BUSINESS PERFORMANCE SUMMARY 2024

BUSINESS ORIENTATION – OBJECTIVES 2025

PART I

BUSINESS PERFORMANCE SUMMARY 2024

I.- OVERVIEW OF THE SITUATION

Dear Shareholders,

First and foremost, we would like to express our sincere gratitude to our esteemed shareholders for their continued trust and support. With unwavering dedication, despite results not fully meeting expectations in 2024, the overall business performance was relatively positive compared to the general economic difficulties faced by our nation.

The year 2024 continued to unfold against a backdrop of significant global economic challenges, marked by rapid fluctuations, unpredictability, and high instability. The gold market experienced volatile swings, and inflation reached multi-decade highs, forcing nations to tighten monetary policies. Complex geopolitical tensions persisted between major powers, including the military conflict between Russia and Ukraine. Natural disasters, epidemics, climate change, storms, and droughts further heightened risks to global financial markets, currencies, energy security, food security, and supply chain disruptions.

Domestically, the real estate market continued to face difficulties and stagnation, with few new projects and subdued activity in the residential construction segment, leading to a decline in cement demand.

According to construction material industry statistics for 2024, the total output of cement and clinker increased by 15%. However, domestic consumption and exports remained stagnant (with domestic consumption approximating 59 million tons), leading to higher inventory levels compared to 2023. Consequently, several factories had to reduce clinker production or halt kiln operations, impacting production efficiency.

In 2024, the company implemented several solutions to manage overdue receivables, alongside efforts to enhance business operations and marketing strategies to boost sales and efficiency.

However, the company still faced numerous challenges, particularly in the context of an unstable economic environment and increasing competition. We will continue to exert relentless efforts to address these challenges and strengthen the company's market position.

II.- RESULTS OF BUSINESS ACTIVITIES IN 2024

(See Appendix 1)

1.- Business Performance

- 1.1 – Total revenue reached 80.19% compared to the same period last year.
- 1.2 – Production output reached 86.03% compared to the same period last year.
- 1.3 – Total Profit before Tax reached 94.52% of the plan and 90.08% compared to the same period last year.
- 1.4 – Profit after tax reached 94.31% of the plan and 90.6% compared to the same period last year.
- 1.5 – Basic Earnings per Share reached 94.31% of the plan and 90.61% compared to the same period last year.
- 1.6 - The company distributed dividends in 2024: 28%.

To achieve these results, throughout 2024, the company implemented proactive strategies and measures in directing and managing business operations to adapt to the current competitive market. These measures focused on developing the sales network for both industrial and residential segments through mixing stations, large-scale projects, and building material stores.

The company's total cement output consumption decreased in 2024, typically bulk cement decreased by 30% compared to 2023, due to cheap products penetrating the company's Nghi Son cement mixing station system. However, the company also had positive results in the bagged cement segment, specifically growth of more than 13% compared to the previous year, in which the company's key products such as Vicem Ha Tien increased by 13%, Insee increased by 42%, Thang Long increased by 20% compared to the previous year. With the above results, the Company won the First Prize for Insee Bagged Cement in 2024, besides, other cements are in the top of the largest distributors in the Southern region in general and HCM City in particular.

Especially in Quarter 4/2024, the company has gradually recovered as in previous periods, output has grown steadily every month, Profit margins increased due to the company directly supplying projects and concrete batching plants.

In the civil bagged cement segment, the Company has deployed a number of cheap cement brands to increase Profit and business advantages, the company's BOD proactively connects more closely with key customers to increase output and efficiency for the unit as well as increase CMID's position in the market.

In the bulk cement segment, the company has also deployed more brands with stable quality and competitive prices to increase its advantage in the market, from that basis, the company has

developed 7 more concrete batching plants stretching from the west to the east, bringing the total number of customers to 25 concrete mixing stations and component factories.

In the public project segment, the company has successfully signed contracts to supply part of the cement for projects such as Long Thanh airport, Phan Thiet airport, Can Tho - Hau Giang - Soc Trang - Ca Mau expressway projects, Ring Road 3 passing through Ho Chi Minh City - Binh Duong - Long An.

In the private project segment, the company has built good relationships with contractors and has won bids for large projects such as:

- Social Housing Area, Thu Duc.
- International Buddhist Conference Center in Binh Chanh.
- Eco Retreat eco-urban area in Ben Luc.
- ...

However, despite great efforts in organizing and operating business activities, in order to achieve the above business results and dividends in 2024, the company had to adjust and reduce the percentage of salary and other funds, adjust and increase the percentage of annual after-sales accruals, and control the increase in reserves compared to 2023.

2.- Regarding financial work.

2.1 - As of December 31, 2024, the Company's Charter capital structure is as follows:

Charter capital: 150 billion VND, equivalent to 15,000,000 shares, of which:

- ☐ Treasury shares: 3,780,000 shares, accounting for 25.2%/Charter capital.
- ☐ Shareholder capital: 11,220,000 shares, accounting for 74.8%/Charter capital.

2.2 - Financial investments: Invested 151,200 shares of Ha Tien 1 cement, worth 2 billion 888 million VND.

2.3 - The Company's total equity as of December 31, 2024 is: 235,150,922,280 VND.

In which:

- ☐ Owner's investment capital: 150,000,000,000 VND.
- ☐ Treasury shares (3,780,000 shares): (55,823,611,800) VND.
- ☐ Share premium: 42,088,848,102 VND.
- ☐ Development investment fund: 24,907,742,820 VND.
- ☐ Undistributed Profit: 73,977,943,158 VND.

2.4 - Book value of shares as of December 31, 2024: 20,960 VND/share.

The company's financial situation in 2024 remained stable and sound, effectively utilizing existing capital and accumulating reinvestment. Due to difficulties in the construction materials market, profits, dividend yields, and basic earnings per share slightly decreased compared to the plan. Besides, there are receivables related to slow-recovering business transactions and extended payment periods. Therefore, it partially affected business efficiency and the use of the company's capital.

Regularly strengthen financial management to ensure safety, prioritize internal control, promptly handle arising issues, and minimize risks in debt collection, limiting customers' occupation of business capital.

Annually, the Board of Directors signs a contract with an audit firm to conduct data inspection and prepare financial statements to report to the State Securities Commission, Hanoi Stock Exchange (HNX), where CMD shares are registered for trading on the Upcom floor, and the Annual General Meeting of Shareholders as prescribed by the company's charter and enterprise law.

3.- Regarding investment and development

- 3.1 – The company focuses on thoroughly and efficiently exploiting and leasing premises to increase profits. Revenue from premises leasing in 2024 reached 10 billion 291 million (an increase of 67 million compared to 2023); besides, land rent payable was 6.048 billion (an increase of 629 million compared to 2023), significantly affecting the company's profit.
- 3.2 - Implementing state policies and regulations on land management for businesses has caused many difficulties in re-signing long-term expired land lease contracts. Due to the regulation of using premises for the right purpose, in 2024, the company continued to suspend leasing the entire premises at 19 Dong Son - Ward 7 - Tan Binh District and a large part of the area at 97/5 Tan Phuoc - Ward 8 - Tan Binh District to meet the requirements and facilitate the consideration of re-signing long-term land lease contracts later. Therefore, the rental income at 19 Dong Son is no longer available, and at 97/5 Tan Phuoc, the revenue has decreased sharply.
- 3.3 – The company's premises have completed renovation, bringing affiliated centers into operation there, and continuing to lease some locations. Besides, the company tries to find partners in the same industry to cooperate in optimal exploitation, waiting to re-sign long-term contracts and have long-term usage plans.

4.- Regarding human resource organization

- Functional departments and affiliated units have performed well the tasks within their functions, and at the same time, coordinated with each other in implementing the company's common goals and strategies, as well as effectively organizing the implementation of resolutions and decisions of the General Meeting of Shareholders and the Board of Directors in the company's business activities.
- Reorganize the organizational structure and human resources towards streamlining, efficiency, and suitability to the company's operating scale.

III.- BUSINESS PERFORMANCE EVALUATION IN 2024

1.- Positive aspects:

- Although the results of revenue and sales volume of cement products decreased, the company's profits and dividends remained high, and business operations were stable.
- The company expanded sales channels such as concrete stations in the Mekong Delta (Ca Mau, Soc Trang, Tien Giang...) and in the Eastern region (Tay Ninh, Binh Phuoc, BRVT...); participated in large projects throughout the South, such as highway routes and airport projects, enhancing the prestige of the company's CMID brand.

- Closely link and cooperate with cement companies to stabilize prices, discount and promotion policies to increase competitiveness in the market. At the same time, flexibly implement price policies for customers in different regions and areas to increase the supply of goods.
- Good relations with credit institutions and manufacturers to ensure capital for business activities, focusing capital on items with large output, high discounts and promotions to increase profits for the unit.
- Stipulate the debt limit and payment time for each customer, concrete mixing station, and construction material store to limit the situation of customers occupying capital and using business capital more effectively.

2.- Existing problems – limitations:

- The implementation of cement items in the year has some items exceeding the plan, but some items have decreased, the ability to access and forecast market research information is still slow and not timely.
- Liquidity in the market is very slow (due to fierce competition between distributors), affecting the effectiveness of production and business activities of the market in general and of the company in particular.
- The company's waterway distribution system reduced output due to the impact of competitors opening more distribution points by road shuttle.
- Receivables related to business transactions are slow to recover and the possibility of collection continues to be prolonged. Therefore, the company must continue to set aside provisions, affecting the efficiency and use of the company's capital.
- Most of the transportation means are rented externally, so the delivery is not proactive, besides, Decree 168 of the Government on sanctioning road transport, so the delivery of goods faces many difficulties, increasing operating costs for the company.
- The industrial segment is being promoted, however, the payment progress of public projects is prolonged, so receivables increase, but this is a source of revenue that brings higher business efficiency than other segments.

PART II

DIRECTION – TASKS FOR 2025

I.- FORECASTING THE SITUATION

- Experts predict that the Russia-Ukraine war and the conflict in the Middle East may end by mid-2025, and the world economy will enter a recovery phase, especially global supply chains, including Vietnam.
- Vietnam continues to be a destination for global investors. The US-China trade war and US tariff policies will shift investment flows in the Asia-Pacific region, creating opportunities for Vietnam's economic development.

- 2025 will be a pivotal year for Vietnam's economy with many historical and political milestones. The Government is determined to achieve GDP growth of over 8%, continue to promote public investment disbursement, implement a series of social housing projects, and accelerate the disbursement of key infrastructure projects such as the Southern expressways and Long Thanh airport... With the above development momentum, the construction materials industry in general and the cement industry in particular are forecast to recover from 4% to 6% compared to 2024. However, despite the growth forecast, cement prices are difficult to adjust to offset production costs because in 2025 supply still far exceeds demand. Cement factories and distributors are trying to compete for market share; cheap cement will continue to challenge traditional brands, affecting the business performance of the cement industry in 2025.

The government and Ho Chi Minh City authorities are tightening land management, increasing rental land taxes for businesses, and reorganizing premises for proper functional use. Consequently, the company continues to be significantly affected by decreased Revenue and inefficient use of its premises.

II. - BUSINESS DIRECTION AND OBJECTIVES FOR 2025

A. - General Objectives

Continue to build and develop the company, specializing in cement trading and office rentals, focusing on high-demand, high-discount, and high-promotion products to enhance business performance and market competitiveness, contributing to the development of a robust and sustainable CMID brand.

Strive to maintain high and stable Revenue, output, and profits.

Develop and effectively implement investment and development strategies for 2025's business and production objectives, preserving and growing the company's and Shareholders' capital, fulfilling obligations to the State, ensuring higher financial indicators than in 2024, and increasing employee income.

Improve management and operations and enhance the quality of human resources to meet the company's production and business requirements.

B. - Business Direction and Tasks for 2025

1./ Business Plan Direction for 2025 (See Appendix 2)

The company aims to achieve a Revenue and output target for 2025 that is 15% higher than 2024's performance, striving to ensure financial indicators are equal to or higher than 2024's (due to increasing market competition and declining rental Revenue, while rental land taxes to the State are increasing).

In 2025, the company will distribute a 28% dividend (equal to the undistributed retained earnings and profits from business operations during the year).

Strive to maintain stable profits: as the segment of civil cement supplied to the retail market currently faces intense competition from distributors and other low-cost cement factories, the supply to industrial production and project segments is also facing significant price competition and high outstanding debts.

2./ Investment Activities:

2.1 - Focus on effectively exploiting the company's remaining premises to increase profits.

2.2 - For premises with long-term land lease agreements, such as:

- No. 73 Phan Dinh Phung, Ward 17, Phu Nhuan District

40 Nguyen An Khuong, Ward 13, District 5

496 An Duong Vuong, Ward 4, District 5

Currently, these premises are deteriorating, small-scale, and their income has not reached its maximum potential.

The company is seeking planning information and permits to renovate and construct a new building at 40 Nguyen An Khuong to ensure convenient use, increase income, and maintain long-term stability of the premises.

2.3 - For premises with expired land leases, the company is actively contacting authorities to initiate procedures to sign long-term land lease contracts on an annual payment basis to maintain secure premises and explore suitable investment directions for long-term business that bring the highest profit to the company.

2.4 - Regarding the warehouse land at Hamlet 1 - Tan An Commune - Can Duoc District - Long An Province, a part of the area is currently allocated as a wharf and warehouse for a company unit. The company is contacting authorities to carry out legal procedures to change the land use purpose in accordance with State regulations in the area, propose suitable investment directions, and exploit the land to increase the company's Revenue.

3.- Financial Tasks:

- Maintain strong relationships with credit institutions to secure capital for the company's business operations. Proactively allocate capital for development investment projects, focusing on large contracts and projects with stable output consumption and high efficiency.
- Regularly strengthen inspection, supervision, and promptly address violations in cash and goods management, limiting customer appropriation of capital. Actively resolve and recover overdue debts, such as signing debt settlement contracts with specialized companies and taking relevant legal measures.
- Proceed with the sale of treasury shares to supplement capital for business operations.
- Implement appropriate capital investment plans to enhance capital use efficiency.
- Annually hire an Auditing firm from the list recommended by the State Securities Commission to audit and prepare financial statements in accordance with the Company's Charter and the Enterprise Law.

4.- Human Resources Tasks:

- Review and reorganize the organizational structure, business units, and personnel towards streamlining, efficiency, and suitability for the company's scale of operations. Develop plans to consolidate underperforming business centers in the long term.

- Conduct professional training and development for officers and employees, building a team of competent and dedicated officers and employees to meet the business operational requirements of the unit.
- Plan to recruit new personnel with expertise, competence, and qualifications to strengthen the direct sales force.

III. IMPLEMENTATION MEASURES:

- Strengthen relationships with cement companies, key customers, construction material stores, concrete mixing stations, and large project contractors to secure supply sources, thereby boosting sales and creating a competitive edge in the market. Focus investment in several high-profit product lines, expand the market for clinker consumption to increase revenue and sales volume in 2025 and subsequent years.
- Closely connect with key customers and projects, implementing flexible pricing strategies for customers in different regions and areas.
- Develop and increase supply sources to existing river ports and continue seeking partners to develop additional wharves and depots in suburban areas and bordering neighboring provinces to create a reasonable distribution channel, effectively serving customer needs.
- Proactively secure capital for business development, investment in project development, focusing on large contracts and projects with stable output consumption and high efficiency.
- Strengthen inspection, supervision, and promptly address violations in cash and goods management, actively resolve and recover bad debts, and limit customer appropriation of overdue debts. Implement appropriate legal measures to recover bad debts.
- Promote emulation movements among officers, employees, and workers, striving to surpass the planned targets set for 2025 with the motto: "Flexibility - Safety - Efficiency".
