REPORT ON REVIEW OF INTERIM SEPARATE FINANCIAL STATEMENTS

To: The Shareholders and the Board of Directors of Mobile World Investment Corporation

We have reviewed the interim separate financial statements of Mobile World Investment Corporation ("the Company") as prepared on 7 August 2015 and set out on pages 4 to 17 which comprise the interim separate balance sheet as at 30 June 2015, and the interim separate income statement and interim separate cash flow statement for the six-month period then ended and the notes thereto.

The preparation and presentation of these interim separate financial statements are the responsibility of the Company's management. Our responsibility is to issue a report on these interim separate financial statements based on our review.

We conducted our review in accordance with Vietnamese Standard on Auditing No. 910 – Engagements to Review Financial Statements. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the interim separate financial statements are free from material misstatement. A review is limited primarily to inquiries of the Company's personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. We have not performed an audit and, accordingly, we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim separate financial statements do not give a true and fair view, in all material respects, of the interim separate financial position of the Company as at 30 June 2015, and of the interim separate results of its operations and its interim separate cash flows for the six-month period then ended in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and the statutory requirements relevant to preparation and presentation of interim separate financial statements.

We draw attention to Note 2.1 of the interim separate financial statements. The interim consolidated financial statements of the Company and its subsidiaries for the six-month period ended 30 June 2015 prepared in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and the statutory requirements relevant to preparation and presentation of interim consolidated financial statements have been issued separately. We have reviewed these interim consolidated financial statements and our report on review of interim consolidated financial statements dated 7 August 2015 expressed an unmodified conclusion.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.6 Treasury shares

Own equity instruments which are reacquired (treasury shares) are recognised at cost and deducted from equity. No gain or loss is recognised in profit or loss upon purchase, sale, issue or cancellation of the Company's own equity instruments.

3.7 Appropriation of net profit

Net profit after tax is available for appropriation to shareholders after getting approval by the shareholders in the annual general meeting, and after making appropriation to reserve funds in accordance with the Company's Charter and Vietnam's regulatory requirements.

3.8 Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, excluding trade discount, rebate and sales return. The following specific recognition criteria must also be met before revenue is recognised:

Interest

Revenue is recognised as the interest accrues (taking into account the effective yield on the asset) unless collectability is in doubt.

Dividends

Income is recognised when the Company's entitlement as an investor to receive the dividend is established.

3.9 Taxation

Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted as at the balance sheet date.

Current income tax is charged or credited to the interim separate income statement, except when it relates to items recognised directly to equity, in which case the current income tax is also dealt with in equity.

Current income tax assets and liabilities are offset when there is a legally enforceable right for the Company to offset current tax assets against current tax liabilities and when the Company intends to settle its current tax assets and liabilities on a net basis.

Deferred tax

Deferred tax is provided using the liability method on temporary differences at the balance sheet date between the tax base of assets and liabilities and their carrying amount for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets are recognised for all deductible temporary differences, carried forward unused tax credit and unused tax losses, to the extent that it is probable that taxable profit will be available against which deductible temporary differences, carried forward unused tax credit and unused tax losses can be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realised or the liability is settled based on tax rates and tax laws that have been enacted at the balance sheet date.

NOTES TO THE INTERIM SEPARATE FINANCIAL STATEMENTS (continued)
as at and for the six-month period ended 30 June 2015

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.9 Taxation (continued)

Deferred tax (continued)

Deferred tax is charged or credited to the interim separate income statement, except when it relates to items recognised directly to equity, in which case the deferred tax is also dealt with in the equity account.

Deferred tax assets and liabilities are offset when there is a legally enforceable right for the Company to offset current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority.

The carrying amount of deferred income tax assets is reviewed at each interim balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised. Previously unrecognised deferred income tax assets are re-assessed at each interim balance sheet date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

3.10 Financial instruments

Financial instruments – initial recognition and presentation

Financial assets

Financial assets within the scope of Circular No. 210/2009/TT-BTC dated 6 November 2009 issued by the Ministry, providing guidance for the adoption in Vietnam of the International Financial Reporting Standards on presentation and disclosures of financial instruments ("Circular 210") are classified, for disclosures in the notes to the interim separate financial statements, as financial assets at fair value through profit or loss, held-to-maturity investments, loans and receivables or available-for-sale financial assets as appropriate. The Company determines the classification of its financial assets at initial recognition.
