**REPORT OF THE BOARD OF DIRECTORS
BUSINESS RESULTS IN 2025 AND PLANS FOR 2026**

To: General Meeting of Shareholders - Vinh Phuc Infrastructure
Development Joint Stock Company

The year 2025 continues to be a volatile period of the world economy, many countries face political instability, protracted local conflicts and unusual adjustments in tariff and trade policies of the United States and major economies. These factors have a profound impact on investment capital flows, supply chains, and global financial markets. In addition, the trend of shifting production under the China+1 strategy continues to increase, leading to a strong reallocation of capital flows in the Asia-Pacific region. ensuring a reasonable growth rate and maintaining consistent FDI attraction policies. In particular, the synchronous completion of legal regulations on land, investment, construction and development of industrial park infrastructure has contributed to improving transparency, improving the business environment and creating new development space for the industrial real estate market. These factors contribute to strengthening and enhancing Vietnam's position as an attractive and safe manufacturing destination in the region.

Taking advantage of favorable domestic conditions and the trend of recovery of production investment, the Board of Directors has managed the Company in the direction of proactiveness – prudence – flexibility, proactively responding to external fluctuations, strengthening risk management and effectively exploiting market opportunities to ensure stable growth and maintain a sustainable financial foundation. Resolution of the 2021 Annual General Meeting of Shareholders No. 1912/2020/NQ-ĐHDCĐ/IDV DATED 19/12/2020 of Vinh Phuc Infrastructure Development Joint Stock Company approved the total investment of Song Lo II Industrial Park Project of VND 1,520 billion;

The estimate of adjustment and supplementation of the total investment is made by Truong Minh Vinh Phuc Joint Stock Company.

The Board of Directors of Vinh Phuc Infrastructure Development Joint Stock Company Reports and respectfully submits to the Annual General Meeting of Shareholders (AGM) in 2026 to approve the adjustment of the Total Investment of the

Project: Investment in construction and business of technical infrastructure of Song Lo II Industrial Park, Song Lo commune, Phu Tho province with the following contents:

I. The need to adjust the total investment

The total investment (e-commerce) initially approved is **VND 1,520 billion**, after the 1st adjustment (September 16, 2025) is **VND 1,763.38 billion**. During the implementation process, the project was strongly influenced by factors including:

- Fluctuations in the price of construction materials, especially K85 – K98 landfill, crushed stone and asphalt concrete;
- Prolonged adverse weather conditions, construction effects and substrate treatment volumes;
- Request to update and adjust according to the appraisal dossier of the Ministry of Construction for the item of wastewater treatment plant and the Headquarters of the Industrial Park Management Board.
- Expenses for project management, consultancy and other expenses increase at the prescribed rate corresponding to the construction and installation value.

The above factors change the implementation cost, requiring adjustment of e-commerce to ensure that the project is implemented on the approved scale, technical standards and schedule.

II. Total investment of times according to the summary table

STT	Contents	Value (billion VND)	Increased value compared to First time	
			Value difference (billion VND)	Increase rate compared to the first time (%)
1	Total initial investment	1.520,00		
2	Total 1st investment	1.763,38	243	16,00%
3	Total investment for the 2nd time	2.180,00	660	43,42%

III. Proposal of Total Investment after Adjustment

The total investment after the 2nd adjustment of the Project is: **2,180,000,000,000 VND**. (In words: Two thousand one hundred and eighty billion VND).

This includes:

STT	Contents	Values	DVT -
1	Cost of land clearance	689,05	Billion VND
2	Construction Cost	1.080,92	Billion VND
3	Equipment Cost	52,56	Billion VND
4	Project Management Costs	13,72	Billion VND
5	Construction consultancy costs	19,47	Billion VND
6	Other expenses	30,15	Billion VND
7	Contingency costs	101,37	Billion VND
8	Interest expenses in the construction period	122,82	Billion VND
9	Project Operating Costs	69,94	Billion VND
PLUS		2.180,00	Billion VND

(Adjusted e-commerce increased by **43.42%** compared to the initial e-commerce).

IV. Financial performance of the project after e-commerce adjustment

- Net NPV Current Value: VND 614.39 billion

- Intrinsic rate of return ($i=10\%$): 24.24%
- Expected payback period of the project: 5.6 years.

Note: Financial performance indicators are calculated on the basis of assumptions about rental prices, exploitation progress and market factors at the time of making the report; Actual results may vary according to market developments and implementation conditions.

Despite the increase in investment costs, the financial performance of the Project has improved¹ thanks to the updated unit price of industrial park land in line with market developments, thereby improving revenue and expected cash flow. The adjustment of e-commerce is necessary, reasonable and continues to bring high profitable value to the Company and shareholders.

V. Recommendations

The Board of Directors (BOD) respectfully submits to the 2026 Annual General Meeting of Shareholders for consideration and approval the following contents:

1. Approving the adjustment of the total investment in the investment project on construction and commercial operation of technical infrastructure of Song Lo II Industrial Park, Song Lo commune, Phu Tho province with a total investment of **VND 2,180,000,000,000** (*In words: Two thousand one hundred and eighty billion VND*).

2. To approve the authorization of the Company's Board of Directors to organize the implementation and implementation of procedures and tasks related to the adjustment of the total investment of the project in accordance with the provisions of law and at the request of competent state agencies; in accordance with the Company's Charter and current legal provisions; to ensure the use of capital for the right purposes, economically and effectively.

3. To approve the authorization of the Company's Board of Directors, including but not limited to deciding on tasks related to the implementation of the Project in accordance with law, in accordance with actual conditions and situations, based on the principle of ensuring investment efficiency.
