- A substantial rise in margin lending and advances to customers resulted in interest income from loans and receivables reaching VND 1,056.1 billion, marking an increase of VND 391.3 billion.
- Additionally, revenue from proprietary trading and other activities also grew positively compared to the same period, contributing to the overall increase in total revenue for 2024.

Total expenses in 2024 also increased by VND 1,145.4 billion equivalent to 92.2%, leading to an increase in net profit by VND 159.5 billion, representing a 27.3% growth compared to 2023.
