### 3- Principles of recognition of trade receivables and other receivables:

At book value with provision for doubtful debts.

### 4- Principles for recording fixed assets and depreciation:

- Fixed assets are stated at cost less accumulated amortization.

- The original cost of fixed assets includes the purchase price and any costs directly attributable to bringing the asset into operation.
- Mortization of fixed assets caculated on a straight.

Types of fixed assets	Deprecition time
Building and structures	06-25 years
Machine, equipments	07-12 years
Transportations	06-10 years
Office equipments	03-08 years

### 5- Principles for recording investments in affiliated companies:

- Investments in associates are presented at cost.

### 6- Principles for recording borrowing costs:

- Borrowing costs are recorded as expenses in the period in which they are incurred unless capitalized according to regulations.
- Interest on loans related to the acquisition or construction of fixed assets before completion and commissioning is added to the asset's original cost.
- Interest on other loans is recognized as a financial expense as incurred.

### 7- Principles for recording prepaid expenses:

- The following expenses are accounted for as prepaid expenses and gradually allocated to business results:
  - + Newly purchased tools and supplies: Allocation based on their useful life.

### 8- Principles for recording payable expenses:

- Payables are recognized for the amounts to be paid in the future related to goods and services received, been received. consistent with the recognized revenue, regardless of whether an invoice from the supplier has .

### 9- Principles for recording provisions for payables:

- Provisioning at the time of preparing interim and year-end financial statements.

### 10- Principles for recognizing owner's equity:

- Owner's equity is recognized based on the actual capital contribution made to date.
- Share premium is recognized based on the difference between the selling price and the par value of shares.

### 11- Principles and methods for recognizing revenue and expenses:

- Revenue is recognized when the Company is likely to receive economic benefits that can be reliably measured.
- Sales revenue is recognized when the significant risks and rewards of ownership of the goods have been transferred to the buyer
- Expenses are recognized when they are incurred and match the related revenue.

### 12-Segment reporting:

- Business activities of the company: Production and processing of seafood, agricultural products, and export food.
- Headquarters and factory are located at Plot No. A77/I, Street 7, Vinh Loc Industrial Park, Binh Tan Ward, Ho Chi Minh City.

### 13- Principles and methods for recognizing taxes:

- Taxable income is calculated based on the results of operations for the year and adjusted for non-deductible expenses and any carried-forward losses from previous years (if applicable).
- In addition to corporate income tax, the company is obligated to pay other taxes in accordance with current regulations.
- Current tax: is determined based on the estimated amount payable (or refundable) to the tax authorities according to the applicable tax rates and tax laws in effect as of the balance sheet date.
- Deferred tax: not recognized.

### 14- Salaries and Social Insurance, Health Insurance, Unemployment Insurance:

- Salaries are calculated and accrued as expenses for the period based on employment contracts, the wage scale system, and the company's wage and bonus policies.
- Social insurance, health insurance, and unemployment insurance are also accrued at rates of 25.5% and 4.5%. with unemployment insurance at 2% of the salary. Of this, 21.5% is accounted as an expense for the period, and 10.5% is deducted from the employee's salary.

### 2- Financial instruments

### 2.1- Capital Risk Management

The company manages its capital to ensure that it can both operate continuously and maximize shareholder benefits through the optimization of capital and debt balances.

The company's capital structure consists of net debt, cash and cash equivalents, and equity (which includes contributed capital, reserve funds, and undistributed after-tax profits).

### 2.2- The main accounting policies

Details of the main accounting policies and methods applied by the Company (including recognition criteria, basis for determining value, and basis for recognizing income and expenses) for each type of financial asset and financial liability.

### 2.3- Financial Risk Management

Financial risks include market risk (which encompasses foreign exchange risk, interest rate risk, and price risk), credit risk, and liquidity risk. Market risk is the risk that the fair value of future cash flows debts, deposits, and investments held for sale. of a financial instrument will fluctuate due to changes in market prices. Financial instruments affected by market risk include loans and debts, deposits, and investments held for sale.

### 2.4- Foreign Exchange Risk Management

Foreign exchange risk is the risk that the fair value or future cash flows of a financial instrument fluctuate due to changes in exchange rates. The company engages in several transactions denominated in foreign currencies, and as such, it will be exposed to risks arising from exchange rate fluctuations. The currencies that cause the risk are USD and EUR. The company ensures that the exposure to this risk is maintained at an acceptable level by implementing risk management related to exchange rate fluctuations through measures such as forecasting future exchange rates and maintaining low foreign currency liabilities.

### 2.5- Interest rate risk management

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The company's risk related to changes in market interest rates primarily involves short-term deposits and loans. The company manages interest rate risk by closely monitoring relevant market conditions to determine appropriate interest rate policies that are beneficial for the purpose of managing the company's risk limits.

### 2.6- Price risk management

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices, similar to the changes in interest rates and exchange rates. The company is exposed to price risk related to equity instruments arising from investments in equity instruments. To manage risk, the company restructures its investment portfolio in a way that minimizes risk to an acceptable level.

### 2.7- Credit risk management

Credit risk is the risk that a counterparty will not fulfill its obligations under the terms of a financial instrument or customer contract, leading to financial loss. The company is exposed to credit risk from its business activities (primarily related to accounts receivable from customers) and from its financial activities, including bank deposits and other financial instruments.

### - Accounts Receivable

The company's management of customer credit risk is based on policies, procedures, and control processes related to managing customer credit risk

Accounts receivable that remain unpaid are regularly monitored. Analysis of the provision for bad debts is carried out at the reporting date on a customer-by-customer basis, particularly for major customers.

### - Bank deposits

Most of the company's bank deposits are held at major, reputable banks in Vietnam. The company recognizes that the concentration of credit risk related to bank deposits is low.

### 2.8- Liquidity Risk Management

The purpose of liquidity risk management is to ensure sufficient funding is available to meet current and future financial obligations. Liquidity is also managed by the company to ensure that the excess over due liabilities and assets maturing within the period is kept at a controllable level relative to the capital the company believes it can generate during that period. The company's policy is to regularly monitor current and projected liquidity requirements to ensure that the company maintains an adequate cash reserve,

bank deposits, loans, and capital committed by the owners.

### 2.9- Collateral

The company has pledged tangible fixed assets, including machinery, equipment, and buildings on leased land, as well as intangible fixed assets, such as land use rights.

### 2.10- Fair value measurement

The carrying value, net of provisions, of short-term accounts receivable from customers, bank deposits, accounts payable to suppliers, and other payables is approximately equal to their fair value.

The following provides details on the fair value of short-term and long-term investments:

	Book value	Provision for decline in value	Fair value
As at 01/01/2025			
Short-Term financial investments	531,000,000	(264,801,600)	266,198,400
Trading Securities	531,000,000	(264,801,600)	266,198,400
Long-Term financial investments	37,211,425,650	(16,386,215,186)	
Investment in associates	14,992,000,000	(1,499,200,000)	
Investment in other companies	22,219,425,650	(14,887,015,186)	
As at 30/09/2025			
Short-Term financial investments	531,000,000	(302,911,200)	228,088,800
Trading Securities	531,000,000	(302,911,200)	228,088,800
Long-Term financial investments	37,211,425,650	(16,386,215,186)	
Investment in associates	14,992,000,000	(1,499,200,000)	
Investment in other companies	22,219,425,650	(14,887,015,186)	

The market value of equity securities listed on the Hanoi Stock Exchange is determined based on the closing price of the last trading day of the period on the Hanoi Stock Exchange.

The fair value of investments in associates and other long-term investments is recognized based on the cost of the investment and any other adjustments (if applicable).

### Events occurring after the reporting period

There are no other significant events that occurred after the end of the reporting period that require adjustment or disclosure in the financial statements.
