SAIGON-BACLIEU BEER JOINT STOCK COMPANY

No.: M /2025/SGBL

(Re: Explanation of the profit difference for Q1/2025 compared to Q1/2024 and the after-tax profit loss in the reporting period)

SOCIALIST REPUBLIC OF VIETNAM Independence – Freedom – Happiness

Bac Lieu, 9 April 2025

Respectfully to: HANOI STOCK EXCHANGE

Saigon-Baclieu Beer Joint Stock Company, ticker symbol SBL, would like to provide an explanation regarding the change of 10% or more in the after-tax profit for Q1/2025 compared to Q1/2024 and the after-tax profit loss in the reporting period, as follows:

- 1. The after-tax profit in Q1/2025 decreased compared to the same period last year, mainly due to the decrease in production and delivery output.
- 2. The after-tax profit loss in Q1/2025, mainly due to low production and delivery output as well as high price of key raw materials.

Sincerely,

Recipients:

- As mentioned above:

- Archived at Department of Finance and Accounting.

SAIGON - BACLIEU BEER JOINT STOCK COMPANY

Form B 09-DN

Address: Lot B5, Tra Kha Industrial Zone, Ward 8, Bac Lieu City,

Bac Lieu Province Tax code: 1900333973 (Issued under Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

NOTES TO THE FINANCIAL STATEMENT

Quarter 1 of year 2025

1. General information

a) Ownership structure

Saigon-Baclieu Beer Joint Stock Company is incorporated as a joint stock company in Vietnam, with enterprise registration certification number 6003000028, issued on 22 December 2006 and with 9th amendment on 23 December 2024 by the Department of Planning and Investment of Bac Lieu Province.

Head office: Lot B5, Tra Kha Industrial Zone, Ward 8, Bac Lieu City, Bac Lieu Province.

b) Principal activities

The principal activities of the Company are to produce and trade beer, alcohol and beverages; to produce and trade alcohol – liquor products; and to provide warehousing and inter-provincial cargo transportation services.

c) Normal operating cycle

The normal operating cycle of the Company is generally within 12 months.

2. Basis of preparation

a) Accounting period

The accounting period of the Company is from 1 January to 31 December.

b) Accounting currency

The Company's accounting currency is Vietnam Dong ("VND").

c) Statement of compliance with Accounting Standards and Accounting Regime

These financial statements have been prepared in accordance with Vietnamese Accounting Standards. The Company have been adopted the Vietnamese Accounting Regime issued under Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance and the relevant statutory requirements applicable to financial statement preparation and presentation.

3. Significant accounting policies

The following significant accounting policies have been adopted by the Company in the preparation of these financial statements.

a) Foreign currency transactions

Transactions in currencies other than VND during the period have been translated into VND at rates of exchange ruling at the transaction dates.

Monetary assets and liabilities denominated in currencies other than VND are translated into VND at the account transfer buying rate and account transfer selling rate, respectively, at the end of the annual accounting period quoted by the commercial bank where the Company most frequently conducts transactions.

All foreign exchange differences are recorded in the statement of income.

b) Cash and cash equivalents

Cash comprises cash balances and call deposits. Cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

c) Accounts receivable

Trade and other receivables are stated at cost less allowance for doubtful debts.

d) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on a weighted average basis and includes all costs incurred in bringing the inventories to their present location and condition. Cost in the case of finished goods and work in progress includes raw materials, direct labour and attributable manufacturing overheads. Net realisable value is the estimated selling price of inventory items, less the estimated costs of completion and estimated costs to sell.

The Company applies the perpetual method of accounting for inventories.

e) Tangible fixed assets

Cost

Tangible fixed assets are stated at cost less accumulated depreciation. The initial cost of a tangible fixed asset comprises its purchase price, including import duties, non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition for its intended use. Expenditure incurred after tangible fixed assets have been put into operation, such as repair and maintenance and overhaul costs, is charged to the statement of income in the period in which the costs are incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of tangible fixed assets beyond their originally assessed standard of performance, the expenditure is capitalised as an additional cost of tangible fixed assets.

Depreciation

Depreciation is computed on a straight-line basis over the estimated useful lives of tangible fixed assets. The estimated useful lives are as follows:

| • | buildings and structures | 5-50 years |
|---|--------------------------|------------|
| • | machinery and equipment | 3-20 years |
| • | motor vehicles | 10 years |
| | office equipment | 3-8 years |

f) Intangible fixed assets

Software

Cost of acquiring new software, which is not an integral part of the related hardware, is capitalised and treated as an intangible asset. Software cost is amortised on a straight-line basis over 8 years.

g) Construction in progress

Construction in progress represents the costs of tangible and intangible fixed assets which have not been fully completed or installed. No depreciation is provided for construction in progress during the period of construction and installation.

h) Long-term prepaid expenses

Maintenance expenses

Maintenance expenses include maintenance expenses for machineries which incurred periodically but not qualified for recognition of fixed assets under prevailing regulation. Maintenance expenses are stated at cost and amortised on straight-line basis over 2 to 3 years.

Tools and instruments

Tools and instruments include assets held for use by the Company in the normal course of business whose costs of individual items are less than VND30 million and therefore not qualified for recognition as fixed assets under prevailing regulation. Costs of tools and instruments are amortised on a straight-line basis over 2 to 3 years.

i) Trade and other payables

Trade and other payables are stated at their cost.

j) Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

k) Share capital

Ordinary shares

Ordinary shares are stated at par value. Excess of cash received from shares issue over par value is recorded as share preminum. Incremental costs directly attributable to the issue of shares, net of tax effects, are recognised as a deduction from share premium.

1) Taxation

Income tax on the profit or loss for the period comprises current and deferred tax. Income tax is recognised in the statement of income except to the extent that it relates to items recognised directly to equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the period, using tax rates enacted at the end of the annual accounting period, and any adjustment to tax payable in respect of previous periods.

Deferred tax is provided using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities using the tax rates enacted or substantively enacted at the end of the accounting period.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

m) Revenue and other income

Goods sold

Revenue from sales of goods is recognised in the statement of income when significant risks and rewards of ownership have been transferred to the buyer. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due or possible return of goods. Revenue on sales of goods is recognised at the net amount after deducting sales discounts stated on the invoice.

Services rendered

Revenue from services rendered is recognised in the statement of income in proportion to the stage of completion of the transaction at the balance sheet date. The stage of completion is assessed by reference to surveys of work performed. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due.

Interest income

Interest income is recognised in the statement of income on a time proportion basis with reference to the principal outstanding and the applicable interest rate.

n) Borrowing costs

Borrowing costs are recognised as an expense in the period in which they are incurred, except where the borrowing costs relate to borrowings in respect of the construction of qualifying assets, in which case the borrowing costs incurred during the period of construction are capitalised as part of the cost of the assets concerned.
