Pursuant to the provisions of Section 4, Article 14 of Circular 96/2020/TT-BTC dated November 16, 2020 of the Ministry of Finance, Ton Dong A Corporation hereby would like to explain the reason for the difference in profit after corporate income tax in audited separate income statement the year 2024 changing by 10% or more compared to the report of the same period last year.

In 2024, after-tax profit was VND 284.8 billion, up VND 33 billion, equivalent to an increase of 13.1% compared to 2023.

Reason: demand for steel output in the domestic and export markets increased compared to the same period last year, leading to a 31.7% increase in gross profit, and a 14.8% increase in financial revenue compared to the same period last year, leading to a after-tax profit in 2024 to increase compared to 2023.

Thank you very much.
Best regards!
