INDEPENDENT AUDITOR'S REPORT

**To: THE SHAREHOLDERS, THE BOARD OF MANAGEMENT AND THE BOARD OF DIRECTORS
CA MAU WATER SUPPLY JOINT STOCK COMPANY**

We have audited the accompanying Financial Statements of Ca Mau Water Supply Joint Stock Company (hereinafter referred to as "the Company"), which were prepared on 06 March 2025 (from page 07 to page 35), including the Balance Sheet as of 31 December 2024, the Income Statement, the Cash Flow Statement for the fiscal year then ended and the Notes to the Financial Statements.

Responsibility of the Board of Directors

The Company's Board of Directors is responsible for the preparation, true and fair presentation of these Financial Statements in accordance with the Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System and relevant statutory requirements on the preparation and presentation of Financial Statements; and responsible for such internal control as the Company's Board of Directors determines necessary to enable the preparation and presentation of the Financial Statements to be free from material misstatement due to frauds or errors.

Responsibility of Auditors

Our responsibility is to express an opinion on these Financial Statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical standards and requirements and plan and perform the audit to obtain reasonable assurance about whether the Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Financial Statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and true and fair presentation of the Financial Statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Company's Board of Directors, as well as evaluating the overall presentation of the Financial Statements.

We believe that the audit evidences we have obtained are sufficient and appropriate to provide a basis for our audit opinion.

Opinion of the Auditors

In our opinion, the Financial Statements give a true and fair view, in all material respects, of the financial position as of 31 December 2024 of Ca Mau Water Supply Joint Stock Company, its financial performance and its cash flows for the fiscal year then ended, in conformity with the Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System and relevant statutory requirements on the preparation and presentation of Financial Statements.

Emphasis of matters

Without qualifying our opinion above, we would like to draw the readers' attention to Notes No. V.4 and V.16 in the Notes to the Financial Statements regarding the fact that the Company recognizes the receivables for equitization and divestment for an amount of VND 582.742.500 and the payables incurred before equitization and for divestment of State capital as of 30 June 2024 for the respective amounts of VND 30.291.229.630 after the Company has made finalization with the State Budget according to the Decision No. 179/QĐ-UBND dated 08 February 2023 of the People's Committee of Ca Mau Province on the approval of equitization settlement. The receivables for finalization of the balances of equitization and divestment of State capital are waiting for approval. Therefore, the Company has not yet offset these amounts against the payables. The balances of the Company's payables to the State Budget depend on the decision of the State competent authority.

We also would like to draw the readers' attention to Note No. VII.1 in the Notes to the Financial Statements regarding the fact that the Company has not reflected the payment obligation in the Financial Statements with regards to forest environmental services from 2011 to 31 May 2023 because there is no document from the competent authority guiding the payment and the Company has not received specific notice on the amount payable for this period.

Other matter

The Company's Financial Statements for the fiscal year ended 31 December 2023 were audited by another audit firm, whose auditors expressed an unqualified audit opinion on such Financial Statements on 27 March 2024.

Notes to the Financial Statements (cont.)

Standards of the Ministry of Finance in the preparation and presentation of the Financial Statements.

IV. ACCOUNTING POLICIES

1. Accounting convention

All the Financial Statements are prepared on the accrual basis (except for the information related to cash flows).

2. Cash and cash equivalents

Cash includes cash on hand and demand deposits. Cash equivalents are short-term investments of which the due dates cannot exceed 3 months from the dates of the investments that are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value as of the balance sheet date.

3. Financial investments

Held-to-maturity investments

Investments are classified as held-to-maturity investments that the Company intends and is able to hold to maturity. Held-to-maturity investments include term deposits for the purpose of receiving periodical interest.

Held-to-maturity investments are initially recognized at costs. After initial recognition, these investments are recorded at recoverable value. Interest from these held-to-maturity investments after acquisition date is recognized in the profit or loss on the basis of the interest income to be received. Interests arising prior to the Company's acquisition of held-to-maturity investments are deducted to the costs as at the acquisition time.

When there are reliable evidence proving that a part or the whole investment cannot be recovered and the loss are reliably determined, the loss is recognized as financial expenses during the year while the investment value is derecognized.

4. Receivables

Receivables are recognized at the carrying amounts less allowances for doubtful debts.

The classification of receivables as trade receivables and other receivables is made according the following principles:

- Trade receivables reflect receivables concerning the commercial nature arising from purchase and sale transactions between the Company and customers who are independent to the Company.
- Other receivables reflect receivables not concerning the commercial nature and irrelevant to purchase and sale transactions.

Allowance is made for each doubtful debt on the basis of the ages of debts after offsetting against liabilities (if any) or estimated loss as follows:

- As for overdue debts:
 - 30% of the value of debts overdue between 6 months and less than 1 year.
 - 50% of the value of debts overdue between 1 year and less than 2 years.
 - 70% of the value of debts overdue between 2 years and less than 3 years.

FINANCIAL STATEMENTS

For the fiscal year ended 31 December 2024

Notes to the Financial Statements (cont.)

- 100% of the value of debts overdue more than 3 years.
- As for doubtful debts: Allowance is made on the basis of the estimated loss.

Increases/(decreases) in the obligatory allowance for doubtful debts as of the balance sheet date are recorded into "General and administration expenses".

5. Inventories

Inventories are recognized at the lower of cost or net realizable value.

Cost of inventories is determined as follows:

- For materials: Costs comprise costs of purchases and other directly relevant costs incurred in bringing the inventories to their present location and conditions.
- Work-in-process: Costs comprise costs of main materials, labor and other directly relevant expenses.
- For finished goods: Costs comprise costs of materials, direct labor and directly relevant general manufacturing expenses allocated on the basis of normal operations.

Stock-out costs are determined in accordance with the weighted average method and recorded in line with the perpetual method.

Net realizable value is the estimated selling price of inventories in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Allowance for devaluation of inventories is recognized for each type of inventory when its cost is higher than its net realizable value. Increases/(decreases) in the allowance for devaluation of inventories required to be made as of the fiscal year-ended are recorded into "Cost of sales."

6. Prepaid expenses

Prepaid expenses comprise actual expenses incurred and relevant to financial performance in several accounting periods. Prepaid expenses of the Company mainly include expenses of tools, expenses for installation of hydrometers and branch pipes. These prepaid expenses are allocated over the prepayment period or period of corresponding economic benefits generated from these expenses.

Tools

Expenses of tools being put into use are allocated into expenses in accordance with the straight-line method for the maximum period of 3 years.

Expenses for installation of hydrometers and branch pipes

Expenses for installation of hydrometers and branch pipes are allocated into expenses in accordance with the straight-line method in 5 years.

7. Tangible fixed assets

Tangible fixed assets are determined by their historical costs less accumulated depreciation. Historical costs of tangible fixed assets include all the expenses paid by the Company to bring the asset to its working condition for its intended use. Other expenses arising subsequent to initial recognition are included into historical costs of fixed assets only if it can be clearly demonstrated that the expenditure has resulted in future economic benefits expected to be obtained from the use

of these assets. Those which do not meet the above conditions will be recorded into operation costs during the year.

When a tangible fixed asset is sold or disposed, its historical cost and accumulated depreciation are written off, then any gain or loss arising from such disposal is included in the income or the expenses during the year.

Tangible fixed assets are depreciated in accordance with the straight-line method over their estimated useful lives. The depreciation years applied are as follows:

<u>Fixed assets</u>	<u>Years</u>
Buildings and structures	05 - 31
Machinery and equipment	03 - 15
Vehicles	04 - 25
Office equipment	03 - 15

8. Intangible fixed assets

Intangible fixed assets are determined by their initial costs less accumulated amortization.

Initial costs of intangible fixed assets include all the costs paid by the Company to bring the asset to its working condition for its intended use. Other costs relevant to intangible fixed assets arising subsequent to initial recognition are included into operation costs during the period only if these costs are associated with a specific intangible fixed asset and result in future economic benefits expected to be obtained from the use of these assets.

When an intangible fixed asset is sold or disposed, its initial costs and accumulated amortization are written off, then any gain or loss arising from such disposal is included in the income or the expenses during the year.

The Company's intangible fixed assets include:

Land use right

Land use right includes all the actual expenses paid by the Company directly related to the land being used such as expenses to obtain the land use right, compensation for house removal, land clearance and ground leveling, registration fees, etc. If the land use right is permanent, it is not amortized.

Computer software

Expenses attributable to computer software, which is not a part associated with the relevant hardware, will be capitalized. Costs of computer software include all the expenses paid by the Company until the date the software is put into use. Computer software is amortized in accordance with the straight-line method in 5-6 years.

9. Construction-in-progress

Construction-in-progress reflects the expenses (including relevant loan interest expenses following the accounting policies of the Company) directly related to the construction of plants and the installation of machinery and equipment to serve for production, leasing, and management as well as the repair of fixed assets, which have not been completed yet. Assets in the progress of construction and installation are recorded at historical costs and not depreciated.

10. Payables and accrued expenses

Payables and accrued expenses are recorded for the amounts payable in the future associated with the goods and services received. Accrued expenses are recorded based on reasonable estimates for the amounts payable.

The classification of payables as trade payables, accrued expenses and other payables is made on the basis of following principles:

- Trade payables reflect payables of commercial nature arising from the purchase of goods, services, or assets, of which the seller is an independent entity with the Company.
- Accrued expenses reflect expenses for goods, services received from suppliers or supplied to customers but have not been paid, invoiced or lack of accounting records and supporting documents; pay on leave payable to employees; and accrual of operation expenses
- Other payables reflect payables of non-commercial nature and irrelevant to purchase, sales of goods or provisions of services.

The payables and accrued expenses are classified as short-term and long-term items in the Balance Sheet on the basis of their remaining term as of the balance sheet date.

11. Owner's capital

Capital is recorded according to the actual amounts invested by the shareholders.

12. Profit distribution

Profit after tax is distributed to the shareholders after appropriation for funds under the Charter of the Company as well as legal regulations and approved by the Shareholders Meeting.

The distribution of profits to the shareholders is made with consideration toward non-cash items in the retained earnings that may affect cash flows and payment of dividends such as profit due to revaluation of assets contributed as investment capital, profit due to revaluation of monetary items, financial instruments and other non-cash items.

Dividend is recorded as payables upon approval of the Shareholders' Meeting.

13. Recognition of revenue and income

Revenue from domestic water supply

Revenue from domestic water supply is monthly recorded on the basis of the volume of water according to the indexes on the water meters and the unit price approved by the People's Committee of Ca Mau Province.

Revenue from provisions of services

Revenue of service provision shall be recognized when all of the following conditions are satisfied:

- The amount of sales can be measured reliably. When the contract stipulates that the buyer is entitled to return the services provided under specific conditions, sales is recognized only when these specific conditions are no longer existed and the buyer is not entitled to return the services provided.
- The Company received or shall probably receive the economic benefits associated with the provision of services.
- The stage of completion of the transaction at the end of reporting period can be measured reliably.
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

FINANCIAL STATEMENTS

For the fiscal year ended 31 December 2024

Notes to the Financial Statements (cont.)

In the case that the services are provided in several accounting periods, the determination of revenue is done on the basis of the volume of work done as of the balance sheet date.

Interest

Interest is recorded, based on the term and the actual interest rate applied in each particular period.

14. Borrowing costs

Borrowing costs are interests and other costs that the Company directly incurs in connection with the borrowing.

Borrowing costs are recorded as an expense when it is incurred. In case the borrowing costs are directly attributable to the construction or the production of an asset in progress, which takes a substantial period of time (over 12 months) to get ready for intended use or sales of the asset, these costs will be included in the cost of that asset. To the extent that the borrowings are especially for the purpose of construction of fixed assets and investment properties, the borrowing cost is eligible for capitalization even if construction period is under 12 months. Incomes arisen from provisional investments as loans are recognized as a decrease in the costs of relevant assets

In the event that general borrowings are partly used for the acquisition, construction or production of an asset in progress, the costs eligible for capitalization will be determined by applying the capitalization rate to average accumulated expenditure on construction or production of that asset. The capitalization rate is computed at the weighted average interest rate of the borrowings not yet paid during the year, except for particular borrowings serving the purpose of obtaining a specific asset.

15. Expenses

Expenses are those that result in outflows of the economic benefits and are recorded at the time of transactions or when incurrence of the transaction is reliable regardless of whether payment for expenses is made or not.

Expenses and their corresponding revenues are simultaneously recognized in accordance with matching principle. In the event that matching principle conflicts with prudence principle, expenses are recognized based on the nature and regulations of accounting standards in order to guarantee that transactions can be fairly and truly reflected.

16. Corporate income tax

Corporate income tax only includes current income tax. Current income tax is the tax amount computed based on the taxable income. Taxable income is different from accounting profit due to the adjustments of temporary differences between tax and accounting figures, non-deductible expenses as well as those of non-taxable income and losses brought forward.

17. Related parties

A party is considered a related party of the Company in case that party is able to control the Company or to cause material effects on the financial decisions as well as the operations of the Company. A party is also considered a related party of the Company in case that party is under the same control or is subject to the same material effects.

Considering the relationship of related parties, the nature of relationship is focused more than its legal form.

FINANCIAL STATEMENTS

For the fiscal year ended 31 December 2024

Notes to the Financial Statements (cont.)

9b. Other information

The basic/diluted earnings per share in the previous year were re-calculated due to the deduction of the appropriated amounts of the bonus and welfare funds and the bonus fund for the Board of Executives when determining profit used to calculate basic earnings per share according to the guidance of the Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance. The application of this new regulation made the basic earnings per share in the previous year decrease from VND 709 down to VND 546.

There is no transaction over the common share or potential common share from the balance sheet date until the date of these Financial Statements.

FINANCIAL STATEMENTS

For the fiscal year ended 31 December 2024

Notes to the Financial Statements (cont.)

3a. Information on business segment

The Company's principal business activity is to supply running water. Sales and costs of this segment are presented in Notes No. VI.1a and VI.2.

3b. Information on geographical segment

All activities of the Company take place only in Vietnamese territory.

4. Comparative figures

The Company reclassified the current portions of long-term loan at the beginning of the year in the Balance Sheet as follows:

	Code	Figures before adjustments	Adjustments	Figures after adjustments
Balance Sheet				
Short-term borrowings and financial lease	320	9.649.463.524	1.880.000.000	11.529.463.524

5. Going-concern assumption

As at 31 December 2024, the Company's current liabilities were higher than current assets by an amount of 76.875.839.083 (as of 31 December 2023 was VND 69.182.384.308). This matter affects the Company's liquidity over the liabilities. However, the Board of Directors and the General Director believe that the Company will not have any issues to solvent short-term debts because most of the liabilities are related to the State budget and employees. These are liabilities awaiting processing and settlement by competent State agencies.

6. Subsequent events

There are no material subsequent events which are required adjustments or disclosures in the Financial Statements.
