To: **HANOI STOCK EXCHANGE**

The shares of Tam Duc Cardiology Hospital Joint Stock Company have been officially traded on the UPCoM market since February 6, 2017, with the ticker symbol TTD.

According to the Company's 2025 financial statements, profit after corporate income tax in 2025 increased by 13.59% compared with 2024.

Total operating revenue increased by 7.73% compared with the same period in 2024, while the increase in expenses was lower, resulting in higher profit. The lower increase in expenses was mainly due to lower meal expenses for patients and employees, as Tam Duc changed the method of organizing meal supply services from October 2024. Allocated expenses also decreased because certain tools and equipment and long-term prepaid expenses had been fully amortized, with limited new items incurred. In addition, the Company increased its term bank deposits, resulting in higher financial income compared with the same period, which also contributed to higher profit.

Sincerely.

GENERAL DIRECTOR
