22. Classification of financial instruments

Solely for the purpose of providing disclosures about the significance of financial instruments to the Group's financial position and results of operations and the nature and extent of risk arising from financial instruments, the Group classifies its financial instruments as follows:

Address: 10 Tan Trao - Tan Phu Ward - District 7 - Ho Chi Minh City CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the accounting period ended 31 March 2016

a. Financial assets

Financial asset at fair value through profit or loss

A financial asset at fair value through profit or loss is a financial asset that meets either of the following conditions:

- It is considered by management as held for trading. A financial asset is considered as held for trading if:
 - It is acquired principally for the purpose of selling it in the near term;
 - There is evidence of a recent pattern of short-term profit-taking; or
 - A derivative (except for a derivative that is financial guarantee contract or a designated and effective hedging instrument).
- Upon initial recognition, it is designated by the Group as financial assets at fair value through profit or loss.

➤ Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and a fixed maturity that the Group has the positive intention and ability to hold to maturity, other than:

- Those that the Group upon initial recognition designates as financial assets at fair value through profit or loss;
- Those that the Group designates as available-for-sale; and
- Those that meet the definition of loans and receivables.

> Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market, other than those:

- That the Group intends to sell immediately or in the near term, which are classified as held for trading, and those that the entity on initial recognition designates as financial assets at fair value through profit or loss;
- That the Group upon initial recognition designates as available-for-sale; or
- For which the Group may not recover substantially all of its initial investment, other than because of credit deterioration, which are classified as available-for-sale.

➤ Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are designated as available for sale or that is not classified as:

For the accounting period ended 31 March 2016

- Financial assets at fair value through profit or loss;
- Held-to-maturity investments; or
- Loans and receivables.

b. Financial liabilities

Financial liabilities at fair value through profit or loss

A financial liability at fair value through profit or loss is a financial liability that meets either of the following conditions:

- It is considered by management as held for trading. A financial liability is considered as held for trading if:
 - It is incurred principally for the purpose of repurchasing it in the near term;
 - There is evidence of a recent pattern of short-term profit-taking; or
 - A derivative (except for a derivative that is financial guarantee contract or a designated and effective hedging instrument).
- Upon initial recognition, it is designated by the Group as financial liabilities at fair value through profit
 or loss.

Financial liabilities carried at amortised cost

Financial liabilities which are not classified as financial liabilities at fair value through profit or loss are classified as financial liabilities carried at amortised costs.

The above described classification of financial instruments is solely for presentation and disclosure purpose and is not intended to be a description of how the instruments are measured. Accounting policies for measurement of financial instruments are disclosed in other relevant notes.

23. Consolidation

> Subsidiaries

- Subsidiaries are the entities that the Group has the power to govern their financial and operating policies, normally with more than half of the voting rights. The existence and effectiveness of potential voting rights which are exercised or converted are considered in assessing whether the Group has a control over these entities or not. Subsidiaries are consolidated fully from the date of that control transferred to the Group. The consolidation ceases when that control is no longer exists.
- Acquisition accounting method is applied by the Group to account the acquisition of subsidiaries. The
 purchase prices is recognised at fair value of exchanged assets, issued equity instruments and incurred or
 confirmed liabilities at the exchanging date, plus expenses directly attributable to purchase transaction.
 Determinable assets, accounts payable and contingent liabilities recognised at consolidation are initially

Address: 10 Tan Trao - Tan Phu Ward - District 7 - Ho Chi Minh City CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the accounting period ended 31 March 2016

determined at fair value at the purchasing date, regardless of minority interest. Surplus of purchase price over the buyer's interest in net assets value is considered as goodwill. If the buyer's interest in net assets value is higher than purchase price, the difference is recognised promptly to the statement of income.

- Transactions, receivables, payables and interest, unrealised losses incurred between the Group's subsidiaries will be eliminated in consolidation. Subsidiaries's accounting polocies will be changed, if neccessary, to ensure the consistency with the Group's accounting policies.

> Transactions and interest of minority interest

- The Group applies the same policies with the third parties for transactions with minority interest. Gains or losses from sales of part of minority interest is recognised in the statement of income. The purchasing from minority interest will generates goodwill, which is the surplus of payment and the remaining net asset value stated in the subsidiary' accounting book.

> Associates

- Associates are entities in which the Group has significant influence, but not control, through the holding of 20% to 50% voting rights of these entities. Investment in associates is accounted using equity method and stated at cost. The Group's investment in associates includes goodwill arising from investment, less accumulated impairment of assets.
- The Group's shared profit from investment in associates is recognised in the consolidated statement of income, and the share of reserve's movements after investing in associates is recognised in the consolidated reserve. Accumulated changes after investing in associates will be adjusted to carrying amount of the investments. When the Group's share of losses from investees equals or exceeds its interest in an equity accounted investees, the Group will not recognise such losses except to the extent that the Group has an obligation or already paid on behalf of the associates.
- Unrealised gains or losses from transactions between the Group and its associates are eliminated in gains
 from investment to associates. Subsidiaries's accounting polocies will be changed, if neccessary, to
 ensure the consistency with the Group's accounting policies.

V. FINANCIAL RISK MANAGEMENT:

Financial risk factors:

- The Group assesses the following risks from its use of financial instruments:
 - Market risk
 - Liquidity risk
 - Credit risk
- The Board of Management has overall responsibility for the establishment and oversight of the risk management principles. The Board of Management establishes policies to identify and analyse the risks faced by the Group, to set appropriate risk controls and limits, and to monitor risks and adherence to risk limits. Risk management system and policies are reviewed regularly to reflect changes of market conditions and the Group's activities.

1. Market risk

- Market risk is the risk that fair value or future cash flows of a financial instrument will be affected by the volatility of market price. Market risk included 3 types of risk: currency risk, interest rate risk and other market price risk. The objective of market risk management is to manage and control market risk exposures to the Group within acceptable level, while optimising the return.

a. Currency risk

- The Group is exposed to currency risk on sales and purchases that are denominated in currencies other than VND. These currencies are mainly USD and EUR (other currencies have insignificant transactions).
- The Group's exposure to currency risk is managed by retaining the exposure at an acceptable level by buying or selling foreign currencies at spot rates when necessary to address short-term over-exposures and planning a payment schedule of foreign currencies with the highest possible accuracy. During the year, the Board of Management decided to use USD buying forward contract to settle USD loans when they fall due, in order to hedge the interest rate fluctuations.
- Exposures to currency risk of the Group from USD and EUR is as follows:

As at 31 Mar 2016

	Foreign currencies		VND equivalent		
	USD	EUR	USD	EUR	
Financial assets					
Cash on hand and cash in banks	28,078,733,84	32,616,88	625,032,615,278	821,423,506

- As at 31 Mar 2016, if VND weakens/strengthens by 1% against USD, while all other variables remain constant, profit after tax for the year is higher/lower by 9,369,111,493 VND, mainly due to foreign exchange gains/losses from translating trade receivables and payables denominted in USD.
- As at 31 mar 2016, if VND weakens/strengthens by 3% against the EUR, while all other variables remain constant, profit after tax for the year is lower/ higher by 786,178,492 VND, mainly due to foreign exchange losses/ gains from translating the trade receivables and payables denominted in EUR.

b. Price risk

- The Group has equity investments to listed and unlisted companies and is exposed to risk from price fluctuation of these investments. Risk factors impacting these investments' results include operating result and financial position of investees and market conditions. The Board manages risk related to operating result and financial potition by selecting industries and entities to invest in. Risk factors related to market conditions are itself impacted by general economic condition of Vietnam and investors' behaviours, which are out of the Board's control. These factors have caused market conditions to be volatile in recent years.
- For investments in listed securities, if the securities' prices increase/decrease by 10% while all other variables (including tax rate) remain constant, the Group's consolidated profit after tax is 47,639,819 VND higher/lower corresponding to the tendency of price fluctuation.

c. Interest rate risk

Interest rate fluctuation does not have any significant impact on the Group's net profit after tax.

2. Credit risk

- Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and mainly arises from the Group's receivables.

• Exposure to credit risk:

The total carrying amounts of financial assets represent maximum credit exposure. The maximum exposure to credit risk at the reporting date was as follows:

	31/3/2016	31/12/2015
Cash and cash equivalents	1,226,715,520,251	1,357,221,465,842
Held to maturity investment	9,688,822,000,000	8,751,188,500,000

	14,035,105,588,280	12,633,855,022,594

• Cash, cash equivalents and term deposits:

Cash, cash equivalents and term deposits at banks of the Group are mainly held with well-known financial institutions. Management does not foresee any significant credit risks from these deposits and does not expect that these financial institutions may default and cause losses to the Group.

• Held to maturity investments

- Held to maturity investments include corporate bonds and term deposits. Term deposits at bank are mainly held with well-know financial institutions. Management does not foresee any significant credit risks from these deposits and does not expect that these financial institutions may default and cause losses to the Group.
- The Group's exposure to credit risk from investing in bonds is influenced by individual characteristics of the instrument issuer. In managing this risk, the Group's management analyses the creditworthiness of the issuer before buying. Management assessed that the issuers had good track records and believe that credit risk on those instruments is low.
- There was no allowance for diminution in value of held to maturity investments during the year.

• Trade and other receivables

- The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer.
- The Group's management has established a credit policy under which each new customer is analysed individually for creditworthiness before payment and delivery terms and conditions are offered. Credit purchase limit is established for each customer, which represents the maximum amount without approval from the Board of Directors. Customers that fail to meet the Group's benchmark creditworthiness may transact with the Group only on a prepayment basis.
- The Group makes allowance for diminution in value to present estimated losses from trade and other receivables and investments. Main component of the allowances are a particular loss relevant to particular level of major losses to each customer and overall losses level of similar financial assets, which are

i. Cash and cash equivalents, term deposits, trade and other receivables, trade and other payables

Carrying amounts of these financial assets and financial liabilites approximate their respective fair value due to the short-term maturity of these instruments.

ii. Short-term and long-term investments in listed equity securities

Market value of equity securities listed on the Ho Chi Minh Stock Exchange is based on the closing prices of the last official trading date of the period/year at the Ho Chi Minh Stock Exchange.

iii. Short-term investments in unlisted equity instruments

Market value of unlisted equity securities is based on the average of trading prices provided by 03 (three) securities companies.

iv. Long-term investments in investment funds

Market value of investment funds is based on net assets value of funds portfolio which is certified by the the appointed security company and supervisory bank.

v. Short-term corporate bonds, other short-term investments, long-term corporate bonds, and other long-term investments

The Group has not determined fair values of these financial assets and liabilities for disclosure in accordance with Article 28 of Circular No. 210/2009/TT-BTC dated 6 November 2009 of the Ministry of Finance because (i) quoted prices in active market are not available for these financial assets and liabilities; and (ii) Vietnamese Accounting Standards and the Vietnamese Accounting System for enterprises do not provide guidance on measurement of fair value in case where quoted prices in active market are not available. Fair value of these financial instruments may be different from their carrying amounts.
