Report on Explanation Submitted to Hanoi Stock Exchange Regarding
Lower Parent Company Business Results in 2024 Compared to 2023:

The profit for 2024 reached VND 112.62 billion, which is VND 32.56
billion lower than in 2023. In 2024, the low water inflow into the reservoir
resulted in lower electricity generation compared to 2023, leading to a decrease
in revenue and profit. As a result, the profit for 2024 was lower than that of
2023.

Sincerely thank you!
