VietJet Aviation Joint Stock Company explained the business result in quarter 3/2024 compared to that in the same period of 2023 as follows:

*Unit: VND billion*

	Q3/2024	Q3/2023	Change (%)	9 months of 2024	9 months of 2023	Change (%)
<b>Holding company' business result</b>						
Gross sale	17,907	14,033	28	51,769	39,166	32
Profit after tax	255	67	278	1,134	115	884
<b>Consolidated business result</b>

Profit after tax	571	75	660	1,405	212	564

The main reason for the increase of gross sale and profit after tax in quarter 3/2024 compared to that in quarter 3/2023:

- The increase number of flights and cargo transportation in quarter 3/2024.
- The optimization of the using of airplane.
- The increase in number of international and domestic routes.
- According to the consolidated financial statements in quarter 3/2024, VJC reported VND 18,164 billion in revenue, and more than VND 571 billion in profit after tax, increased by 28% and 660% respectively compared to that in the same period of 2023. The accumulated gross revenue and profit after tax in the first 09 months of 2024 was 52,194 billion and 1,405 billion respectively, increases by 19% and 564% respectively compared to that in the same period of 2023. The increase in business result in 09 months of 2024 due to the increase in ancillary revenue, the adjustment to flight fare, and the optimization of operation expenses.
