“Regarding the fluctuation of profit after tax in Q3-2025 compared to Q3-2024”

Base on Circular No.96/2020/TT-BTC dated 16/11/2020 of the Ministry of Finance, which regulates the information disclosure on the stock market.

DOMESCO Medical Import-Export JSC (Stock code: DMC) would like to clarify the fluctuation of business performance in Q3-2025 compared to Q3-2024:

1. Performance in Q3-2025 compared to Q3-2024:

Unit: Billion Dong

Items	Q3-2025	Q3-2024	Variance	%
Net revenue	528.90	448.08	80.82	18.04%
Profit after tax	27.91	32.78	(4.87)	-14.85%

2. Reasons:

Net revenue increased by 18.04%, while profit after tax decreased by 14.85% compared to the same period last year. The following factors specifically explain this fluctuation:

- Proactive adaptation to market changes through the expansion of distribution channels, enhancement of customer experience, and implementation of responsive sales policies helped drive revenue growth.
- Rising prices of API due to limited supply, together with the continued appreciation of USD/VND and EUR/VND exchange rates, led to higher cost of goods sold and put pressure on business performance.

- Focusing on review processes, leverage available resources, and optimize operations to mitigate the impact of exchange rate fluctuations and rising input costs.

DOMESCO Medical Import-Export JSC kindly reports to SSC, HOSE, and Shareholders to notify.

Best regards.
