labor costs, and applicable manufacturing overheads, if any, incurred to bring the inventories to their present location and condition. The cost of inventories is determined using the weighted average method. Net realizable value is estimated as the selling price less the estimated costs of completion and the estimated costs necessary to make the sale, including marketing, selling, and distribution expenses.

The Company's provision for inventory devaluation is established in accordance with current accounting regulations. Accordingly, the Company is permitted to set up provisions for devaluation of obsolete, damaged, or substandard inventories, and in cases where the original cost of inventories exceeds their net realizable value at the end of the accounting period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

These notes are an integral part of and should be read in conjunction with the accompanying consolidated financial statement

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Tangible fixed assets and depreciation

Tangible fixed assets are stated at historical cost less accumulated depreciation.

The costs of purchased tangible fixed assets comprise their purchase prices and any directly attributable costs of bringing the assets to their working condition and location for their intended use.

The original cost of tangible fixed assets that are self-made or self-constructed includes construction costs, actual production costs incurred, plus installation costs.

Tangible fixed assets are depreciated using the straight-line method based on the estimated useful life, as follows:

	<u>Years</u>
Buildings and structures	04 - 50
Machinery and equipment	04 - 15
Motor vehicles	05 - 10
Office equipment	04 - 10
Other fixed assets	20

Intangible Fixed assets and amortisation

Historical cost of intangible fixed assets includes the purchase price and all directly attributable costs incurred to prepare the asset for its intended use. Costs for asset upgrades are capitalized into the historical cost of fixed assets, other costs are charged to operating results for the year. When an intangible fixed asset is sold or disposed of, the historical cost and accumulated amortisation are written off, and any gains or losses arising from the disposal of intangible fixed assets are recorded in the income statement.

Amortisation of intangible fixed assets is calculated using the straight-line method, applied to all assets at a rate determined to allocate the original cost over the estimated useful life.

The amortisation period for the company's intangible fixed assets is as follows:

	<u>Years</u>
Taxi Operating system and software	05

Investment real estate

Investment properties include land use rights and factories, structures held by the company for the purpose of earning rental income or waiting for capital appreciation. Investment properties for lease are stated at cost less accumulated depreciation. Investment properties held for capital appreciation are stated at cost less impairment. The cost of a purchased investment property comprises its purchase price and any directly attributable costs such as legal fees, property transfer taxes and other transaction costs. The original cost of self-built investment real estate is the final settlement value of the project or directly related costs of the investment real estate.

Investment properties for lease are depreciated using the straight-line method over their estimated useful lives of 25 years for buildings and structures.

Construction in progress

Properties in the course of construction for production, rental or administrative purposes, or for other purposes, are carried at cost. These costs include fixed assets under acquisition and construction that have not been completed as at the end of the accounting period. Depreciation of these assets, on the same basis as other assets, commences when the assets are ready for their intended use.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

These notes are an integral part of and should be read in conjunction with the accompanying consolidated financial statement

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Prepayments

Prepaid expenses include short-term or long-term prepaid expenses on the Balance Sheet and are allocated over the prepaid period of the expenses corresponding to the economic benefits generated from these costs.

Long-term prepaid expenses include costs for tools and equipment used over several years with significant value, refurbishment, replacement, new tire casing, and insurance purchase costs...

Revenue recognition

Revenue from the sale of goods is recognised when all five (5) following conditions are satisfied:

- (a) The Company has transferred the significant risks and rewards associated with the ownership of the products or goods to the buyer;
- (b) The Company no longer retains managerial rights over the goods as an owner or control over the goods.
- (c) The amount of revenue can be measured reliably. When the contract stipulates that the buyer is entitled to return the products or goods, purchased under specific conditions, revenue is recognized only when those specific conditions no longer exist and the buyer is not entitled to pay return products and goods (except for cases where customers have the right to return goods in the form of exchange for other goods or services);
- (d) The Company has obtained or will receive economic benefits from the sale transaction; and
- (e) Determination of costs related to sales transactions.

Revenue of a transaction involving the rendering of services is recognised when the outcome of such transactions can be measured reliably. Where a transaction involving the rendering of services is attributable to several periods, revenue is recognised in each period by reference to the percentage of completion of the transaction at the balance sheet date of that period. The outcome of a transaction can be measured reliably when all four (4) following conditions are satisfied:

- (a) Revenue is measured reliably. When a contract provides that the buyer has the right to return the services purchased under specific conditions, revenue is recognized only when those specific conditions no longer exist and the buyer has no right to return the services provided;
- (b) It is possible to obtain economic benefits from the transaction of providing that service;
- (c) Determine the stage of completion of the work at the Balance Sheet date; and
- (d) Identify the costs incurred for the transaction and the costs to complete the transaction to provide that service.

Revenue from operating leases is recognized on a straight-line basis over the lease term. Rentals received in advance for multiple periods are allocated to revenue in accordance with the lease term.

Interest on deposits is recognized on an accrual basis, taking into account the outstanding deposits and the applicable interest rate. Interest on investments is recognized when the Company is entitled to receive interest.

Borrowing costs

Borrowing costs are recognised in the income statement in the year when incurred unless they are capitalised in accordance with Vietnamese Accounting Standard No. 16 "Borrowing costs". Accordingly, borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the cost of those assets. For specific borrowings for the purpose of construction of fixed assets and investment properties, borrowing costs are capitalised even when the construction period is under 12 months.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

These notes are an integral part of and should be read in conjunction with the accompanying consolidated financial statement

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years (including loss carried forward, if any) and it further excludes items that are never taxable or deductible.

Deferred income tax is calculated on the differences between the carrying amount and the taxable base of assets or liabilities in the financial statements and is recognized using the balance sheet method. Deferred income tax liabilities are recognized for all taxable temporary differences, while deferred income tax assets are only recognized when it is probable that sufficient future taxable profits will be available to offset the deductible temporary differences.

Deferred income tax is determined based on the tax rates expected to apply in the year when the asset is recovered or the liability is settled. Deferred income tax is recognized in the income statement and is only recorded in equity when the tax relates to items that are directly recognized in equity.

Deferred income tax assets and deferred income tax liabilities are offset when the Company has a legally enforceable right to offset current income tax assets against current income tax liabilities and when the deferred income tax assets and deferred income tax liabilities relate to corporate income tax managed by the same tax authority, and the Company intends to settle current income tax on a net basis.

The determination of the Company's income tax is based on the prevailing tax regulations. However, these regulations are subject to periodic variation and their ultimate determination depends on the results of the tax authorities' examinations.

Other taxes are applied in accordance with the prevailing tax laws in Vietnam.

Earnings per Share

Basic earnings per share are calculated by dividing the net profit or loss after tax attributable to ordinary shareholders of the Company (after adjustments for the appropriation of bonus and welfare funds) by the weighted average number of ordinary shares outstanding during the year.

Diluted earnings per share are calculated by dividing the net profit (or loss) after tax attributable to ordinary shareholders of the Company (after adjustments for dividends on convertible preferred shares) by the weighted average number of ordinary shares outstanding during the period and the weighted average number of ordinary shares that would be issued if all dilutive potential ordinary shares were converted into ordinary shares.

Foreign currencies

Transactions arising in foreign currencies are converted at the exchange rates prevailing on the transaction dates. Monetary items denominated in foreign currencies at the end of the accounting period are retranslated at the exchange rates on that date.

Foreign exchange differences arising during the year from foreign currency transactions are recognized in finance income or finance expenses. Foreign exchange differences resulting from the revaluation of monetary items denominated in foreign currencies at the end of the accounting period, after offsetting exchange gains and losses, are recognized in finance income or finance expenses.

The exchange rate used to convert foreign currency transactions is the actual transaction exchange rate at the time of the transaction. The actual transaction exchange rate for foreign currency transactions is determined as follows:

- Actual exchange rate when buying and selling foreign currencies (foreign currency trading spot contracts, forward contracts, futures contracts, options contracts, swap contracts): exchange rate signed in the contract. buying and selling foreign currency between the Enterprise and the bank.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

These notes are an integral part of and should be read in conjunction with the accompanying consolidated financial statement

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Foreign currencies (Continued)

- If the contract does not specify the payment rate:
 - For capital contributions or received capital contributions: foreign currency buying rate of the bank where the Enterprise opens an account to receive capital from investors at the date of capital contribution.
 - For receivables: the buying rate of the commercial bank where the enterprise appoints the customer to pay at the time of transaction.
 - For liabilities: the selling rate of the commercial bank where the enterprise is expected to transact at the time the transaction arises.
 - For purchases of assets or expenses that are immediately paid in foreign currencies (not through accounts payable): the buying rate of the commercial bank where the Enterprise makes payment.

The exchange rate used to re-evaluate the balance of monetary items denominated in foreign currencies at the end of the fiscal year is determined according to the following principles:

- For bank deposits in foreign currencies: the foreign currency buying rate of the bank where the enterprise opens a foreign currency account.
- For monetary items denominated in foreign currencies which are classified as other assets: the
- For monetary items denominated in foreign currencies which are classified as liabilities: the selling rate of foreign currencies of the Bank which the company frequently transacts.

Related parties

Regarded as related parties are businesses - including parent companies, subsidiaries, associates-individuals who, directly or indirectly through one or more intermediaries, have control over the Company or are under the control of the Company, or under common control with the Company. Associates, individuals who directly or indirectly hold the voting power of the Company and have significant influence over the Company, key management positions such as directors, officers of the Company, Close members of the family of these individuals or affiliated parties or companies associated with these individuals are also considered related parties. In considering the relationship of each related party, the nature of the relationship is emphasized rather than the legal form.

In considering each possible related party relationship, attention is directed to the substance of the relationship, not merely the legal form.

V. INFORMATION SUPPLEMENTING THE ITEMS IN THE CONSOLIDATED BALANCE SHEET (CONTINUED)

12. CONSTRUCTION IN PROGRESS (CONTINUED)

(*) The Western Bus Station Project of Thai Binh City is implemented under the Investment Project Contract with Land Use No. 01/HD-SDD dated April 22, 2022 (replacing Contract No. 03/HD-BOO dated February 12, 2018) signed between the Thai Binh Department of Transport and Hoang Ha Joint Stock Company. The project area is 47,683 m². The preparation and construction time is 18 months from the date of handing over the entire project site to the investor. The management and exploitation period is 50 years. The total estimated investment capital of the project is 118,983,000,000 VND. Currently, the project has completed the site clearance process.

Regarding the implementation progress, pursuant to Official Dispatch No. 3505/STNMT-QLDD dated December 9, 2022 of the Department of Natural Resources and Environment of Thai Binh province, the land planned for the investment project to build the Western bus station is adjacent to the S1 bypass road and planned road No. 2. Currently, the S1 bypass road has not been invested in construction; the Provincial People's Committee has decided to allocate land for road construction on planned road No. 2 but has not yet completed it. Thus, the land to implement the project does not have an access road, so the project cannot continue to be implemented.
