Subject: Explanation of the difference in business results

the fourth quarter of 2024 compared to the fourth quarter of 2023

Ho Chi Minh City, January 24, 2025.

**To: State Securities Commission
Hanoi Stock Exchange**

In compliance with Circular No. 96/2020/TT-BTC dated November 16, 2020, of the Ministry of Finance on guidelines for the disclosure of information on the securities market.

Vietnam Plastic Corporation would like to explain the business results for the fourth quarter of 2024 compared to the fourth quarter of 2023 as follows:

1. The after-tax profit on the income statement for the reporting period has changed by 10% or more compared to the same period last year:

For the Company's separate financial statements:

After-tax profit for the fourth quarter of 2024: 575.550.579 VND

After-tax loss for the fourth quarter of 2023: (2,072,784,533) VND

Reasons for the increase in profit compared to the same period last year include:

Business performance improved this quarter compared to the same period last year, resulting in increased sales revenue and gross profit from sales.

Financial expenses decreased, particularly loan interest and foreign exchange differences, compared to the same period last year. Additionally, no provisions for investment losses were recorded during this period.

Selling expenses decreased compared to the same period last year.

For the consolidated financial statements:

After-tax profit for the fourth quarter of 2024: 1.181.686.614 VND

After-tax loss for the fourth quarter of 2023: (8,151,527,782) VND

Reasons for the increase in profit compared to the same period last year include:

Financial revenue increased compared to the same period last year, mainly due to foreign exchange gains from revaluing monetary items denominated in foreign currency.

Financial expenses decreased, particularly loan interest and foreign exchange differences, compared to the same period last year.

Selling expenses decreased compared to the same period last year.

Profit from joint ventures and associates increased compared to the same period last year.

2. The after-tax profit for the reporting period shows a profit or loss, transitioning from a profit in the same period last year to a loss in this period, or vice versa:

For the Company's separate financial statements:

After-tax profit for the fourth quarter of 2024: 575.550.579 VND

After-tax loss for the fourth quarter of 2023: (2,072,784,533) VND

The primary reason is that sales revenue and gross profit from sales during the period increased compared to the same period last year. Additionally, financial expenses and selling expenses both decreased compared to the same period last year, leading to the Company's profitability in the fourth quarter of 2024.

For the consolidated financial statements:

After-tax profit for the fourth quarter of 2024: 1.181.686.614 VND

After-tax loss for the fourth quarter of 2023: (8,151,527,782) VND

The primary reason is that financial income and profits from joint ventures and associates both increased compared to the same period last year. Additionally, expenses such as financial expenses and selling expenses decreased compared to the same period last year.

Vietnam Plastic Corporation prepares this explanation letter for the State Securities Commission and the Hanoi Stock Exchange for your information.

Sincerely,

Recipients:

- As above

2. FINANCIAL YEAR, APPLIED ACCOUNTING STANDARDS AND REGIME

Financial year

The Company's financial year begins on 01 January and ends on 31 December.

Applied accounting

The Company applied Vietnamese Accounting Standards, accounting regime for enterprises in accordance with Circular No. 200/2014/TT-BTC dated 22 December 2014, Circular No. 53/2016/TT-BTC dated 21 March 2016 and circulars guiding the implementation of accounting standards of the Ministry of Finance in the preparation and presentation of separate financial statements.

Declaration of compliance with accounting standard and accounting regime

The General Director ensures to comply with the requirements of Vietnamese Accounting Standards, accounting regime for enterprises in accordance with Circular No. 200/2014/TT-BTC dated 22 December 2014, Circular No. 53/2016/TT-BTC dated 21 March 2016 and circulars guiding the implementation of accounting standards of the Ministry of Finance in preparation of separate financial statements.

The accompanying separate financial statements are not intended to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam.

The separate financial statements are also prepared and issued together with the consolidated financial statements. Accordingly, users should read these separate financial statements in combination with the consolidated financial statements for complete information.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Accounting convention

The accompanying separate financial statements, expressed in Vietnamese Dong (VND), are prepared on an accrual basis, under the historical cost convention (except for information relating to cash flows), and in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to the preparation and presentation of separate financial statements.

Estimates

The preparation of separate financial statements in conformity with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to the preparation and presentation of the separate financial statements requires the General Director to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the separate balance sheet date and the reported amounts of revenues and expenses during the financial year. Although these accounting estimates are based on the General Director's best knowledge, actual results may differ from those estimates.

Evaluation and recognition at fair value

The Law on Accounting came into effect from 01 January 2017, which included regulations on evaluation and recognition at fair value. However, there is no specific instruction for this matter; therefore, the General Director has considered and applied as follows:

- a) Financial instruments are recognized and revaluated at fair value based on historical cost less provisions (if any) in accordance with current regulations.*
- b) Monetary items denominated in foreign currencies shall be evaluated based on the actual exchange rates;*
- c) For assets and liabilities (except items a and b as mentioned above), the Company does not have any basis to determine the reliable value; therefore, the Company records at historical cost.*

Financial instruments

Initial recognition

Financial assets: At the date of initial recognition, financial assets are recognised at cost plus transaction costs that are directly attributable to the acquisition of the financial assets. Financial assets of the Company comprise cash, cash equivalents, trade and other receivables, deposits, and financial investments.

Financial liabilities: At the date of initial recognition financial liabilities are recognised at cost plus transaction costs that are directly attributable to the issue of the financial liabilities. Financial liabilities of the Company comprise trade and other payables, accrued expenses, and borrowings.

Subsequent measurement after initial recognition

Currently, there is no regulation on revaluation of financial instruments after initial recognition.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and deposits with terms not exceeding 3 months, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Financial investments

Held-to-maturity investments

Held-to-maturity investments comprise investments that the Company has the positive intent or ability to hold to maturity, including term deposits, loans held to maturity to earn periodic interest and other held-to-maturity investments.

Held-to-maturity investments are recognised on a trade date basis and are initially measured at acquisition price plus directly attributable transaction costs. Post-acquisition interest income from held-to-maturity investments is recognised in the separate income statement on accrual basis. Pre-acquisition interest is deducted from the cost of such investments at the acquisition date.

Held-to-maturity investments are measured at cost less provision for doubtful debts.

Provision for doubtful debts relating to held-to-maturity investments is made in accordance with prevailing accounting regulations.

Investments in subsidiaries, joint ventures, associates

Investment in subsidiaries

A subsidiary is an entity over which the Company has control. Control is achieved where the Company has the power to govern the financial and operating policies of an investee enterprise so as to obtain benefits from its activities.

Interests in joint ventures

A joint venture is a contractual arrangement whereby the Company and other parties undertake an economic activity that is subject to joint control, i.e., the strategic financial and operating policy decisions relating to the activities require the unanimous consent of the parties sharing control.

Investments in associates

An associate is an entity over which the Company has significant influence and that is neither a subsidiary nor an interest in joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but not control or joint control over those policies.

Interests in subsidiaries, joint ventures and associates are initially recognised at cost. The Company's share of the net profit of the investee after acquisition is recognised in the separate income statement. Other distributions received other than such profit share are deducted from the cost of the investments as recoverable amounts.

Provision for loss of investments in subsidiaries, joint ventures and associates is made when the subsidiaries, joint ventures and associates are incurred the loss as equal as the difference between the actual contributed capital of parties in subsidiaries, joint ventures, associates and the actual equity multiplied by the percentage of capital contribution between controlling company and its parties. If the subsidiaries, joint ventures, associates are the subjects for consolidating financial statements, the basis for determining the loss of provision is in the consolidated financial statements.

The change of provision for loss of investments in subsidiaries, joint ventures and associates need to be made at the balance sheet date and are recorded in financial expenses.

Loan receivables

Loan receivables are measured at cost less provision for doubtful debts. Provision for doubtful debts relating to loan receivables is made in accordance with prevailing accounting regulations.

Receivables

Receivables represent the amounts recoverable from customers or other debtors and are stated at book value less provision for doubtful debts.

Provision for doubtful debts is made for receivables that are overdue for six months or more or when the debtor is in dissolution, in bankruptcy, or is experiencing similar difficulties and so may be unable to repay the debt.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost comprises direct materials and where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Cost is calculated using the specific identification method and recognised under the perpetual method. Net realisable value represents the estimated selling price less all estimated costs to completion and costs to be incurred in marketing, selling and distribution.

The evaluation of necessary provision for inventory obsolescence follows current prevailing regulations which allow provisions to be made for obsolete, damaged, or sub-standard inventories and for those which have costs higher than net realisable values as at the balance sheet date.

Prepayments

Prepayments are expenses which have already been paid but relate to results of operations of multiple accounting periods, including:

Tools and supplies: Tools and supplies which have been used are allocated into expenses using the straight-line method no more than 03 years.

Land rent: Land rent represents the prepaid land rental amount under the land sublease contract dated 27 June 2006 with Investment and Industrial Development Joint Stock Corporation, and are allocated into the separate income statement using the straight-line method over the rental period.

Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less accumulated depreciation.

The costs of purchased tangible fixed assets comprise their purchase prices and any directly attributable costs of bringing the assets to their working conditions and locations for their intended use. The costs of self-constructed or manufactured assets are the actual construction or manufacturing cost plus installation and test running costs.

Tangible fixed assets are depreciated using the straight-line method over their estimated useful lives as follows:

	Estimated useful lives
	(Years)
Buildings and structures	08 - 38
Machinery and equipment	03 - 12
Motor vehicles and conveyances	06
Management equipment	03 - 06
Others	02 - 05

Loss or gain resulting from sales and disposals of tangible fixed assets is the difference between profit from sales or disposals of assets and their residual values and is recognised in the separate income statement.

Intangible fixed assets and amortisation

Land use rights

Intangible fixed assets represent the term land use rights that are amortised using the straight-line method within 25 years.

Computer software

Cost of computer software is all expenses that the Company has spent up to the time of putting the software into use. Computer software is amortised using the straight-line method over the estimated useful lives.

Payables and accrued expenses

Payables are amounts that may be paid to suppliers or other entities and are stated at carrying amount.

Payables and accrued expenses are recognized for future amounts payable related to goods and services received. Accrued expenses are recognized based on reasonable estimates of the amount payable.

The classification of payables into trade payables, accrued expenses, and other payables are made on the following principles:

- Trade payables reflect payables arising from purchases of goods, services, assets and sellers are independent units to the company/enterprise, including accounts payable upon importation through consignee.

- Accrued expenses reflect amounts payable for goods or services received from the seller or provided to the buyer but not be paid due to lack of invoices or incomplete accounting records and documents, payments to employees for leave and prepaid production and business expenses.

- Other payables reflect non-trade payables and does not relate to the purchase, sale or supply of goods or services.

Equity

Owner's contributed capital: Owner's contributed capital is recognized based on the actual contributed capital of the shareholders.

Profit distribution

Profit after tax is distributed to shareholders in accordance with the Charter of Company and regulations of the law which has been approved by the General Meeting of Shareholders. Profit distribution to shareholders is referenced to the non-monetary items included in retained earnings that may affect cash flows and the ability to pay dividends such as gains from revaluation of assets contributed capital, interest from revaluation of monetary items, financial instruments and other non-monetary items. Dividends are recognized as liabilities when having the approval of the General Meeting of Shareholders.

Revenue recognition

Revenue is recognised when it is probable that the economic benefits will flow to the Company which can be reliably measured. Revenue is measured at the fair value of amounts received or to be received after deducting trade discounts, sales rebates and sales returns. The following specific recognition conditions must also be met when revenue is recognized:

Revenue from the sale of goods is recognised when all five (5) following conditions are satisfied:

- The Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- The Company retains neither continuing managerial involvement to the degree usually associated with; ownership nor effective control over the goods sold;
- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Company; and
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenue of a transaction involving the rendering of services is recognised when the outcome of such transactions can be measured reliably. Where a transaction involving the rendering of services is attributable to several periods, revenue is recognised in each period by reference to the percentage of completion of the transaction at the balance sheet date of that period. The outcome of a transaction can be measured reliably when all four (4) following conditions are satisfied:

- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Company;
- The percentage of completion of the transaction at the balance sheet date can be measured reliably; and
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Interest income is accrued on an accrual basis, by reference to the principal outstanding and at the applicable interest rate.

Dividend income from investments is recognised when the Company's right to receive payment has been established.

Foreign currencies

Transactions arising in foreign currencies are translated at exchange rates ruling at the transaction date. The balances of monetary items denominated in foreign currencies as at the balance sheet date are retranslated at the exchange rates on the same date. Exchange differences arising from the translation of these accounts are recognised in the income statement. Unrealised exchange gains as at the balance sheet date are not treated as part of distributable profit to shareholders.

Borrowing costs

Borrowing costs are recognised in the separate income statement in the year when incurred .

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years (including loss carried forward, if any) and it further excludes items that are never taxable or deductible.

Deferred tax is recognised on significant differences between carrying amounts of assets and liabilities in the separate financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using balance sheet liability method. Deferred tax liabilities are generally recognised for all temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which deductible temporary differences can be utilised.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realised. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same tax authority and Company intends to settle its current tax assets and liabilities on a net basis.

The determination of the tax currently payable is based on the current interpretation of tax regulations. However, these regulations are subject to periodic variation and their ultimate determination depends on the results of the tax authorities' examinations.

Other taxes are paid in accordance with the prevailing tax laws in Vietnam.

Related parties

Parties are considered to be related when one party has ability to control another or has significant influence in making decisions related to financial and operational policies.

Parties are also considered as related parties when they bear the same control and significant influence.

When considering the relationship of related parties, it is more focused on the nature of the relationship than the legal form.

The Company's separate financial statements are prepared and disclosed together with the Company's consolidated financial statements; therefore, the Company does not present transactions with related parties in the separate financial statements.

The Company's list of related parties includes:

Related parties	Relationship
State Capital Investment Corporation	Major shareholder
Viet Phuoc Plastic Joint Stock Company	Subsidiary
Number One Plastic Trading and Service One Member Company Limited	Subsidiary
Truong An Plastic Trading And Service One Member Company Limited	Subsidiary
Viet Nam Plastic Trading and Service Company Limited	Subsidiary
Van Don Plastics Joint Stock Company	Associate
Viet-Thai Plastchem Co., Ltd	Joint venture
TPC VINA Plastic and Chemical Corporation Limited	Joint venture
Members of Board of Management, Executive Board, and those who have close relationships with these members	Key personnel and members with close relationships

Segment reporting

A segment is a distinguishable component of the Company that is engaged in the provision of relevant products or services (business segment), or in the provision of products or services in a particular economic environment (geographical segment). This segment is subject to risks and rewards that are different from those of other segments

The Company's revenue and profit are mainly generated from trading of plastic products. At the same time, all activities take place in one geographical area, the Southern region; therefore, the Company does not prepare segment reports by business sector and geographical area.
