APEC INVESTMENT JOINT STOCK COMPANY
STATEMENT OF THE BOARD OF MANAGEMENT (cont.)

Responsibilities of the Board of Directors

The Board of Directors is responsible for the preparation of the Consolidated Financial Statements to give a true and fair view on the consolidated financial position, the consolidated business results and the consolidated cash flows of the Group during the year. In order to prepare these Consolidated Financial Statements, the Board of Directors must:

- select appropriate accounting policies and apply them consistently;
- make judgments and estimates prudently;
- state clearly whether the accounting standards applied to the Group are followed or not, and all the material differences from these standards are disclosed and explained in the Consolidated Financial Statements;
- prepare the Consolidated Financial Statements of the Group on the going-concern basis, except for the cases that the going-concern assumption is considered inappropriate;
- design and implement effectively the internal control system in order to ensure that the preparation and presentation of the Consolidated Financial Statements are free from material misstatements due to frauds or errors.

The Board of Directors hereby ensures that all the accounting books of the Group have been fully recorded and can fairly reflect the financial position of the Group at any time, and that all the accounting books have been prepared in compliance with the applicable Accounting System. The Board of Directors is also responsible for managing the Group's assets and consequently has taken appropriate measures to prevent and detect frauds and other irregularities.

The Board of Directors hereby commits to the compliance with the aforementioned requirements in preparation of the Consolidated Financial Statements.

Approval on the Financial Statements

The Board of Management hereby approves the accompanying Consolidated Financial Statements, which give a true and fair view of the consolidated financial position as of 31 December 2024, the consolidated financial performance and the consolidated cash flows for the fiscal year then ended of the Group in conformity with the Vietnamese Accounting Standards and System and other legal regulations related to the preparation and presentation of Consolidated Financial Statements.

For and on behalf of the Board of Management,
General Director

Nguyen Phuong Dung

CONSOLIDATED FINANCIAL STATEMENTS

For Quarter IV of 2024

Notes to the Consolidated Financial Statements (cont.)

II. FISCAL YEAR AND ACCOUNTING CURRENCY

1. Fiscal year

The fiscal year of the Group is from 1 January to 31 December annually.

2. Accounting currency unit

The accounting currency unit is VND because payments and receipts of the Group are primarily made in VND.

III. ACCOUNTING STANDARDS AND SYSTEM

1. Accounting System

The Group applies the Vietnamese Accounting Standards and System issued together with the Circular No. 200/2014/TT-BTC dated 22 December 2014 on guidelines for accounting policies for enterprises, the Circular No. 202/2014/TT-BTC dated 22 December 2014, the Circular No. 53/2016/TT-BTC dated 21 March 2016 giving guidance on the preparation and presentation of Consolidated Financial Statements and other Circulars giving guidance on the implementation of accounting standards of the Ministry of Finance in the preparation and presentation of Consolidated Financial Statements.

2. Statement on the compliance with the Accounting Standards and System

The Board of Directors ensures to follow all the requirements of the Vietnamese Accounting Standards and System issued together with the Circular No. 200/2014/TT-BTC dated 22 December 2014, the Circular No. 53/2016/TT-BTC dated 21 March 2016 and the Circular No. 202/2014/TT-BTC dated 22 December 2014 as well as the Circulars giving guidance on the implementation of accounting standards and system of the Ministry of Finance in the preparation and presentation of Consolidated Financial Statements.

IV. ACCOUNTING POLICIES

1. Accounting convention

All the Consolidated Financial Statements are prepared on the accrual basis (except for the information related to cash flows).

2. Consolidation basis

The Consolidated Financial Statements include the Financial Statements of the Holding Company and the Financial Statements of its subsidiaries. A subsidiary is a business that is controlled by the Holding Company. The control exists when the Holding Company has the power to directly or indirectly govern the financial and operating policies of the subsidiary to obtain economic benefits from its activities. In determining the control power, the potential voting right that is currently valid or will be transferred should also be taken into consideration as of the balance sheet date.

The business results of the subsidiaries which are acquired or disposed during the year are included in the consolidated income statement from the date of acquisition until the date of disposal of the investments in those subsidiaries.

The Financial Statements of the Holding Company and subsidiaries used for consolidation are prepared for the same accounting period and apply the consistent accounting policies for similar transactions and events in similar circumstances. In case that the accounting policies of the subsidiaries are different from those which are applied consistently within the Group, the

APEC INVESTMENT JOINT STOCK COMPANY

Address: Floor 3, Grand Plaza Building, No. 117 Tran Duy Hung, Trung Hoa Ward, Cau Giay District, Hanoi City

CONSOLIDATED FINANCIAL STATEMENTS

For Quarter IV of 2024

Notes to the Consolidated Financial Statements (cont.)

appropriate adjustments should be made to the Financial Statements of the subsidiaries before they are used to prepare the Consolidated Financial Statements.

Intra-group balances in the balance sheet and intra-group transactions and unrealized intra-group profits resulting from these transactions are eliminated when the Consolidated Financial Statements are prepared. Unrealized losses resulting from intra-group transactions are also eliminated unless costs which cause those losses cannot be recovered.

Interest of non-controlling shareholders shows gains/losses on the business results and net assets of a subsidiary which is not held by of the Group and is presented in a specific item in the Consolidated Income Statement and the Consolidated Balance Sheet (the owner's equity). Interest of non-controlling shareholders includes value of non-controlling minority interest as of the initial business consolidation date and that in the fluctuation of owner's equity commencing from the business consolidation date. Losses arising in subsidiaries are allocated equivalent to the ownership rate of non-controlling shareholders, even if those losses are higher than the ownership rate of non-controlling shareholders in net assets of subsidiaries.

3. Cash and cash equivalents

Cash includes cash on hand and demand deposits. Cash equivalents are short-term investments of which the due dates cannot exceed 3 months from the dates of the investments and the convertibility into cash is easy, and which do not have a lot of risks in the conversion into cash as of the balance sheet date.

4. Financial investments

Trading securities

Investments classified as trading securities are those held by the Group for the trading purpose with the aim of making profit.

Trading securities are recognized at original costs which include fair value of the payments made at the time of the transaction plus other costs attributable transaction costs.

The time of recognizing trading securities is when the Group acquires the ownership, as follows:

- For listed securities: recognized at the time of order-matching (T+0).
- For unlisted securities: recognized at the time of acquiring official ownership as stipulated by law.

Interest, dividends, and profit of the periods prior to the acquisition of trading securities are recorded as a decrease in the value of such securities. Interest, dividends and profit of the periods after the acquisition of such securities are recorded in the Group's revenue. Particularly, the dividends paid in form of shares are not recorded as an increase in value, but the increasing quantity is followed up.

Provision for devaluation of trading securities is made for each particular type of securities in the market of which the fair value is lower than original costs. The fair value of trading securities is determined as follows:

- For securities listed on the stock market: the closing price at the latest date of transaction to the balance sheet date.
- For shares registered for transactions on the transaction market of the unlisted public companies and the state-owned enterprises equitized under the form of selling stocks to the public (UPCom): the average reference price in the last 30 consecutive transaction days before the balance sheet date disclosed by the Stock Exchange.
- For shares listed on the stock market or shares of joint stock companies registered for trading on UPCom market which have no transaction within 30 days prior to the date of provision

APEC INVESTMENT JOINT STOCK COMPANY

Address: Floor 3, Grand Plaza Building, No. 117 Tran Duy Hung, Trung Hoa Ward, Cau Giay District, Hanoi City

CONSOLIDATED FINANCIAL STATEMENTS

For Quarter IV of 2024

Notes to the Consolidated Financial Statements (cont.)

extraction, listed shares which have been delisted, suspended or stopped from trading; provision is made based on the loss of the invested Group equal to the difference between the actual investment capital of the owners and the owner's equity as of the balance sheet date multiplied by the Group's ownership rate of charter capital to the total charter capital actually contributed.

Increases/ (decreases) in the provision for devaluation of trading securities are recorded into "Financial expenses" during the year.

Gain on or loss from transfer of trading securities is recognized into financial income or financial expenses. Original costs are determined in accordance with the mobile weighted average method.

Held-to-maturity investments

Investments are classified as held-to-maturity investments that the Group intends and is able to hold to maturity. Held-to-maturity investments only include term deposits. Interest from these held-to-maturity investments after acquisition date is recognized in the profit or loss on the basis of the interest income to be received.

Loans

Loans are determined at original costs less allowance for doubtful debts. Allowance for doubtful debts of loans is made on the basis of estimated losses.

Investments in associates

An associate is an entity which the Group has significant influence but not the control to govern the financial and operating policies. Significant influence is the right to participate in making the associate's financial and operating policies but not control those policies.

Investments in associates are recognized in accordance with the owner's equity method. Accordingly, the investments in associates are presented in the Consolidated Financial Statements by the initial investment costs and adjusted for changes in benefits on net assets of associates after the investment date. If the benefits of the Group in losses of associates are higher than or equal to book value of the investments, the value of investments will be presented in the Consolidated Financial Statements as zero unless the Group has an obligation to make the payment instead of associates.

The Financial Statements of associates are prepared for the same accounting period of the Group. In case the accounting policies of an associate are different from those consistently applied in the Group, the Financial Statements of that associate will be suitably adjusted before being used to prepare the Consolidated Financial Statements.

Unrealized gains/losses from transactions with associates are excluded equivalent to those of the Group when the Consolidated Financial Statements are prepared.

Investments in equity instruments of other entities

Investments in equity instruments of other entities include such investments in equity instruments that do not enable the Group to have the control, joint control or significant influence on these entities.

Investments in equity instruments of other entities are initially recognized at costs, including cost of purchase or capital contribution plus other directly attributable transaction costs. Value of these investments is derecognized for dividends and profits arising in the periods prior to the acquisition of such investments. Dividends and profit arising in the periods after the acquisition of investments

APEC INVESTMENT JOINT STOCK COMPANY

Address: Floor 3, Grand Plaza Building, No. 117 Tran Duy Hung, Trung Hoa Ward, Cau Giay District, Hanoi City

CONSOLIDATED FINANCIAL STATEMENTS

For Quarter IV of 2024

Notes to the Consolidated Financial Statements (cont.)

are recorded into revenue. Particularly, the dividends paid in form of shares are not recorded as an increase in value, but the increasing quantity of shares is followed up.

Provision for impairment of investments in equity instruments of other entities is made as follows:

- For investments in listed shares or fair value of investments which is reliably measured, provision is made on the basis of the market value of shares.
- For investments of which the fair value cannot be measured at the time of reporting, provision is made on the basis of the losses suffered by investees, at the rate equal to the difference between the actual capital invested by investors and the actual owner's equity multiplying (x) by the Group's rate of charter capital in these investees.

Increases/ (decreases) in the provision for impairment of investments in equity instruments of other entities are recorded into "Financial expenses" during the year.

5. Receivables

Receivables are recognized at the carrying amounts less allowances for doubtful debts.

The classification of receivables as trade receivables and other receivables is made according the following principles:

- Trade receivables reflect receivables concerning the commercial nature arising from purchase and sale transactions between the Group and customers who are independent to the Group.
- Other receivables reflect receivables not concerning the commercial nature and irrelevant to purchase and sale transactions.

Allowance is made for each doubtful debt on the basis of the estimated loss.

Increases/ (decreases) in the obligatory allowance for doubtful debts as of the balance sheet date are recorded into "General and administration expenses".

6. Inventories

Inventories are recognized at the lower of cost or net realizable value.

Costs of inventories are determined as follows:

- For work-in-process of real estate projects: Costs comprise expenses of hiring contractors to implement items of real estate projects and other directly relevant costs.
- Property held for sale (including property built for sale during the Group's normal operation period): Costs comprise expenses of land use right, direct costs and relevant general expenses incurred during construction investment of property.
- Other merchandise: Costs comprise costs of purchases and other directly relevant costs incurred in bringing the inventories to their present location and conditions.

Net realizable value is the estimated selling price of inventories in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Allowance for inventories is recognized for each type of inventories when their costs are higher than their net realizable value. Increases/ (decreases) in the obligatory allowance for inventories as of the balance sheet date are recorded into "Costs of sales".

Costs of property already sold are recognized into the Income Statement based on direct costs constituting the property and general expenses, allocated on the basis of the corresponding area of that property.

APEC INVESTMENT JOINT STOCK COMPANY

Address: Floor 3, Grand Plaza Building, No. 117 Tran Duy Hung, Trung Hoa Ward, Cau Giay District, Hanoi City

CONSOLIDATED FINANCIAL STATEMENTS

For Quarter IV of 2024

Notes to the Consolidated Financial Statements (cont.)

7. Prepaid expenses

Prepaid expenses comprise actual expenses arising and relevant to financial performance in several accounting periods. Prepaid expenses of the Group mainly include expenses of tools and selling expenses for projects not yet handed over. These prepaid expenses are allocated in the prepayment term or the term in which corresponding economic benefit is derived from these expenses.

Tool

Expenses of tools being put into use are allocated into expenses in accordance with the straight-line method for the maximum period of 3 years.

Selling expenses for projects not yet handed over

Project selling expenses (including brokerage commission expenses, sale bonus expenses and etc.) are allocated into expenses corresponding to the number of apartments handed over to customers during the year.

8. Tangible fixed assets

Tangible fixed assets are determined by their historical costs less accumulated depreciation. Historical costs of tangible fixed assets include all the expenses paid by the Group to bring the asset to its working condition for its intended use. Other expenses arising subsequent to initial recognition are included into historical costs of fixed assets only if it can be clearly demonstrated that the expenditure has resulted in future economic benefits expected to be obtained from the use of these assets. Those which do not meet the above conditions will be recorded into operation costs during the year.

When a tangible fixed asset is sold or disposed, its historical cost and accumulated depreciation are written off, then any gain or loss arising from such disposal is included in the income or the expenses during the year.

Tangible fixed assets are depreciated in accordance with the straight-line method over their estimated useful lives. The depreciation years applied are as follows:

<u>Fixed assets</u>	<u>Years</u>
Buildings and structures	20 - 50
Machinery and equipment	3 - 5
Office equipment	10
Vehicles	3
Other fixed assets	3 - 7

9. Intangible fixed assets

Intangible fixed assets are determined by their initial costs less accumulated amortization.

Initial costs of intangible fixed assets include all the costs paid by the Group to bring the asset to its working condition for its intended use. Other costs relevant to intangible fixed assets arising subsequent to initial recognition are included into operation costs during the period only if these costs are associated with a specific intangible fixed asset and result in future economic benefits expected to be obtained from the use of these assets.

When an intangible fixed asset is sold or disposed, its initial costs and accumulated amortization are written off, then any gain or loss arising from such disposal is included in the income or the expenses during the year.

Intangible fixed asset of the Group includes Computer software. Purchase price of computer software, which is not a part associated with the relevant hardware, will be capitalized. Costs of

APEC INVESTMENT JOINT STOCK COMPANY

Address: Floor 3, Grand Plaza Building, No. 117 Tran Duy Hung, Trung Hoa Ward, Cau Giay District, Hanoi City

CONSOLIDATED FINANCIAL STATEMENTS

For Quarter IV of 2024

Notes to the Consolidated Financial Statements (cont.)

computer software include all the expenses paid by the Group until the date the software is put into use. Computer software is amortized in accordance with the straight-line method in 3- 5 years.

10. Investment property

Investment property includes hotel apartments, shophouses owned by the Company. Investment property for lease is measured at the historical cost less accumulated depreciation. Historical costs of an investment property include all the expenses paid by the Company or the fair value of other consideration given to acquire the investment property at the time of its acquisition or construction.

Expenses related to investment property arising subsequent to initial recognition should be added to the historical costs of the investment property when it is probable that future economic benefits, in excess of the originally assessed standard of performance of the existing investment property, will flow to the Company.

When the investment property is sold or disposed, its historical costs and accumulated depreciation are written off, then any gain or loss arising from such disposals is included in the income or the expenses during the year.

The transfer from owner-occupied property or inventories into investment property shall be made when, and only when, there is a change in use evidenced by the end of owner-occupation and the commencement of an operating lease to another party or the end of construction. The transfer from investment property to owner-occupied property or inventories shall be made when, and only when, there is a change in use evidenced by the commencement of owner-occupation or the commencement of development with a view to sale. The transfer from investment property to owner-occupied property or inventories does not change the historical cost or net book value of investment property at the date of transfer.

Investment property for lease is depreciated in accordance with the straight-line method over its estimated useful life. The depreciation years applied are as follows:

<u>Fixed assets</u>	<u>Years</u>
Hotel apartments	44
Shophouses	44

11. Construction-in-progress

Construction-in-progress reflects the expenses (including relevant loan interest expenses following the accounting policies of the Group) directly related to the construction of plants and the installation of machinery and equipment to serve for production, leasing, and management as well as the repair of fixed assets, which have not been completed yet. Assets in the progress of construction and installation are recorded at historical costs and not depreciated.

12. Payables and accrued expenses

Payables and accrued expenses are recorded based on the amounts payable for goods and services already used. Accrued expenses are recorded based on reasonable estimates for the amounts payable.

The classification of payables as trade payables, accrued expenses, and other payables is made on the basis of following principles:

- Trade payables reflect payables of commercial nature arising from the purchase of goods, services, or assets and the seller is an independent entity with the Group.
- Accrued expenses reflect expenses for goods, services received from suppliers or supplied to customers but have not been paid, invoiced or lack of accounting records and supporting documents; pay on leave payable to employees; and accrual of operation expenses.
- Other payables reflect payables of non-commercial nature and irrelevant to purchase, sales of goods or provision of services.

APEC INVESTMENT JOINT STOCK COMPANY

Address: Floor 3, Grand Plaza Building, No. 117 Tran Duy Hung, Trung Hoa Ward, Cau Giay District, Hanoi City

CONSOLIDATED FINANCIAL STATEMENTS

For Quarter IV of 2024

Notes to the Consolidated Financial Statements (cont.)

Payables and accrued expenses are classified into short-term and long-term ones in the Consolidated Balance Sheet based on the remaining terms as of the balance sheet date.

13. Owner's equity

Capital

Capital is recorded according to the actual amounts contributed by the shareholders of the Company.

14. Recognition of sales and income

Sales of real estate

Sales of real estate that invested by the Group shall be recognized when all of the following conditions are satisfied:

- Real estate is fully completed and handed over to buyers, and the Group transfers most of risks and benefits incident to the ownership of real estate to buyers;
- The Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the real estate sold.
- The amount of sales can be measured reliably.
- The Group received or shall probably receive the economic benefits associated with the transaction.
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

Sales of providing services

Sales of providing services are recognized when the result of such transaction is determined reliably. In case the transaction of providing services relates to many periods, sales are recognized during the period based on the result of completed work as of the balance sheet date of that period. The result of providing services is recognized when all of the following 4 conditions are satisfied:

- The amount of sales can be measured reliably;
- The Group received or shall probably receive the economic benefits associated with the rendering of services;
- The stage of completion of the transaction at the end of reporting period can be measured reliably; and
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Income from leasing operating assets

Income from leasing operating assets is recognized in accordance with the straight-line method during the lease term.

In case, the leasing duration holds over 90% of the assets' useful lives, sales shall be once recognized for the whole leasing amount received in advance when all of the following conditions are satisfied:

- The lessees have no right to cancel the lease contracts and the Group is not obliged to return the money received in advance in any case and in any form.
- The amount received in advance from leasing is not less than 90% of total estimated rental amount to be received in accordance with the contract during the lease term and the lessees shall pay the whole rental within 12 months commencing from the initial asset lease date.
- Mostly all risks and benefits incident to the ownership of asset are transferred to the lessees.
- Costs related to leasing operation can be rather adequately estimated.

Interest

Interest is recorded, based on the term and the actual interest rate applied in each particular period.

15. Borrowing costs

APEC INVESTMENT JOINT STOCK COMPANY

Address: Floor 3, Grand Plaza Building, No. 117 Tran Duy Hung, Trung Hoa Ward, Cau Giay District, Hanoi City

CONSOLIDATED FINANCIAL STATEMENTS

For Quarter IV of 2024

Notes to the Consolidated Financial Statements (cont.)

Borrowing costs are interests and other costs that the Group directly incurs in connection with the borrowings.

Borrowing costs are recorded as expenses when they are incurred. In case the borrowing costs are directly attributable to the construction or the production of an asset in progress, which takes a substantial period of time (over 12 months) to get ready for intended use or sales of the asset, these costs will be included in the cost of that asset. To the extent that the borrowings are especially for the purpose of construction of fixed assets and investment properties, the borrowing cost is eligible for capitalization even if construction period is under 12 months. Incomes arisen from provisional investments as loans are recognized as a decrease in the costs of relevant assets.

In the event that general borrowings are partly used for the acquisition, construction or production of an asset in progress, the costs eligible for capitalization will be determined by applying the capitalization rate to average accumulated expenditure on construction or production of that asset. The capitalization rate is computed at the weighted average interest rate of the borrowings not yet paid during the period, except for particular borrowings serving the purpose of obtaining a specific asset.

16. Expenses

Expenses are those that result in outflows of the Group's economic benefits and are recorded at the time of transactions or when incurrence of the transaction is reliable regardless of whether payment for expenses is made or not.

Expenses and their corresponding revenues are simultaneously recognized in accordance with matching principle. In the event that matching principle conflicts with prudence principle, expenses are recognized based on the nature and regulations of accounting standards in order to guarantee that transactions can be fairly and truly reflected.

17. Corporate income tax

Corporate income tax includes current income tax and deferred income tax.

Current income tax

Current income tax is the tax amount computed based on the taxable income. Taxable income is different from accounting profit due to the adjustments of temporary differences between tax and accounting figures, non-deductible expenses as well as those of non-taxable income and losses brought forward.

Deferred income tax

Deferred income tax is the amount of corporate income tax payable or refundable due to temporary differences between book values of assets and liabilities serving the preparation of the financial statements and the values for tax purposes. Deferred income tax liabilities are recognized for all the temporary taxable differences. Deferred income tax assets are recorded only when there is an assurance on the availability of taxable income in the future against which the temporarily deductible differences can be used.

Book value of deferred corporate income tax assets is considered as of the balance sheet date and will be reduced to the rate that ensures enough taxable income against which the benefits from part of or all of the deferred income tax can be used. Deferred corporate income tax assets, which have not been recorded before, are considered as of the balance sheet date and are recorded when there is certainly enough taxable income to use these unrecognized deferred corporate income tax assets. Deferred income tax assets and deferred income tax liabilities are determined at the estimated rate to be applied in the year when the assets are recovered or the liabilities are settled based on the effective tax rates as of the balance sheet date. Deferred income tax is recognized in the income statement. In the case that deferred income tax is related to the items of the owner's equity,

APEC INVESTMENT JOINT STOCK COMPANY

Address: Floor 3, Grand Plaza Building, No. 117 Tran Duy Hung, Trung Hoa Ward, Cau Giay District, Hanoi City

CONSOLIDATED FINANCIAL STATEMENTS

For Quarter IV of 2024

Notes to the Consolidated Financial Statements (cont.)

corporate income tax will be included in the owner's equity.

The Group shall offset deferred tax assets and deferred tax liabilities if, and only if:

- The Group has the legal right to offset current income tax assets against current income tax liabilities; and
- Deferred income tax assets and deferred income tax liabilities are relevant to corporate income tax which is under the management of one tax authority either:
 - Of the same subject to corporate income tax; or
 - The Group has intention to pay current income tax liabilities and current income tax assets on a net basis or recover tax assets and settle tax liability simultaneously in each future period to the extent that the majority of deferred income tax liabilities or deferred income tax assets are paid or recovered.

18. Related parties

A party is considered a related party of the Group in case that party is able to control the Group or to cause material effects on the financial decisions as well as the operations of the Group. A party is also considered a related party of the Group in case that party is under the same control or is subject to the same material effects.

Considering the relationship of related parties, the nature of relationship is focused more than its legal form.

19. Segment reporting

A business segment is a distinguishable component of the Group that is engaged in manufacturing or providing products or services and that is subject to risks and returns that are different from those of other business segments.

A geographical segment is a distinguishable component of the Group that is engaged in manufacturing or providing products or services within a particular economic environment and that is subject to risks and returns that are different from those of components operating in other economic environments.

The segment information is prepared and presented in conformity with the accounting policy applied for the preparation and presentation of the Group's Consolidated Financial Statements.
