The accompanying notes are an integral part of these consolidated financial statements

These notes form an integral part of and should be read in conjunction with the accompanying consolidated financial statements.

1. Reporting entity

1.1 Establishment and operation

Vietnam International Commercial Joint Stock Bank ("the Bank") is a commercial joint stock bank incorporated and registered in the Socialist Republic of Vietnam.

The Bank was established pursuant to Banking License No. 23/GP-NHNN (to replace the Banking Licence No. 95/GP-NHNN dated 28 September 2018) issued by the State Bank of Vietnam ("SBV") on 19 September 2022. The Banking Licence of the Bank is valid for 99 years from 25 January 1996, which was amended under Decision No. 2616/QĐ-NHNN dated 5 December 2024.

The principal activities of the Bank are mobilising and receiving short, medium and long-term deposit funds from organisations and individuals; providing short, medium and long-term loans based on the nature and ability of the Bank's capital resources; conducting settlement and cash services and other banking services as approved by SBV; making capital contributions, purchasing shares, investment in bonds and trading foreign currencies in accordance with the law.

1.2 Charter capital

The charter capital of the Bank was VND50,000,000,000 when it was established in 1996 and has been increased periodically according to decisions of the General Meeting of Shareholders. The charter capital of the Bank as at 31 December 2024 is VND29,791,278,150,000 (31/12/2023: VND25,368,075,340,000).

1.3 Location and network

The Bank's Head Office is located at 1st floor (ground floor) and 2nd floor of Sailing Tower, 111A Pasteur, Ben Nghe Ward, District 1, Ho Chi Minh City. As at 31 December 2024, the Bank had one (1) Head Office, one hundred and ninety-one (191) business units including sixty-four (64) branches, one hundred and twenty-seven (127) transaction offices in provinces and cities nationwide (31/12/2023: the Bank had one (1) Head Office, one hundred and eighty-eight (188) business units including sixty-two (62) branches, one hundred and twenty-six (126) transaction offices in provinces and cities nationwide).

1.4 Subsidiary

As at 31 December 2024 and 31 December 2023, the Bank had one (1) subsidiary as follows:

Company name	Certificate of business registration	Business sector	% owned by the Bank
Vietnam International Commercial Joint Stock Bank – Asset Management Company Limited ("VIB AMC")	0104346676 dated 29 December 2009 (first time) and 17 th amendment dated 9 June 2023 by the Business Registration Department - Hanoi Department of Planning and Investment.	Debt and asset management	100%

The Bank's consolidated financial statements include the Bank and its subsidiaries (collectively referred to as "VIB").

1.5 Total number of employees

As at 31 December 2024, VIB had 11,736 employees (31/12/2023: 12,253 employees).

2. Basis of preparation the financial statements

2.1 Statement of compliance

The consolidated financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for Credit Institutions stipulated by the State Bank of Vietnam and the relevant statutory requirements applicable to financial reporting. These standards and statutory requirements may differ in some material respects from International Financial Reporting Standards, generally accepted accounting principles and standards of other countries. Accordingly, the accompanying consolidated financial statements are not intended to present VIB's consolidated financial position, consolidated results of operations and consolidated cash flows in accordance with generally accepted accounting principles and practices in countries or jurisdictions other than Vietnam. Furthermore, their utilisation is not designed for those who are not informed about Vietnamese accounting principles, procedures and practices for credit institutions.

2.2 Basis of measurement

The consolidated financial statements, except for the consolidated statement of cash flows, are prepared on the accrual basis using the historical cost concept. The consolidated statement of cash flows is prepared using the direct method.

2.3 Annual accounting period

The annual accounting period of VIB is from 1 January to 31 December.

2.4 Accounting currency

VIB's accounting currency is Vietnam Dong ("VND"). These consolidated financial statement have been prepared and presented in Vietnam Dong ("VND"), rounded to the nearest million ("VND million").

3. Change in accounting policy

On 30 June 2024, the SBV issued Circular No.31/2024/TT-NHNN prescribing classification of assets in the operations of commercial banks, non-bank credit institutions, and foreign bank branches ("Circular 31"). Circular 31 is effective from 1 July 2024.

On 11 July 2024, the Government issued Decree No.86/2024/ND-CP prescribing the provisions on the levels, methods of setting up risk provisions, and the use of provisions for risk handling in the operations of credit institutions, foreign bank branches, and cases where credit institutions must allocate accrued interest reversals ("Decree 86"). Decree 86 is effective from 11 July 2024.

According to Circular 31, Circular No.11/2021/TT-NHNN issued by the SBV on 30 July 2021 prescribing the classification of assets, levels and methods of setting up risk provisions and the use of provisions against risks in the banking activity of credit institutions and foreign bank branches ("Circular 11") expires from the effective date of Circular 31.

VIB has applied the changes of Circular 31 and Decree 86 prospectively from the effective date of Circular 31 and Decree 86. The significant changes in VIB's accounting policies and the effects on the consolidated interim financial statements, if any, are presented in Note 4.6.

4. Summary of significant accounting policies

The following significant accounting policies have been adopted by VIB in the preparation of these consolidated financial statements.

4.1 Basis of consolidation

a. Subsidiary

Subsidiary is entity controlled by VIB. The financial statements of the subsidiary are included in the consolidated financial statements from the date that control commences until the date that control ceases.

b. Transactions eliminated on consolidation

Intra-group transactions and balances, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealised gains and losses arising from transactions with equity accounted investees are eliminated against the investment to the extent of the VIB's interest in the investee.

4.2 Foreign currency

Foreign currency transactions

All transactions are recorded in their original currencies. Monetary items denominated in currencies other than VND are translated into VND at average exchange rate for spot selling and buying ("spot exchange rate") (gold is converted at the average selling and buying rate) of VIB at the end of the last working day of the annual accounting period if the difference between the spot exchange rate and the weighted average of buying and selling exchange rates of the last working day of the annual accounting period is less than 1% (refer to Note 50 for details of foreign exchange rates as at 31 December 2024). If the difference between spot exchange rate at the end of the last working day of the annual accounting period and the weighted average of buying and selling exchange rates of the last working day of the annual accounting period is 1% or more, VIB shall use the weighted average of buying and selling exchange rates of the last working day of the annual accounting period.

Non-monetary foreign currency assets and liabilities are translated into VND using the spot exchange rates effective at the dates of the transactions.

Income and expense in foreign currencies are translated into VND using the spot exchange rates effective at the dates of the transactions.

Foreign exchange differences arising from translation of monetary assets and liabilities at the end of the accounting period are recognised in the "Foreign exchange differences" account in equity on the consolidated statement of financial position and then transferred to the consolidated statement of income at the end of the annual accounting period.

4.3 Cash and cash equivalents

Cash and cash equivalents include cash on hand, gold on hand, balances with the SBV, balances with other credit institutions, loans to other credit institutions with original term to maturities not exceeding three months, Government treasury bills notes and other short-term valuable papers which are eligible for discount with the SBV, investments securities with recovery or maturity terms not exceeding three months from the acquisition date, that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

Gold is revaluated at the end of the annual accounting period and the differences arising on revaluation are recorded in the consolidated statement of income.

4.4 Balances with and loans to other credit institutions ("CIs")

Balances with other CIs include current deposits and deposits at other CIs with original terms of not exceeding three months. Loans to other credit institutions are loans with original terms to maturity of no more than twelve months.

Balances with other CIs, except for current deposits and loans to other CIs are stated at the amount of outstanding principal less any specific allowance for credit risks.

Current deposits with other credit institutions are stated at cost.

Credit risk classification of term deposits and loans to other CIs and allowance thereof is made in accordance with Circular 31 and Decree 86. Accordingly, VIB carries out debt classification and has provided specific allowance for term deposits and loans to other credit institutions in accordance with Circular 31 and Decree 86 as described in Note 4.6.

According to Decree 86, VIB is not required to make general allowance for term deposits and loans to other CIs.

4.5 Loans to customers

Loans to customers are stated at the amount of the principal outstanding less allowance for loans to customers.

Short-term loans are those with maturity term of no more than one year from the loan disbursement date. Medium-term loans are those with maturity from more than one year to five years of the loan disbursement date. Long-term loans are those with maturity term of more than five years from the loan disbursement date.

Debt classification and allowance for credit losses for loans to customers are made in accordance with regulations in Circular 31 and Decree 86 as described in Note 4.6.

4.6 Debt classification and the rate and method of making allowance for credit losses

a. Debt classification

Before 1 July 2024

Debt classification for term deposits with and loans to other credit institutions, unlisted corporate bonds (including bonds issued by other CIs), loans to customers, entrusted loans, sold debts but uncollected and repurchased debts (collectively referred to as "debts") is made in accordance with the quantitative method as stipulated in Article 10 of Circular 11.

From 1 July 2024

Debt classification for term deposits with and loans to other credit institutions, unlisted corporate bonds (including bonds issued by other CIs), loans to customers, entrusted loans, sold debts but uncollected and repurchased debts (collectively referred to as "debts") is made in accordance with the quantitative method as stipulated in Article 10 of Circular 31. VIB carries out monthly debt classification based on the outstanding principals of debts at the last date of the month as follows:

Group		Overdue status
1	Current debts	(a) Current debts being assessed as fully and timely recoverable, both principal and interest; or (b) Debts being overdue for less than 10 days and being assessed as fully recoverable, both overdue principal and interest, and fully and timely recoverable, both remaining principal and interest.
2	Special mentioned debts	(a) Debts being overdue between 10 days and 90 days; or (b) Debts having terms of repayment rescheduled for the first time and are undue.
3	Sub-standard debts	(a) Debts being overdue between 91 days and 180 days; or (b) Debts having terms of repayment extended for the first time which is unmaturing; or (c) Debts having exempted or reduced interest because customers are not able to pay the interest according to the credit contract; or (d) Debts falling in one of the following cases not yet collected within 30 days since the issuance date of recovery decision: - Debts having violated regulations specified in Points 1, 3, 4, 5, 6 of Article 134 of Laws on Credit Institutions; or - Debts having violated regulations specified in Points 1, 2, 3, 4 of Article 135 of Laws on Credit Institutions; or - Debts having violated regulations specified in Points 1, 2, 5, 9 of Article 136 of Laws on Credit Institutions. (e) Debts in the collection process under inspection conclusions; or (f) Debts that need to be recovered under premature debt recovery decisions due to borrowers' breach of agreements with them, but are not yet recovered within a period of less than 30 days from the effective dates of recovery decisions.
4	Doubtful debts	(a) Debts being overdue between 181 days and 360 days; or (b) Debts having rescheduled terms of repayment for the first time and being overdue 90 days according to the first rescheduled terms of repayment; or (c) Debts having rescheduled terms of repayment for the second time which is unmaturing; or (d) Debts specified in point (d) of Sub-standard debts not yet collected between 30 days and 60 days since the issuance date of recovery decision; or (e) Debts in the collection process under inspection conclusions but being overdue up to 60 days according to recovery term; or (f) Debts that need to be recovered under premature debt recovery decisions due to borrowers' breach of agreements with them, but are not yet recovered in 30 and 60 days from the effective dates of recovery decisions.
5	Loss debts	(a) Debts being overdue more than 360 days; or (b) Debts having rescheduled terms of repayment for the first time and being overdue of 91 days or more according to the first rescheduled terms of repayment; or (c) Debts having rescheduled terms of repayment for the second time and being overdue according to the second reschedule terms of repayment; or (d) Debts having rescheduled terms of repayment for the third time or more, regardless of whether the debts are overdue or not; or (e) Debts specified in point (d) of Sub-standard debts not yet collected over 60 days since the issuance date of recovery decision; or (f) Debts in the collection process under inspection conclusions but being overdue of more than 60 days according to recovery term; or (g) Debts that need to be recovered under premature debt recovery decisions due to borrowers' breach of agreements with them, but are not yet recovered in more than 60 days from the effective dates of recovery decisions; or (h) Debts to credit institutions being announced under special supervision status by the SBV, or to foreign bank branches of which capital and assets are blockaded.

For off-balance sheet commitments, VIB classifies debts based on the overdue days from the date when VIB performs committed obligations:

- Group 3 - Sub-standard debts: overdue below 30 days;
- Group 4 - Doubtful debts: overdue from 30 days to less than 90 days;
- Group 5 - Loss debts: overdue from 90 days and above.

Bad debts are debts in Group 3, 4 and 5.

Where a customer owes more than one debts to VIB, and has any of its debts transferred to a higher risk group, VIB classifies the remaining debts of such customer into the group of debts with the highest level of risk.

When VIB participates in a syndicated loan, VIB classifies all debts (including the syndicated loan) of the customer into a higher risk group of debt as that classified and informed by the banks participating in a syndicated loan and the assessment of VIB itself.

VIB also uses the results of debt classification as provided by the Credit Information Center of the SBV ("CIC") at the date of classification to adjust the results of its internal classification of debts and off-balance sheet commitments. Where debts and off-balance sheet commitments of one customer are classified by VIB into a lower risk group of debts as compared to that informed by CIC, VIB reclassifies such debts and off-balance sheet commitments to the group of debts as informed by CIC.

Debt classification for loans having rescheduled debt repayment term, exempted or reduced interest and fees in order to support customers affected by Covid-19 pandemic

VIB has adopted Circular No. 01/2020/TT-NHNN dated 13 March 2020 ("Circular 01") issued by the SBV on providing regulations on restructuring of loan repayment periods, exemption/reduction of interest/fees and keeping loan groups unchanged to assist customers affected by the Covid-19 pandemic, Circular No. 03/2021/TT-NHNN dated 2 April 2021 ("Circular 03") issued by the SBV on amending and supplementing to some articles of Circular 01 and Circular No. 14/2021/TT-NHNN dated 7 September 2021 ("Circular 14") issued by the SBV on amending and supplementing to some articles of Circular 01. Accordingly, for debts:

- granted before 1 August 2021;
- incurred principal and/or interest during the period from 23 January 2020 to 30 June 2022;
- the outstanding debt may be rescheduled in the following cases: the outstanding debt is undue or up to 10 days overdue according to the loan agreement; debt repayment period according to the contract; or the outstanding debt is incurred before 23 January 2020 and becomes overdue during the period from 23 January 2020 to 29 March 2020; the outstanding debt is incurred from 23 January 2020 to before 10 June 2020 and becomes overdue before 17 May 2021; the outstanding debt is incurred from 10 June 2020 to before 1 August 2021 and becomes overdue during the period from 17 July 2021 to before 7 September 2021;

and the borrower is unable to repay the principal and/or interest on schedule under the loan agreement due to decrease in revenue or income caused by Covid-19 pandemic, VIB is allowed to reschedule loan repayment periods, grant exemption/reduction of interest/fees and loan groups as follow:

Debts	Debt classification
Incurring before 23 January 2020	Loan groups are kept unchanged from those classified at the most recent date prior to 23 January 2020.
Incurring from 23 January 2020 to 1 August 2021	<ul style="list-style-type: none"> - Loan groups are kept unchanged from those classified at the most recent date prior to the date of being restructured repayment term for the first time; or - Loan groups are kept unchanged from those classified at the most recent date prior to the date of being overdue; or - Loan groups are kept unchanged from those classified at the most recent date prior to the date of exemption/reduction of interest/fees for the first time.

From 1 January 2024, VIB carries out debt classification for the outstanding debts that are rescheduled, granted interest exemption, interest reduction or debt category retention prescribed by Circular 01, Circular 03 and Circular 14 in accordance with relevant regulations on the classification of assets in the operations of credit institutions.

Debt classification for loans having rescheduled debt repayment term and keeping loan groups unchanged in order to support customers in difficulties

VIB has adopted Circular No. 02/2023/TT-NHNN dated 23 April 2023 ("Circular 02") issued by the SBV on providing regulations on restructuring of loan repayment periods and keeping loan groups unchanged in order to support customers in difficulties and Circular No. 06/2024/TT-NHNN dated 23 April 2024 ("Circular 06") issued by the SBV on amending and supplementing to some articles of Circular 02. Accordingly, for debts:

- granted before 24 April 2023 and from lending and financial leasing activities;
- incurred principal and/or interest during the period from 24 April 2023 to 31 December 2024;
- with the outstanding debt balance being undue or up to 10 (ten) days overdue from the due date according to the contract/ agreement; the borrower is evaluated by VIB as being unable to repay the principal and/or interest on schedule under the signed loan contract, agreement due to decrease in revenue or income compared to that in the plan for payment of loan principals and/or interests under the contract or agreement; and evaluated by VIB as being able to pay off the loan principal and/or interest on the rescheduled due date;
- and not in violation of laws,

VIB is allowed to reschedule loan repayment periods and keeping loan groups unchanged as those at the most recent date to the reschedule date.

b. Specific allowance for credit losses

According to Circular 11 (before 1 July 2024) and Decree 86 (from 1 July 2024), VIB determines specific allowance for credit risks at the end of each month based on the allowance rates corresponding to debt classification results and loan principals balance less the discounted value of collateral assets at the end of the month. Specific allowance as at 31 December 2024 is determined based on the debt classification results and outstanding principals of debts at 31 December 2024. The rates of specific allowance for specific loan groups are as follows:

Loan group	Rates of specific allowance
1 – Current debts	0%
2 – Special mentioned debts	5%
3 – Sub-standard debts	20%
4 – Doubtful debts	50%
5 – Loss debts	100%

The maximum discounted value and rate of collateral assets is determined in accordance with regulations in Circular 11 (before 1 July 2024) and Decree 86 (from 1 July 2024) whereby each type of collateral assets has a certain maximum deduction rate for the purpose of calculating the risk allowance.

Additional specific allowance in accordance with Circular 03

VIB determines and records the additional specific allowance for the entire outstanding loan balance of customers monthly, including the loan balances with repayment period rescheduled, interest exempted or reduced according to the loan classifications in accordance with relevant regulations (if the regulations on keeping loan groups unchanged under the provisions of Circular 01, Circular 03 and Circular 14):

Additional allowance	Deadline
At least 30% of the total specific allowance amount required to be made	By 31 December 2021
At least 60% of the total specific allowance amount required to be made	By 31 December 2022
100% of the total specific allowance amount required to be made	By 31 December 2023

VIB has fully recorded the additional specific allowance according to the timeline stated above. From 1 January 2024, VIB has made specific allowance for the outstanding debts that are rescheduled, granted interest exemption, interest reduction or debt category retention prescribed by Circular 01, Circular 03 and Circular 14 in accordance with relevant regulations on establishing risk provisions from the operation of credit institutions.

Additional specific allowance in accordance with Circular 02

VIB also determines and records the additional specific allowance for the entire outstanding loan balance of customers with repayments and loan groups unchanged in accordance with Circular 02 and Circular 06 as follows:

Additional allowance	Deadline
At least 50% of the total specific allowance amount required to be made	By 31 December 2023
100% of the total specific allowance amount required to be made	By 31 December 2024

VIB has made full of the additional specific allowance according to the timeline stated above.

c. General allowance for credit risks

According to Circular 11 (before 1 July 2024) and Decree 86 (from 1 July 2024), general allowance is also required at the rate of 0.75% of total balance of debts at the end of the month, except for the balances with and loans to other credit institutions, bonds issued by other CIs and the loans classified into the loss group. General allowance as at 31 December 2024 is calculated based on debt classification and outstanding principals of debts at 31 December 2024.

d. Write-off of bad debts

According to Circular 11 (before 1 July 2024) and Decree 86 (from 1 July 2024), loans to customers are written off against the allowance when loans to customers have been classified to Group 5 or when borrowers have been declared bankrupt or dissolved (for borrowers being organisations and enterprises) or borrowers are deceased or missing (for borrowers being individuals).

Debts written-off against allowance are recorded as off-balance sheet items for following up and collection. The amounts collected from the debts previously written-off are recognised in the consolidated statement of income upon receipt.

e. Classification and allowance for off-balance sheet commitments

According to Circular 31 and Decree 86, the classification of off-balance sheet credit commitments is conducted solely for risk management, credit quality supervision of credit granting activities. VIB did not make allowance for off-balance sheet credit commitments, except where VIB has been required to made payment under the guarantee contract, in which case the payment on behalf is classified and allowance is made for in accordance with the accounting policy as described in Note 4.6.

4.7 Debt purchases

a. Debt purchases

Debts purchased are stated at contractual purchase price on consolidated statement of financial position and recorded off-balance sheet at their principal plus pre-acquisition interest. Interest income is recognised in the consolidated statement of income on an accrual basis except for debt purchases classified from Group 2 to Group 5 as described in Note 4.6. The interest arising before VIB purchases the debts which is deducted from the purchase price.

b. Allowance for debt purchases

Purchased debts are classified in the debt groups which are not lower than those classified by the seller before purchase according to Decree 86 and allowance is made for them as described in Note 4.6.

4.8 Investment securities

a. Classification

Investment securities include available-for-sale investment securities and held-to-maturity investment securities. VIB classifies investment securities at the date of acquisition as available-for-sale investment securities and held-to-maturity investment securities. According to Official Letter No. 2601/NHNN-TCKT dated 14 April 2009 of the SBV, VIB is allowed to reclassify investment securities for once at maximum after initial classification at the date of acquisition

b. Recognition

VIB recognises investment securities on the date when it becomes a party to the contractual provision of these securities (trade date accounting).

c. Measurement

Debts securities

Available-for-sale debt securities and held-to-maturity debt securities are initially recorded at cost, including purchase cost plus directly attributable costs such as brokerage and transaction fees, information fees, taxes, levies and bank charges (if any). They are subsequently recognised at amortised cost (affected by premium/discount amortisation) less allowance for diminution in value (including allowance for credit risks and allowance for diminution in the value of securities). Premium and discounts arising from purchases of debt securities are amortised to the consolidated statement of income on a straight-line basis over the period from acquisition date to maturity date.

Available-for-sale debt securities, excluding government bonds, government-guaranteed bonds, and local government bonds are measured at cost less allowance for diminution in value which is determined by reference to latest transaction price at Stock Exchange within 10 days up to the end of the annual accounting period. Where there is no transaction within 10 days up to the end of the annual accounting period, VIB shall not provide allowance for such debt securities.

Available-for-sale debt securities and held-to-maturity debt securities of unlisted corporate bonds are recognised at cost less allowance for credit risks according to Circular 31 and Decree 86 as described in Note 4.6.

Interest income after purchase of available-for-sale debt securities and held-to-maturity debt securities is recognised in the consolidated statement of income on an accrual basis. Interest accrued before VIB purchases will be deducted from the original price of debt securities when received.

The allowance for investment securities mentioned above is reversed if the price or recoverable value of the securities subsequently increases after the allowance was recognized. An allowance is reversed only to the

extent that the securities' carrying amount does not exceed the carrying amount that has been determined if no allowance had been recognized.

4.9 Long-term investments

a. Other long-term investments

Other long-term investments are investments in the equity of other companies without having control or significant influence. These long-term investments are initially recognised at cost at the date of acquisition, and subsequently stated at cost less allowance for diminution in the value of investments.

b. Allowance for diminution in value of long-term investments

Allowance for diminution in value of other long-term investments is made if the investee has suffered a loss which may cause VIB to lose their invested capital, unless there is evidence that the value of the investment has not been diminished. Allowance for diminution in value is determined as the total actual contributed capital of parties to the investee less (-) the actual owner's equity multiplied (x) by VIB's ownership percentage in the investee.

The allowance is reversed if the recoverable amounts are subsequently increased after the allowance was recognised. An allowance is reversed only to the extent that the investment's carrying amount does not exceed the carrying amount that has been determined if no allowance had been recognised.

4.10 Tangible fixed assets

a. Cost

Tangible fixed assets are stated at cost less accumulated depreciation. The initial cost of a tangible fixed asset comprises its purchase price, including import duties and non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditure incurred after the tangible fixed assets have been put into operation, such as repairs and maintenance and overhaul costs, is normally charged to the consolidated statement of income during the year in which the costs are incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of an item of tangible fixed assets beyond its originally assessed standard of performance, the expenditure is capitalised as an additional cost of tangible fixed assets.

b. Depreciation

Depreciation is computed on a straight-line basis over the estimated useful lives of tangible fixed assets. The estimated useful lives are as follows:

- Buildings and structures	5 - 25 years
- Machinery and equipment	3 - 10 years
- Means of transportation	6 - 8 years
- Office equipment	3 - 10 years
- Others	3 - 8 years

4.11 Intangible fixed assets

a. Software

The cost of acquiring new software, which is not an integral part of the related hardware, is capitalised and treated as an intangible asset. Software costs are amortised on a straight-line basis ranging from 3 to 8 years.

b. Other intangible fixed assets

Other intangible fixed assets are stated at cost less accumulated amortisation. Amortisation is computed on a straight-line basis over 3 to 8 years.

4.12 Investment property

a. Cost

Investment property held to earn rental is stated at cost less accumulated depreciation. The initial cost of an investment property held to earn rental comprises its purchase price, cost of land use rights and any directly attributable expenditures of bringing the property to the condition necessary for it to be capable of operating in the manner intended by the Board of Management. Expenditure incurred after the investment property held to earn rental has been put into operation, such as repairs and maintenance, is charged to the statement of income in the period in which the expenditure is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in future economic benefits in excess of the originally assessed standard of performance of the existing investment property held to earn rental, the expenditure is capitalised as an additional cost of the investment property.

b. Depreciation

Depreciation is computed on a straight-line basis over the estimated useful lives of investment properties. The estimated useful lives are as follows:

- Buildings	<u>5 - 50 years</u>
-------------	---------------------

4.13 Other assets

a. Construction in progress

Construction in progress represents the costs of purchasing, constructing fixed assets and upgrading of software which have not been fully completed. No depreciation is provided for construction during the period of constructing or upgrading.

b. Foreclosed assets

Foreclosed assets are those of which the ownership was transferred to VIB and awaiting for settlement. For foreclosed assets of which the ownership has not been transferred to VIB, VIB records as off-balance sheet items.

c. Receivables from trade finance activities

Receivables from trade finance activities represent other assets exposing to credit risk and are stated at cost less allowance for credit losses, if any. VIB classifies and makes allowance for these receivables in accordance with the accounting policy as described in Note 4.6.

d. Other assets

Other assets, except receivables from credit activities, are stated at cost less allowances for other on-balance sheet assets.

Allowance for losses of assets are made based on the overdue status of debts or expected losses may occur in case undue debt but an economic organisation is bankrupted or liquidated; or debtor is missing, running away, being prosecuted, in prison, under a trial or pending execution of sentences or deceased. The allowance expenses are recorded as operating expenses during the year.

For other assets that are overdue debts, VIB makes allowance for losses using the allowance rates that are applied for overdue status as follows:

<u>Overdue period</u>	<u>Allowance rate</u>
- From more than six (06) months up to less than one (01) year	30%
- From one (01) year up to less than two (02) years	50%
- From two (02) years up to less than three (03) years	70%
- Three (03) years or more	<u>100%</u>

Allowance for losses on other assets are made for undue debts is the expected losses determined by VIB after considering to the recovery of these debts.

4.14 Other provision

A provision is recognised if, as a result of a past event, VIB has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provision is determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liabilities.

4.15 Derivative financial instruments

a. Currency forward and swap contracts

VIB involves in currency forward contracts and currency swap contracts to facilitate customers to transfer, adjust or reduce foreign exchange risks and other market risks, and also for the business purposes of VIB.

Currency forward contracts are commitments to pay in cash on a future date based on pre-determined difference between exchange rates, calculated on a nominal original amount. The currency forwards contracts are recorded at nominal value at the transaction date and are revalued at effective exchange rate at the reporting date and are stated at net value in the consolidated statement of financial position. Differences upon revaluation at the end of the period are recognised in the "Foreign exchange differences" account in the consolidated statement of financial position each month and are transferred to the consolidated statement of income at the end of the annual accounting period or upon maturity. Differences between the amounts in VND of the foreign currency amounts which are committed to buy/sell at forward rate of contract and spot rate on the transaction date are recognised in the consolidated statement of income on a straight-line basis over the term of the contracts.

The currency swap contracts are commitments to buy or sell the same amount of foreign currency (only two currencies are used in the transaction) with the same partner, in which there is a transaction with the spot payment term and a transaction with a payment period determined in the future and the rate of the two transactions is determined at the time of determination of spot transaction. Premiums/discounts arising from the difference of the spot exchange rate at the effective date of the contracts and the forward exchange rate will be recognised immediately on the effective date of the contracts as an asset if they are positive or as a liability if they are negative in the consolidated statement of financial position. This difference is amortised to the consolidated statement of income on a straight-line basis over the term of the swap contracts.

b. Interest rate swap contracts

Interest swap contracts are commitments to settle the interest amount based on floating or fixed interest rates over the notional principal amounts. The contract value in basic interest rate swaps of the same currency is not recognised in the consolidated statement of financial position. For two-currency-interest-rate swap contracts with nominal principal swap, the contract value is recognized in the consolidated statement of financial position. Income earned and expenses incurred are recognised in the consolidated statement of income on an accrual basis.

4.16 Deposits and loans from other credit institutions

Deposits and loans from other credit institutions are stated at their cost.

4.17 Deposits from customers

Deposits from customers are stated at their cost.

4.18 Entrustment and entrusted funds

Entrusted funds received by VIB that suffer risks are donations, entrusted investments, entrusted loans to be used for predetermined purposes. VIB is responsible for repayment of such funds when they are due. VIB

recognises the funds received as donation or entrusted investment at cost, and recognises the investments and loans in the consolidated financial position of VIB.

4.19 Valuable papers issued

Valuable papers issued are recorded at cost less amortized premiums and discounts. Costs of valuable papers issued include the proceeds from issuance minus directly attributable expenses from issuance.

4.20 Other payables

Other payables are stated at their cost.

4.21 Severance allowance

Under the Vietnamese Labour Code, when an employee who has work for VIB for 12 months or more ("the eligible employees") voluntarily terminates his/her labour contract, the employer is required to pay the eligible employee severance allowance calculated based on years of service and employee's compensation at termination. Before 2012, provision for severance allowance has been provided based on employees' years of service and their average salary for the six-month period prior to the end of the annual accounting period. For the purpose of determining the number of years of service by an employee, the period for which the employee participated in and contributed to unemployment insurance in accordance with prevailing laws and regulations and the period for which severance allowance has been paid by VIB are excluded.

On 24 October 2012, the Ministry of Finance issued Circular No. 180/2012/TT-BTC ("Circular 180") guiding the financial handling of unemployment allowance for employees at enterprises. This Circular stipulates that when preparing the 2012 financial statements, if the enterprise's unemployment fund remains balance, the enterprise must record other income increases in 2012 and must not transfer the balance to use the fund next year. Accordingly, VIB has reversed the balance of the severance allowance provision. This change in accounting policy has been applied prospectively since 2012.

Pursuant to Law on Social Insurance, effective from 1 January 2009 VIB and its employees are required to contribute to an unemployment insurance fund managed by the Vietnam Social Insurance Agency. The unemployment insurance paid by VIB for the employee's working time is recorded as an expense in the consolidated statement of income when incurred. With the implementation of the unemployment insurance scheme, VIB is no longer required to provide severance allowance for the service period after 1 January 2009. However, severance allowance to be paid to the existing eligible employees at the end of the period will be determined based on the eligible employees' years of service to 31 December 2008 and their average salary for the six-month period prior to the termination date.

4.22 Share capital

a. Ordinary shares

Ordinary shares are classified as equity and recognised at par value. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from share premium in equity.

b. Share premium

On receipt of proceeds from share issuance from shareholders, the difference between the issue price and the par value of the shares, if any, is recorded in share premium account in equity.

c. Treasury shares

Treasury shares are recognised only in respect of repurchased shares which are aggregated fractions of share arising when the company issues shares to pay dividends or issues shares from equity reserves in accordance with an approved issuance plan, or repurchased fractional-lots of shares as requested by the shareholders. Odd shares represent the share capital formed by combining the fractional shares divided proportionally to investors. In all other cases, when shares recognised as equity are repurchased, their par value amount is

recognised as a reduction to share capital. The difference between the par value and the amount of the consideration paid, which includes directly attributable costs, net of tax effects, is included in share premium.

4.23 Reserves and funds

a. Reserves and funds of the Bank

According to Decree No. 93/2017/ND-CP dated 7 August 2017 issued by the Government of Vietnam providing regulations on the financial regime applicable to credit institutions, the Bank is required to make the following reserves before distribution of profits:

	<u>Annual allocation</u>	<u>Maximum balance</u>
Reserve to supplement charter capital	5% of profit after tax (before consolidation)	100% of share capital
Financial reserve	10% of profit after tax (before consolidation)	Not stipulated

The purpose of financial reserve is to cover the remaining losses to property that occurred in the course of business after such losses being compensated by the organisations, individuals causing the loss, indemnity and allowance; and to use for other purposes in accordance with the laws. The statutory reserves are non-distributable and are classified as part of equity.

Other equity funds are allocated from profit after tax. The allocation from profit after tax and the use of these funds and reserves must be approved by the Bank's General Meeting of Shareholders.

b. Reserves and funds of the subsidiary

According to Circular No. 27/2002/TT-BTC dated 22 March 2002 of the Ministry of Finance, Vietnam International Commercial Joint Stock Bank – Asset Management Company Limited is required to provide the reserves and funds in a similar way to the Bank's.

4.24 Bonus and welfare fund

Bonus and welfare fund is allocated from profit after tax in accordance with the resolution of the Annual General Meeting and is used primarily to make payments to the VIB's employees.

4.25 Revenue

a. Interest income

Interest income is recognised in the consolidated statement of income on an accrual basis, except for interest on loans classified in Group 2 to Group 5 described in Note 4.6 and debts kept unchanged in Group 1 as a result of adoption of Circular 01, Circular 03, Circular 14, Circular 02 and Circular 06 as described in Note 4.6 which is recognised upon receipt. When loans are classified in Group 2 to Group 5 as described in Note 4.6 or kept unchanged in Group 1 as a result of adoption of Circular 01, Circular 03, Circular 14, Circular 02 and Circular 06 as described in Note 4.6, interest receivable will be derecognised and recorded as off-balance sheet items. Interest on these loans are recognised in the consolidated statement of income upon receipt.

b. Fee and commission income

Fees and commission income are recognised in the consolidated statement of income upon completion of the services rendered.

c. Income from investing activities

Income from securities trading is recognised in the consolidated statement of income upon VIB receipt of the order matching notice from Vietnam Securities Depository and Clearing Corporation (formerly Vietnam Securities Depository) (for listed securities) and completion of the assets transfer agreement (for unlisted securities) and is determined based on the differences between selling price and weighted average cost of securities sold.

Dividends receivable in cash is recognised in the consolidated statement of income when VIB's right to receive payment is established. Dividends received in the form of shares, bonus shares and rights to purchase shares given to existing shareholders are not recognised as an increase in investment and such dividend income is not recognised in the consolidated statement of income. When share dividends are received, VIB only recognise an increase in the number of shares in the notes to the consolidated financial statements. Dividends received which are attributable to the period before acquisition date are deducted against the carrying amount of the investment.

4.26 Interest expenses

Interest expenses are recognised in the consolidated statement of income on an accrual basis.

4.27 Fee and commission expenses

Fee and commission expenses are recognised in the consolidated statement of income when these expenses are incurred.

4.28 Operating lease payments

Payments made under operating leases are recognised in the consolidated statement of income on a straight-line basis over the term of the lease. Lease incentives received are recognised in the consolidated statement of income as an integral part of the total lease expense, over the term of the lease.

4.29 Taxation

Income tax on the profit for the year comprises current and deferred tax. Income tax is recognised in the consolidated statement of income except to the extent that it relates to items recognised directly to equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted at the end of the annual accounting period, and any adjustment to tax payable in respect of previous year.

Deferred tax is provided using the statement of financial position method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amounts of assets and liabilities using the tax rates enacted or substantively enacted at the end of the annual accounting period.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

4.30 Related parties

Parties are considered to be related to VIB if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions, or where VIB and the other party are subject to common control or significant influence. Related parties may be individuals or corporate entities and include close family members of any individual considered to be a related party.

4.31 **Segment reporting**

A segment means a Bank's individually identifiable component involved in the supply of related products or services (segmented by business), or the provision of products or services in a particular economic environment (segment divided by geographic area), each of these sectors bears different risks and benefits from the others. VIB's primary template for segment reporting is disaggregated by geographic area. VIB's secondary template for segment reporting is disaggregated by business sector. Currently, VIB has a banking business that includes regular trading and provision of the following operations: receiving deposits, granting credit, providing payment services via accounts and other commercial banking activities. Accordingly, the Board of Management assessed that VIB has only one business segment, commercial banking operations, and VIB's risks and profitability ratios are represented in this single business line. Therefore, VIB is not required to present segment reports in detail by business category.

4.32 **Earnings per share**

VIB presents basic earnings per share ("EPS") for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to the ordinary shareholders of VIB (after deducting the amount allocated to the bonus and welfare fund for the annual accounting period) by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit or loss attributable to the ordinary shareholders and the weighted average number of ordinary shares outstanding for the effect of all dilutive potential ordinary shares, which comprise convertible bonds and share options. During the year, VIB had no potential ordinary shares and therefore does not present diluted EPS.

4.33 **Commitments and contingent liabilities**

At any point of time, VIB has outstanding credit commitments. These commitments are approved and unutilised loans and overdraft facilities. VIB also provides financial guarantees and letters of credit to guarantee the performance of customers to third parties. Many of the contingent liabilities and commitments will expire without any advanced payment, in whole or in part. Therefore, these commitments and contingent liabilities do not represent expected future cash flows.

4.34 **Nil balances**

Items or balances required by Circular No. 49/2014/TT-NHNN issued by the SBV on 31 December 2014 ("Circular 49") and Circular No. 27/2021/TT-NHNN issued by the SBV on 31 December 2021 on amending chart of accounts of credit institutions enclosed with Decision No. 479/2004/QĐ-NHNN dated 29 April 2004 and regulations on financial statement of credit institutions enclosed with Decision No. 16/2007/QĐ-NHNN dated 18 April 2007 of Governor of State Bank of Vietnam that are not describe in these consolidated financial statements indicate nil balances.

4.35 **Financial instruments**

Solely for the purpose of providing disclosures about the significance of financial instruments to VIB's financial position and results of operations and the nature and extent of risk arising from financial instruments, VIB classifies its financial instruments as follows:

a. Financial assets

Financial assets at fair value through profit or loss

A financial asset at fair value through profit or loss is a financial asset that meets either of the following conditions:

- It is considered as held for trading. A financial asset is classified as held for trading if:
 - it is acquired principally for the purpose of selling it in the near term;
 - there is evidence of a recent pattern of short-term profit-taking; or
 - a derivative (except for a derivative that is financial guarantee contract or a designated and effective hedging instrument).
- Upon initial recognition, it is designated by VIB as financial assets at fair value through profit or loss.

Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and a fixed maturity that VIB has the positive intention and ability to hold to maturity, other than:

- financial assets that, upon initial recognition, were categorised by VIB as financial assets at fair value through profit or loss;
- financial assets already categorised by VIB as assets that available for sale; or
- financial assets that meet the definitions of loans and receivables.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market, other than those:

- that VIB intends to sell immediately or in the near term, which are classified as held for trading, and those that the entity on initial recognition designates as financial assets at fair value through profit or loss;
- that VIB, upon initial recognition, designates as available-for-sale; or
- for which VIB may not recover substantially all of its initial investment, other than because of credit deterioration, which are classified as assets available-for-sale.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are designated as available for sale or are not classified as:

- financial assets at fair value through profit or loss;
- held-to-maturity investments; or
- loans and receivables.

b. Financial liabilities

Financial liabilities at fair value through profit or loss

A financial liability at fair value through profit or loss is a financial liability that meets either of the following conditions:

- It is considered by management as held for trading. Financial liability is classified as held for trading if:
 - it is incurred principally for the purpose of repurchasing it in the near term;
 - there is evidence of a recent pattern of short-term profit-taking; or
 - a derivative (except for a derivative that is financial guarantee contract or a designated and effective hedging instrument).
- Upon initial recognition, it is designated by VIB as financial liabilities at fair value through profit or loss.

Financial liabilities carried at amortised cost

Financial liabilities which are not classified as financial liabilities at fair value through profit or loss are classified as financial liabilities carried at amortised cost.

The above described classification of financial instruments is solely for presentation and disclosure purpose and is not intended to be a description of how the financial instruments are measured. Accounting policies for measurement of financial instruments are disclosed in other relevant notes.

4.36 Comparative information

Comparative information in these consolidated financial statements is presented as corresponding figures. Under this method, comparative information for the prior period are included as an integral part of the current period financial statements and are intended to be read only in relation to the amounts and other disclosures relating to the current period. Accordingly, the comparative information included in these consolidated financial statements is not intended to present VIB's financial position, results of operation or cash flows for the prior period.

46. Financial risk management

46.1 Risk management policies related to financial instruments

VIB has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

This note presents information about VIB's exposure to each of the above risks, VIB's objectives, policies and processes for measuring and managing risk, and VIB's management of capital.

Risk management framework

On the basis of the proposal of the Risk Committee, the Board of Directors ("the Board") monitors the Chief Executive Officer in developing and implementing risk management policies, and dealing with limitations on risk management according to the requirements and recommendations of SBV, independent auditing organisations and other Government entities.

The Chief Executive Officer monitors individuals and departments based on the proposal of the Credit Risk Handling Committee, the Asset Liability Committee (ALCO) and the Capital Management Council in developing and implementing policies, risk management regulations and procedures of VIB in each management field.

VIB's risk management policies are established to identify and analyse the risks faced by VIB, to set appropriate risk limits and controls and to monitor risks and adhere to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions, products and services offered. VIB, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment, in which all employees understand their roles and obligations.

46.2 Credit risk

VIB is subject to credit risk through its lending, investing activities and in cases where it acts as an intermediary on behalf of customers or other third parties or issues guarantees. The risk that counterparties might default on their obligations is monitored on an ongoing basis. VIB's primary exposure to credit risk arises through its loans. The amount of credit exposure in this regard is represented by the carrying amounts of the assets on the consolidated statement of financial position. In addition, VIB is exposed to off-balance sheet credit risk through commitments to extend credit and guarantees issued.

VIB has maintained an appropriate risk management policy to ensure these following basic principles:

- Establish appropriate risk management environment;
- Operate under healthy credit granting procedure;
- Maintain appropriate credit managing, measuring, supervising procedure; and
- Ensure adequate control on credit risk.

Depending on the level of risk, VIB conducts credit approval through the individual level at the Business Unit, the Risk Management Division and the Credit Committee to ensure a loan is reviewed objectively, independently and compliantly. The granting of personal authority at the Business Unit is reviewed and adjusted periodically by VIB.

As at 31 December 2024, non-performing loan ratio according to debt status of customers at VIB 2.44% (as at 31 December 2023: 2.20%). Details on classification quality of credit risk assets at VIB are as follows:

46.3 Market risk

a. Interest risk

Interest rate risk is the risk arises when there is a difference of term in repricing of interest rate between assets and liabilities. All loan activities, mobilisation activities, investment activities of VIB create interest rate risk.

The interest rate re-pricing term of fixed interest rate items is the remaining period from the date of the financial statements to the maturity date, and of variable interest rate items is the remaining period to the nearest interest rate re-pricing date.

The following assumptions and conditions have been adopted in the analysis of interest rate re-pricing term of VIB's assets and liabilities:

- Cash on hand, long-term investments and other assets (including fixed assets, investment properties and other assets) are classified as non interest-bearing items;
- Balances with the SBV are classified as current deposits, for non-interest-paying deposits classified as free-of items, for interest-paid deposits classified into less-than-one-month items;
- The interest rate re-pricing term of investment securities is determined based on contractual interest rate re-pricing term of each security;
- The interest rate re-pricing term of deposits with and loans to other CIs; loans to customers; amounts due to the Government and SBV; deposits and borrowings from other CIs; deposits from customers are determined as follows:
 - Items with fixed interest rate during the contractual term: the effective interest re-pricing term is determined based on the maturity date from the end of accounting period;
 - Items with floating interest rate: the effective interest re-pricing term is determined based on the time to the nearest interest rate re-pricing date from the end of accounting period.
- The interest re-pricing term of other liabilities is arranged based on the maturity date from the end of annual accounting period of each item.

Sensitivity to interest rate

The following table estimates the sensitivity of profit before tax of VIB assuming it's increased in lending and funding interest. On the contrary, decrease in lending and funding interest would have the equal but opposite effect to the profit before tax of VIB.

As at 31 December 2024

b. Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Bank and its subsidiary was incorporated and operate in Vietnam with VND as their reporting currency. The major currency in which the Bank and its subsidiary transacts is VND. VIB's asset - liabilities structure included different types of currencies (such as USD, EUR, AUD, etc.), which is the main cause of currency risk. VIB has set limits on positions by currency based on internal risk assessment process and regulations of SBV. Currency positions are monitored on a daily basis and hedging strategies used to ensure positions are maintained within established limits.

Sensitivity to exchange rate

Below is an analysis of the possible impact on profit before tax and equity of VIB for the year ended 31 December 2024 and for the year ended 31 December 2023. This analysis assumes that all other variables, in particular interest rates, remain constant.

	Effect on profit before tax – increase/(decrease) in profit VND million	Effect on owners' equity – increase/(decrease) in equity VND million
Year ended 31 December 2024		
VND depreciates 2.0% against USD	13,979	11,183
VND appreciates 2.0% against USD	(13,979)	(11,183)
Year ended 31 December 2023		
VND depreciates 2.0% against USD	(34,121)	(27,297)
VND appreciates 2.0% against USD	34,121	27,297

c. Liquidity risk

Liquidity risk is the risk that results to VIB's losses and/or failing to meet its payment obligation when VIB cannot mobilise sufficient liquid capital at appropriate costs and/or cannot sell assets at fair value and/or VIB has to mobilise funds at high costs to meet its payment obligations at a point of time. Liquidity risk arises due to: un-matching of maturity terms of assets and maturity terms of liabilities, the sensitivity of financial assets to changes in interest rates that leads VIB unable to meet its payment obligation.

The maturity term of assets and liabilities represents the remaining period from the end of annual accounting period to the maturity date agreed in the contracts or in terms of issuance.

The following assumptions and conditions are applied in the analysis of overdue status of VIB's assets and liabilities on consolidated statement of financial position:

- Balances with the SBV are classified as demand deposits which include compulsory reserve. The balance of compulsory reserve depends on the proportion and terms of VIB's customer deposits.
- The maturities of deposits at and loans to other CIs and loans to customers are based on the contractual repayment date of deposit contracts or loan contracts. The actual maturity may vary from contractual term when the contract is extended.
- The maturity term of investment securities is calculated based on the maturity date of each kind of securities.
- The maturity term of equity investments is considered more than 5 years because these investments do not have specific maturity date.
- The maturity term of fixed assets do not have specific maturity date.
- The maturity term of other assets is determined based on the actual maturity of each category of asset.
- The maturity term of deposits and borrowings from other CIs; and customer's deposits is determined based on features of these items or the maturity date as stipulated in contracts. Demand deposits are transacted as required by customers, and therefore, being classified as current accounts. The maturity term of borrowings and term deposits is determined based on the maturity date in contracts. In fact, these amounts may be rotated, and therefore, may last beyond the original maturity date.
- The maturity term of other borrowed and entrusted funds that VIB bears risks is determined based on the actual maturity from the consolidated statement of financial position date of each contract.
- The maturity term of valuable papers issued is determined based on the actual maturity of each category of valuable paper.
- The maturity term of other liabilities is determined based on the actual maturity date of each liability.

The table below shows the analysis of assets and liabilities of VIB by terms of maturity based on the remaining period from the end of the annual accounting period to the maturity date. In fact, the settlement date of assets and liabilities could be different according to separate agreements or amendments to contracts if any.
