# MESSAGE FROM THE CHAIRMAN OF THE BOARD OF DIRECTORS

Dear valued customers and shareholders,

The year 2024 continues to be a challenging and difficult year for Hai Duong Pump Manufacturing Joint Stock Company (HAPUMA). Not only has the business market experienced unpredictable fluctuations, but natural disasters such as storms and floods have also caused property damage, adversely affecting the company's production conditions. Nevertheless, HAPUMA has maintained a steady growth trajectory and operational efficiency, achieving a profit before tax increase of 32.6% over the planned target.

We sincerely thank our valued customers for their trust in HAPUMA's products and services. We also extend our deep gratitude to our shareholders for their support and commitment to the company.

In 2025, the global and domestic economic situation is forecasted to present a mix of opportunities and challenges. This will also mark the 65th anniversary of HAPUMA's founding. HAPUMA

will focus its efforts on maintaining its leading position in the field of pump manufacturing and hydraulic equipment supply. At the same time, we will seek to attract resources for investment in expanding and enhancing technology, thereby improving the company's production capacity and laying a solid foundation for sustainable development in the years to come.

Driven by unity, resilience, and the strength and intelligence of our workforce, HAPUMA is confident in its ability to maintain stability and achieve sustainable growth while continually earning the trust and support of our shareholders and customers.

Yours sincerely,

Nguyen Trong Tieu CHAIRMAN OF THE BOARD OF DIRECTORS

### **GOVERNANCE MODEL**

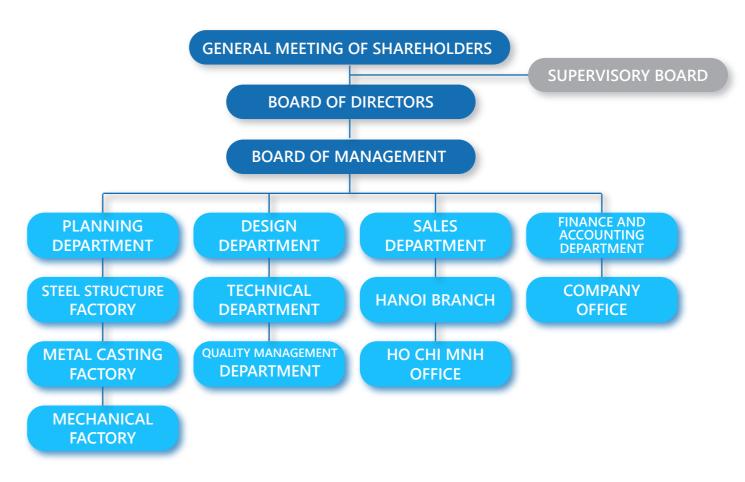

HAPUMA applies the governance model of a joint-stock company, in which:

- The General Meeting of Shareholders is the highest governing body. The General Meeting of Shareholders decides the development strategy of HAPUMA, appoints and dismisses members of the Board of Directors and the Supervisory Board.
- The Board of Directors (BOD) is the highest management body with full authority to decide matters related to the objectives and interests of HAPUMA, except for issues under the authority of the General Meeting of Shareholders. The BOD is elected by the General Meeting of Shareholders and consists of 5 members.
- The Supervisory Board represents the shareholders to oversee all business activities, governance, and operations of HAPUMA. The Supervisory Board is elected by the General Meeting of Shareholders and consists of three members.
- The Board of Management includes the CEO, Vice CEOs, Chief Accountant, Sales Director, and Southern Regional Sales Director. These positions are appointed and dismissed by the BOD. The CEO holds the highest authority in managing HAPUMA's daily business operations.
  - The company's legal representative is the CEO.

### MANAGEMENT STRUCTURE

- The Board of Management Structure in 2024 at HAPUMA consists of the CEO, two Vice CEOs responsible for technical and production areas, the Chief Accountant, Sales Director, and Southern Regional Sales Director.
- Beneath the Board of Management, there are seven departments, one branch, one representative office, and three production factories. In 2024, the company plans to establish three new production factories based on four existing workshops.

### SUBSIDIARIES, ASSOCIATED COMPANIES: None.

**GOVERNANCE** 

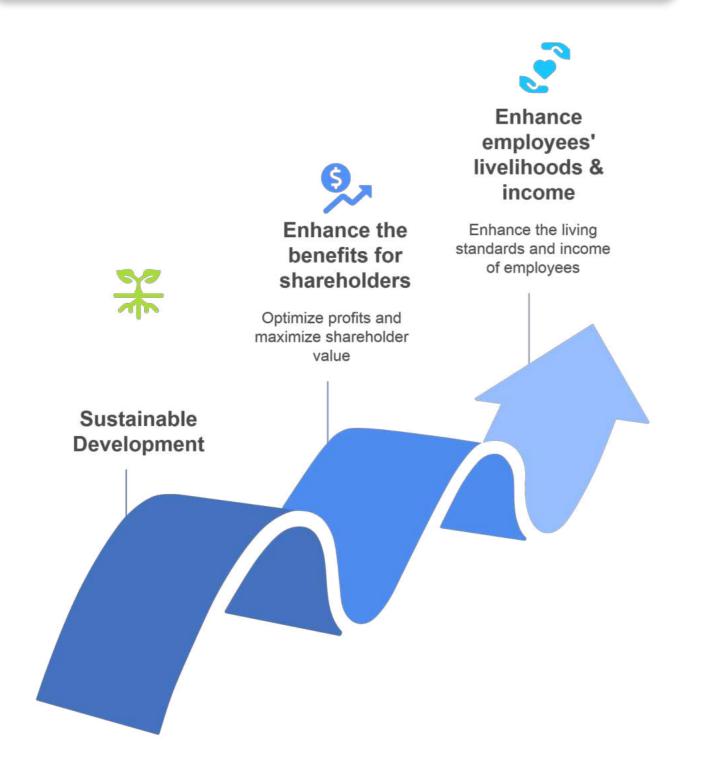

**MANAGEMENT** 

**STRUCTURE**

## DEVELOPMENT ORIENTATION

### **KEY OBJECTIVES**

### MEDIUM AND LONG-TERM DEVELOPMENT STRATEGY

### Technological Innovation and Product Quality Enhancement:

We are dedicated to advancing research and

integrating automation, artificial intelligence, and advanced materials to enhance product performance, durability, and environmental friendliness. Our goal is to ensure that our products exceed customer expectations with outstanding quality.

### Market Expansion:

We are focused on strengthen strategic partnerships, expand export activities, and gradually establish a strong presence in potential domestic and regional markets.

### **Human Resource Development:**

We prioritize training and developing our workforce, fostering a professional and innovative work environment that encourages creativity, drives continuous improvement, and maximizes individual potential.

### ENVIRONMENTAL, SOCIAL, COMMUNITY OBJECTIVES

### **Green Production Model:**

Implement a sustainable production model that optimizes energy use and minimizes environmental impact

### Creating a Green Workplace:

Foster a clean, eco-friendly workplace culture while creating a supportive environment for employees.

Actively support sustainability initiatives and contribute to community development efforts.

### **RISKS**

### **ECONOMIC RISKS**

2024, the Russia-Ukraine conflict shows no signs of de-escalating, and the global economic situation remains complex, impacting Vietnam in areas such as finance, exchange rates, and interest rates. This will have some effect on HAPUMA's business operations.

To manage risks, HAPUMA has proactively developed plans with appropriate response scenarios.

### **LEGAL RISKS**

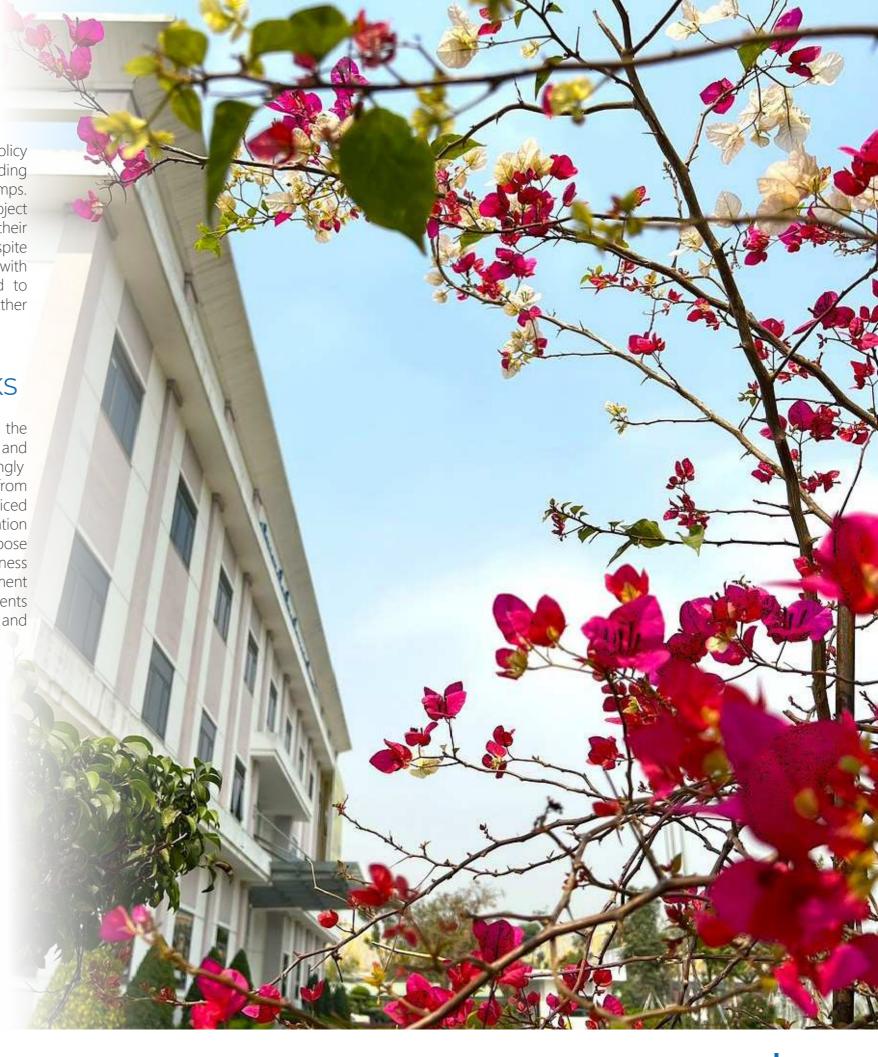

Vietnam's legal and regulatory framework is still evolving, with laws being updated and refined in stages. This ongoing development poses inherent risks for all economic entities.

To mitigate legal risks, HAPUMA continuously monitors and updates its compliance with relevant laws and regulations, ensuring that its operational strategies remain aligned with the latest legal requirements.

In 2024, the government continued its policy of reducing VAT on various goods, including HAPUMA's core products, such as pumps. However, certain related items within project scopes lack clear guidelines regarding their eligibility for VAT reduction. As a result, despite HAPUMA's diligent efforts to comply with regulations, the company remains exposed to legal risks concerning the application of either the 8% or 10% VAT rate.

### INDUSTRY-SPECIFIC RISKS

As Vietnam deepens its integration into the global economy, product standards and technical requirements are becoming increasingly stringent. At the same time, competition from well-established brands offering lower-priced alternatives-partly due to tax integration policies-is intensifying. These factors pose significant challenges to HAPUMA's business operations, necessitating continuous investment in product innovation and quality improvements to remain competitive in both domestic and export markets.

**OPERATIONS** IN 2024

# BUSINESS PRODUCTION & OPERATIONS SITUATION

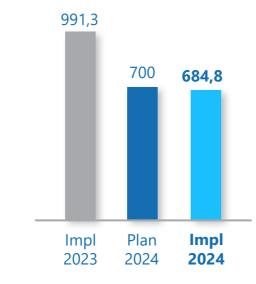

2024 has been a challenging year for HAPUMA. This year marks the final phase of the 2021-2025 medium-term public investment cycle, with fewer remaining projects and some progressing more slowly than anticipated. Although the company's leadership had foreseen market difficulties in 2024 and set a conservative revenue target, the actual situation has proven to be even more challenging than expected.

Notably, in 2024, both Hai Duong Province and HAPUMA were significantly impacted by storm No. 3 – Yagi. HAPUMA's factories suffered severe roof damage, and many modern machines and pieces of equipment were submerged in water. Production was disrupted for several days as the company focused on recovery efforts, further compounding difficulties.

As a result, the company was unable to meet the revenue targets set at the 2024 Annual General Meeting. Over the first 11 months of the year, HAPUMA recorded revenue of nearly 288 billion VND, representing only 41% of the target. In December 2024, the entire workforce made extraordinary efforts, working tirelessly - even through holidays - to reach an annual revenue of 684.8 billion VND. However, this still fell short at 97.8% of the planned revenue and amounted to only 69.1% of 2023's revenue.

A positive highlight in 2024

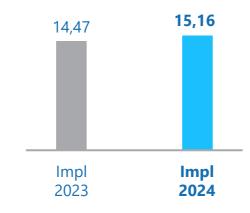

### NET REVENUE (Unit: Billion VND)

### PROFIT BEFORE TAX (Unit: Billion VND)

### AVERAGE INCOME (Unit: Million VND)

was the achievement of the pre-tax profit target. Against a planned target of 45 billion VND, HAPUMA achieved a pre-tax profit of 59.7 billion VND, exceeding expectations by 32.6%. However, due to the modest revenue performance, this figure was only 91% of the profit recorded in 2023.

### CHANGES IN THE BOARD OF MANAGEMENT

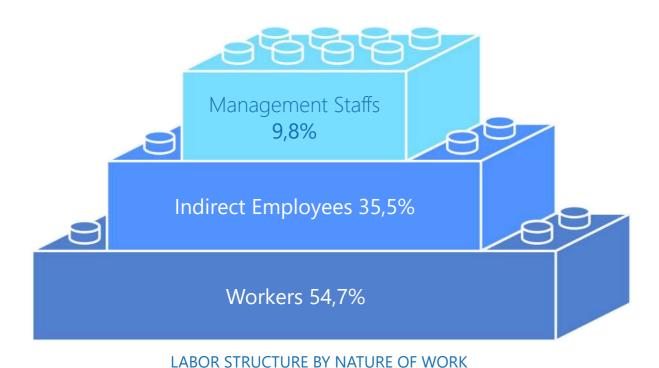

In 2024, there were two personnel changes within the Board of Management:

- From August 1, 2024, Mr. Truong Quang Hieu, Head of the Representative Office in Ho Chi Minh City, was appointed as the Southern Regional Sales Director and became a member of the Company's Board of Management.
- From November 1, 2024, Mr. Vu Kim Chung, Deputy General Director in charge of Business, retired.

### LABOR FORCE, POLICIES TOWARDS EMPLOYEES

### NUMBERS OF STAFFS

### POLICIES TOWARDS EMPLOYEES

The company implements a specialized vocational training and professional development program, prioritizing employees who demonstrate strong ethical standards and unwavering dedication.

A competitive salary and compensation policy is in place to ensure financial stability, motivate employees to contribute, and support them in mentoring the next generation.

The company is committed to maintaining a green, clean, and professional work environment, upholding the highest standards of occupational safety and hygiene, and providing all necessary protective equipment.

Employee welfare programs include regular health check-ups, financial and emotional support in cases of illness, bereavement, or first-time marriage, as well as organized vacations and annual holiday celebrations.

A structured reward system acknowledges and incentivizes individuals who make significant contributions to production and business operations on both a monthly and annual basis.

### **INVESTMENT ACTIVITIES**

### **MAJOR INVESTMENTS**

### INVESTMENT IN ENHANCING BUSINESS PRODUCTION CAPACITY

In 2024, HAPUMA allocated 61.8 billion VND to investments aimed at enhancing its production and business capabilities, including:

- 46.6 billion VND for expanding and upgrading factory buildings and infrastructure.
- 12.8 billion VND for transportation equipment, including hoists, various types of overhead cranes for production, and three automobiles for market operations.
- 2.4 billion VND for machinery and equipment, including a CNC wood pattern processing machine, an air compressor, and furnace equipment.

### FINANCIAL INVESTMENT

In 2024, HAPUMA did not make any significant financial investments. The company's investment holdings, classified as held-to-maturity on the balance sheet, primarily consisted of short-term bank deposits. These deposits allowed HAPUMA to earn interest by utilizing available funds before customer payments became due.

**REPORT & ASSESSMENTS** OF THE **BOARD OF MANAGEMENT** 

### ASSESSMENT OF OPERATING RESULTS

The year 2024 presented numerous challenges, some of which were anticipated but worsened by unforeseen circumstances. Among the most significant was the devastating impact of the historic Yagi storm, which caused substantial damage to HAPUMA. Despite achieving only 97.8% of the revenue target, the unwavering dedication of the entire workforce was evident. Their relentless efforts throughout the year led to a remarkable 32.6% increase in profit surpassing the original goal.

HAPUMA also marked major milestones in 2024 by successfully completing several key projects. The Xuan Quan project, featuring the largest submerged pump station, was a particularly notable achievement, further strengthening the company's reputation. Simultaneously, HAPUMA expanded its presence in the industrial pump market by securing major contracts. Notably, the company delivered vertical shaft two-inlet pumps for the Ap Bac pump station and signed an even larger contract for a clean water supply plant.

Despite challenging conditions, HAPUMA continued to invest in infrastructure, completing both the Mechanical Factory and Structural Factory at its headquarters-laying a strong foundation for future growth.

Reflecting on a year of challenges and achievements, HAPUMA has every reason to be proud. The company remains steadfast in its mission to produce high-quality pumps in service of the nation and has solidified its prestige and leadership in Vietnam's pump and hydraulic equipment manufacturing industry.

HAPUMA 2024 ANNUAL REPORT HAPUMA 2024 ANNUAL REPORT

### **FINANCIAL SITUATION**

### **ASSETS**

- The total asset value of HAPUMA in 2024 increased by 27.16% compared to 2023 (from VND 582,070,673,620 to VND 709,230,450,583). The increase was mainly due to a rise in current assets.
- Current assets increased primarily in the following categories: receivables from customers and inventory. The company is in the process of executing large-value projects that have not yet been completed and, therefore, not yet invoiced.
- Although the original cost of fixed assets in 2024 increased by VND 61 billion compared to 2023, the structure of current and non-current assets within total assets still showed a slight shift from long-term assets to short-term assets.

# IMPROVEMENTS IN ORGANIZATIONAL STRUCTURE, POLICIES & MANAGEMENT

# DEVELOPMENT PLANS IN FUTURE

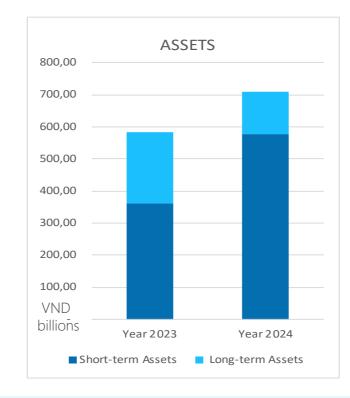

• HAPUMA does not have any bad assets that impact the operational results of production and business activities.

### LIABILITIES

- As of December 31, 2024, HAPUMA's total liabilities amounted to VND 404,945,339,255, of which short-term liabilities accounted for 95.5% and long-term liabilities accounted for 4.5% of total liabilities. Both short-term and long-term liabilities accounted for 4.5% of total liabilities. Both liabilities increased compared to 2023. The primary reasons for the increase are the rise in short-term advances from customers, short-term bank loans, and long-term provisions. In 2024, HAPUMA did not have any bad debts.
- In 2024, HAPUMA reorganized its production division, dissolving four old production workshop Structural, Casting, Mechanical, and Assembly Workshops and establishing three new factories: Steel Structure Factory, Metal Casting Factory, and Mechanical Factory. This transformation aimed to enhance product quality and meet higher production management standards.
- Enhancing HAPUMA's market responsiveness requires improvements in three key areas: people, equipment, and technology:

**People:** Strengthen professional competencies and work skills, with a particular focus on project management, documentation, and production management.

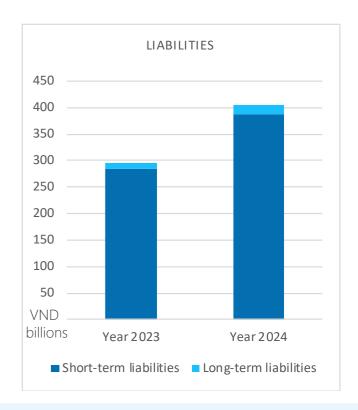

*Equipment:* Review and prioritize investments in essential equipment to meet the demands of high-potential market segments, such as thermal power and water supply.

- The Board of Directors maintained close collaboration with the Board of Management, continuously reviewing and refining internal management practices. By providing timely guidance and addressing operational challenges, they worked to improve efficiency in both business and production.
- Employee policies remained a priority, with

**Technology:** Evaluate and enhance HAPUMA's core technologies by adopting scientific and technological advancements, especially in material technology, large-scale component machining, and specialized precision mechanical processing.

 Strengthen market activities and customer engagement to achieve sales targets for newly signed contracts. Define target segments, organize marketing initiatives and industry seminars, and leverage market opportunities to

ongoing adjustments and enhancements to the salary payment plan for indirect staff.

• HAPUMA actively promoted young talent, appointing many young employees to key leadership roles, such as heads and deputy heads of various units. This initiative reflects the company's commitment to empowering the next generation of leaders in management and operations.

attract customers and secure contracts. Invest in high-potential market segments, including automated systems for pump stations and pump networks.

- Continue refining corporate governance egulations to improve efficiency.
- Expand the integration of information technology into production management to enhance operational effectiveness.
- Foster both domestic and international partnerships to strengthen HAPUMA's market position and enhance its competitiveness.

# ASSESSMENTS ON HAPUMA'S OPERATION

2024 was a challenging year for HAPUMA, as it marked the final year of the mid-term public investment phase for 2021-2025. Competition in the market became increasingly fierce. It was also the year when HAPUMA no longer had major projects carried over from the previous year. In September 2024, Typhoon No. 3 - Yagi, which swept through Hai Duong City, caused significant damage, requiring HAPUMA to dedicate considerable time, effort, and financial resources to recover from the aftermath.

However, in line with the general trend of the national industrial manufacturing sector, despite facing numerous challenges, by the end of 2024, HAPUMA maintained stability and achieved several positive results:

- Revenue nearly reached the target (2024 revenue was VND 684.7 billion, reaching 97.8% of the plan). Although not achieving 100% of the revenue target, this level of revenue demonstrates that the Company has maintained stable operations amidst a volatile market.
- Profit before tax exceeded the target by 32.6%, reaching VND 59.67 billion, a remarkable achievement resulting from flexible management and optimized cost control during difficult times.
- The average income of employees increased by 4.8% compared to 2023, reaching VND 15.16 million per person per month, which shows that the company continues to care for and improve the lives of its employees despite the many challenges faced.

In 2024, significant improvements in management and operations allowed the Company to maintain stability. The coordination between units within the Company became more synchronized, tight-knit, and efficient, providing a foundation for swift execution of production and business tasks, yielding optimal results. In 2024, HAPUMA earned strong customer trust not only through superior product and service quality but also due to its relentless efforts to ensure tight deadlines and meet all stringent customer requirements. This is a distinct competitive advantage for HAPUMA compared to other pump manufacturers, both domestic and international, operating in the

Vietnamese market.

Regarding investment and development activities, thanks to the resources saved in 2023, HAPUMA successfully completed the strategic investment goals set at the beginning of the year, with a total investment value of VND 61.8 billion. A highlight in 2024 was the completion of the construction of workshops and architectural structures with an investment cost of VND 46.6 billion, including two production workshops, as well as modern machinery, equipment, and transport vehicles. Additionally, the Company has clearly identified investment directions to develop new product lines and expand growth opportunities for the upcoming years.

2024 was also the first year that HAPUMA emphasized aligning business operations with risk management, aiming for sustainable development.

In conclusion, 2024 can be considered a year of overcoming difficulties for HAPUMA, with remarkable results that reflect the tireless efforts of both the leadership team and the workforce. The achievements reached will serve as a solid foundation for the Company to continue its sustainable development in the coming years.

### ASSESSMENTS ON BOARD OF MANAGEMENT'S PERFORMANCE

- The Board of Directors highly appreciates the efforts of the CEO in overcoming challenges to implement the production and business plan for 2024, as well as his close involvement in technical and production work and his efforts to improve internal management.
- The operations of the Board of Management have strictly adhered to the rights and responsibilities stipulated by law and the Company's Charter, complying with the resolutions of the General Meeting of Shareholders and the Board of Directors. Building HAPUMA has proven to be the right choice for investors, a trusted partner for customers, and a long-term workplace for employees. In 2024, the Board of Management underwent a personnel change and promptly assigned tasks to ensure no impact on the achievement of the common objectives.

# PLANS & ORIENTATIONS OF THE BOD

The Board of Directors has identified several operational directions for the Company in 2025, as follows:

- Focus on completing all production and business targets approved by the General Meeting of Shareholders.
  - Expand the scope of business production:
- o Complete the investment in the production capacity for industrial pumps, including synchronizing equipment technology, production technology, and product quality testing equipment; ensure sufficient financial resources to meet the investment plan.
- o Reorganize and supplement human resources in adequate quantity and with the appropriate expertise to expand the market share of industrial pumps.
- Continue implementing the relocation of the production site from the land at 37 Ho Chi Minh Avenue, Nguyen Trai Ward, Hai Duong

City, Hai Duong Province, to the headquarters at 2 Ngo Quyen Street, Cam Thuong Ward, Hai Duong City, Hai Duong Province, in alignment with the Hai Duong Provincial People's Committee's plan, ensuring safety for business operations and efficiency for the Company.

• Successfully organize the 65th Anniversary ofthe Company's establishment to further promote and enhance HAPUMA's image and reputation with both domestic and international customers.

Entering 2025, marking the 65th anniversary, with the efforts of the Board of Directors, Board of Management, and employees, along with the support and cooperation of our shareholders, the Board of Directors is confident that Hai Duong Pump Manufacturing JSC. will continue its unceasing efforts, not only maintaining its current position but also reaching further, achieving ambitious strategic goals in the future.

### POLICIES RELATED TO EMPLOYEES

### NUMBER AND AVERAGE INCOME OF EMPLOYEES

### LABOR POLICIES TO ENSURE THE HEALTH, SAFETY, AND WELFARE OF WORKERS

HAPUMA places great emphasis on creating an optimal, friendly, and equitable working environment for its employees. The company's labor policies are consistently aimed at enhancing the quality of life and safeguarding the rights of each individual, thereby ensuring that employees can confidently contribute and remain committed to the company for the long term.

### Labor Policy to Ensure the Safety

The company places great importance on and strictly implements labor safety policies to protect the health and safety of employees during their work. Below are some key highlights of these policies:

- Regulations on Occupational Safety and Protection: The company enforces strict regulations regarding occupational safety and protection, requiring employees to wear full protective gear before entering work areas. All necessary protective equipment is provided and ensured to meet quality standards. Employees without proper protective gear will not be allowed to enter work areas. On a monthly basis, the Occupational Safety Board conducts safety and hygiene evaluations at various units. These reports serve as the basis for the Management Board to reward individuals or units performing well or penalize those violating labor safety regulations.
- **5S Practices**: The company consistently maintains the 5S practices in all work areas, ensuring that the work environment is always clean, orderly, and well-organized. This not only enhances work efficiency but also contributes to protecting the health of employees by preventing harmful factors arising from disorganized working environments.
- **No-Smoking Policy:** To ensure a healthy working environment and protect the health of employees, while minimizing harmful effects from cigarette smoke, the company has registered as a smoke-free organization.

### Labor Policy to Ensure Welfare of Workers

In addition to ensuring optimal working conditions for its employees, HAPUMA places great emphasis on and consistently strives to mplement welfare labor policies that support and care for its workforce. These policies not only foster a harmonious and sustainable working environment but also reflect a deep commitment to the mental and physical well-being of every employee. The company's notable welfare policies include:

- Rewards and Recognition: The company has a well-established reward system for recognizing outstanding individual performance, with monthly and annual awards. Each month, HAPUMA presents the "Good Person, Good Deed" award to promptly acknowledge the contributions of employees. Moreover, during major holidays, the company rewards individuals and teams who have made exceptional contributions with various awards, including outstanding collective and individual achievements, as well as exemplary and exceptional individual honors. These reward policies not only motivate employees but also inspire them to strive for greater dedication and contribution.
- Vacation and Recreation: The company consistently organizes sightseeing and vacation activities to boost morale and strengthen team cohesion. In 2024, HAPUMA has allocated funds for each department to independently organize vacation trips, offering employees a chance to unwind and recharge after demanding work periods.
- Visitation and Support: The company places significant value on the emotional well-being of its employees. In the event of illness, HAPUMA provides timely support and encouragement. In particular, the company demonstrates its heartfelt care during significant personal events in employees' lives. On International Women's Day (March 8) and Vietnamese Women's Day (October 20), the company hosts an "Ao Dai Festival" to celebrate and honor the women of HAPUMA. Additionally, on July 27th and December 22nd, the company holds ceremonies to recognize and pay tribute to the families of artyrs and former soldiers working within the company, expressing profound gratitude for their sacrifices and contributions.

Overall, HAPUMA's welfare policies not only deliver tangible benefits to its employees but also play a key role in fostering a strong, united workforce. The company's leadership is committed to continually refining and enhancing these policies to better support its employees in the future.

ON OF

ALE:

International Auditing and Valuation Company Limited has been appointed to audit the financial statements of the Company for the year ended 31 December 2024.

### DISCLOSURE OF THE BOARD OF MANAGEMENT'S RESPONSIBILITIES FOR THE FINANCIAL STATEMENTS

The Board of Management of the Company is responsible for preparing the financial statements, which give a true and fair view of the financial position of the Company as at 31 December 2024, and its financial performance and its cash flows for the year then ended in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting. In preparing these financial statements, the Board of Management is required to:

- · Select suitable accounting policies and then apply them consistently;
- · Make judgments and estimates that are reasonable and prudent;
- State whether applicable accounting principles have been followed, subject to any material departures disclosed and explained in the financial statements;
- Prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business; and
- Design and implement an effective internal control system for the purpose of properly preparing and
  presenting the financial statements so as to minimize errors and frauds.

The Board of Management of the Company is responsible for ensuring that proper accounting records are kept, which disclose, with reasonable accuracy at any time, the financial position of the Company and that the financial statements comply with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting. The Board of Management is also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of frauds and other irregularities.

The Board of Management confirms that the Company has complied with the above requirements in preparing these financial statements.

### COMMITMENT TO INFORMATION DISCLOSURE

The Board of Management commits that the Company complies with Decree 155/2020/ND-CP dated 31 December 2020 elaborating some articles of the Law on Securities and the Company does not violate the obligation to disclose information as prescribed in Circular No. 96/2020/TT-BTC dated 16 November 2020 of the Ministry of Finance guiding some articles on disclosure of information on the securities market.

No: 25062/2024/BCTC/IAV

#### INDEPENDENT AUDITORS' REPORT

To: The shareholders

The Board of Directors, Board of Supervisors, and Board of Management of Haiduong Pump Manufacturing Joint Stock Company

We have audited the accompanying financial statements of Haiduong Pump Manufacturing Joint Stock Company (hereinafter called "the Company"), prepared on 10 March 2025, as set out from page 5 to page 40, which comprise the statement of financial position as at 31 December 2024, the statement of income, and statement of cash flows for the year then ended, and the notes to the financial statements.

### The Board of Management's Responsibility

The Board of Management of the Company is responsible for the preparation and fair presentation of these financial statements in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting and for such internal control as The Board of Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Management as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Auditors' Opinion**

In our opinion, the financial statements give a true and fair view, in all material respects, of the financial position of the Company as at 31 December 2024, and of the results of its operations and its cash flows for the year then ended in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting.

### NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2024

These notes are an integral part of and should be read in conjunction with the accompanying financial statements.

### . GENERAL INFORMATION

### 1.1. Structure of ownership

Haiduong Pump Manufacturing Joint Stock Company, formerly known as Haiduong Pump Manufacturing Company, was established and operates under Business Registration Certificate No. 111723 issued by the Department of Planning and Investment of Haiduong Province on January 16, 1998. The company was transformed into Haiduong Pump Manufacturing Joint Stock Company according to Decision No. 07/2004/QD-BCN of the Ministry of Industry (now the Ministry of Industry and Trade) dated January 12, 2004, and operates under the Enterprise Code No.0800287016, issued by the Department of Planning and Investment of Haiduong Province for the first time on March 24, 2004 and amended for 18th time on May 20, 2024.

Headquarters address: No. 02, Ngo Quyen Street, Cam Thuong Ward, Hai Duong City, Hai Duong Province.

The company's manufacturing location: No. 37, Ho Chi Minh Avenue, Nguyen Trai Ward, Hai Duong City, Hai Duong Province.

The charter capital of the Company is VND 136,800,000,000 (One hundred thirty-six billion, eight hundred million Vietnamese Dong), equivalent to 13,680,000 shares, with a par value of VND 10,000 per share..

The number of employees as at 31 December 2024 was 265 people (At 31/12/2023: 269 people).

The Company's shares were officially registered for trading at the Hanoi Securities Trading Center (now the Hanoi Stock Exchange) from October 10, 2006, with the stock code CTB.

### 1.2. Business area

The company operates in the main business sectors of manufacturing and trading.

### 1.3. Business activities

The main activities of the Company are:

- Design, manufacture, and trade of hydraulic equipment including pumps, compressors, valves, and various types of fans;
- Manufacturing of lifting and handling equipment;
- Casting, heat treatment, machining, repair, assembly, and installation of mechanical products and equipment:
- Production of metal components; forging, stamping, pressing, and rolling of metals; metal powder metallurgy; metal treatment and coating;
- Manufacturing and trading of electrical equipment for industrial, agricultural, and domestic use;
- Construction and installation of buildings, power lines, and substations up to 500 kV;
- Construction of civil, industrial, transportation, irrigation works, pumping stations, drainage, and wastewater treatment facilities.

Form B 09 - DN

### 1.4. Normal production and business cycle

The Company's normal production and business cycle is carried out for a time period of 12 months.

### 1.5. The Company's structure

The company has the following affiliated units:	Address	Main business activities
Representative Office in Ho Chi Minh City	85/2 Nguyen Huu Dat, Tay Thanh Ward, Tan Phu District, Ho Chi Minh City	Trading and market operations
Hanoi Branch	VP-2B, 3rd Floor, Tower B, Greenpearl Building, 378 Minh Khai, Hai Ba Trung District, Hanoi	Pump trading

### 1.6. Disclosure of information comparability in the financial statements

The data presented in the financial statements for the year ended 31 December, 2024 are comparable to the corresponding figures of the prior year...

### 2. ACCOUNTING CONVENTION AND ACCOUNTING PERIOD

### 2.1. Accounting convention

The accompanying financial statements, expressed in Vietnamese Dong (VND), are prepared under the historical cost convention and in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting.

The accompanying financial statements are not intended to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam.

### 2.2. Going concern assumption

There have been no events that cast significant doubt on its ability to continue as a going concern. The company neither intends nor is forced to cease operations, or significantly scale back its operations.

### 2.3. Financial year

The Company's financial year begins on 01 January and ends on 31 December.

This financial report is prepared for the fiscal year ending December 31, 2024.

11

# HAIDUONG PUMP MANUFACTURING JOINT STOCK COMPANY NOTES TO THE FINANCIAL STATEMENTS (Continued)

Form B 09 - DN

### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### 3.1. Estimates

The preparation of financial statements in conformity with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting requires The Board of Management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the financial year (reporting period). Although these accounting estimates are based on The Board of Management's best knowledge, actual results may differ from those estimates.

### 3.2. Transactions in foreign currencies

Transactions arising in currencies other than the Company's accounting currency (USD) are accounted for at the actual exchange rate on the date of the transaction according to the following principles:

- Operations giving rise to receivables are accounted for at the buying exchange rate of the commercial bank where the Company appoints customers to pay;
- Operations giving rise to payables are accounted for at the selling exchange rate of the commercial bank where the Company plans to transact; and
- For purchases of assets or expenses to be paid immediately in foreign currency (not using accounts payable): purchasing foreign exchange rate of commercial banks where the company makes the payment.

Foreign exchange rate used to reassess the balance of monetary assets and liabilities denominated in foreign currencies at the statement of financial position date are determined according to the following principles:

- For monetary items denominated in foreign currencies are classified as other assets: purchasing foreign exchange rate of the Bank company regularly traded; and
- For monetary items denominated in foreign currencies are classified as liabilities: selling foreign exchange rate of Bank company regularly traded.

All actual exchange rate differences arising during the year and differences due to reassessment of foreign currency balances at the end of the period are accounted for in the results of operations.

### 3.3. Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

### 3.4. Financial investments

### Held-to-maturity investments

Held-to-maturity investments comprise investments that the Company has the positive intent or ability to hold to maturity, including term deposits at bank with a maturities period exceeding three months.

Held-to-maturity investments are recognised on a trade date basis and are initially measured at acquisition price plus directly attributable transaction costs. Post-acquisition interest income from held-to-maturity investments is recognised in the statement of income on accrual basis. Pre-acquisition interest is deducted from the cost of such investments at the acquisition date.

Form B 09 - DN

TY

NG

Held-to-maturity investments are measured at cost less allowance for doubtful debts.

Allowance for doubtful debts relating to held-to-maturity investments is made in accordance with prevailing accounting regulations.

### 3.5. Receivables

Receivables represent the amounts recoverable from customers or other debtors and are stated at book value less allowance for doubtful debts.

Allowance for doubtful debts is made for receivables that are overdue for six months or more, or when the debtor is in dissolution, in bankruptcy, or is experiencing similar difficulties and so may be unable to repay the debt.

### 3.6. Inventories

Inventories are stated at the lower of cost and net realisable value. Cost comprises direct materials and where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition.

Cost is calculated using the weighted average method.

Net realisable value represents the estimated selling price less all estimated costs to completion and costs to be incurred in marketing, selling and distribution.

The evaluation of necessary allowance for inventory obsolescence follows current prevailing accounting regulations which allow provisions to be made for obsolete, damaged, or sub-standard inventories and for those which have costs higher than net realisable values as at the statement of financial position date.

### 3.7. Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation.

The costs of purchased tangible fixed assets comprise their purchase prices and any directly attributable costs of bringing the assets to their working condition and location for their intended use.

## HAIDUONG PUMP MANUFACTURING JOINT STOCK COMPANY NOTES TO THE FINANCIAL STATEMENTS (Continued)

Form B 09 - DN

### 3.8. Intangible assets

Intangible fixed assets are stated at cost less accumulated amortisation.

The cost of intangible fixed assets comprises all the expenses incurred to obtain this asset put into use. Costs incurred after the initial recognition are recognized to increase the cost of intangible fixed assets if these costs certainly increase economic benefits in the future due to using this asset.

When intangible fixed assets are sold or retired, their cost and accumulated amortisation are removed from the statement of financial position and any profit or loss resulting from its disposal is included in the income or expense in the year.

The Company's intangible fixed assets include:

### Land use rights

The land use right reflects all the actual expenses related to the used land such as expenses to obtain the land use right, expenses for house removal and land clearance, expenses on ground levelling, registration fees, etc.....

The company's land use rights are indefinite, so no depreciation is applied.

### Compensation and Site Clearance Costs

The compensation and site clearance costs related to the formation of the second-phase site are depreciated using the straight-line method over 16 years.

### Software Programs

Costs related to computer software programs that are not part of hardware-related assets are capitalized. The cost of computer software includes all expenses incurred by the Company up to the point the software is ready for use. Computer software is depreciated using the straight-line method over 2 to 5 years.

### Patent and trademarks

Costs of patent and trademarks acquired from the third parties include buying cost, non-refundable tax on purchase and registration fee. Patent and trademarks are amortized in line with the straight – line method in 3 years.

### 3.9. Construction in progress

Properties in the course of construction for production, rental or administrative purposes, or for other purposes, are carried at cost. Cost includes costs that are necessary to form the assets in accordance with the Company's accounting policy. Depreciation of these assets, on the same basis as other assets, commences when the assets are ready for their intended use.

HA

The calculation and allocation of long-term prepaid expenses into production and business costs for each accounting period are based on the nature and extent of each type of cost to choose an appropriate allocation method and criterion. Prepaid expenses are gradually allocated to production and business costs using the straight-line method.

### 3.11. Accounts payable and accrued expenses

Payables and accrued expenses are recognized as the amount of money to be paid in the future related to the goods and services received. Payable expenses are recognized based on a reasonable estimate of the payable.

Payables are classified as payable to suppliers, accrued expenses, and other payables according to the following principles:

- Payables to suppliers reflect the trade payables arising from commercial transactions between the Company and the seller, which is an independent entity of the Company, including the number of payables on imports through trustees.
- Accrued expenses reflect the payables for goods and services received from the seller or provided
  for the buyer, for which no invoices have yet been received from suppliers. Those payables also
  reflect the number of payables to employees on vacation wages, production, and business costs
  that must accrue. When these costs are actually incurred, if there is a difference compared to the
  accrued amount, the accountant shall record an additional expense or reduce the expense
  corresponding to the difference.
- Other payables reflect non-commercial receivables, not related to the purchase and sale transactions.

### 3.12. Borrowings and finance lease liabilities

Borrowings are tracked according to each object, each contract and the repayment term. In case of borrowings in foreign currency, detailed tracking is done in the original currency.

### 3.13. Borrowing costs

Borrowing costs are recognised in the statement of income in the year when incurred unless they are capitalised in accordance with Vietnamese Accounting Standard No. 16 "Borrowing costs". Accordingly, borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the cost of those assets. For specific borrowings for the purpose of construction of fixed assets and investment properties, borrowing costs are capitalised even when the construction period is under 12 months.

15

# HAIDUONG PUMP MANUFACTURING JOINT STOCK COMPANY NOTES TO THE FINANCIAL STATEMENTS (Continued)

Form B 09 - DN

### 3.14. Provision for payables

Provisions are recognized when the Company has a present obligation resulting from a past event, and it is probable that the Company will be required to settle this obligation. Provisions are determined based on the Board of Management' estimates of the necessary costs to settle this obligation at the end of the reporting period.

### Provision for warranty of product, goods

The company estimates the level of loss for warranty provisions on sold products and goods, and makes provisions for each type of product or goods with warranty commitments.

The warranty provision for products and goods is calculated as a percentage of the revenue from products and goods expected to incur losses. Any increase or decrease in the warranty provision that needs to be recognized at the end of the fiscal year is recorded as selling expenses.

### 3.15. Owner's equity

Capital is recorded according to the amount actually invested by shareholders...

### 3.16. Distribution of net profits

Profit after tax is distributed to shareholders after an appropriation of funds under the Charter of the Company as same as the law and is approved by the General Meeting of Shareholders.

The distribution of profits to shareholders is considered to non-cash items in undistributed profit may affect cash flow and ability to pay dividends as profit from revaluation of assets contributed as capital, interest due to the revaluation of monetary items, the financial instruments and other non-cash items.

Dividends are recognized as liabilities when approved by the General Meeting of Shareholders and the notice of the dividend entitlement date from the Viet Nam Securities Depository and Clearing Corporation.

### 3.17. Revenue and earnings

### Revenue from sales of finished goods and merchandise goods

Revenue from sales of finished goods and merchandise goods is recorded when simultaneously satisfy the following conditions:

- The Company has transferred to the buyer the significant risks and rewards of ownership of the goods.
- The Company retains neither continuing managerial involvement to the degree usually associated with; ownership nor effective control over the goods sold.
- . The amount of revenue can be measured reliably.
- · It is probable that the economic benefits associated with the transaction will flow to the Company.
- . The costs incurred or to be incurred in respect of the transaction can be measured reliably.

### Revenue from service rendered

Revenue of a transaction involving the rendering of services is recognised when the outcome of such transactions can be measured reliably. Where a transaction involving the rendering of services is attributable to several periods, revenue is recognised in each period by reference to the percentage of completion of the transaction at the statement of financial position date of that period. The outcome of a transaction can be measured reliably when all following conditions are satisfied:

orm B 09 - D

I DU

Form B 09 - DN

) B

ON

- . The amount of revenue can be measured reliably.
- It is probable that the economic benefits associated with the transaction will flow to the Company.
- The percentage of completion of the transaction at the statement of financial position date can be measured reliably;
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

### Financial income

### Interest

Interest is recognized on an accrual basis, are determined on the balance of cash in bank and the actual interest rate for each period.

### 3.18. Cost of goods sold and service rendered

Cost of goods sold includes the cost of products, goods and service rendered during the year and is recorded in accordance with revenue during the year. The cost of direct raw materials consumed in excess of normal levels, labor costs, and fixed general production costs that are not allocated to the value of warehoused products must be immediately calculated into the cost of goods sold (after minus compensation, if any) even when the products and goods have not been determined to be consumed.

### 3.19. Selling expenses

Selling expenses reflect the actual expenses in the process of sales of goods and services rendered. Mainly includes sales staff salaries, sales promotion expenses, product introduction expenses, advertising expenses and sales commissions.

### 3.20. General and administration expenses

General and administration expenses reflect actual expenses incurred during the general management of the Company, mainly including expenses for labour of management department salaries; social insurance, health insurance, trade union fees, unemployment insurance for labour; office equipment expenses; depreciation and amortisation; provision expenses; outside services and other expenses.

### 3.21. Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the statement of income because it excludes items of income or expense that are taxable or deductible in other years (including loss carried forward, if any) and it further excludes items that are never taxable or deductible.

Deferred tax is recognised on significant differences between carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using statement of financial position liability method. Deferred tax liabilities are generally recognised for all temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which deductible temporary differences can be utilised.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realised. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

17

# HAIDUONG PUMP MANUFACTURING JOINT STOCK COMPANY NOTES TO THE FINANCIAL STATEMENTS (Continued)

Form B 09 - DN

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same tax authority and the Company intends to settle its current tax assets and liabilities on a net basis. The determination of the tax currently payable is based on the current interpretation of tax regulations. However, these regulations are subject to periodic variation and their ultimate determination depends on the results of the tax authorities' examinations.

Other taxes are paid in accordance with the prevailing tax laws in Vietnam.

### 3.22. Related parties

The parties are considered to be related if that party has the ability to control or significantly influence the other party in making decisions on financial policies and operations. Parties are considered a related party of the Company in case that party is able to control the company or to cause material effects on the financial decisions.

In considering the relationship of the parties involved, the nature of the relationship is more emphasized than the legal form of the relationship.
