PETROLIMEX

*Re: Explaining the difference of
more than 10% on PAT from the
year-ago period*

Dear: - State Securities Commission of Vietnam
 - Hanoi Stock Exchange

Based on business results in the first quarter of 2025, Petrolimex Saigon Transportation and Service Joint Stock Company (PSC) records profit after tax: 2.553.784.396 VND, a difference of more than 10% on PAT from the year-ago period due to:

- Total transportation and petroleum output increase compared to the same period in 2024, specifically as follows:

+ The transportation output is 106% compared to the same period in 2024;

+ The petroleum output is 101% compared to the same period in 2024, of which petroleum retail output is 107% compared to the same period.

- During the year, the Company's cost management was carried out effectively, aiming at cost optimization to ensure that profits increase from business activities.

Above figures are the reasons making the difference on net profit comparing to the same period the year, more than 10%.
