5. Market outlook

Vietnam continued its upward trajectory as GDP advanced by 6.9% in Quarter II of 2024, marking the 11th consecutive quarter of growth. In the first Quarter of 2024, GDP was revised upwards to 5.9% from 5.66%, resulting in a 6.4% growth rate for the first half of 2024, the second-highest for this period since 2020. Both the manufacturing and service sectors achieved results exceeding expectations. The industrial production index recorded two consecutive months of growth over 10% as orders returned for most of Vietnam's export goods. Many companies in the textile and garment industry have orders extending until September and October this year, while the demand for upgrading electronic and mobile devices to meet new technology has led to an increase in orders for electronic products. Manufacturing Purchasing Managers' Index ("PMI") reflected this momentum, jumping to 54.7 point in June from 50.3 point in May. Domestic consumption also grew in Quarter II, with an 8.8% overall increase. Goods consumption rose by 7.7%, Food and Beverage services jumped by 17.5%, and tourism surged by over 30%, evidencing a robust recovery with foreign visitors to Vietnam stable at 1.2 – 1.4 million per month. Based on the results of the first six months, the government has adjusted the GDP growth target for the entire year of 2024 from 6.0 – 6.5% to 6.5 – 7.0%. This adjustment aligns with the GDP growth forecasts for Quarter III and Quarter IV, which are 7.4% and 7.6%, respectively.

The Fund shall seek for achieving a performance result which is similar to the reference index and shall not implement the defense strategy when the market declines and shall not realise its profits when the market is pricing too high. The passive investing is aimed to reduce the costs and make closer replication of the reference index by keeping the ratio of investment capital turnover lower than the ratio used by funds which implement the active investment strategy.

The basket of securities of VN DIAMOND Index including stocks being listed on the Hochiminh Stock Exchange. The list of stocks is screening through the index participation conditions, which satisfies the criteria of market capitalisation, trading value, P/E ratio and foreign ownership limit ratio.
