Vietcombank (HCMC branch)

Office: VBB Tower, 06 Cong Truong Me Linh, District 1, HCMC, Vietnam

Chapter II.**REGULATIONS ON OBJECTIVES, POLICIES AND RESTRICTIONS OF INVESTMENT****Article 8. Investment objectives**

The objective of DCVFMVN DIAMOND ETF is to replicate the performance of Benchmark Index.

Article 9. Investment strategies**1. Investment strategies:**

DCVFMVN DIAMOND ETF implements a passive investing strategy to carry out its preset investment objectives. When the underlying securities of Benchmark Index changes, DCVFMVN DIAMOND ETF shall adjust the Fund's portfolio to make it consistent with the Benchmark Index in terms of structure and weighting of assets. The Fund shall seek for obtaining a result which is similar to the Benchmark Index and shall not implement the defence strategy when the market is going down and shall not take its profits when the market is pricing too high. The passive investing is aimed to reduce the costs and make closer replication of Benchmark Index by keeping the Fund's turnover ratio lower than the turnover ratio of active fund.

2. Sectors or industries expected to be invested:

3. Other reports
The Fund Management Company must abide by applicable legal regulations on regimes of reporting and disclosing information in respect of business operations of the Fund.

Chapter XII.

METHODS OF DETERMINING THE NET ASSET VALUE OF THE INVESTMENT FUND

Article 51. Determination of net asset values of the Fund

1. The Fund Management Company must formulate the valuation manual consisting of following contents: principle, process in detail of carrying out the valuation method appropriate with legal regulations, the Fund Charter and international rules; this must be clear for its application under various market conditions.
2. The valuation manual must be approved by the Board of Representatives and provide to the Supervisory Bank to check NAV.
3. The Fund Management Company shall be liable for, on daily basis, to determine the net asset value of the Fund, net asset value on a Creation Unit, net asset value on a unit of fund certificates under following principle:
 - a) The net asset value of the Fund shall be determined by total asset value minus total liabilities of the fund. Total asset value of the fund shall be determined in accordance with the market value or appropriate value of the asset (in case of not being able to determine the market

value). Total liabilities of the fund are total liabilities and payment obligations of the fund until the nearest day prior to the valuation day. Methods of determining the market value, appropriate value of the assets in the list, value of the liabilities and payment methods shall be done in accordance with the principles as set forth under Article 52 of the Fund Charter and internal regulations of the Valuation Handbook;

- b) The net asset value on a unit of fund certificates is equal to the Fund's net asset value divided for the total of fund certificates on circulation which is taken rounded down with two (2) decimals. Net asset value on a Creation Unit is equal to the Fund's net asset value divided for the total of Creation Units which is rounded up to a digit. Net asset value is rounded up in accordance with regulation of the fund accounting. The discrepancy arises from the rounding up of net asset value shall be balanced to the Fund.
 - c) After determining the net asset value of the fund, the net asset value per Creation Unit, the net asset value on a unit of fund certificates, the Fund Management Company must notify the results to enable the Supervisory Bank to certify. The value certification must be made in writing, or the access via the electronic information system of the supervisory bank is approved by the fund management company. Within 24 hours after detecting that the net asset value is mispriced, the custodian bank must notify and request the fund management company to make timely adjustments or vice versa in the case of the supply custodian bank. Service level determining net asset value. Within the limit of time as regulated from the date of detecting that the net asset value is mispriced, the fund management company or the custodian bank (in the case the custodian bank provides asset valuation services net assets) must correct and disclose information in accordance with regulations, and notify the State Securities Commission of the wrong valuation, including the cause of the incident, time of incorrect valuation, legal handling. The content of the notice must be signed for certification by the fund management company and the supervising bank. After confirming by the Custodian Bank, the above net asset values must be disclosed in accordance with the regulations on information disclosure on the stock market. The announcement of net asset value to investors is made on the next business day of the valuation date for the daily valuation period.
 - d) The fund management company is authorized for the custodian bank to determine the net asset value of the fund, net asset value per block of fund certificates, and net asset value per fund certificate. In this case, the fund management company and the custodian bank must have a mechanism and process for comparing, reviewing, checking, and monitoring to ensure that the determination of net asset value is accurate and consistent Fund Charter, Valuation Handbook and legal regulations.
 - e) Promptly after the Supervisory Bank certifies, the net asset value as mentioned above should be announced on the website of DCVFM, Stock Exchange, distribution agents, and the Authorized Participants in accordance with the regulation about information disclosing on stock market. The disclosure of the net asset value to investors shall be done promptly during the trading date or at least not later than the next trading date.
4. The Fund Management Company or a service provider that calculates the reference net asset value authorized by the fund management company shall be liable for determining the indicative net asset value per fund certificate (INAV) on basis of the market value of the component securities from the latest trading. The indicative net asset value on a unit of fund certificates shall be the reference value only without being the price to determine the trading price. The indicative net asset value shall be updated at least fifteen second (15s) once and shall be announced on the website of the Fund Management Company or on the system of the Stock Exchange.
 5. The Fund Management Company shall ensure that the error shall be determined in accordance with following formula:

The error in tracking the benchmark index (tracking error) of the current week (t) shall be determined in accordance with following formula:

$$TE_t = \sqrt{n} \sqrt{\frac{1}{n-1} \sum_{i=-n}^{-1} (R_i - R)^2}$$

Of which: R_i is the difference between the fluctuations in the net asset value of the fund (NAV/CU) and the fluctuations of the Benchmark Index from the i th week and prior to such week, including the current week (t), defined as below:

$$R_i = \ln \left[\frac{(NAV/CU)_t}{(NAV/CU)_{i-1}} \right] - \ln \left[\frac{Benchmark Index_t}{Benchmark Index_{i-1}} \right]$$

$$R = \frac{1}{n} \sum_{i=-n}^{-1} R_i$$

With $n = 26$

If the operational term of the fund shall not be up to six (06) months, n is the number of weeks, from the week of receiving the effective certificate of business registration of the fund.

- In case the Fund pays cash dividend or dividends by fund certificates which the ex-dividend date is within the period from after (i-1)-th week to the i -th week, NAV/CU of the preceding week ((i-1)-th week) will be adjusted corresponding to the calculation R_i reflects accurately the volatility of net asset value per 1 lot of funds against the volatility of the benchmark index. Specifically, R_i will be adjusted as follows:

- In case the Fund pays cash dividend with ratio $k\%$:

$$R_i = \ln \left[\frac{(NAV/CU)_t}{(NAV/CU)_{i-1} \cdot (k\% \times 10.000 \times 100.000)} \right] - \ln \left[\frac{Benchmark Index_t}{Benchmark Index_{i-1}} \right]$$

- In case the Fund pays dividend by fund certificates with ratio $k\%$:

$$R_i = \ln \left[\frac{(NAV/CU)_t \times (1+k\%)}{(NAV/CU)_{i-1}} \right] - \ln \left[\frac{Benchmark Index_t}{Benchmark Index_{i-1}} \right]$$

- In case that the Tracking error - TE shall exceed 80% of the maximum error as prescribed by the Stock Exchange, DCVFM shall be liable for reporting to SSC, HSX and disclosing the information in accordance with the regulation. Within 3 months from the date the excess deviation arises, DCVFM shall be liable for amending fund's portfolio to ensure the TE not exceeds 80% of the maximum error.

Article 52. Methods of determining the net asset value of the fund

1. Valuation day

The valuation date is a business day (for the daily valuation purpose), every Friday (for the weekly valuation purpose), and the first calendar day of the following month (for monthly valuation purpose). In the event that the valuation date falls on a public holiday, or compensatory day-off as decided by the competent state authority, and on that day the Stock Exchange does not open for trading, the valuation date will be the immediate following business day. However, the valuation date for monthly valuation purpose will always be the first day of the following month. In case of any change in the valuation date, the Fund Management Company will seek the opinion of the Fund Representative Board and disclose the information on the Company's website.

In case the fund management company changes the period for determining the net asset value of the fund, the fund management company must seek approval from the Board of Representatives before doing so.

2. Principles and methods of determining the net asset value

a) The Fund Management Company: The Fund Management Company ensure.

- (i) The asset value shall be valued exactly and appropriately with legal regulations and the Fund Charter;
- (ii) The valuation must be accurate, on time and cover all investment trading;
- (iii) The valuation items (inclusive of stocks, cash and other investment portfolios) must comply with the Fund Charter, Prospectus and Valuation Handbook approved by the Board of Representatives.
- (iv) Dividends, stocks options and bonus stocks must be balanced to the assets of the fund in accordance with applicable laws and regulations;
- (v) Expenses, profits and dividends must be accounted in compliance with accrual basis up to the day prior to the valuation date
- (vi) Taxes, charges, prices of service, and fees should need considering and changing timely in accordance with current regulations;
- (vii) To set up reasonably allowable fluctuation levels to changes of the key factors as valuating;
- (viii) The comparison of documents on the assets of the Fund with the Supervisory Bank should be periodically made at least once every week.

b) The Supervisory Bank

- (i) The Supervisory Bank must regularly check and supervise to ensure that the Fund Management Company has its principles, processes and methods of determining and the system of supervising the determination of the securities prices or the net asset value of the fund that shall have made in accordance with legal regulations and the Fund Charter. The regular checking and supervision must be maintained to the third party authorized by fund management company to perform this operation;
- (ii) Reviewing the principles, processes and methods of the valuation and the supervision system of the valuation must be done promptly after the supervision contracts signed with the Fund Management Company come into effect;
- (iii) The reviewing must be done more regularly as the Supervisory Bank is aware of or suspicious of the principles, processes and methods of the valuation and the supervision system of the valuation of the Fund Management Company not satisfying the requirements.

c) Methods of determining the net asset value

- (i) The net asset value (NAV) is total value of the assets by DCVFMVN DIAMOND ETF subtracts total liabilities of the fundon
- (ii) Total liabilities of the Fund are liabilities or payment obligations of the Fund until the nearest day prior to the valuation date. The total asset value of the fund is determined according to the market price or fair value of the assets (in the case of the unidentifiable market price or the market price having unusual fluctuations as prescribed in the Dinh Manual price and approved in writing by the Fund Representative Board).
- (iii) The Custodian Bank will monitor the determination of the net asset price (including total assets and total liabilities) of the Fund and will also inspect and ensure the net

asset value per unit of certificates. Fund is the correctness, accuracy and compliance with the provisions of the law, as stipulated in the Fund Charter.

The net asset value of the fund (NAV) = total assets of the fund – total liabilities of the fund

- (iv) The net asset value per Creation Unit shall be the net asset value of the fund divided to total outstanding fund certificates and this shall be two (02) decimal numbers.
- (v) The net asset value per Creation Unit shall be the net asset value of the fund dividing the total of the outstanding Creation Units and this shall be rounded up to the unit's column.

d) The net asset value shall be determined in accordance with following methods

No.	Asset type	Methods of valuating transactions on market
Cash and equivalents, money market instruments
