2. Content of information disclosure:

In accordance with Clause 4, Article 11, Chapter III of Circular 96/2020/TT-BTC issued on November 16, 2020 and effective from January 1, 2021 of the Ministry of Finance guiding information disclosure on the stock market, Petroleum Trading Joint Stock Company would like to explain the reason for the difference in profit after tax between the separate financial statements of the fourth quarter of 2024 compared to the financial statements of the same period in 2023:

2.1 Explanation of the change in profit after income tax of 10% or more:

Unit: Million VND

No.	Detail	Q4/2024	Q4/2023	Balance	% increase/ (decrease)
1	Profit after income Tax	2.358	(2.164)	4.522	209

Profit after income tax of Q4 of 2024 and 2023 are 2,358 million VND and (2,164) million VND, an increase of 4,522 million VND (equivalent to 209%). The main reason is that sales revenue increased sharply in the fourth quarter, up 690,725 million VND compared to the same period, leading to a gross profit increase of 5,233 million VND, equivalent to 807% compared to the third quarter of 2023.

2.2 Explanation of profit after income tax on the 4th quarter financial statements:

The contracts, which were completed and revenue was recorded at the end of the year, pushed the profit after income tax to increase in the 4th quarter a lot.

2.3 Explanation of profit after income tax changing from loss to profit on the 4th quarter financial statements:

As presented above, in addition to the reason for the sharp increase in sales revenue during the period, the reversal of expenses deducted in previous periods also had a major impact on the business performance in the 4th quarter. Therefore, the profit after tax in the 4th quarter of 2023 changed from loss (VND 2,164 million) to profit (VND 2,358 million) in the 4th quarter of 2024.

The above is the explanation for the 4th quarter of 2024 financial statements. We commit that the information published above is true and we are fully responsible for the content of the published information.
