## REPORT

### ACTIVITIES OF THE BOARD OF DIRECTORS IN 2024

Pursuant to the Enterprise Law No. 68/2014/QH13 dated 2014-11-26;

Pursuant to the rights and responsibilities of the Board of Directors as stipulated in the Charter of Organization and Operation of Vietnam Vegetable Oil Industry Corporation - JSC.

The Board of Directors of Vietnam Vegetable Oil Industry Corporation - JSC (Vocarimex) hereby Report on the activities of the Board of Directors in 2024 as follows:

#### I. Assessment of the Board of Directors on the Company's activities

##### *1. Some characteristics in 2024 impacting the Company's business*

Year 2024 continued to be a challenging year for the global and Vietnamese economies, with many complex fluctuations directly affecting Vocarimex's production and business activities.

- **Global inflation, although cooling down, remained high**, causing input costs to increase significantly.
- **The prolonged Ukraine-Russia conflict** disrupted supply chains and increased raw material prices.
- **Global energy prices remained high**, significantly impacting operating, production, and logistics costs.

In addition to the challenges of the global economy, the Vietnamese economy also faces difficulties and declining purchasing power.

- **Economic growth was lower than expected**, affecting many consumer goods sectors.
- **People tightened spending**, focusing on essential goods, reducing demand for high-end cooking oil products.
- **Input material prices fluctuated significantly**, especially vegetable oil and packaging materials.
- **Competitive pressure in the cooking oil industry intensified** as domestic and international competitors expanded their market share.

Vocarimex is no exception when facing the aforementioned difficulties and challenges. The slow economic recovery has made the export market difficult; the unpredictable fluctuations in raw material prices affect the import plan and inventory management; increased transportation and logistics costs reduce profit margins; major trading partners reduce orders due to the cost-cutting trend of F&B businesses.

### **Vocarimex's solutions**

Faced with these difficulties, Vocarimex has made efforts to implement flexible solutions to ensure stable production and business activities and achieve the 2024 plan targets:

- **Optimize production & operating costs**, reduce waste, and improve operational efficiency.
- **Strengthen strategic cooperation with domestic and international partners**, exploiting potential export markets.
- **Financial restructuring** and capital optimization to ensure sustainable development.

With these efforts, Vocarimex is confident in overcoming challenges and maintaining its leading position in the vegetable oil industry in Vietnam.

### ***2. Results of implementing the 2024 production and business targets.***

#### **a. Production and Business Results in 2024:**

- The targets according to the Resolution of the 2024 Annual General Meeting of Shareholders, and the implementation results are as follows:

Revenue reached 419 billion VND, achieving 69.8% of the plan (Target: 600 billion VND).

Pre-tax profit reached 65 billion VND, exceeding 91% of the plan (Target: 34 billion VND).

The Corporation has ensured jobs and income for employees, contributed to the State budget, and supported community activities.

- The 2024 financial statements of Vocarimex have been audited by Ernst & Young Limited Liability Company with an unqualified opinion.

In the context of economic advantages and difficulties, the above-mentioned achievements are the great efforts of the Board of Directors, Board of Management, and employees of Vocarimex.

#### **b. Activities of the company's Board of Directors in 2024:**

Some basic features of the Board of Directors' activities in 2024 are as follows:

- Exercising the rights and fulfilling the duties assigned by the General Meeting of Shareholders in accordance with the provisions of the Enterprise Law, relevant laws, and the Company's Charter.

- Closely monitoring the activities of the Board of Management, promptly addressing their proposals, and making timely decisions that bring economic efficiency to the Corporation.

- Defining business strategies and organizing their implementation to achieve the set business plan.

- Organizing performance evaluation and setting directions for the next period. Reviewing and adjusting implementation plans to suit the actual situation, as well as maximizing market opportunities.

- Financial management has always received special attention from the Board of Directors in the past year, including auditing and controlling financial indicators in business activities.

**c. Summary of Board of Directors meetings:**

The total number of Board of Directors meetings in 2024 was 22 to address issues related to production and business and other matters under the authority of the Board of Directors.
