Board of Supervisory

Mrs. Le Thi Ha	Supervisor
Mrs. Trinh Thi Huyen	Member
Mr. Nguyen Cong Khanh	Member

Legal Reprepresentative

The legal representative of the Company during the year and until the date of this report is Mr. Nguyen Ngoc Can - General Director.

BOARD OF GENERAL DIRECTORS' STATEMENT OF RESPONSIBILITY

The Board of General Directors of the Company are responsible for preparing the financial statements, which give a true and fair view of the financial position of the Company as at 31 December 2024, and its financial performance and its cash flows for the year then ended in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting. In preparing these financial statements, the Board of General Directors are required to:

- Select suitable accounting policies and then apply them consistently;
- Make judgments and estimates that are reasonable and prudent;
- State whether applicable accounting principles have been followed, subject to any material departures disclosed and explained in the financial statements;
- Prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business; and
- Design and implement an effective internal control system for the purpose of properly preparing and presenting the financial statements so as to minimize errors and frauds.

The Board of General Directors are responsible for ensuring that proper accounting records are kept, which disclose, with reasonable accuracy at any time, the financial position of the Company and that the financial statements comply with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting. The Board of General Directors are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of frauds and other irregularities.

THANH HOA WATER SUPPLY JOINT STOCK COMPANY No. 99 Mat Son Street, Dong Ve Ward, Thanh Hoa City, Thanh Hoa Province

STATEMENT OF THE BOARD OF GENERAL DIRECTORS (CONTINUED)

The Board of General Directors confirms that the Company has complied with the above requirements in preparing these financial statements.

For and on behalf of the Board of General Directors,

INDEPENDENT AUDITORS' REPORT

To:

The Shareholders

The Board of Directors and Board of General Directors

Thanh Hoa Water Supply Joint Stock Company

We have audited the accompanying financial statements of Thanh Hoa Water Supply Joint Stock Company (the "Company"), prepared on 14 March 2025, as set out from page 5 to page 34, which comprise the balance sheet as at 31 December 2024, the statement of income, the statement of cash flows for the year then ended, Notes to the financial statements.

General Directors's Responsibility for the Financial Statements

The Board of General Directors of Thanh Hoa Water Supply Joint Stock Company are responsible for the preparation and fair presentation of these financial statements in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting and for such internal control as Board of General Directors determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Auditors' Opinion

In our opinion, the financial statements give a true and fair view of, in all material respects, the financial position of Company as at 31 December 2024, and its financial performance and its cash flows for the year then ended in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUTED)

These notes are an integral part of and should be read in conjunction with the accompanying financial statement

II. ACCOUNTING CONVENTION AND FINANCIAL YEAR

Accounting convention

The accompanying financial statements, expressed in Vietnam Dong (VND), are prepared under the historical cost convention and in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting.

The accompanying financial statements are not intended to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam.

Financial year

The company's financial year begins from 01 January to 31 December.

III. ACCOUNTING STANDARDS AND SYSTEM APPLIED

The Board of General Directors of the Company apply Vietnamese Accounting Standards and the Accounting regime for enterprises promulgated under the Circular No. 200/2014/TT-BTC dated 22 December 2014 by Ministry of Finance guiding the accounting regime for enterprises, Circular No. 53/2016/TT-BTC dated 21 March 2016 by Ministry of Finance amending and supplementing some articles of Circular No. 200/2014/TT-BTC and Circular guiding the implementation of accounting standards of the Ministry of Finance in the preparation and presentation of financial statements.

Accounting form applied: General journal.

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies, which have been adopted by the Company in the preparation of these financial statements, are as follows:

Estimates

The preparation of financial statements in conformity with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting requires Board of General Directors to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the year. Although these accounting estimates are based on the Board of General Directors's best knowledge, actual results may differ from those estimates.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Held-to-maturity investments

Held-to-maturity investments comprise investments that the Company has the positive intent or ability to hold to maturity, including term deposits (commercial bills), bonds, preference shares which the issuer shall redeem at a certain date in the future, loans held to maturity to earn periodic interest and other held-to-maturity investments.

Held-to-maturity investments are recognised on a trade date basis and are initially measured at acquisition price plus directly attributable transaction costs. Post-acquisition interest income from held-to-maturity investments is recognised in the income statement on accrual basis. Pre-acquisition interest is deducted from the cost of such investments at the acquisition date.

FORM B 09 - DN

No. 99 Mat Son Street, Dong Ve Ward Thanh Hoa City, Thanh Hoa Province Issued under Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance

NOTES TO THE FINANCIAL STATEMENTS (CONTINUTED)

These notes are an integral part of and should be read in conjunction with the accompanying financial statement

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Held-to-maturity investments (Continued)

When there is solid evidence that part or all of the investment may not be recoverable and the amount of loss can be reliably determined, the loss is recorded in financial expenses during the year and reduced direct deduction of investment value.

Held-to-maturity investments are measured at cost less provision for doubtful debts.

Provision for doubtful debts relating to held-to-maturity investments is made in accordance with prevailing accounting regulations.

Receivables

Receivables are the amounts recoverable from customers or other subjects and are stated at the book value less provision for doubtful debts.

Provision for doubtful debts is made for each receivable based on the overdue period of the principal debt according to the original debt agreement (without considering any debt extension between the parties) or based on the estimated potential loss as assessed by the Company. The difference between the provision that should be made at the end of the current fiscal year and the provision made at the end of the previous fiscal year is recognized as an increase or decrease in administration expenses for the fiscal year. When receivables are determined to be irrecoverable, they will be written off.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost comprises direct materials and where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Inventory value is determined according to the weighted average method. Net realisable value represents the estimated selling price less all estimated costs to completion and costs to be incurred in marketing, selling and distribution.

Provision for inventory devaluation is made according to current accounting regulations. Accordingly, the company is allowed to make a provision for inventory devaluation when the cost of inventory is higher than its net realizable value at the end of the fiscal year.

Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less accumulated depreciation.

The costs of purchased tangible fixed assets comprise their purchase prices and any directly attributable costs of bringing the assets to their working conditions and locations for their intended use. The costs of tangible fixed assets formed from construction investment by contractual mode or self-construction or self-generating process are the settled costs of the invested construction projects in accordance with the prevailing State's regulations on investment and construction management, directly-related expenses and registration fee (if any). In the event the construction project has been completed and put into use but the settled costs thereof have not been approved, the cost of tangible fixed assets is recognised at the estimated cost based on the actual cost incurred. The estimated cost will be adjusted according to the settled costs approved by competent authorities.

Tangible fixed assets are depreciated using the straight-line method over their estimated useful lives as follows:

	<u>Years</u>
Buildings and structures	05 - 50
Machinery, equipment	05 - 20
Vehicles, transportation equipment	05 - 30
Office equipment and furniture	05 - 10

dated 22 December 2014 of the Ministry of Finance

NOTES TO THE FINANCIAL STATEMENTS (CONTINUTED)

These notes are an integral part of and should be read in conjunction with the accompanying financial statement

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Tangible fixed assets and depreciation (Continued)

Tangible fixed assets are revalued in accordance with the State's decisions or when state-owned enterprises are equitised. The cost and accumulated depreciation of tangible fixed assets are adjusted based on the revaluation value approved by competent authorities as regulated.

Loss or gain resulting from sales and disposals of tangible fixed assets is the difference between profit from sales or disposals of assets and their residual values and is recognised in the income statement.

Intangible assets and amortisation

The Company's intangible fixed assets are management software, trademarks. Intangible fixed assets represent the value of land use rights and are presented at cost less accumulated depreciation. Intangible fixed assets are allocated using the straight-line method with an estimated amortization period of 05 years.

Construction in progress

Properties in the course of construction for production, rental and administrative purposes or for other purposes are carried at cost. The cost includes any costs that are necessary to form the asset including construction cost, equipment cost, other directly attributable costs in accordance with the Company's accounting policy. Such costs will be included in the estimated costs of the fixed assets (if settled costs have not been approved) when they are put into use.

According to the State's regulations on investment and construction management, the settled costs of completed construction projects are subject to approval by appropriate level of competent authorities. The final costs of these completed construction projects may vary depending on the final approval by competent authorities.

Prepayments

Prepaid expenses include actual expenses that have been incurred but are related to the results of production and business activities of many accounting periods. Prepaid expenses include the value of tools, instruments, small components issued for use, other repair costs and are considered to have the potential to bring future economic benefits to the Company. These costs are capitalized in the form of prepayments and allocated to the Income Statement, using the straight-line method in accordance with current accounting regulations.

Revenue recognition

Revenue from the sale of goods is recognised when all five (5) following conditions are satisfied:

- (a) The Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- (b) The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- (c) The amount of revenue can be measured reliably; When the contract stipulates that the buyer is entitled to return the products or goods, purchased under specific conditions, revenue is recognized only when those specific conditions no longer exist and the buyer is not entitled to pay return products and goods (except for cases where customers have the right to return goods in the form of exchange for other goods or services);
- (d) The Company has obtained or will receive economic benefits from the sale transaction; and
- (e) The costs incurred or to be incurred in respect of the transaction can be measured reliably.

M.S.O.

THANH HOA WATER SUPPLY JOINT STOCK COMPANY

FORM B 09 - DN

No. 99 Mat Son Street, Dong Ve Ward Thanh Hoa City, Thanh Hoa Province Issued under Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance

NOTES TO THE FINANCIAL STATEMENTS (CONTINUTED)

These notes are an integral part of and should be read in conjunction with the accompanying financial statement

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue recognition (Continued)

Revenue of a transaction involving the rendering of services is recognised when the outcome of such transactions can be measured reliably. Where a transaction involving the rendering of services is attributable to several periods, revenue is recognised in each period by reference to the percentage of completion of the transaction at the balance sheet date of that period. The outcome of a transaction can be measured reliably when all four (4) following conditions are satisfied:

- (a) The amount of revenue can be measured reliably; When the contract stipulates that the buyer is entitled to return the products or goods, purchased under specific conditions, revenue is recognized only when those specific conditions no longer exist and the buyer is not entitled to pay return products and goods;
- (b) It is probable that the economic benefits associated with the transaction will flow to the Company;
- (c) The percentage of completion of the transaction at the balance sheet date can be measured reliably; and
- (d) The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Revenue from construction contracts is recognised in accordance with the Company's accounting policy on construction contracts.

Construction contracts

Revenue and expenses of construction contracts are recognized as follows:

When contract performance can be estimated reliably:

- For construction contracts that stipulate that the contractor is paid according to the planned schedule, revenue and costs related to the contract are recognized in proportion to the work completed by the Corporation/Enterprise self-determined at the end of the financial year.
- For construction contracts where the contractor is paid according to the value of the volume performed, the revenue and costs related to the contract are recognized in proportion to the completed work confirmed by the customer and is reflected on the invoice issued.

Increases and decreases in construction and installation volume, compensation and other revenues are recognized as revenue only when it has been agreed with the customer.

When the outcome of a construction contract cannot be reliably estimated, then:

- Revenue is recognized only to the extent of contract costs incurred, for which it is probable that will be made.
- Contract costs are recognized as expenses only when incurred.

The difference between the total accumulated revenue of the recognized construction contract and the accumulated amount recorded in the payment invoice according to the planned progress of the contract is recognized as a receivable or payable according to the planned progress. of construction contracts.

Borrowing costs

Borrowing costs include interest on loans and other costs directly related to the borrowings.

Borrowing costs are recognized as expenses when incurred. In cases where borrowing costs are directly related to the construction investment or production of assets under construction that require a sufficiently long period (over 12 months) to be ready for use as intended or to be sold, these borrowing costs are capitalized. For loans specifically for the construction of fixed assets or investment properties, interest expenses are capitalized even when the construction period is less than 12 months. Any income arising from the temporary investment of loan funds is deducted from the carrying amount of the related assets.

FORM B 09 - DN

No. 99 Mat Son Street, Dong Ve Ward Thanh Hoa City, Thanh Hoa Province Issued under Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance

NOTES TO THE FINANCIAL STATEMENTS (CONTINUTED)

These notes are an integral part of and should be read in conjunction with the accompanying financial statement

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Borrowing costs (Continued)

For general loans that are used for construction investment purposes or production of unfinished assets, the capitalized borrowing costs are determined according to the capitalization rate for the average cumulative cost arising for investment in capital construction or production of that asset. The capitalization rate is calculated according to the weighted average interest rate of outstanding loans during the year, except for loans serving the purpose of creating a specific asset.

Tax

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years (including loss carried forward, if any) and it further excludes items that are never taxable or deductible.

From 2024, the company determines that it meets the types, criteria, scale, and standards of facilities implementing socialization in the environmental sector according to Decision No. 1466/QĐ-TTg and Decision No. 693/QĐ-TTg of the Prime Minister. Accordingly, the income of the company from implementing the socialization of clean water supply activities will be subject to a preferential tax rate of 10%.

Deferred tax is recognised on significant differences between carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit and are accounted for using balance sheet liability method. Deferred income tax liabilities must be recognized for all temporary differences, while deferred income tax assets can only be recognized when it is certain that there will be sufficient taxable profit in the future to offset the temporary differences.

Deferred tax is calculated at the tax rates that are expected to apply in the year when the liability is settled or the asset realised. Deferred income tax is recognized in the income statement and is only recorded in equity when the tax relates to items directly recognized in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

The determination of the tax currently payable is based on the current interpretation of tax regulations. However, these regulations are subject to periodic variation and their ultimate determination depends on the results of the tax authorities' examinations.

Other taxes are paid in accordance with the prevailing tax laws in Vietnam.

Basic/diluted earnings per share

Basic earnings per share are calculated by dividing the after-tax profit or loss allocated to shareholders owning the Company's common shares (after adjusting for appropriations for bonus and welfare funds) by the amount weighted average number of common shares outstanding during the year.

Diluted earnings per share are calculated by dividing the after-tax profit (or loss) allocated to shareholders owning the Company's common shares (after adjusting for dividends on preferred shares with convertible rights) exchange for the weighted average number of common shares outstanding during the year and the weighted average number of common shares that would be issued in the event that all potential common shares are issued. All declines are converted into common shares.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUTED)

These notes are an integral part of and should be read in conjunction with the accompanying financial statement

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Related parties

Enterprises and individuals that directly, or indirectly through one or more intermediaries, control or are controlled by, or under common control with, the Company, including holding companies, subsidiaries and fellow subsidiaries are related parties of the Company. Associates and individuals owning, directly or indirectly, an interest in the voting power of the Company that gives them significant influence over the enterprises, key management personnel, including directors and officers of the Company and close members of the family of these individuals and companies associated with these individuals also constitute related parties.

In considering each possible related party relationship, attention is directed to the substance of the relationship, and not merely the legal form.

16. BUSINESS AND GEOGRAPHICAL SEGMENTS

Division by geographical segment

A geographic segment is a distinguishable component of a Company that is engaged in producing or providing products or services within a particular economic environment in which it operates. risks and economic benefits are different from those of business segments in other economic environments.

The company's headquarters is located at No. 99 Mat Son Street, Dong Ve Ward, Thanh Hoa City, Thanh Hoa Province. The factories and units under the Company are all located in Thanh Hoa province. Therefore, the Company does not present segment reports by geographical area.

Department by business segment

For management purposes, the Company's organizational structure is divided into three operating departments: clean water production and supply department; construction, consulting and other departments. The company prepares segment reports according to these three business segments.

The main activities of the above three business divisions are as follows:

- Clean water production and supply department: Production and supply of clean water in Thanh Hoa province
- Construction and consulting department: Construction works according to construction contracts.
- Other departments: The environmental protection fee is retained

No. 99 Mat Son Street, Dong Ve Ward Thanh Hoa City, Thanh Hoa Province

calculate basic earnings per share		
Basic/Diluted earnings per share (**)	1,601	1,225

- (*) According to the provisions of Circular 200/2014/TT-BTC, the bonus and welfare fund deducted from profit after tax should be excluded from profit after tax when estimating basic earnings per share. Therefore, basic earnings per share for the fiscal year ending December 31, 2024 is calculated excluding the 2024 bonus and welfare fund. The Company temporarily deducts the 2024 bonus and welfare fund at the rate of 15% (stipulated in the Company's Charter) profit after tax in 2024.
- (**) Diluted earnings per share: The Company has no potential ordinary shares that could have a dilutive effect on earnings per share during the financial year and up to the date of these financial statements. Therefore, diluted earnings per share is equal to basic earnings per share.
