Circular No. 96/2020/TT-BTC dated November 16, 2020.

Petrovietnam Engineering Consultancy Joint Stock Company would like to explain the
indicator: Net profit after corporate income tax for Q4/2025 compared to the same
period in Q4/2024, as follows:

No.	Item	Quarter 4/2025 (VND)	Quarter 4/2024 (VND)	Difference	
				Amount (VND)	Rate (%)
1	Net profit after tax	5.657.692.844	140.750.877	5.516.941.967	3.919%

The consolidated financial report for the fourth quarter of 2025 shows net profit after tax recorded 5.657,6 million VND, an increase of 5.516,9 million VND, equivalent to an increase of 3.919% compared to the same period last year. The main reason was that Interest expense during the period decreased by VND 4,480 million (equivalent to 61.5%) compared to the same period last year, due to the principal of the loans having been partially repaid by the unit. In addition, Corporate income tax expense for the period decreased by VND 1.243 million compared to the same period last year, due to a reduction in non-deductible interest expenses when calculating corporate income tax at the entity with related-party transactions. Therefore, the Net profit after tax for this period increased compared to the previous period.
