Mr. Nguyen Hong Son	Deputy General Director

#### **CONTROL BOARD:**

<b>Full name</b>	<b>Position</b>
Mr. Pham Duc Duy	Manager
Ms. Vu Thi Hai Yen	Member
Mr. Pham Huy Vu	Member

### **LEGAL REPRESENTATIVE**

The legal representative of the Company during the year and as of the date of this statement is Mr. Nguyen Phung Hung – General Director.

### **RESPONSIBILITIES OF THE BOARD OF DIRECTORS**

The Board of Directors of the Company is responsible for the preparation of the Consolidated Financial Statements to give a true and fair view on the consolidated financial position, the consolidated business results and the consolidated cash flows of the Group during the year. In order to prepare these Consolidated Financial Statements, the Board of Directors must:

- Select appropriate accounting policies and apply them consistently;
- Make judgments and estimates prudently;

## STATEMENT OF THE BOARD OF DIRECTORS (CONT.)

### RESPONSIBILITIES OF THE BOARD OF DIRECTORS (cont.)

- State clearly whether the accounting standards applied to the Group are followed or not, and all the material differences from these standards are disclosed and explained in the Consolidated Financial Statements; and
- prepare the Consolidated Financial Statements of the Group on the going-concern basis, except for the cases that the going-concern assumption is considered inappropriate.

The Executive Board commits that it has complied with the above requirements in the preparation of these consolidated financial statements.

The Board of Management is responsible for ensuring that appropriate accounting books are maintained to accurately and reasonably reflect the consolidated financial position. The Board of Management also ensures that the accounting books and the consolidated financial statements are prepared in compliance with the Vietnamese Accounting System, the issued Vietnamese Accounting Standards, and relevant prevailing regulations. The Board of Management is responsible for safeguarding the Company's assets and has therefore implemented appropriate measures to prevent and detect fraud and other irregularities.

### APPROVAL ON THE FINANCIAL STATEMENTS

The Board of Directors has approved the attached Consolidated Financial Statements, presented from page 4 to page 44. These statements provide a true and fair view of the Company's consolidated financial position as of June 30, 2025, as well as its operating results and cash flows for the accounting period ending on the same date, in accordance with the Vietnamese Accounting System, the issued Vietnamese Accounting Standards, and other relevant prevailing regulations.

For and on behalf of the Board of Directors,

**Nguyen Phung Hung**  
**General Director**  
Ho Chi Minh, Viet Nam  
29 July 2025

**6. Statement on information comparability in the Consolidated Financial Statement**

The figures in the current year can be comparable with the corresponding figures in the previous year.

**7. Employees**

As of the balance sheet date, there were 1516 employees working for the companies in the Group (at the beginning of the year: 1333 employees).

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

*These Notes form an integral part of and should be read in conjunction with the Consolidated Financial Statements*

---

**II. FISCAL YEAR AND ACCOUNTING CURRENCY**

**1. Fiscal year**

The fiscal year of the Group is from 1 January to 31 December annually.

**2. Accounting currency unit**

The accounting currency unit is Vietnam Dong (VND) because payments and receipts of the Group are primarily made in VND.

**III. ACCOUNTING STANDARDS AND SYSTEM**

**1. Accounting system**

The Group applies the Vietnamese Accounting Standards and System issued together with the Circular No. 200/2014/TT-BTC dated 22 December 2014 on guidelines for accounting policies for enterprises, the Circular No. 202/2014/TT-BTC dated 22 December 2014 giving guidance on the preparation and presentation of consolidated financial statements and other Circulars giving guidance on the implementation of accounting standards of the Ministry of Finance in the preparation and presentation of Consolidated Financial Statements.

**2. Statement on the compliance with the accounting standards and system**

The Board of Directors ensures to follow all the requirements of the Vietnamese Accounting Standards and System issued together with the Circular No. 200/2014/TT-BTC dated 22 December 2014, the Circular No. 202/2014/TT-BTC dated 22 December 2014 as well as the Circulars giving guidance on the implementation of accounting standards and system of the Ministry of Finance in the preparation and presentation of Consolidated Financial Statements.

**IV. ACCOUNTING POLICIES**

**1. Accounting convention**

All the Consolidated Financial Statements are prepared on the accrual basis (except for the information related to cash flows).

**2. Consolidation basis**

The Consolidated Financial Statements include the Financial Statements of the Holding Company and the Financial Statements of its subsidiaries. A subsidiary is a business that is controlled by the Holding Company. The control exists when the Holding Company has the power to directly or indirectly govern the financial and operating policies of the subsidiary to obtain economic benefits from its activities. In determining the control power, the potential voting right that is currently valid or will be transferred should also be taken into consideration as the balance sheet date.

The business results of the subsidiaries which are acquired or disposed during the year are included in the Consolidated Income Statement from the date of acquisition until the date of disposal of the investments in those subsidiaries.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

*These Notes form an integral part of and should be read in conjunction with the Consolidated Financial Statements*

---

The Financial Statements of the Holding Company and its subsidiaries used for consolidation are prepared for the same accounting period and apply the consistent accounting policies for similar transactions and events in similar circumstances. In case that the accounting policies of the subsidiaries are different from those which are applied consistently within the Group, the appropriate adjustments should be made to the Financial Statements of the subsidiaries before they are used to prepare the Consolidated Financial Statements.

Intra-group balances in the balance sheet and intra-group transactions and unrealized intra-group profits resulting from these transactions are eliminated when the Consolidated Financial Statements are prepared. Unrealized losses resulting from intra-group transactions are also eliminated unless costs which cause those losses cannot be recovered.

Interest of non-controlling shareholders shows gains/losses on the business results and net assets of a subsidiary which is not held by of the Group and is presented in a specific item in the Consolidated Income Statement and the Consolidated Balance Sheet (the owner's equity). Interest of non-controlling shareholders includes value of non-controlling minority interest as of the initial business consolidation date and that in the fluctuation of owner's equity commencing from the business consolidation date. Losses arising in subsidiaries are allocated equivalent to the ownership rate of non-controlling shareholders, even if those losses are higher than the ownership rate of non-controlling shareholders in net assets of subsidiaries.

### 3. Foreign currency transactions

Transactions in foreign currencies are converted at the actual exchange rates ruling as of the transaction dates. The ending balances of monetary items in foreign currencies are converted at the actual exchange rates ruling as of the balance sheet date.

Foreign exchange differences arisen from foreign currency transactions during the year shall be included into financial income or financial expenses. Foreign exchange differences due to the revaluation of ending balances of the monetary items in foreign currencies after offsetting their positive differences against negative differences shall be included into financial income or financial expenses.

The exchange rate used to convert foreign currency transactions is the actual exchange rate ruling as at the time of these transactions. The actual exchange rates applied to foreign currency transactions are as follows:

- For the foreign currency trading contract (including spot contract, forward contract, future contract, option contract, currency swap): the exchange rate stipulated in the contracts of trading foreign currency between the Group and the Bank.
- For receivables: the buying rate ruling as at the time of transaction of the commercial bank where the Group designates the customers to make payments.
- For payables: the selling rate ruling as at the time of transaction of the commercial bank where the Group supposes to make payments.
- For acquisition of assets or immediate payments in foreign currency (not included into payable accounts): the buying rate of the commercial bank where the Group makes payments.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

*These Notes form an integral part of and should be read in conjunction with the Consolidated Financial Statements*

The exchange rate used to convert foreign currency transactions is the actual exchange rate ruling as at the time of these transactions. The actual exchange rates applied to foreign currency transactions are as follows:

- For foreign currency deposits: the buying rate of the bank where the Group opens its foreign currency account.
- For monetary items in foreign currencies classified as other assets: the buying rate of MBBank, Shinhan Bank Vietnam Limited where the Group frequently conducts transactions.
- For monetary items in foreign currencies classified as payables: the selling rate of MBBank, Shinhan Bank Vietnam Limited where the Group frequently conducts transactions.

### 4. Cash and cash equivalents

Cash includes cash on hand and demand deposits. Cash equivalents are short-term investments of which the due dates cannot exceed 3 months from the dates of the investments and the convertibility into cash is easy, and which do not have a lot of risks in the conversion into cash as of the balance sheet date.

### 5. Financial investments

#### *Investments Held to Maturity*

An investment is classified as held to maturity when the Group has the intent and ability to hold it until maturity. Investments held to maturity include term bank deposits.

Investments held to maturity are initially recognized at cost, which includes the purchase price and transaction costs associated with the purchase of the investments. After initial recognition, these investments are carried at recoverable value. Interest income from investments held to maturity after the purchase date is recognized in the Statement of Profit or Loss on an accrual basis. Interest earned before the Group's acquisition is deducted from the cost at the purchase date.

If there is conclusive evidence that part or all of the investment may not be recoverable, and the loss can be reliably determined, the loss is recognized as a financial expense for the period and directly reduces the carrying amount of the investment.

#### *Investments in associates*

An associate is an entity which the Group has significant influence but not the control to govern the financial and operating policies. Significant influence is the right to participate in making the associate's financial and operating policies but not control those policies.

Investments in associates are recognized in accordance with the owner's equity method. Accordingly, the investments in associates are presented in the Consolidated Financial Statements by the initial investment costs and adjusted for changes in benefits on net assets of associates after the investment date. If the benefits of the Group in losses of associates are higher than or equal to book value of the investments, the value of investments will be presented in the Consolidated Financial Statements as zero unless the Group has an obligation to make the payment instead of associates.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

*These Notes form an integral part of and should be read in conjunction with the Consolidated Financial Statements*

The Financial Statements of associates are prepared for the same accounting period of the Group. In case the accounting policies of an associate are different from those consistently applied in the Group, the Financial Statements of that associate will be suitably adjusted before being used to prepare the Consolidated Financial Statements.

Unrealized gains/losses from transactions with associates are excluded equivalent to those of the Group when the Consolidated Financial Statements are prepared.

### 6. Receivables

Receivables are recognized at the carrying amounts less allowances for doubtful debts.

The classification of receivables as trade receivables and other receivables is made according the following principles:

- Trade receivables reflect receivables concerning the commercial nature arising from purchase and sale transactions between the Group and customers who are independent to the Group.
- Other receivables reflect receivables not concerning the commercial nature and irrelevant to purchase and sale transactions

Allowance is made for each doubtful debt after being offset with payable liabilities (if any). The extraction rate is based on the debt age or the estimated loss as follows:

- As for outstanding debts:
  - 30% of the value of debts outstanding from over 6 months to under 1 year.
  - 50% of the value of debts outstanding from 1 year to under 2 years.
  - 70% of the value of debts outstanding from 2 years to under 3 years.
  - 100% of the value of debts outstanding from over 3 years.
- As for doubtful debts: Allowance is made on the basis of the estimated loss.

Increases/ (decreases) in the obligatory allowance for doubtful debts as of the balance sheet date are recorded into "General and administration expenses.

### 7. Inventories

Inventories are recognized at the lower of cost or net realizable value.

Costs of inventories are determined as follows:

- For materials and merchandises: Costs comprise costs of purchases and other directly relevant costs incurred in bringing the inventories to their present location and conditions.
- For work-in-process: Costs comprise main materials, labor and other directly relevant costs.

Ex warehouse prices are determined in accordance with the weighted average method and recorded in line with the perpetual recording method.

Net realizable value is the estimated selling price of inventories in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

*These Notes form an integral part of and should be read in conjunction with the Consolidated Financial Statements*

Allowance for inventories is recognized for each type of inventories when their costs are higher than their net realizable values. Increases/ (decreases) in the obligatory allowance for inventories as of the balance sheet date are recorded into “Costs of sales”.

### 8. Prepaid expenses

Prepaid expenses comprise actual expenses arising and relevant to financial performance in several accounting periods. Prepaid expenses of the Group include:

#### *Tools*

Expenses of tools being put into use are allocated into expenses in accordance with the straight-line method for the maximum period of 36 months.

#### *Expenses of fixed asset repair*

Expenses of fixed asset repair arising once with high value are allocated into expenses in accordance with the straight-line method in 36 months.

#### *Insurance premiums*

Insurance premiums are allocated into expenses over the term specified in the insurance policy.

#### *Expenses of periodical vessel repair and maintenance*

Expenses of periodical vessel repair and maintenance arising once with high value are allocated into expenses in accordance with the straight-line method for the maximum period of 36 months.

#### *Expenses of port and container yard maintenance*

Expenses of port and container yard maintenance arising once with high value are allocated into expenses in accordance with the straight-line method in 24 months.

### 9. Tangible fixed assets

Tangible fixed assets are determined by their historical costs less accumulated depreciation. Historical costs of tangible fixed assets include all the expenses paid by the Group to bring the asset to its working condition for its intended use. Other expenses arising subsequent to initial recognition are included into historical costs of fixed assets only if it can be clearly demonstrated that the expenditure has resulted in future economic benefits expected to be obtained from the use of these assets. Those which do not meet the above conditions will be recorded into operation costs during the year.

When a tangible fixed asset is sold or disposed, its historical cost and accumulated depreciation are written off, then any gain or loss arising from such disposal is included in the income or the expenses during the year.

Tangible fixed assets are depreciated in accordance with the straight-line method over their estimated useful lives. The depreciation years applied are as follows:

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

*These Notes form an integral part of and should be read in conjunction with the Consolidated Financial Statements*

<b>Fixed assets</b>	<b>Years</b>
Buildings and structures	05 - 25
Machinery and equipment	05 - 15
Vehicles	03 - 15
Office equipment	03 - 10
Other fixed assets	04 - 05

### 10. Financial leased assets

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incident to ownership belonging to the lessee. Financial leased assets are determined by their historical costs less accumulated depreciation. Historical cost is the lower cost of the fair value of the leased asset at commencement of the lease term and the present value of the minimum lease payments. Discount rate used to calculate the present value of the minimum lease payments is the interest rate implicit in the lease or else mentioned in the lease. If the interest rate implicit in the lease cannot be determined, the incremental borrowing rate at commencement of the lease term will be applied.

Financial leased assets are depreciated in accordance with the straight-line method over their estimated useful lives. If there is no reasonable certainty that the Group will obtain ownership at the end of the lease, the fixed asset shall be depreciated over the shorter of the lease term and the estimated useful life of the asset. The depreciation years of financial leased assets are 5 - 6 years.

### 11. Intangible fixed assets

Intangible fixed assets are determined by their initial costs less accumulated amortization.

Initial costs of intangible fixed assets include all the costs paid by the Group to bring the asset to its working condition for its intended use. Other costs relevant to intangible fixed assets arising subsequent to initial recognition are included into operation costs during the period only if these costs are associated with a specific intangible fixed asset and result in future economic benefits expected to be obtained from the use of these assets.

When an intangible fixed asset is sold or disposed, its initial costs and accumulated amortization are written off, then any gain or loss arising from such disposal is included in the income or the expenses during the year.

Intangible fixed asset of the Group includes Computer software. Purchase price of computer software, which is not a part associated with the relevant hardware, will be capitalized. Costs of computer software include all the expenses paid by the Group until the date the software is put into use. Computer software is amortized in accordance with the straight-line method in 2 years.

### 12. Construction-in-progress

Construction-in-progress reflects the expenses (including relevant loan interest expenses following the accounting policies of the Group) directly related to the construction of plants and the installation of machinery and equipment to serve for production, leasing, and management as well as the repair of fixed assets, which have not been completed yet. Assets in the progress of construction and installation are recorded at historical costs and not depreciated.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

*These Notes form an integral part of and should be read in conjunction with the Consolidated Financial Statements*

---

**13. Contractual arrangement**

***Jointly controlled operations***

In respect of its interests in jointly controlled operations, the Group shall recognize in its Consolidated Financial Statements:

- the assets that the Group controls;
- the liabilities that the Group incurs;
- the revenue that the Group earns from the sale of goods or services by the joint venture;
- the expenses that the Group incurs.

***Fixed Profit-Sharing Cooperation Contracts***

The Company's business cooperation contracts with partners, wherein the Company acts as the recipient and manages the partners' capital contributions, and the partners receive a fixed profit that does not depend on the business performance of the contract. In such cases, although the legal form of the contract is a business cooperation contract, its substance is that of a loan agreement. The Company recognizes this in the Financial Statements as follows:

- Recognize all revenue, expenses, and post-tax profits from the business cooperation activities in its Statement of Profit or Loss;
- Record the capital contributions received from the partners as a loan;
- Record the profit-sharing amounts to the partners (calculated based on the amount of capital contributed, contribution period, and fixed interest rate) as finance costs during the period.

**14. Payables and accrued expenses**

Payables and accrued expenses are recorded based on the amounts payable for goods and services already used. Accrued expenses are recorded based on reasonable estimates for the amounts payable.

The classification of payables as trade payables, accrued expenses and other payables is made on the basis of following principles:

- Trade payables reflect payables of commercial nature arising from the purchase of goods, services, or assets and the seller is an independent entity with the Group.
- Accrued expenses reflect expenses for goods, services received from suppliers or supplied to customers but have not been paid, invoiced or lack of accounting records and supporting documents; pay on leave payable to employees; and accrual of operation expenses.
- Other payables reflect payables of non-commercial nature and irrelevant to purchase, sales of goods or provisions of services.

Payables and accrued expenses are classified into short-term and long-term ones in the Consolidated Balance Sheet based on the remaining terms as of the balance sheet date.

**15. Owner's equity**

Capital is recorded according to the actual amounts contributed by the shareholders of the Company.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

*These Notes form an integral part of and should be read in conjunction with the Consolidated Financial Statements*

**16. Profit distribution**

Profit after tax is distributed to the shareholders after appropriation for funds under the Charter of the Company as well as legal regulations and approved by the General Meeting of Shareholders.

The distribution of profits to the shareholders is made with consideration toward non-cash items in the retained earnings that may affect cash flows and payment of dividends such as profit due to revaluation of assets contributed as investment capital, profit due to revaluation of monetary items, financial instruments and other non-cash items.

Dividends are recorded as payables upon approval of the General Meeting of Shareholders.

**17. Recognition of sales and income**

***Sales of goods***

Sales of goods shall be recognized when all of the following conditions are satisfied:

- The Group transfers most of risks and benefits incident to the ownership of goods to customers.
- The Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold.
- The amount of sales can be measured reliably. When the contract stipulates that the buyer has right to return goods purchased under specific conditions, sales are recognized only when those specific conditions no longer exist and the buyer retains no right to return goods (except for the case that such returns are in exchange for other goods or services).
- It is probable that the economic benefits associated with sale transactions will flow to the Group.
- The cost incurred or to be incurred in respect of the sale transaction can be measured reliably.

***Sales of providing services***

Sales of providing services shall be recognized when all of the following conditions are satisfied:

- The amount of sales can be measured reliably. When the contract stipulates that the buyer is entitled to return the services provided under specific conditions, sales are recognized only when those specific conditions no longer exist and the buyer is not entitled to return the services provided.
- The Group received or shall probably receive the economic benefits associated with the provision of services.
- The stage of completion of the transaction at the end of reporting period can be measured reliably.
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

In the case that the services are provided in several accounting periods, the determination of sales is done on the basis of the stage of completion as of the balance sheet date.

***Interest***

Interest is recorded, based on the term and the actual interest rate applied in each particular period.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

*These Notes form an integral part of and should be read in conjunction with the Consolidated Financial Statements*

---

**18. Construction Contracts**

A construction contract is an agreement made to build an asset or a combination of assets that are closely interrelated or interdependent in terms of design, technology, function, or primary use.

When the outcome of a construction contract can be reliably estimated, for contracts where the contractor is paid based on planned progress: revenue and expenses associated with the contract are recognized in proportion to the completed work confirmed by the customer and reflected in issued invoices.

Adjustments to construction volume, compensation payments, and other payments are only recognized as revenue when agreed upon with the customer.

When the outcome of a construction contract cannot be reliably estimated:

- Revenue is recognized only to the extent of the contract costs incurred that are likely to be recoverable.
- Contract costs are recognized as expenses only when incurred.

**19. Borrowing costs**

Borrowing costs are interests and other costs that the Group directly incurs in connection with the borrowings. Borrowing costs are recorded as expenses when they are incurred.

**20. Expenses**

Expenses are those that result in outflows of the Group's economic benefits and are recorded at the time of transactions or when incurrence of the transaction is reliable regardless of whether payment for expenses is made or not.

Expenses and their corresponding revenues are simultaneously recognized in accordance with matching principle. In the event that matching principle conflicts with prudence principle, expenses are recognized based on the nature and regulations of accounting standards in order to guarantee that transactions can be fairly and truly reflected.

**21. Corporate income tax**

Corporate income tax expenses include current income tax and deferred income tax.

***Current income tax***

Current income tax is the tax calculated based on taxable income. Taxable income differs from accounting profit due to adjustments for temporary differences between tax and accounting, non-deductible expenses, as well as adjustments for non-taxable income and carried forward losses.

***Deferred income tax***

Deferred income tax is the corporate income tax payable or recoverable due to temporary differences between the carrying value of assets and liabilities for financial reporting purposes and their tax bases. Deferred income tax liabilities are recognized for all taxable temporary differences. Deferred income tax assets are only recognized when it is certain that future taxable profits will be available to utilize these deductible temporary differences.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

*These Notes form an integral part of and should be read in conjunction with the Consolidated Financial Statements*

---

The carrying amount of deferred income tax assets is reviewed at the end of the accounting period and reduced to the extent that sufficient taxable profits are not expected to be available to allow the benefit of part or all of the deferred income tax assets to be utilized. Previously unrecognized deferred income tax assets are reassessed at the end of the accounting period and recognized when it becomes certain that sufficient taxable profits will be available to utilize these deferred income tax assets.

Deferred income tax assets and liabilities are determined based on the tax rates expected to apply in the year the assets are recovered or liabilities are settled, using the tax rates that are enacted or substantively enacted at the end of the accounting period. Deferred income tax is recognized in the Income Statement and only directly in equity when it relates to items that are directly recorded in equity.

Deferred income tax assets and liabilities are offset when:

- The Group has a legally enforceable right to offset current income tax assets against current income tax liabilities; and
- The deferred income tax assets and liabilities relate to corporate income taxes levied by the same tax authority:
  - For the same taxable entity; or
  - The Group intends to settle current income tax liabilities and assets on a net basis or to realize the assets and settle the liabilities simultaneously in future periods when significant amounts of deferred income tax liabilities or deferred income tax assets are settled or recovered.

**22. Related parties**

A party is considered a related party of the Group in case that party is able to control the Group or to cause material effects on the financial decisions as well as the operations of the Group. A party is also considered a related party of the Group in case that party is under the same control or is subject to the same material effects.

Considering the relationship of related parties, the nature of relationship is focused more than its legal form.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

*These Notes form an integral part of and should be read in conjunction with the Consolidated Financial Statements*

*Value added tax (VAT)*

The Group has to pay VAT in accordance with the deduction method. The VAT rate applied is as follows:

- Export goods, international provision of services 0%
- Pre-processed or unprocessed farm products sold to army units and retail customers 5%
- Other goods, services 10%

*Corporate income tax (CIT)*

In 2014, the Holding Company additionally invested in the terminal field and started to have taxable income. According to the regulations in Articles 19 and 20, Circular No. 78/2014/TT-BTC dated 18 June 2014, for the income from this operation, the Company is exempted from CIT in 4 years (from 2014 to 2017) and benefits a reduction of 50% of tax payable in the next 9 years (from 2018 to 2026). Besides, the income from the terminal operation enjoys incentive tax rate of 10% in 15 years from 2014 to 2028.

The subsidiaries in the Group have to pay CIT at the rate of 20%.

The determination of corporate income tax payable of the Group is based on the prevailing regulations on taxes. However, these regulations change for each period and the regulations on taxes for various transactions can be explained in various ways. Therefore, the tax amount presented in the Consolidated Financial Statements could change when being examined by the Tax Office.

*Other taxes*

The Group has declared and paid these taxes in line with the prevailing regulations.
