- Installation, calibration, maintenance, repair, overhaul, and renovation of electrical equipment up to 500kV, thermomechanical and hydromechanical equipment up to 250 ata;
- Electrical testing, manufacturing, supplying equipment, and consulting on the construction of high voltage electrical laboratories; and
- Import and export business of all kinds of materials, equipment, industrial and civil goods.

**1.4 Normal production and business cycle**

The Corporation's normal production and business cycle is carried out for a time period of 12 months.

**2. ACCOUNTING CONVENTION FOR THE CONSOLIDATED FINANCIAL STATEMENT**

**2.1 Accounting convention for the consolidated financial statement**

The accompanying consolidated financial statements, expressed in Vietnam Dong (VND), are prepared under the historical cost convention and in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting.

## **2.2 Accounting period**

The Quarter 3 year 2025 accounting period of the Corporation begins on 01 July and ends on 30 September.

## **3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The significant accounting policies, which have been adopted by the Corporation in the preparation of these interim consolidated financial statements, are as follows:

### **3.1 Compliance with accounting standards and accounting regime**

The Corporation has complied with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations in preparing and presenting these consolidated financial statements.

### **3.2 Estimates**

The preparation of consolidated financial statements in conformity with Vietnamese Accounting Standards requires the Board of Management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during 4th quarter of the year.

### **3.3 Cash and cash equivalents**

Cash and cash equivalents comprise cash on hand, demand deposits and short-term or highly liquid investments. Highly liquid investments are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

### **3.4 Receivables**

Receivables represent the amounts recoverable from customers or other debtors and are stated at book value less provision for doubtful debts.

The provision for doubtful debts is the estimated loss due to customer non-payment for receivables at the end of the accounting period. The provision for doubtful debts is made in accordance with the guidance in Circular No. 48/2019/TT-BTC dated 08 August 2019 by the Ministry of Finance and the assessment of the Board of Directors based on the ability to collect these receivables at the financial statements preparing date.

Increases, decreases in provision for doubtful debts are recorded in administration expenses on the Income Statement.

### **3.5 Inventories**

Inventories are stated at the lower of cost and net realisable value.

Cost of inventories is determined using the weighted average cost method and comprises direct materials and where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. In the case of manufactured products, cost includes all direct materials, direct labor and production overheads based on the normal course of business.

Net realisable value represents the estimated selling price less all estimated costs to completion and costs to be incurred in marketing, selling and distribution.

Provisions are made for obsolete, slow-moving and defective inventories in accordance with the guidance in Circular No. 48/2019/TT-BTC dated August 8, 2019 of the Ministry of Finance.

No. 48/2019/TT-BTC dated 08 August 2019 of the Ministry of Finance.

Increases, decreases in Provision for devaluation of inventories are recorded in cost of sales on the Income Statement

### **3.6 Tangible fixed assets and depreciation**

Tangible fixed assets are stated at cost less accumulated depreciation

The costs of purchased tangible fixed assets comprise their purchase prices and any directly attributable costs of bringing the assets to their working conditions and locations for their intended use.

The cost of tangible fixed assets constructed by contractors includes the completed and handed over amount, other directly related and registration tax (if any).

Tangible fixed assets are depreciated using the straight-line method over their estimated useful lives, in accordance with Circular No. 45/2013/TT-BTC dated 25 April 2013 and Circular No. 147/2016/TT-BTC dated 13 October 2016 of the Ministry of Finance on the Management, use and depreciation of fixed assets. The estimated useful life of specific fixed assets is as follows:

Fixed assets	Useful life (Year)
Buildings and structures	05 – 50
Machinery and equipment	03 - 20
Means of transportation	06 - 10
Office equipment	03 - 10

### 3.7 Construction in progress

Properties in the course of construction for production, rental or administrative purposes or for other purposes are carried at cost. These costs include service costs and related interest costs and are accounted for in accordance with the Group's accounting policy. Depreciation of these assets, on the same basis as other assets, commences when the assets are ready for their intended use.

### 3.8 Profit dividend

Net profit after corporate income tax can be distributed to shareholders after being approved by the General Meeting of Shareholders and after made all provision funds in accordance with the Corporation's Charter and the provisions of Vietnamese law.

### 3.9 Revenue recognition

#### Revenue from sale of goods

Revenue is recognized when the transaction can be measured reliably and it is probable that the economic benefits associated with the transaction shall flow to the Corporation. Revenue from sales is recognized when the goods are delivered and ownership is transferred to the buyer.

#### Revenue from services

Revenue is recognized when the outcome of a transaction can be measured reliably and it is probable that the economic benefits associated with the transaction will flow to the Corporation. Revenue from the provision of services is recognized by reference to the stage of completion of each transaction at the end of the accounting period.

#### Other revenue

Interest income is accrued on a time basis, by reference to the principal outstanding and at the applicable interest rate

Dividend income from investments is recognised when the Company's right to receive payment has been established.

### 3.10 Foreign currencies recognition

The Corporation applies the treatment of exchange rate differences according to the guidance of Vietnamese Accounting Standard No. 10 (VAS 10) "Effects of changes in exchange rates" and Circular No. 200/2014/TT-BTC of the Ministry of Finance issued on December 22, 2014. Accordingly, transactions arising in foreign currencies are converted at the actual exchange rate on the date of the transaction.

At the year-end, monetary items denominated in foreign currencies are valued at the actual transaction exchange rate at the date of the Balance Sheet according to the following principles:

- Monetary items denominated in foreign currencies classified as assets are the foreign currency buying rate of the commercial bank where the Corporation regularly conducts transactions.
- Monetary items denominated in foreign currencies classified as liabilities are the foreign currency selling rate of the commercial bank where the Corporation regularly conducts transactions.

All exchange rate differences arising are recorded in the consolidated income statement. Exchange rate differences resulting from the revaluation of monetary items denominated in foreign currencies at the end of the accounting period are not used for profit distribution.

### 3.11 Borrowing expenses

Borrowing expenses directly attributable to the acquisition, construction, or production of qualifying assets that require a substantial period to be ready for use or sale are capitalized as part of the asset's cost until the asset is substantially ready for its intended use or sale. Income from the temporary investment of such borrowings is offset against the asset's cost. Other borrowing expenses are expensed in the interim consolidated income statement as incurred.

### 3.12 Earnings per share

Basic earnings per share is calculated by dividing the Corporation's after-tax profit before allocation the bonus and welfare funds by the average total number of common shares during the period, excluding shares repurchased by the Corporation and held as treasury shares.

### 3.13 Taxation

#### Current corporate income tax

Income tax assets and liabilities for the current and prior years are measured based on the amounts expected to be collected from or paid to the Tax Authority, based on the tax rates and laws enacted by the reporting period's end. In 2025, the Group is subject to a Corporate Income Tax (CIT) rate of 20% on profits from all business activities.

The determination of the tax currently payable is based on the current interpretation of tax regulations. These regulations are subject to periodic variation and their ultimate determination depends on the results of the tax authorities' examinations.

#### Value Added Tax

Value Added Tax of goods and services provided by the Corporation is subject to the following tax rates:

- |                                |             |
|--------------------------------|-------------|
| • Sale of transformer products | 8%          |
| • Repair services              | 8%          |
| • Transportation services      | 8%          |
| • Sales of goods and materials | 8% hoặc 10% |

#### Other tax

Other taxes are imposed in compliance with Vietnam's prevailing tax regulations.

### 3.14 FINANCIAL INSTRUMENTS

#### Financial Instruments - Initial Recognition and Presentation

##### *Financial Assets*

According to Circular 200, financial assets are classified appropriately for disclosure purposes in the interim financial statements into financial assets measured at fair value through profit or loss, lending and receivables, held-to-maturity investments, and available-for-sale financial assets. The Corporation decides on the classification of these financial assets at the point of initial recognition.

At the point of initial recognition, financial assets are determined at their cost, including directly attributable transaction costs related to their issuance. The Corporation's financial assets include cash and short-term deposits, accounts receivable from customers and others, lending, as well as listed and unlisted financial instruments.

##### *Financial liabilities*

Financial liabilities, as defined under Circular 200 for disclosure purposes in the financial statements, are appropriately classified into financial liabilities measured through the income statement and financial liabilities measured at amortized cost. The Corporation determines the classification of these financial liabilities at the time of initial recognition.

All financial liabilities are initially recognized at cost, including directly attributable transaction costs related to their issuance. The Corporation's financial liabilities include accounts payable to suppliers and others, debts and loans, as well as derivative financial instruments.

#### Subsequent Measurement

Currently, there is no requirement to remeasure the value of financial instruments after initial recognition.

**Offsetting Financial Instruments**

Financial assets and liabilities are offset and presented at their net amount in the financial statements if, and only if, the Corporation has a legally enforceable right to offset the recognized amounts and intends to settle on a net basis or realize the asset and settle the liability simultaneously.

## 6. OTHER INFORMATION

### 6.1 Financial instruments

#### 6.1.1 Types of financial instruments

The details of the significant accounting policies and methods applied by the Corporation (including the criteria for recognition, the basis for determining value, and the basis for recognizing income and expenses) for each type of financial asset, liability, and equity instrument are presented in Note 3.13 "Financial instruments."

The Corporation has not assessed the fair value of financial assets and liabilities as at the balance sheet date, as Circular 210 and other relevant prevailing regulations do not provide comprehensive guidance on determining the fair value of these financial assets and liabilities. While Circular 210 refers to the application of International Financial Reporting Standards ("IFRS") on presentation and disclosures of financial instruments, it did not adopt the equivalent guidance for the recognition and measurement of financial instruments, including application of fair value, in accordance with IFRS.

#### 6.1.2 Financial risk management objectives

The Corporation's financial liabilities primarily consist of accounts payable to suppliers, advances from customers, and other payables. The main purpose of these financial liabilities is to raise funds to serve the Corporation's operations. The Corporation also has trade receivables, prepayments to suppliers, other receivables, cash, deposits, and term deposits, all of which arise directly from its business activities.

In the course of its operations, the Corporation is exposed to market risk, credit risk, and liquidity risk. The Corporation does not implement hedging measures for these risks due to the absence of a market for financial instruments. The Board of Management reviews and agrees to apply the following risk management policies:

##### **Market risk**

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices. Market prices encompass three types of risks: interest rate risk, currency risk, and other price risks. The Corporation does not implement measures to hedge these risks due to the absence of a market for financial instruments.

##### *Interest Rate Risk*

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. During the period ended 30 September 2025, the Corporation was not exposed to significant interest rate risk since the majority of its financial assets and liabilities have fixed interest rates.

##### *Foreign currency risk*

Foreign currency risk refers to the potential fluctuations in the fair value or future cash flows of a financial instrument caused by changes in exchange rates. This risk primarily arises from the Corporation's operations, including certain expenses, revenues, and borrowings denominated in currencies other than its functional currency.

##### **Credit risk**

Credit risk arises when a customer or counterparty fails to fulfill their contractual obligations, leading to financial losses for the Corporation. The Corporation implements appropriate credit policies and regularly monitors its financial position to assess exposure to credit risk. As of the end of the reporting period, the Corporation identified and evaluated significant credit risks from customers and counterparties. Credit risk is partially reflected in the provision for doubtful debts, as detailed in Note 4.2, "Short-term Trade Receivables." To mitigate these risks, the Corporation enforces suitable credit policies, actively follows up on receivables, and implements solutions to recover outstanding amounts.

##### **Liquidity Risk**

Liquidity risk refers to the risk that the Corporation may encounter difficulties in fulfilling its financial obligations due to insufficient funds. The Corporation's liquidity risk primarily stems from the differing maturity profiles of its financial assets and liabilities.

To manage liquidity risk, the Corporation maintains an adequate level of cash, cash equivalents, and bank borrowings, as determined by the Board of Management, ensuring sufficient liquidity to meet operational needs and mitigate the impact of cash flow fluctuations. This strategy helps to reduce the Corporation's liquidity risk, which is currently assessed as low.

The table below summarizes the Corporation's financial liabilities based on expected contractual payments, presented on an undiscounted basis.

## 6.2 Related Parties Transactions and Balances

Related Parties: A party is considered related if it has the ability to control or exert significant influence over another party in making decisions regarding policies and operations.

In this regard, the related parties of the Corporation include companies within the Vietnam Electricity (EVN), shareholders, as well as members of the Board of Directors and Executive Board of the Corporation.

## 6.3 Subsequent Events

There are no subsequent events that occurred after the end of the accounting period that require adjustment or disclosure in the Company's consolidated financial statements.

## 6.4 Comparative Figures

Comparative Figure are the figures of the Corporation's consolidated financial statements for the Quarter 3 year 2024.
